DOWNER
KEROSENE OIL CO,
Office, No. 103 Water Street, Boston.

TO CONSUMERS OF OIL.
CAUTION.

It having come to our knowledge that many dealers, throughout New England, are in the habit of buying small quantities of our Oil, and larger quantities of inferior oils, and using our brand and packages fraudulently in the sale of these inferior oils, we are determined to stop such frauds, and hereby offer a **Reward of 100 Dollars** for information that will lead to the detection and punishment of any party using our name or brand in the sale of any other than our own Oil. The **"Downer Kerosene Oil"** has been frequently tested and analyzed by Dr. A. A. HAYES, State Assayer, and in a communication to us, dated July 5, 1867, he says: "The term 'Kerosene' as used by the **Downer Oil Company**, applies to the highest grade of Oil only, which, after trials show, does not inflame below 120 degrees Fahrenheit, and carries the assurance of both safety and excellence with it; while the mixed Oils are not only unsafe, but in causing accidents, destroy confidence in the safe and excellent article for affording light produced by the honest manufacturer."

"Coming from the Navy Yard,"

A beautiful scene on the Piscataqua, represented in a colored picture by T. BUFFUM, now open at the Music Store of Mr. Joy. Fifty applications have been made for this picture, but the author being a great lover of his profession, it remains there for the present for its peculiar associations. He intends, however, at the suggestion of individuals of Boston and at home, to have a large and splendid fac-simile Lithographic Engraving of this picture, when subscriptions will warrant the large expense. There are represented sixty or seventy swift row-boats, filled with men of stalwart arms returning home at high water, beneath a July evening sky, from their labors upon the great naval ships, which may justly be termed the "Bulwark of our Country;"—the Vandalia sloop, riding in beauty on the tide, will "Beacon," and a part of the beautiful Navy Yard. Every workman and son of Portsmouth, at home or abroad, can have this life-stirring picture to hang in his house or store to perpetuate the noble scene — The engraving shall give satisfaction to all subscribers or no pay will be required. All who desire to participate in this picture enprise will please enter the names as early as convenient, in a paper now at the Music Store of Mr. Joy—Price only two dollars and fifty cents per copy, delivered. 50

GLEASON HALL.
PRESENTATION FESTIVAL.
The Fourth and Last Grand Concert
Of the Gleason Hall Presentation Festival, under the auspices of DORING'S BAND,
Will positively take place on
Thursday Evening, October 10, 1867,
AT GLEASON HALL, WEST TROY, N. Y.

The first, second and third Concerts of the series took place (as per former advertisements,) on July 25th, Aug 8th and 29th, and gave unlimited satisfaction, the Hall being filled to overflowing on each of the above evenings with a refined and appreciative audience from all parts of the State. There was a committee of three reliable and well known gentlemen selected by the audience on the night of the first Concert to superintend the drawing, which will positively take place on the evening of the above Concert. The Committee are most desirous that all ticket holders should be present to witness the drawing, and thereby relieve themselves of any doubt as to the fairness of the transaction. They also assure those who cannot attend that they will be present, that their interests will be guarded the same as if they were present. The tickets, which have been limited to 75,000, at

ONE DOLLAR EACH,

can be procured by addressing John H. Casey, Box 69, West Troy, N. Y., or any of the following named gentlemen. Each ticket will be a present awarded the holder of every ticket.—Among the presents to be awarded are the following:

Two Bedroom sets, - - - -	200
One Grover & Baker Sewing Machine, plated,	85
One Wheeler & Wilson Sewing Machine, -	70

And Thousands of Other Presents,
Consisting of
Marble Top Centre Tables, Mirrors, Clocks, Stoves, Chandeliers, Statuary, Engravings, Vases, Glassware, Silver Pitchers, Sets Knives and Forks, Silver Spoons, Dressing Cases, Port Monnaies, Scarfs, Tab'es, Bedsteads, Chairs, Mattresses, and other articles too numerous to enumerate.

The above property will be delivered to the person entitled to it free from all incumbrance and a title guaranteed.

The property may be seen at any time by calling on the owner, John H. Casey, Metropolitan Hotel, West Troy, N. Y.

We, the undersigned, having been appointed an Executive Committee by Mr. Casey, do hereby certify that all moneys received for the sale of Tickets will be paid over by him into our hands, and he retained until the distribution takes place. That we will audit and pay all bills and expenses that shall be countersigned by Mr. Casey or some one authorized by him, and discharge, from the moneys so received, all mortgages upon the property. THOMAS RATH.

The undersigned Citizens would most cordially recommend the gentleman engaged in getting up these Concerts as one in whom the public can confide, and believe he will conduct the presentation with honesty and fairness, and try to give satisfaction to the public.

Hon. Oscar F. Potter, Member of Assembly, Albany Co.; George Mark, Supt. West Troy Factory Co.; H. D. Lasher, Co. Clerk; E. Wickbeck, Att'y and Coun. at Law; A. J. Rousseau; Dr. J. F. Wibecks; Hon. Thos. Kearney, Ex-Co. Treas.; Alderman Henry Fitchett, N. Y.; C. H. R.; Thomas Rath; T. W. Jackson, Att'y and Coun. at Law; R. S. Lobdell, Supt. West Troy G. L. Co.; P. A. VALUABLE SERVICES.—The Old Colony Statesman says that in the trial of the claim of Charles Burrill upon the City of Boston, for $800,000, for services in recruiting soldiers for the Boston quota, "it came out that some $5000 had been paid to Simon P. Hanscom, and that Burrill had given his individual bond to pay him $52,000 more when his suit is won of that city." It reminds one of the story of the pigeon-hunter. "My father," said the boy, "killed nine hundred and ninety-nine pigeons at one shot." "Why don't you say a thousand?" asked a bystander. "Because my father wouldn't tell a lie for a single pidgeon."

A LAKE OF BOILING WATER.—The Montana Post of August 24, says that Dr. James Danlevy, while exploring the headwaters of the Yellowstone, discovered a salt-water lake covering about forty acres. The water is always at the boiling temperature; meat thrown in was boiled in less than forty minutes. The water contains a large percentage of tincal, the crude material from which borax is manufactured.

☞ Speaking of a bridge constructed over the Kenduskeag river, on the line of the European and North American R. R., the Bangor correspondent of the Portland Star says, "The contractors found it more profitable to send to Florida and purchase lumber, carry it to New Hampshire and constrct a bridge there, then transport it by rail to Bangor, than purchase the lumber at Bangor and build on the site. This is worse than carrying coals to New Castle."

— The Jefferson (Texas) Jimplecute, of August 27, hears that, in Davis county in that State, recently, a difficulty between two families, named Brown and Clemmens, culminated in a fight, in which three of the Browns were killed.

— A gentleman who has travelled all over the United States, most of Europe and part of Asia, never was in a sailboat in his life, never played a game of chance of any kind, and has only one approach to a mania, and that is the collection of ancient books and historical autographs.

— Following close upon Garibaldi's declaration at the Geneva Peace Conference, that it was his unalterable purpose to move on Rome, comes the intelligence that dispatches have been received at Paris announcing that the General will immediately depart for the Roman frontier.

— The Lord Lieutenant of Ireland has recently made a speech, in which he admits that half a million acres of land have gone out of cultivation since 1860, but his Lordship finds consolation in the fact that during the first six months of the present year only *forty-eight thousand* of the people have emigrated.

— The Nashville Press remarks:—"A most noticeable feature in commercial matters here is the large shipments of corn to the North. The sending of corn to Louisville and Cincinnati is something almost beyond the memory of the oldest inhabitant.—The cause is simply that a better price, by some twenty cents, is paid in Cincinnati than in Nashville."

— The great curiosity of New Marlboro Massachusetts, is the "tipping rock," which is as large as a load of hay, and weighs about fifty tons, but is so nicely balanced that it can be moved by the hand, and is even made to vibrate by the wind. It stands upon a round topped hill, with three points, and like a table on an unlevel floor, it can be tipped up till it touches a fourth projection.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of the U. S. Patent Office, Washington under the Act of 1837.
No. 78 State street, (opposite Kilby street,) Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, Bonds, and all papers or drawings for Patents, executed on reasonable terms, with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded in Washington.
No Agency in the United States possesses superior facilities for obtaining Patents, or ascertaining the patentability of inventions.
During eight months the subscriber, in the course of his large practice, made on *twice* rejected applications, BEFORE APPEALS; *every one* of which was decided *in his favor* by the Commissioner of Patents.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHAS. MASON,"
Commissioner of Patents.
"I have no hesitation in assuring inventors that they can not employ a man *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them as early and favorable consideration at the Patent Office.
EDMUND BURKE,"
Late Commissioner of Patents.
"Mr. R. H. EDDY has made for me THIRTEEN applications, in all but *ONE* of which patents have been granted, and that one *is now pending*. Such unmistakable proof of great talent and ability on his part, leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."

SOMETHING NEW!
SELEE'S HAIR LIFE
Has been thoroughly tested by thousands during the past year, and is declared superior to all other preparations for the hair. It has no equal for restoring Gray Hair to its original color in from TEN TO THIRTY DAYS.
It is a most splendid Hair Dressing, surpassing all others for making dry and brashy hair soft, glossy and beautiful, as in youth.
This Magical Preparation invariably stops the falling of the hair, and always promotes a lively, luxuriant growth.
Its use will at once free the head from Dandruff, Scurf and all Humors, especially Salt Rheum.
It KILLS HAIR EATERS, which are so fatal to the roots of the hair. It contains no nitrate of silver, which is found in most other Hair preparations, and is so injurious.
THE HAIR LIFE IS NOT A DYE, but operates on the *roots*, restoring them to their natural, healthy state.
It is the nicest, neatest, and most effectual thing in the market.
It never stains, and is perfectly harmless.

BREAD
MIXING and KNEADING MACHINES.
One of the Most DESIRABLE and VALUABLE Inventions of the Age.
For sale by
E. A. STEVENS,
46 Market Street, Portsmouth, N. H.
The attention of Housekeepers, Proprietors of Hotels and Restaurants, and Bakers of Bread and Pastry is invited to the advantages of the Bread Mixers and Kneaders.
The principal advantages, however, are:
The Great Saving of Labor.
Cleanliness.
Certainty of always having Good Bread, which even the most skilful often fail in making.
The merits and cheapness of the machine are enough to recommend it to general use and cause its introduction into every family.
It meets a want that has long been felt, and lightens a part of household labor that has always been most severe. While thousands of other labor-saving improvements are in use, bread is kneaded in the old laborious way in which it has been done for a thousand years, with great loss of time, strength and economy; for millions of dollars are annually lost by making bad and worthless bread. The machine will pay for itself in a short time by the saving of flour.
The Ladies are respectfully invited to call and see the machine at the store of the subscriber, 46 Market street, where we shall be glad to show them to any one, whether they propose to purchase or not. au 6 E. A. STEVENS.

THE ANDERSONVILLE PRISONERS.—A medical work now in course of publication in New York embodies some information on this still painful topic, which cannot be without interest. It appears that Dr. Joseph Jones of Augusta, Ga., was deputed by the Richmond authorities to go to Andersonville and examine into the condition of the Federal prisoners. His report in manuscript has been read by the author of the publication referred to above, who gives extracts from it. Dr. Jones, writing on the 19th of October, 1864, says there were at that time more than five thousand seriously sick in the hospital and stockade, and the deaths ranged from ninety to one hundred and thirty each day. Since the establishment of the prison, on the 24th of February, 1864, over ten thousand Federal prisoners had died: that is, near one-third of the entire number had perished in less than seven months. He states that he made a careful examination of the grounds, of the water, and of all the other features of the prison. In reference to the terrible effects of hospital gangrene, he says:

"More than *thirty thousand* were crowded upon *twenty-seven* acres of land, with little or no shelter from the intense heat of a Southern summer, or from the rain and dew, with coarse corn bread from which the husk had not been removed, with scant supplies of fresh meat and vegetables, with little or no attention to hygiene, with festering masses of filth at the very doors of their rude dens and huts, with the banks of the stream flowing through the stockade a filthy quagmire of human excrements alive with working maggots, generating by their own filthy exhalations and excretions an atmosphere that so deteriorated and contaminated their solids and fluids, that the slightest scratch of the surface, and even the bites of small insects, were frequently followed by such rapid and extensive gangrene as to destroy extremities, and even life itself."

After this statement of a rebel surgeon, says the Boston Journal, it will be in vain for the Richmond "government," so called, or their advocates or apologists, to seek to explain away their responsibility for the diabolical treatment of the Federal prisoners. That ineffaceable blot on the conduct of an unprovoked war will consign its perpetrators to the execration of posterity. It will be regarded, however, as consistant that conspirators in behalf of human bondage should treat their captives with a barbarity which belongs only to the age of slavery. The lesson, though repulsive and saddening, is yet too significant to be entirely forgotten by our countrymen.

☞ In New York, on Thursday, an affidavit of Gen. Butterfield in support of an application for a writ of habeas corpus disclosed the fact that one Captain Brown of the army is in prison for an alleged contempt of court, and that his cell is overrun with rats. Capt. Brown was severely wounded during the war. The writ was immediately issued. [We do not know any thing about this particular case; but if we may believe the newspapers of that city, New York contains some most contemptible and abominable judges, who know neither law nor Gospel, and who neither fear God nor regard man.]

TENNESSEE.—The Herald's Nashville, Tenn., dispatch says at Jackson, Madison county, Friday, a citizen named Hart was shot dead by the militia after having resigned his arms. The murder was most cold blooded. The militia are compelling citizens to give up their arms. Citizens are collecting and arming to drive off the militia. Regulars are being sent there. A general riot is expected.

[We shall have another side to this story, probably.]

☞ The Cincinnati Gazette says, at Hillsboro', Highland county, on the 8th inst., the Democrats held a meeting, Vallandigham being the principal speaker.—A correspondent says that one of the lesser oratorial lights read what purported to be a letter written by Abraham Lincoln in hell. His abolition principles, he confessed, had brought upon him the infliction of eternal torments, and he warned his friends to adjure his heresies that they might escape his fate. The reading of this effusion was received with great glee by the assembled Copperheads.

☞ The Commonwealth gives an account of a conversation, in Boston, with Hon. E. B. Washburne, the personal friend of Gen. Grant. He affirmed that the latter had a complete previous understanding with Stanton in regard to taking the War Office. He also represented Gen. Grant as thoroughly identified in principle with the Republican party, exceedingly anxious over the national situation, and sure to fulfill the expectations of the loyal masses.

☞ At New Orleans, Sept. 13, two officers and twenty of the crew of the United States iron-clad Mahaska had died of yellow fever. There were forty-three deaths in the city for the twenty-four hours ending at 6 o'clock Friday morning.

NEW HAMPSHIRE ITEMS.

—— The Peterboro' Cornet Band has secured the services of Prof. Singhi, of Boston, as leader, for two years, and he will take up his residence in that town.

—— The camp meetings in Epping and Lebanon were largely attended, and a portion of one day at each place was devoted to temperance addresses.

—— A small church edifice is to be built in North Conway in which to have public worship during the summer according to the forms of the Episcopal church.

—— Rev. F. D. Ayer was installed pastor of the North (Congregational) Church in Concord, Sept. 12. Sermon by Rev. Dr. Foster of Lowell, Mass. The same Council dismissed Rev. Dr. Boston, according to his request.

—— Mr. Amos Little of Atkinson, aged 72, was found dead in his field, Aug. 30, having gone out from his house apparently in ordinary health. He had attended and enjoyed all the meetings of the Rockingham Association on the two previous days. Mr. L. was a highly esteemed Christian citizen, neighbor and friend.

—— Aaron Lawrence, Esq, a member of the Legislature from Amherst the last two years, died at his residence in Amherst on the 8th inst., at 60 years of age. He was an active, enterprising business man as a merchant,—married the youngest of eight daughters of the late Hon. Clifton Claggett. For more than twenty years he has been afflicted with bleeding at the lungs, sometimes almost to suffocation; but in a few days after he would be sometimes found purchasing goods in Boston or New York. He was highly respected by all his acquaintances.

☞ Tennessee is represented as in a very unsettled condition. Gen. Carlin, Commissioner of the Freedmen's Bureau there, says that there have been more outrages upon freedmen in Tennessee, during the past month, than there were in the six months preceding the election. A Nashville dispatch says that the K. G. C. are organizing in White county, and the loyal people are very anxious to have the militia sent back. The apprehension of danger sobers every face.

☞ A great Border State Convention has been held at Baltimore this week.—Delegates were present from Delaware, Tennessee, Missouri, Kentucky, District of Columbia and Maryland. The object of the Convention is to advance the cause of manhood suffrage and demand of Congress the passage of the Sumner-Wilson bill.

☞ Women get married because they don't consider it respectable to be single; and men because they think a wife a good thing to have about the house, and, like furniture, to be both useful and ornamental.—*Ex.*

This, in some cases may be true; but it is too low as the general view of a very beautiful relation in life, which is at the foundation of all the others. And if there is any imputation more foolish than all others, it is the notion that women who happen to remain single are less respectable or less intelligent than those who happen to be married.

☞ Gen. Fitz John Porter is to have a new trial by a Court of Inquiry—for re-instatement and honorable discharge.

—The Washington correspondent of the New York Evening Post says: "I have authority for saying that Gen. Banks, while here, urged Gen. Grant to retain the War Office, even if the President attempted to remove him and appoint another to the place."

—The question of Sunday observance and the regulation of the liquor traffic are among the side issues that have troubled the Republicans of Wisconsin, being put forward chiefly by the German element. The State convention decided that the topics were outside of the party tenets, and not recognized in the platform.

—The Post Office Department has increased the compensation of letter-carriers in the cities. The increase takes effect on Oct. 1. Carriers who have been in the service one year are to receive $1000, those who have served six months $900, and all others $800. The object is to secure competent and faithful men.

—The negro waiters at the Greenbriar Springs, Va., recently insisted upon dancing with the white guests at the large hotel, and threatened that all the servants would leave if they were not allowed this social equality. The white ladies at the hotel volunteered their services as servants, and all the blacks were dismissed. The white women did the work admirably till a new lot of servants were obtained.

—The Washington correspondent of the Cincinnati Gazette says that the President stated to one of his friends last Friday, that he had telegraphed to Gen. McClellan to come and take possession of the War Department, and that Reverdy Johnson would shortly be Secretary of State. Upon being asked what he was going to do with Black, he replied that Black would be kept in reserve for use in case Stanbery failed to perform his duties properly.

WASHINGTON ITEMS. — The Spanish Government has peremptorily refused to sell Samana, and the Dominican Government has refused to sell one of its islands to the United States, thus ending the efforts to secure a naval station in the West Indies.

[Query—what has Spain to do with Samana?]

The Tribune's special says the President considers the 7th section of the Reconstruction act, prescribing October 1st as the last day of registration, as unconstitutional, and will raise an issue with Congress by ordering military commanders to reopen and extend registration.

[The President is not the BEST judge of the Constitution.]

The Times' special says it appears the officers of the Farmers' and Citizens' National Bank of Williamsburg owe that institution $300,000 for debts contracted in violation of the law. The Bank will be closed.

WASHINGTON ITEMS.—There is considerable indignation among Government officials that another oath of loyalty is to be made by Binckley, who refused to take the oath when a clerk in the land office.

The Tribune's special Washington dispatch gives a rumor that Gen. Grant will be immediately removed and Frank P. Blair, Jr., fill the office of Secretary of War until Gen. McClellan is heard from.—Attorney Gen. Stanberry has returned to Washington.

The Times' special Washington dispatch says Generals Sickles, Hancock and Sheridan will be in Washington next week.

Private letters state that Gen. Canby has determined to adopt the same line of policy as that pursued by Gen. Sickles.

Gen. McClellan will not return to this country for years. [Who knows that?]

CALIFORNIA ITEMS.—Clubs favorable to the election of Gen. Grant to the Presidency are being formed throughout the State.

The Democrats will have a majority of twenty on joint ballot in the next Legislature.

Eugene Casserly and S. P. Heg, both old Free Soil Democrats and opponents of secession, are talked of for United States Senators.

It is now known that the German voters were organized throughout the State to oppose Sabbath legislation, and voted the Democratic ticket by thousands for that purpose. Higby (Union) is certainly elected to Congress from the Middle District.—The two Democratic Congressmen elected are Axtel of San Francisco, who favored the war and supported Lincoln, and Johnson, a lawyer of Sierra Nevada County.

— The official interview at the War Department between Gens. Grant and Butler is represented as having been characterized by great courtesy on both sides.

—The Administration organ contradicts by authority of the President the story of the Boston Post, that orders will be issued reopening registration in the Southern States.

—It was rumored in Springfield on Wednesday evening, that the St. John crew had sold the race with the Wards to Hon. John Morrissey for $5000, who had bagged $60,000 by the transaction.

—Advices from Greece state that a third iron-clad has been purchased in England and is to be armed with five Armstrong guns, and that other warlike preparations are going on.

— A dispatch from Athens states that Great Britain and France have sent a joint note to Greece, urging the government at Athens to refrain from hostilities with the Sublime Porte, and maintain strict neutrality on the Cretan question.

—The absence of sunny weather during the past summer has produced a very marked effect upon fruit of all kinds. Nothing is well ripened, and probably all varieties of fruit will be found, when the season for gathering them comes round, to have suffered from wet weather of the summer.

MARTYRS TO CARELESSNESS.—If all the teeth that have been ruined by neglect could be strung together, they would reach thrice round the world. There may have been some excuse for this havoc in days gone by, when there was no absolute safeguard against dental decay in existence, but there is no apology for it now — FRAGRANT SOZODONT, the world-renowned antiseptic dentifrice, as certainly protects the teeth against decay, as oil prevents steel from rusting, or water arrests the progress of fire. 16

WOMAN'S FRIEND.—Not a dandy husband nor costly silks and jewelry, but Fyle's O K Soap, which facilitates the adornment of cleanliness, with a great saving of labor and expense. Try it. All first class grocers have it for sale.

VINUM BONUM SANGUINEM FACIT.—Speer's Sambucl Wine makes good blood and imparts new life and tone to the whole system. Excellent for kidney affections, and the best tonic for ladies, weakly persons and invalids. Sold by druggists.

FACT.—As a culinary preparation, Herrick Allen's Gold Medal Saleratus is INFALLIBLE. It has greater advantages over yeast fermentation, and will make twenty-five pounds more bread or biscuit from the same barrel of flour, and much better. It retains all the glutinous starch and sugar that is in the flour, and from two and a half pounds of flour will make three and a half pounds of bread or biscuit, while the same quantity by yeast fermentation will make only a trifle over three pounds, and require more than twice the quantity of shortening, besides being much more unhealthy. Try it, and be convinced. 41

— Whist players will hereafter be sent to Boston instead of to Roxbury.

A NEW GLEE BOOK.
THE GREETING.—A collection of Glees, Quartets, Choruses, Part-Songs, &c. By L. O. Emerson. Author of "The Jubilate," "Harp of Judah," "Golden Wreath," "Merry Chimes," &c. Upwards of half a million copies of Mr. Emerson's Music Books have been sold, a fact proving a popularity which has rewarded no other author of the same class of books, and which cannot but insure for this new volume an immense sale.—The contents of this work are, for the most part, NEW. A large number of valuable pieces have been contributed by L. H. Southard, whose name is a sufficient guarantee of their excellence. The marked features of the collection are Originality, Brilliancy and Variety; and it will be found, upon careful examination, that there is no Glee Book now before the public that in every particular will so completely satisfy the wants of Musical Societies and Conventions, Conservatories, Clubs and Amateur singers. Price $1.35. Mailed, post-paid. OLIVER DITSON & CO., Publishers, 277 Washington street, Boston.

BANKING HOUSE OF JAY COOKE & CO.

DR. SCHENCK, THE LUNG DOCTOR.
☞ The Proprietor of SCHENK'S PULMONIC SYRUP, the inventor of SCHENK'S RESPIOMETER, the only instrument that can to a certainty detect the slightest murmur of the respiratory organs.
This is of great importance to Dr. SCHENCK, to know the exact condition of the lungs, before he gives a powerful medicine, Pulmonary, Bronchial, Pleuritic, or Dyspeptic Consuption, and whether it is both lungs or only one that are diseased.
It requires close study and long practice to become familiar with every sound or rattling of a diseased bronchial tube. Patient come to Dr. SCHENCK's to get examined that have been examined by their family physician, who told them that their lungs were almost gone; when by a close examination with the Respiometer, it is often found that it is an affection of the bronchial tube, and by getting a healthy action of the liver and tone of the stomach, the sufferer is soon restored to health. Sometimes medicine that will stop a cough is certain death to the patient. It locks up the liver, stops the circulation of the blood—hemorrhage follows, and, in fact, stopping the action of the very organs that cause the cough.
Dr. Schenck will be professionally at his rooms every week, 32 Bond street, New York, and 35 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer the charge is $5. His medicines are for sale by all Druggists and dealers, also a good supply at all times at his rooms. Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 per half dozen. Mandrake Pills 25 cents per box.—GEO. C. GOODWIN & CO., 38 Hanover street, Agents for New England. TO OWNERS OF HORSES AND CATTLE—TOBIAS' DERBY CONDITION POWDERS are warranted superior to any others, or no pay, for the cure of Distemper, Worms, Bots, Coughs, Rheumatism, Colds, etc., in Horses and Colds, Coughs, Loss of Milk, Black Tongue, Horn Distemper, etc., in Cattle. They are perfectly safe and have the effect of stopping the working of your animals. They increase the appetite, give a fine coat, cleanse the stomach and urinary organs; and greatly increase the milk of cows. Try one and you will never be without them. Hiram Woodruff, the celebrated trainer of trotting horses, has used them for years, and recommends them to his friends. Col. Philo. P. Bush of the Jerome Race Course, Fordham, N. Y., would not use them until he saw sold of what they were composed, since which he is never without them. He has over twenty running horses in his charge, and for the last three years has used no other medicine for them. He has kindly permitted me to refer any one to him. Over 1000 other references can be seen at the depot. Sold by druggists and Saddlers. Price 25 cents per box.—Depot 55 Cortland street, N. Y. s8dwim

Local.

☞ The Machigonne and Eastern Star Encampments I. O. of O. F., from Portland, arrived in our city by the morning train from Concord on Saturday. They were accompanied by the Portland (Chandler's) Band, and were received by Strawberry Bank Encampment of this city, accompanied by the Portsmouth Cornet Band.

After a street parade and a visit to the Odd Fellows' Hall, the visitors sat down to a pleasant banquet in Congress Hall, got up by the Committee of Arrangements—Messrs. B. H. Parker, J. H. Gardiner, J. H. Glines, W. W. Cotton and A. Craig.

Speeches were made by B. M. Parker, Albert R. Hatch., True Osgood, Peter Sanborn and others;—all short and to the point. Among the volunteer toasts we give the following: From the Norway Plains Encampment No. 7, of Rochester:

Unexpectedly we came among you this morning, but we feel indebted to Chandler's Band for bringing us to a Strawberry Bank which blossoms and bears fruit all seasons of the year.

Mr. Hall of the Portland Star gave—
The "Rebeccas"—The true bulwarks of Odd Fellowship. God bless them—may their confidence never be shaken.

Among the guests were State Treasurer Sanborn, City Marshal Buntin of Concord, True Osgood D. G. M. and Chief Engineer of Concord Fire Department, Albert R. Hatch., representatives of the press, &c.

Elegant bouquets were presented by B. M. Parker, Esq., to the following gentlemen, with a very neat address to each recipient; Chief Marshal Rich, Chief Patriarch Small, J. N. Reed, G. C. P. of Grand Encampment of Maine, High Priest Hayes, Col. Sanborn of Pennacook Encampment, Past G. M. Cummings, P. C. P. Osgood, and James Freeman, "a truant son of Portsmouth."

The Encampment and their guests then moved down to Pier Wharf, where by the courtesy of Capt. Baker the steamer Pioneer was in waiting to take them to the Navy Yard. The party halted in front of Admiral Bailey's residence, and the Portland Band gave a serenade. The Admiral, attended by Admiral Rowan and lady, Capt. Temple, Com'dr Babcock and others, welcomed the company to the Yard. The leading visitors were introduced to Admiral Bailey by Chief Marshal J. H. Gardiner.—After a short inspection of the points of interest upon the Yard, and the entertainment of a portion of the party by officers of the Yard, the Encampments again took passage on the steamer, and on their arrival in town were escorted to the depot.

A. K. P. Deering made a fine display of banting upon his sail loft on Pier Wharf in honor of the occasion.

Much credit is due to the Committee of Arrangements for the manner in which they performed their duties; to Chief Marshal J. H. Gardiner and his assistant Thos. B. Gammon; to the Portland and Portsmouth Cornet Bands, for the excellent music with which they enlivened the march and interspersed the banquet; and to all concerned for the fraternal feeling exhibited throughout the day.

☞ Saturday was a lively day in Portsmouth; the circus, the Odd Fellows, and the regular market day combined, drawing a large number of strangers into the city.—Among the visitors were some whose presence could have been dispensed with just as well as not—the thieves and pickpockets who hover around such gatherings as the vultures over a field of carnage. Two of these gentry entered the store of John Rider & Son and succeeded in getting a pocket-book containing $700 from a desk, but being hotly pursued dropped the money. One of them, giving his name as John Lyons, of Manchester, was arrested and locked up for trial.

From the store of Chas. W. Gerrish a coat was stolen. Shortly after a man had the impudence to return with the same coat and requested Mr. Gerrish to lengthen the sleeves, as they were too short. Mr. G. claimed the coat, and though the stranger avowed having purchased it from a peddler, he left without the garment.

Mrs. Wm. Leach, while standing at the door of the M. P. Union Store, had her pocket picked of $25. The treasurer of the circus company gave information that a number of pickpockets were following the route of the show,—and doubtless other plundering cases occurred.

From the office of J. S. H. Frink, Esq., a check for $700 was stolen.

In the evening another of the light fingered gentry was arrested, it is said, with his hand in a lady's pocket.

☞ The Portsmouth Mechanic Association with their ladies, are to make an excursion to Portland over the P. S. & P. Railroad, on Thursday next, in a special train. Outsiders can procure tickets of B. M. Parker, Secretary, for $1 50.

☞ Mr. Pattee will give a grand Clam Bake at the Surf House on Tuesday, at 3 o'clock. The Union Cornet Band will be in attendance, and a display of fireworks will be made in the evening. If the weather is stormy, the festivities will be held the first fair day thereafter.

☞ Notwithstanding many of our shopkeepers say "they are not making anything," it is astonishing to see how many men are willing to work for landlords. Mr. Cheever has recently leased and fitted up for rent, a store near the head of Daniel street; and Dr. Gilbert, two more, farther down, one of which he occupies himself, as heretofore; while on Congress street, the Dewdrop Inn has been turned into a hotel store, which we hope may now subserve some more useful purpose.

☞ The well-located chambers over the store recently occupied by Mr. Wm. O. Head as a hat store, corner Market and Ladd streets, are being much improved—the three upper stories being changed to two, making two good halls—with entrance on Ladd street, which street has been generally much improved within a few years. We understand Mr. Head's stock of hats, caps, &c., was on Saturday removed from the premises under attachment by Sherefl Morse.

AN OLD MAN.—Mr. Jonathan Folsom, of Laconia, 90 years of age, is spending a few days in town, visiting his grandchildren, Mr. Gilman Folsom and Mrs. G. F. Bosher. He has been visiting friends in various places for several weeks and goes about with as much activity as a man of fifty. He can look down on four generations of descendants.—*Mirror.*

Mr. Folsom is brother of the late Nath'l Folsom of this city; and Mr. Bosher, who is now a thriving auction and commission merchant in Manchester, and has just returned from a foreign summer trip, will be remembered by many old schoolmates in this city.

☞ The Mechanic's Association will have an excursion to Portland on Thursday next, if the weather should be suitable, (if not, on the next day). All members will be entitled to two tickets, free of expense.

Any Mechanics wishing to become members of the Association, by leaving their application with the Secretary at the Reading Room, before Tuesday evening, they will then be laid before the Board, and on Wednesday will be acted upon by the Association.

☞ Rear Admiral Stephen C. Rowan, late in command at Norfolk Navy Yard, is now at this station. As soon as the Piscataqua is ready for sea he will hoist his flag and proceed to Hong Kong, to relieve Admiral Bell of command of Asiatic squadron.

☞ The Circus drew a large crowd into town Saturday; and with their band, and the Old Fellows with the Portland and Portsmouth bands, made our streets pretty lively for a while.

☞ A fine ship of about 850 tons, built for Capt. John Chase, was launched from the yard of Messrs. Tobey & Littlefield on Saturday afternoon.

☞ Stephen Scammon of Stratham has a cow whose yield of milk on Friday last, he informs us, was *fifty-eight pounds.*

☞ U. S. Steamer Tacony (third rate, side-wheel,) was to have left Pensacola Navy Yard on the 6th inst. for this station.

☞ Attention is called to advertisement of good investment.

— Friends at Washington of Hon. Jas. F. Wilson, Chairman of the House Judiciary Committee, state that he has written a letter in which he says that Congress must impeach Johnson at the next session.

THE
CENTRAL PACIFIC RAILROAD,
THE WESTERN HALF OF THE
GREAT NATIONAL TRUNK LINE
ACROSS THE CONTINENT,
being constructed with the AID and SUPERVISION OF UNITED STATES GOVERNMENT, is destined to be one of the MOST IMPORTANT AND VALUABLE MARITIME LINES OF COMMERCE. It is the link of communication between the Pacific Coast and the Great Interior Basin, and the
Principal Portion of the Main Steam Line between Europe and Asia.
The present eastern terminus is at Sacramento, on the navigable waters of the Pacific; but it will ultimately extend from San Francisco across the richest and most populous parts of California, Nevada and Utah, contiguous to all the great Mining Regions of the Far West. The Company are authorized to construct their line eastward until it shall meet and connect with the roads now building east of the Rocky Mountain ranges.
Assuming that they will build and control half the entire distance between the San Francisco and the Missouri River, as now seems probable, the United States will have received in the sections of $48 to the mile, $32,000, or at the average rate of $35,000 per mile—not including an absolute grant of 10,000,000 acres of the public lands. By becoming a joint proprietor in the magnificent enterprise, and by waiving its first lien in favor of the First Mortgage Bondholders, the GREAT GENERAL GOVERNMENT, IN EFFECT, INVITES THE CO-OPERATION OF PRIVATE CAPITALISTS, and has carefully guarded their interests in all ordinary contingencies.
The Central Pacific Railroad enjoys all the privileges, grants and subsidies conferred by the Acts of Congress upon the other parties of the three line, and has, in addition, several special, exclusive advantages applicable only to the Western Half.
I. The Company has received from the State and other cities of California, *assistance in money, credit and valuable property, worth over $3,000,000* in gold, in addition to the full benefit of the Government subsidy.
II. *The hardest and costliest part of its construction has been successfully overcome* within the first 150 miles. In a few weeks the track will be completed entirely across the Sierra Nevadas, after which progress to Salt Lake will be easy and rapid.
III. The local business alone of this road established connections with the Atlantic States, independently of the vast through traffic which must pass over it. The gross earnings for the months of June and July upon the first 94 miles then open for business, were upward of $297,000 in gold; of which *four-fifths* were net earnings.
IV. It can have no competition, but will carry, beside its own lucrative local traffic, *the whole volume of through business* which is cleared among its Eastern connections and their branches.
V. The road lies wholly in territory yielding the precious metals, *and its revenues are collected in coin.* Its rates for transportation are very advantageous, being more than three times those of roads lying east of the Rocky Mountains, *where the rate of operating expenses is less than 25 per cent. of the gross earnings.*
VI. In consideration of the aid it receives from the General Government, from the State of California, and from municipal corporations, the annual interest obligations of the Central Pacific Company are called upon to assume are very light. The net earnings upon an average of about 75 miles in 1863 were nearly *three times the amount of annual interest liabilities to be assumed in building it, and were $255,000 more than the annual interest on the entire amount of its First Mortgage Bonds which the Company can issue upon the first 150 miles.*
The Company offer for sale, through us, their
First Mortgage Thirty Year, Six per Cent. Coupon Bonds.
Principal and Interest payable in Gold Coin, in New York city. They are in sums of $1000 each, with semi-annual gold coupons attached, and are selling for the present at 95 per cent. and accrued interest from July 1st added in currency, at which rate they yield nearly
Nine per Cent. upon the Investment.
These Bonds, authorized by Act of Congress, are issued only as the work progresses, and to the same amount only as the Bonds granted by the Government; and represent, in all cases, the *first lien* upon a completed, equipped and productive railroad, in which have been invested the government subsidies, stock subscriptions, donations, surplus earnings, etc., and which is worth more than three times the amount of First Mortgage Bonds for which it can be issued.
The agreement of this Company to pay principal and interest of their Bonds in coin, being made under the authority of the Act of Congress, authorizing and enforcing contracts to pay gold, *is legally binding*, unlike similar agreements made by companies in States where no such legislative sanction exists.
In these important particulars the Securities of the Central Pacific Railroad *offer an unusual degree of safety, stability and profit combined.*
The FIRST MORTGAGE BONDS of the Company are therefore justly considered the most desirable FIRST CLASS SECURITIES in the money markets of this country and Europe, and will, without doubt, be eagerly sought for, and anxiously dealt in hereafter, at rates materially in advance of the price at which they are now offered.
Having carefully investigated the resources, progress and prospects of the road, and the management of the Company's affairs, we cordially recommend these Bonds to Trustees, Executors, Institutions and others as an eminently *sound, reliable and remunerative form of permanent investment.*

MATRIMONIAL MATTERS.

GENTLEMEN BEFORE MARRIAGE.

My dearest duck, my sweetest girl,
I love you most sincerely;
I'd rather own this saucy curl
Than win a fortune yearly;
This little hand, so soft and white,
Was only made for kisses;
This little form, so frail and light,
Was made for fanny dresses.

I'd keep my Bet a span of grays,
A carriage and a pony,
I'd go with her to balls and plays,
And never speak of money.
For her I'd buy romances new—
Attending to her pleasure—
And poems bound in golden blue,
I'll order for my treasure.
Our lives shall be but one sweet dream
Of love and sunny weather, I
No errant wave shall cross the stream
Of wedded bliss forever.

MEN AFTER MARRIAGE.

You always talk of plays and balls,
You are forever flirting;
And scribbling rhymes, or making calls,
And never sewing shirting;
You smile in every whiskered face,
You chase all silly fashions,
You load with jewels, flaunt in lace,
And know your angry passions.

The baby's left to cry and moan,
I've ne'er a decent dinner;
You drag me out, you call me down,
I am a hen-pecked sinner,
An abject slave—I tell you so!
Madam, your folly's ended,
You shall not flirt—and go and go—
I'm weary and offended.
I'm going to a reading room—
I'll join a club hereafter—
So mend your manners, stay at home,
And dry your eyes with laughter.

I ain't got nary dime, I ain't,
I ain't got nary friend,
There's nary one who says to me
I have a dime to lend.

Now, I'm blowed if this ain't hard,
To live a life like this—
Not having any gal to hug,
Nor nary wife to kiss.

THE COOLIE SLAVE TRADE.—A protest has just been made against the Coolie trade to the West Indies, which, considering the quarter whence it emanates, and its emphatic character, can hardly fail to exercise a very important influence on public opinion relative to that system of emigration. Hong Kong is one of the ports from which Coolies are shipped to the West Indies, and recently an ordinance was introduced in the Legislative Council by the Governor, for the purpose of still further regulating such emigration as is carried on from that port, and which, it appears, is not considerable. This ordinance was opposed by the Chief Justice of the settlement, and another influential member of the Council, on the ground that in view of the frightful atrocities which were perpetrated at other ports in connection with the Coolie trade, the only proper plan of dealing with the trade would be to abolish it altogether.—Reference was made especially to Macao, whence from 30,000 to 40,000 Coolies are shipped every year to Cuba and Peru, and it was asserted and supported—the Governor himself admitting the facts—that the Macao Coolie trade was an organized slave trade, that no voluntary emigration took place at all, that the unhappy men sent away (no women are ever shipped from Macao) were kidnapped and forced into slavery by those who make a business of enticing them on board small vessels up and down the coast, and then selling them to traders at Macao. It was argued that the only way for the English people to put themselves in a position to remonstrate successfully against the iniquities of Macao, was to abolish emigration from Hong Kong entirely. The Governor, however, did not take this view of the case, arguing that the Imperial Government had sanctioned Coolie emigration by the act of 1855, and that the Hong Kong Council could not run counter to imperial legislation. The protestants, it is understood, intend to transmit to the Home Government a memorial on the subject of the Coolie trade, setting forth the frightful practices with which it is bound up and urging action for its abolition.

— In Demand—Long credit, exemption, from taxation, false calves and gin cocktails.

— Dear—A pretty wife, her "love of a bonnet," good whiskey and piety.

— Cheap—Good advice, lip salve and promises.

— Generally observed—Tilting skirts, waterfalls and other people's business.

— New York city has thirty-four steam fire engines.

—As a work of art there is rarely any thing seen equal to a fashionably dressed woman. Art, artful and artificial.

— An eminent mathematician, who has solved the problem of "squaring the circle," is now engaged in defining the exact circumference of "the round of the papers."—*Fun.*

—By an act of the Nebraska Legislature passed June 24, 1867, women of awful age are allowed to vote at the district school meetings. The first elections under the law will be held in October.

—The envelope used by the King of Burmah in sending a letter to the Viceroy of India, is described as a carved ivory tube, eighteen inches long and two inches in diameter, cased in a cloth of gold, and that again in a cloth of crimson silk.

DOWNER
KEROSENE OIL CO,
Office, No. 103 *Water Street, Boston.*

TO CONSUMERS OF OIL.
CAUTION.

It having come to our knowledge that many dealers, throughout New England, are in the habit of buying small quantities of our Oil, and larger quantities of inferior oils, and using our brand and packages fraudulently in the sale of these inferior oils, we are determined to stop such frauds, and hereby offer a **Reward of 100 Dollars** for information that will lead to the detection and punishment of any party using our name or brand in the sale of any other thing our own Oil. The **"Downer Kerosene Oil"** has been frequently tested and analyzed by Dr. A. A. HAYES, State Assayer, and in a communication to us, dated July 9, 1867, he says: "The term 'Kerosene' as used by the **Downer Oil Company**, applies to the highest grade of Oil only, which, before it shows, does not flame below 120 degrees Fahrenheit, and carries the assurance of both safety and excellence with it; while the mixed Oils are not only unsafe, but from accidents, destroy confidence in the safe and excellent article for affording light produced by the honest manufacturer."

"Coming from the Navy Yard,"
a beautiful scene on the Piscataqua, represented on canvas by Mr. Joy, may be seen at Music Store of Mr. Joy. Fifty applications have been made for this picture, but the author being a gentleman of his own, he would not consent to sell for the present for its peculiar associations. He intends, however, at the suggestion of individuals of Boston and at home, to issue a large and splendid fac-simile Lithographic Engraving of this picture, when subscriptions will warrant the same. Here are represented, as they appear in seventy swift row-boats, filled with men of stalwart arms returning home at high water, beneath a July evening sky, from their labors on the great naval ships, which may justly be termed the "bulwark of our Country"—the Vandalia sloop, the Franklin 74, and the "Kearsarge," and a part of the beautiful Navy Yard. Every workman and son of Portsmouth, at home or abroad, can have this life-stirring picture to hang in his house or store to perpetuate the noble scene. The engraving shall give satisfaction to all subscribers or no pay will be required. All who would participate in this picture can engrave will please enter their names as early as convenient, in a paper now at the Music Store of Mr. Joy.—Price only two dollars and fifty cents per copy, delivered.

The Fourth and Last Grand Concert
Of the Gleason Hall Presentation Festival, under the auspices of DORING'S BAND,
Will positively take place on
Thursday Evening, October 10, 1867,
AT GLEASON HALL, WEST TROY, N. Y.

The first, second and third Concerts of the series took place (as per former advertisements,) on July 25th, Aug. 8th and 29th, and gave universal satisfaction, the large Hall being filled to overflowing on each of the above evenings with a refined and appreciative audience from all parts of the State. Here was a committee of three reliable and well-known gentlemen selected by the audience on the night of the first Concert to superintend the drawing, which will positively take place on the evening of the above Concert. The Committee are most desirous that all ticket holders should be present to witness the drawing, and thereby relieve themselves of any doubt as to the fairness of the transaction. They also assure those who cannot make it convenient to be present, that their interest will be guarded in the same as if they were present. The Tickets, which have been limited to 75,000, at

ONE DOLLAR EACH,

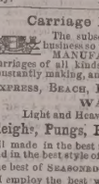
SPEER'S SAMBUCI WINE.
Prescribed by Physicians for FEMALES, WEAKLY PERSONS AND INVALIDS.



As a Tonic, it has no equal, causing an appetite and building up the system of the most debilitated person. *As a Diuretic* it imparts a healthy action to the Kidneys and Urinal Organs, and is a very beneficial in Dicrsy, Gout and Rheumatic Affections. *As a Blood Purifier,* it is superior to any of the best alteratives known in the medical pharmacopœia.
The qualities of SAMBUCI are "*unitum in corpore,*" being at once a Tonic, Diuretic, Alterative, Diaphoretic and Saporific.
He uses the "*non bojum sed unum sanguinum facit.*
SPEER'S SAMBUCI is a pure juice wine with a fine flavor, rich body and pleasant taste. It is peculiarly adapted for weak and debilitated persons, the aged and infirm, and benefitting ladies and children.
Be sure the signature of *ALFRED SPEER,* Passaic, N. J., is over the cork of the bottle.

Caution
To Females in Delicate Health.
DR. DOW, Physician and Surgeon, No. 7 Endicott St., Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri or Floor Albus, Suppression and other menstrual derangements, are all treated on new pathological principles, and speedy relief guaranteed in a very few days. So invariably certain is this new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.
Dr. Dow has no doubt had greater experience the cure of diseases of women than any other Physician in Boston.
Boarding accommodations for those who may wish to stay in Boston a few days under his treatment.
Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

THE STOVE FOR THE MILLION!
THE
KEARSARGE
HAS NOT BEEN BEATEN!
URIAH BLAISDELL,
NO. 43 MARKET STREET,
Takes pleasure, as the cold season approaches, in again inviting public attention to this superior
COOK STOVE!
Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well with WOOD OR COAL, an economizer of fuel, and a heavy, well-made and durable Stove, as it is a neat and symetrical one. It has been in no Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified encomiums of its numerous purchasers—of all who know what a good stove is and how to appreciate it.
Pleasure is taken in showing the KEARSARGE and all in want of a stove of the first merit at a moderate price, are invited to call and examine it whether they purchase or not.
The following names from its large list of purchasers are given for reference:

Portsmouth, N. H.

TUESDAY, SEPTEMBER 17, 1867.

THE NEW HAMPSHIRE FAIR at Nashua last week was a great financial and social success, though the show was not so large as on some previous years, nor so good as it should have been. The State premiums are not large enough, as compared with those of towns and counties, and the location was not so convenient and popular as Concord or Manchester, and the good people of Nashua don't understand so well as some others the claptrap for drawing the crowd. The attendance was great, however, *especially* on the second day, when the literary exercises came off before an immense crowd. The weather was favorable throughout. The officers of the Society and the citizens of Nashua, spared no effort to render the Fair successful and promote the comfort of visitors. Our thanks to Messrs. Smyth, Young and Head, and Col. Scripture of the Indian Head Hotel, for numerous courtesies.

No two men in New Hampshire are more ready, able and willing to stand up and defend the old Granite State against all comers, than Governor Harriman and Ex-Gov. Smyth. In prefacing Gov. Harriman's remarks, Mr. Smyth, after urging a more general and generous support of the State Agricultural Society, while not neglecting the town and county organizations, introduced the Governor as "a gentleman from a family of seven which measures in the aggregate forty-two feet, and a vine like that ought to produce some pumpkins." and who was well received, and his remarks often applauded. We make a few extracts:

While agriculture still continues the predominant interest in New England, we are yet better known as commercial and manufacturing than as producing States. During the generation just drawn to a close, the great and growing West with its rich and fertile soil and broad acres, has eclipsed the productions of the East, and to-day not in New Hampshire nor indeed in New England, are produced an eighth part of the cereals we consume.

There are those who believe, in view of these facts, that within the next fifty years the seat as well as the centre of this Empire will be the valley of the Mississippi. But let not New Englanders be alarmed. So long as we can exchange our products profitably, by those of the West and South, we shall lose nothing. The strength of New England lies in her manufacturing and mechanical resources; and as we develope and expand these we enhance and promote immeasurably the agricultural interests of our section of the country.

Let me impress upon your minds (and I trust the impression will last forever) that each section of the country possesses its distinct elements of prosperity, growth and future usefulness. The West has its broad fields of corn and grain, the South its rice, cotton and tobacco, the younger States and Territories of the mountain range and Pacific slope their mineral wealth, while New England has her manufacturing capacities so indelibly stamped upon her that no one can possibly mistake the Divine allotment. No where is this more apparent than in New Hampshire. These distinct advantages in each section must, primarily and chiefly be relied upon for position and power.

New England must take care of herself, and she possesses the means and ability to do it effectually, without trespassing upon rights or interests of others. Her illimitable water power if properly occupied and improved will cause her agricultural and all her other interests to flourish, and add to her wealth, population, advancement and influence in a degree commensurate with the wishes of the most ambitious in our midst.

We regret our limited space will not allow us to give the admirable address of Maj. Ben. Perley Poore, nor the remarks of Senators Cragin and Patterson, Representative Ela, Councillor Patten, Col. G. D. Pierce or Col. Needham, which were heard by a very attentive concourse of people. The poem of Mr. E. P. Nowell was also received attentively.

The horse and cattle show was good, of sheep small. The rare collection of beautiful birds and animals of Wm. Stark of Manchester was a most attractive feature, and would be anywhere. Mr. Hildreth and the conductors on the Concord Road did all in their power to make travellers to and fro comfortable.

— We learn from Maine that meadow cranberries have never been so plentiful there as they are this year.

— A Mr. Cole of New Gloucester, Me., while working in a saw mill at Lewiston, Thursday, fell under the planer and had both arms taken off near the shoulder.

— Edward Carroll made a throw of three hundred and fourteen feet on the Canoeadea base ball grounds in Canisteo, New York, a few days ago. The prize throw at Detroit was two hundred and ninety and one-half feet, at Auburn two hundred and ninety-four feet, and at Philadelphia three hundred and eleven feet.

— Potatoes are selling in the Bangor market at 60 to 65 cents; butter from 25 to 30; eggs at about 25. Late planted potatoes are not yet in the market, and it is supposed the supply will be light in consequence of the rust. The early potatoes are suffering from disease.

—The recent revelation of trades union folly in England show that in one society £45,864 out of £125,000 had been expended in salaries, commissions and other items usually included under the general head of "carrying on the business." In another nearly two-thirds of the income, derived from 8637 members, went for the same objects.

—In Kennebunkport, near the old meeting house, there is an ancient fence, made of large pine stumps, which has been there some hundred and fifty years, and is still in a good state of preservation, performing its office as in days of yore.

NEW HAMPSHIRE ITEMS.

—— Rev. Dr. Barstow of Keene, will complete fifty years since his ordination next June.

—— Rev. A. F. Marsh of Montague, Mass., has received a call from the Congregational Church in Rochester.

—— On Friday, in Manchester, a man from a neighboring town was robbed of $1500 and a gold watch, after having been dragged with a gang of *ahe.*

—— Manchester furnished 2697 men during the war—an excess of 75 above all requirements of draft.

—— The Merrimack Co. Ag. Soc'y are to hold their 44th Annual Fair at Concord, Sept. 24, 25, 26.

—— Elder Murray was installed pastor of the Christian Society in Kensington, Sept. 11. Sermon by Elder Pike of Newburyport.

——The Prospectus of the "White Mountain Republic," a democratic paper to be printed in Littleton, states it will be a "white man's paper."

—— The Register of Deeds in Hillsborough County is now filling the *three hundred and seventy-third folio volume.*— Deeds are to be seen in that office that were executed in the reign of George II.

—— Mr. Justice Bartlett of the Supreme Court has returned to Concord from Hampton Beach, where he went for the benefit of his health, but has not improved. He continues very feeble.

—— Saturday afternoon, in Concord, Mrs. Tryphena B. Brown, a widow lady from Boston, who has been visiting in C. for a few weeks past, fell down stairs and received injuries from which she died in three hours afterward.

——A citizen of New Hampshire desires to correct an impression which has got abroad that the New-Hampton Literary Institution is to be removed from that town. Such is not the case. It has been contemplated to remove the Theological Department, but even that is not determined upon. If it should be removed, the Institution will remain and continue to flourish as heretofore.

—— Gen. Loren Kent, formerly of Lancaster, N. H., Collector of the port of Galveston, died in that city, of yellow fever, on the 27th of August. He entered the war as a private in a western regiment, was soon after made Adjutant of the 29th Illinois, and rose through all the grades to Colonel of that regiment. He was afterwards brevetted Brigadier General. He was appointed by Gen. Grant Provost Marshal for the State of Texas, and subsequently Collector of the port of Galveston. He was 28 years of age.

☞ Among the many valuable inventions exhibited at the N. H. State Fair at Nashua, was "The Aeriating Egg Beater," of Hale & Co., Newburyport. The different varieties of this article engaged the attention of all the housekeepers who observed it. It lessens the use of eggs one half and makes them much lighter and more porous; it economizes time, labor and material.

☞ Jonathan H. Hasbrouck, President of the First National Bank, Kingston, N. Y., has been detected in an embezzelment of $91,000 of the bank's funds. He was the leader of fashionable society there, and the money was spent in stock gambling and extravagant living.

☞ Charles Damouries, a French draughtsman with numerous aliases, was arrested in New Rochelle, N. Y., on Friday, for a series of ingenious forgeries by which he obtained $25,320 from the Stuyvesant and Tradesmen's National Banks of New York city.

☞ A fire at Cincinnati Saturday night, destroyed five warehouses, and a row of tenements; loss $400,000, with only a light insurance. Three firemen were hurt by a falling wall.

☞ Five hundred forged U. S. bonds, of $1000 each, have been found at the Hague, and the holder is arrested.

☞ From Brasil intelligence comes of the defeat of the allied expeditions of the Peruvians.

GOLD, Monday, 144 1-2.

CABLE ITEMS, received Monday, state that the Allied South American forces had just captured Corumbo, and threatened the Paraguayans in their stronghold.

GEN. GRIFFIN of the U. S. Army, military Gov. of La., pro tem. died at New Orlans, on Sunday, of yellow fever; and Gen. Frank Wheaton, commanding post, was attacked with fever Friday evening.

— A train on the Northwestern Railroad in the Western part of Iowa, was on Saturday delayed one hour and a quarter by grasshoppers, which covered the track so thick that the engine drivers slipped on the rails.

— The Washington correspondent of the New York Tribune says it is given out by the President's confidential friends, that he intends to keep quiet now until after the Fall elections. The President is of the opinion that matters are just right, everything being favorable to a vindication of his course at the polls. If he should go any further he is afraid he might make a mistake, and injure the prospects of carrying the elections. No Cabinet changes will take place until Pennsylvania, Ohio and New York have spoken.

OUR COMING FAIR.—"It begins to look" as though the Fair to be held at Exter on October 8th and 9th would nearly, if not quite, beat the State Fair as regards the interesting character of the programme, and the show of stock and farm products, notwithstanding that some of the enterprising citizens of Portsmouth are resolved to have a "show" of some kind on the same days. Well we can't help wishing ourselves success, albeit one of the former trustees (as we are informed upon good authority) desires to "give a dollar to every man who intends to visit our Fair, if he will stay at home." We have no sympathy with such an invidious offer, and extend a cordial invitation to our friends in "the city by the sea" to visit the Rockingham Agricultural and Exeter Horticultural Fair. We will do our best to entertain them, and strive rather to allay than foster the prejudice between the two places, Exeter and Portsmouth, upon which Gen. Washington saw fit to remark. Give us fair play and fair weather, gentlemen, and we will endeavor to make an honest penny, though we have none to pay to any party to keep to them away from Portsmouth or any other city.—*News Letter.*

We know nothing of any ex-trustee who has so many dollars to throw away, nor have we heard of any show to be made here "on the same day." We certainly wish the Rockingham Fair, as all similar gatherings, the best success; but we must say we don't think the present management well calculated to secure it. The usual opportunity for towns to compete for the Fair, was not given; but Exeter was decided on, whether or no—and outsiders will very naturally say that the decision was more in consideration of the town's interest than of the Society's success—and this in the face of the fact that while both Kingston and Portsmouth offered the use of tracks already fenced, a costly fence must be built in Exeter. We fear neither Gen. Washington nor any other man can do away with some feeling of injustice done in such arrangements, at any rate; and while we shall hope for the best, we shall not be astonished if the deficit on this occasion should be sufficient to consume all the funds, and so this be the last heard of the Rockingham County Agricultural Society.

HISTORICAL BELL.—At the annual Salisbury festival—the largest beach gathering on this continent—to be held Wednesday, the 18th, the large bell to call the speakers to the stand is one that was captured by Gen. Butler at New Orleans in 1862, and for twenty-five years called the slaves to their work upon one of the largest plantations in Louisiana. It was given in aid of the Southern rebellion to be cast into rebel cannon. It is the property of W. W. Huse, Esq., of Brooklyn, New York, but whose summer residence is at Hawkswood in Salisbury. Gen. Butler is to speak on the occasion of the festival; and when we consider the circumstances, the man and the bell, we have no doubt of something ringing and impressive.

☞ An item in the Boston Journal suggests that the robbery of the Blue Hill Bank should induce cashiers in charge of country banks, which are located in buildings where even for a few moments an officer is apt to be alone, to take the precaution to inclose the business portion of the room from the entrance of strangers. Had the door leading behind the counter in the Blue Hill Bank been securely locked, the attempt of the burglars would no doubt have been frustrated, as Mr. Bispham exhibited great presence of mind when first assaulted. It would also be judicious and not expensive to have a bell on the outside of the bank, which might be struck from the inside in case of danger.

—White, the forger and pork-packing swindler at Milwaukee, pleaded guilty, and has three years in the penitentiary to think about it.

☞ The good work undertaken by the Washington Library Company of Philadelphia for the endowment of the Riverside Institute as a National Home and College for the orphans of those soldiers who were killed at the Soldiers' National Refreshment Saloon of that city, goes bravely on.—That their noble object may be most surely accomplished, they have issued five series of fine steel plate engravings, one specimen of which with every share of stock sold, at prices much below their retail value. In connection with this superb inducement, every shareholder is guaranteed a present in the great distribution of $200,000 worth. Many of them are quite fortunes of themselves. We notice that one is worth as high as $40,000, another $20,000, another $18,000, one $10,000, one $5000, two $2500 each, and a large number ranging from $1000 to $50 each. Read advertisement.

MARTYRS TO CARELESSNESS.—If all the teeth that have been ruined by neglect could be strung together they would reach thrice round the world. There may have been some excuse for this havoc in days gone by, when there was no absolute safeguard against dental decay in existence, but there is no apology for it now.—FRAGRANT SOZODONT, the world-renowned antiseptic dentifrice, as certainly protects the teeth against decay, as oil prevents steel from rusting, or water arrests the progress of fire. 16

WOMAN'S FRIEND.—Not a dandy husband nor costly silks and jewelry, but Fyle's O.K. Soap, which facilitates the adornment of cleanliness, with a great saving of labor and expense. Try it. All first class grocers have it for sale.

— Perfection has been obtained, through art, science and experience, in the manufacture of Herrick Allen's Gold Medal Saleratus, as every lady who has tested it universally exclaims, "There is nothing like it!" Don't fail to test a paper, and you will never use any other. Call on your Grocer for it, and do not be put off with any other. All the Grocers sell it. Depot 112 Liberty street, New York. 42

☞ The Mechanic's Association will have an excursion to Portland on Thursday next, if the weather should be suitable, (if not, on the next day). All members will be entitled to two tickets, free of expense.

Any Mechanics wishing to become members of the Association, by leaving their application with the Secretary at the Reading Room, before Tuesday evening, they will then be laid before the Board, and on Wednesday will be acted upon by the Association.

☞ Mr. Pattee will give a grand Clam Bake at the Surf House on Tuesday, at 3 o'clock. The Union Cornet Band will be in attendance, and a display of fireworks will be made in the evening. If the weather is stormy, the festivities will be held the first fair day thereafter.

— Walter Russell Johnston, the organist of Dr. McClintock's church in New York, is but twenty-three years old, and has held the position for ten years, or since he was thirteen years old. He was a good player when six and a half years old.

NOT GOLD ONLY,
BUT
RICH, FRUITY, LUSCIOUS
WINES!
California is making grand strides in her agricultural products and is fast withdrawing herself as a purchaser for the manufactures of the various branches of industry she once demanded. She sends a warning voice to the time-worn vineyards of Europe, and enters the lists as a fresh, young combatant for the production of wines from her own rich and increasing vineyards.—The time has come when it is simply ridiculous for any one house to lay claim to especial advantages or peculiar privileges for the sale of
THE WINES OF CALIFORNIA.
As well might they claim a monopoly of the cotton trade.
C. A. RICHARDS & CO.
do not receive or sell all the wines which California produces, but they do claim to have at all times a very large quantity on hand of all the best kinds, and their advantages for getting the best, and getting them at the lowest market value, are such as to enable them to offer them at prices which to-day are lower than any other house which sells California Wines of equality. We bottle five kinds. They are,—
"Angelica,"
"Muscatel,"
"Still Champagne,"
"Hock" and
"Port,"
Also "California Brandy."
They are all perfectly pure, and may be relied upon in sickness or in health. The **Angelica** and **Muscatel** are rich, sweet wines. The **Hock** is fully equal to the medium grades of Rhine wines. The **Port** is actually better than many of the high cost Ports from Oporto. We sell these wines in any required quantity, from a single bottle to a THOUSAND CASES, and are ready at all times to exhibit samples, or to send them to any address.

A NEW GLEE BOOK.
THE GREETING.— A collection of Glees, Quartetts, Choruses, Part-Songs, &c. By L. O. Emerson. Author of "The Jubilate," "Harp of Judah," "Golden Wreath," "Merry Chimes," &c.
Upwards of half a million copies of Mr. Emerson's Music Books have been sold, a fact proving a popularity which has rewarded no other author of the same class of books, and which cannot fail to insure for this new volume an immense sale.—The contents of this work are, for the most part, new. A large number of valuable pieces have been contributed for the first time. The author's name is a sufficient guarantee of their excellence. The marked features of the collection are Originality, Brilliancy and Variety; and it will be found, upon careful examination, that there is no Glee Book now before the public that in every particular will prove so completely satisfactory to Musical Societies and Conventions, Conservatories, Clubs and Amateur Singers. Price $1.25. Mailed post paid. OLIVER DITSON & CO., Publishers, 277 Washington street, Boston.

DR. SCHENCK, THE LUNG DOCTOR.
☞ The Proprietor of SCHENK'S PULMONIC SYRUP, the inventor of SCHENK'S RESPIROMETER, the only instrument that can to a certainty detect the slightest murmur of the respiratory organs.
This is of great importance to Dr. SCHENCK, for know the condition of the lungs, as to whether it is Tuberculous, Pulmonary, Bronchial, Pleuritic, or Dyspeptic Consuption, and whether it is both lungs or only one that are diseased.
It requires constant and long practice to become familiar with every sound or rattling of a diseased, bronchial tube. Patients come to Dr. SCHENCK to get examined that have been examined by their family physician, who told them that their lungs were almost gone; when by a close examination with the Respirometer, it is often found that it is an affection of the bronchial tube, and by getting a healthy action of the liver and tone of the stomach, the sufferer is restored to health. Sometimes medicine that will stop a cough is certain death to the patient. It locks up the liver, stops the circulation of the blood—hemorrhage follows, and, in fact, stopping the action of the very organs that cause the cough.
Dr. Schenck will be professionally at his rooms every week, 32 Bond street, New York, and 36 Hanover street, Boston, from 9 A. M. to 3 P. M. He gives advice free, but for a thorough examination with the Respirometer the charge is $5. His medicines are for sale by all druggists and dealers, also a good supply at all times at his rooms. Price of the Pulmonic Syrup and Seaweed Tonic, each $1 50 per bottle, or $7 50 the half dozen; Mandrake Pills 25 cents per box.—GEO. C. GOODWIN & CO., 38 Hanover street, Agents for Boston. TO OWNERS OF HORSES AND CATTLE—TOBIAS' DERBY CONDITION POWDERS are warranted superior to any others, or no pay. For the cure of Distemper, Worms, Botts, Coughs, Hide-bound, Colds, etc., in Horses; and Colds, Coughs, Loss of Milk, Black Tongue, Horn Distemper, etc., in Cattle. They are perfectly safe and innocent; no need of stopping the working of your animals. They increase the appetite, give a fine coat, loosen the stomach and relieve the gums; also increase the milk of cows. Try them, and you will never be without them. Hiram Woodruff, the celebrated trainer of trotting horses, has used them for years, and recommends them to his friends. Col. Philo P. Bush of the Jerome Park Race Course, Fordham, N. Y., would not use them until he was told of what they were composed, since which he is never without them. He has over twenty running horses in his charge, and for the last three years has used no other medicine for them. He has kindly permitted me to refer any one to him. Over 1000 other references can be seen at the depot. Sold by druggists and Saddlers. Price 25 cents per box.—Depot 58 Cortland street, N. Y. s8dwim

Local.

☞ Eon Steam Fire Engine Co., (self-propeller), Capt. George W. Knight, of Newburyport, visited this city on Monday afternoon, attended by the Mechanics' Brass Band of Amesbury. They were received at the depot by Dearborn Steam Fire Engine Co., No. 1, Capt. Charles S. Tucker, of this city, whose guests they were, attended by the Union Cornet Band.—Among the guests attending the Eons were: Chief Engineer W. A. Davis of the Newburyport Fire Department; Alderman E. P. Cutter, Assistant Marshal Barker and Capt. Creasy, of the Newburyport Hook and Ladder Co.

The guests were entertained by Steam Fire Engine Companies Nos. 1 and 2, and by hand engine companies Nos. 3 and 5, and in the evening had a dance at Irving Hall. As the "Eon" was being painted, the company were unable to bring their machine, which is more to be regretted as the motive power is an invention of their engineer, applied to a Portland machine, and adding less than a thousand pounds to its weight.

To-day the guests and their entertainers propose to visit the clam-bake at the Surf House, after which the Eons will take the last train for home.

☞ A young man whose failure in business we chronicled on Monday morning, simply exposes his ignorance of mercantile usages by making a personal matter of it, and complaining to us for giving to a private affair such publicity. Now if a suspension or stoppage of business is any more private than the beginning of the same or the opening of a new shop—we never heard of it before; and if the said failure has not already been published in the Commercial Bulletin and all other papers which make a list of "changes in business," then it will be, that's all, without any agency of ours. Our item contained only the bare announcement of the fact, without any moralizing on or deductions from it—just as we should have announced if the same or any other party had began a new trade—only in the latter case we should probably have added a wish for his success,—which we always enjoy seeing, as much as we regret anybody's failure in a laudable enterprise. We could not see, that an event which had been known of all men so long as to be stale, was private; nor that the publicity of the progress of the case, could offend or harm any one. We believe our pen was guilty of no violation of the courtesies or decencies of life, and we hope all concerned will keep their tongues equally civil.

☞ The many friends of Capt. John P. Somerby, Superintendent of the Eastern Railroad Car Factory, which b's recently been removed to Salem,—will learn with regretful sympathy of the death of his only idolized child, as chronicled under our obituary head. The young man was bookkeeper in the establishment, and was very capable, and much beloved by all his associates. He was married a year or two since to a young lady of Portsmouth. The body will be interred in this city, and it is decided that the Masonic Lodge of which he was a member in East Boston, will attend the funeral.

☞ Several days since we noticed an enormous tomato from the garden of Mrs. M. P. Jones on State street. Visiting the garden, we found the tomato to be but a fair sample of one out of many productions flourishing therein. The display of tomatoes alone was quite extensive—the vines being trained both perpendicularly and horizontally, the former reaching such a magnitude as to make it easy for a man to sit under his own tomato vine, even though he did lack a fig tree. Thirteen beautifully ripened specimens of this vegetable shew a weight of as many pounds. Great squashes lay basking in the sun, round cabbages nestled their heads in crisp and curly leaves, grape vines hung down their wealth of fruit from the trellises, while smaller vegetables, fruit trees and bright flowers lent their aid to make up a pleasing whole. The best of country life, without its inconveniences, may be enjoyed in the city, if we will but avoid crowding our residences too near together.

POLICE COURT, Sept. 16.—John Kelley, a transient person, was arraigned on a charge o' attempting to pick a pocket. The evidence was not considered sufficient to warrant his detention, and he was discharged.

John Horton, a sailor, who made himself very conspicuous while being taken to the Station House on Sunday afternoon, was fined $3 and $3 86 costs for his drunkenness.

John Lyons, transient person, on a charge of attempted theft of a pocket book and contents from the store of John Rider & Son, was ordered to give bonds in $1000 for his appearance at the October term S. J. C., and in default thereof was committed to jail.

John L. Frost was up for an assault upon Frederick W. Rogers; the assault consisting in throwing a hammer by defendant, which struck plaintiff in the mouth. Frost gave bail in $200 for his appearance at the October term S. J. C.

☞ The U. S. Squadron, Admiral Farragut in command, has arrived at Copenhagen.

☞ Between 7 and 8 o'clock Monday morning, a man came into the jewelry store of Chas. T. Emery in this city, and stole a gold watch from the drawer of the safe, which drawer the clerk had taken out to hang the watches in the window. Sheriff Morse followed up the trail to Seabrook, and there arrested Wm. C. Willey, the man who had taken watch, and Jos. W. Davis who had it in his possession. He returned with his prisoners and the watch by the afternoon train.—Willey has heretofore borne a good character.

☞ In times of epidemic diseases most persons who feel a little unwell are apt to fancy themselves stricken with the prevailing disorder; so when people are beset with cautions to "beware of pickpockets," whatever folks lose or miss from their persons, they are liable to attribute to the dexterity of those industrious appropriators of other men's goods. Mrs. Leech, who reported her pocket picked on Saturday, found her money safe at home. The check, at first supposed to have been taken from the office of Mr. Frink, was lost in the street and restored to its owner by a boy who found it.

☞ As some members have misunderstood our mention of the arrangements for the Mechanic Association Excursion to Portland Thursday, we are desired to state that tickets can be procured only through the Secretary or other member, who of course will allow none to come into the bands of any but desirable parties.

☞ Meyer Waterman of Kittery, had his pocket picked of a watch and chain valued at $150, while at the circus on Saturday evening.

☞ We are informed that three ladies had their pockets picked while in the cars at the station in Boston, on Monday afternoon, just as the 3 o'clock train was about to leave that depot for this city.

☞ Funeral services will be held at the residence of Benjamin J. H. Marden, 8 Chabot street, this (Tuesday) Afternoon, at 3 o'clock.
In Salem, Mass., Sunday, Sept. 15, Mr. HOWARD M. SOMERBY, aged 25 years, only son of Capt. John P. Somerby, formerly of Portsmouth.
The remains will be brought to this city, and the funeral take place this (Tuesday) afternoon at 3 o'clock, at Middle Street Baptist Church.

THE
CENTRAL PACIFIC RAILROAD,
THE WESTERN HALF OF THE
GREAT NATIONAL TRUNK LINE
ACROSS THE CONTINENT,
being constructed with the AID and SUPERVISION OF UNITED STATES GOVERNMENT, is destined to be one of the most IMPORTANT AND VALUABLE RAILROADS IN THE WORLD, as it is the sole link of communication between the Pacific States and the Great Eastern Basin, and the
Principal Portion of the Main Steam Line between the Two Oceans.
The present western terminus is at Sacramento, on the navigable waters of the Pacific; but it will ultimately extend from San Francisco across the richest and most populous parts of California, Nevada and Utah, contiguous to all the great Mining Regions of the Far West. The Company are authorized to continue their line eastward until it shall meet and connect with the roads now building east of the Rocky Mountain ranges.
Assuming that they will build and control half the entire distance between the San Francisco and the Missouri River, as now seems probable, the United States will have invested in the completion of 865 miles $28,592,000, or at the average rate of $33,000 per mile, including an absolute grant of 10,000,000 acres of the Public Lands. By becoming a Joint Investor in the magnificent enterprise, and by waiving in their favor all claim to the First Mortgage bondholders, the GENERAL GOVERNMENT, IN EFFECT, INVITES THE CO-OPERATION OF PRIVATE CAPITALISTS, and has carefully guarded their interests against all ordinary contingencies.
The Central Pacific Railroad enjoys all the privileges, grants and subsidies conferred by the Acts of Congress upon the other parts of the through line, and has, in addition, several special, exclusive advantages applicable only to the Western Half.
I. The Company has received from the State and chief cities of California, *assistance in money, credit and valuable property, worth over $3,000,000* in gold, in addition to the full benefit of the Government subsidy.
II. *The hardest and costliest part of its construction has been successfully overcome* within the first 150 miles. In a few weeks the track will be completed entirely across the Sierra Nevadas, after which progress to Salt Lake will be easy and rapid.
III. The local business alone of this road establishes its complete financial success, independently of the vast through traffic which must pass over it. The gold receipts for the months of June and July, upon the 91 miles then open for business, were upward of $297,000 in gold; of which *four-fifths* were net earnings.
IV. It can have no competition, but will carry, besides its own immense local traffic, *the whole volume of through business* which is shared among its Eastern connections and their branches.
V. The road lies wholly in territory yielding the precious metals, *and its revenues are collected in coin.* Its duties are imposed at a very advantageous, being more than three hundred miles of roads lying east of it; and the *ratio of operating expenses is less than 25 per cent. of the gross earnings.*
VI. In consequence of the aid it receives from the General Government, from the State of California, and from municipal sources, and the annual interest obligations which the Company are called upon to assume are very light. The net earnings upon an average of about 75 miles in 1865 were *nearly three times the amount of annual interest liabilities to be assumed in building it, and were $235,000 more than the annual interest on the entire amount of First Mortgage Bonds which the Company can issue upon the first 150 miles.*
The Company offer for sale, through us, their
First Mortgage Thirty Year, Six per Cent, Coupon Bonds.
Principal and Interest payable in Gold Coin, in New York city. They are in sum of $1000 each, with semi-annual gold coupons attached, and are selling for the present at 95 per cent. and accrued interest from July 1st added in currency, at which rate they yield nearly
Nine per Cent. upon the Investment.
These Bonds, authorized by Act of Congress, are issued only as the work progresses, and to the same amount only as the Bonds granted by the Government; and represent, in all cases, *the first lien upon a completed, equipped and productive* railroad, in which have been invested Government subsidies, stock subscriptions, donations, local earnings, &c., and which is worth more than three times the amount of First Mortgage Bonds which can be issued upon it.
The sagacious plan adopted to pay principal and interest of their Bonds in coin, being made under the Special Contract Law of California, authorizing and requiring the payment of gold, *is legally binding*, unlike similar agreements made by companies in States where no such legislative sanction exists.
In these important particulars the Securities of the Central Pacific Company *offer an unusual degree of safety, stability and value.*
THE FIRST MORTGAGE BONDS of the Company are destined to occupy a prominent place among the FIRST-CLASS SECURITIES in the money markets of this country and Europe, and will, without doubt, be eagerly sought for, and anxiously held in hereditary, safe trusts, usually in advance of the price at which they are now offered.
Having carefully investigated the resources, progress and prospects of the road, and the management of the Company's affairs, we cordially recommend these Bonds to Trustees, Executors, Institutions and others as an eminently *sound, reliable and remunerative form of permanent investment.*

A Column From the Portsmouth Journal.

JOHN S. JENNESS.—We last week recorded the death of this gentleman, at the Pemigewasset House at Plymouth, at the ago of 73. Sometime since he had an attack of paralysis, and has long been in feeble health. He was the oldest son of late Thomas Jenness of Deerfield, and a brother of Peter and Richard Jenness of Portsmouth, and of B. W. Jenness of Cleveland, Ohio. He leaves a large number of relatives. He commenced trade in Portsmouth many years ago, and removed to Boston about the year 1836. He was for a long time the senior partner in the wholesale Dry Goods house of Jenness, Gage & Co. He was also long connected in business with Mr. John A. Lyon of Boston, the President of the Concord & Montreal Railroad. He was remarkably successful in business and owned large amounts of property in Massachusetts, Maine and elsewhere. It is supposed he leaves an estate of upwards of half a million of dollars in value. He was a man of great intelligence and force of character. In politics he was strongly conservative. He never married, and he left no will.

THE TOMATO.—A handsome Tomato, weighing 37 ounces, was raised this year in the garden of Mrs. M. Parry Jones, State-street. We never saw a handsomer specimen. When we began to set types, the Tomato or Love Apple, was not used in the United States as an article of food. In 1818, the first use of it was made in the interior of New York. More than ten years elapsed before it was introduced into New Hampshire. The first culture of it for use, of which we have any knowledge, was on the farm of Ichabod Bartlett, near Gravelly-ridge, and it was some years before it came into general use. Now everybody raises them, everybody eats them, and everybody pronounces them very good.

The above specimen, to be seen at Mr. H. H. Hans' store. It was from a cluster of five, which together weighed over ten pounds. These mammoth tomatoes were produced by saving the seed of the largest ones for several successive years. The vine runs eight feet high, showing the fruits to the top.

PEARSON'S CREAM BISCUIT.—We have seen and tasted a specimen of this novel article, which only needs to be known, to be used in every family. They are as light as "air sublimated," and yet they contain a great amount of nutriment, and hence have done wonders in unconsciously, (to the debilitated,) building up weak constitutions. They are better than medicine to the dyspeptic, and substantial food to the healthy. The manufacturer of this choice article is a son of Mr. John Pearson, who formerly baked on Church hill in this city. The Biscuit may be found at all our principal groceries.

HORTICULTURAL SOCIETY OF PORTSMOUTH AND VICINITY.

Messrs. Brewster,—I am glad to announce to all cultivators and lovers of flowers, fruits and vegetables, that a Horticultural Society has just been formed in this city; and it is intended to comprise as its numbers all who feel an interest in the cultivation of the soil in Portsmouth and its vicinity.

The yearly payment of one dollar constitutes a membership, and secures a ticket for admission to the exhibition.

The first display of flowers, fruits and vegetables is to take place at the Temple on Tuesday and Wednesday, Sept. 24th and 25th. *All* who are disposed to lend their aid, are cordially invited to send in contributions of boquets, fruits or vegetables.

We feel confident that we have amongst us sufficient material for an exhibition, that cannot be surpassed by any local display in New England.

A paper can be found at the stores of W. R. Preston, J. F. Shores, Jr., H. M. Clark, and J. H. Foster, where those who wish can enrol their names as members of the Society. P.

BOILED CORN.—One of the richest and most wholesome breakfast dishes of green corn is made as follows: Take the boiled corn which was left the day before, cut it from the cob and chop it with an equal quantity of yesterday's boiled potatoes. Boil some milk in a pan, to which add a piece of butter and some salt. Put in the corn and potatoes, stir it and warm it—and you will have a choice dish for breakfast, than which nothing relishes better.

EPISCOPALIANS IN GREENLAND.—The intimation in our last that a pew would hold them was wrong. We have seen a list of about forty men who asked the use of Greenland Academy for the Episcopalian service. These with their families would make pretty full audience. We should be pleased to see them increased ten fold in their numbers and Christian graces.

STILL LIVER.—We last week copied from another paper the death in Rye of Miss Hitty Robinson, of this city. We are pleased to learn from undoubted authority that she still lives, and will probably ere long be able to do her own house scrubbing, in which honest occupation she has been employed for many years. The announcement made probably arose from the death of a less reputable person of a like name.

CORRADEUR.—One day last week, a lady in an adjoining town climbed upon the hay mow in the barn, in search of hen's eggs. Putting her hand down in the hay, she felt something move; on looking she discovered a large adder. Her first impulse was to call for help, but fearing she would lose sight of him, she went down the ladder, got a large stick, went up again to his resting place, killed him, and threw him down to the floor; then took him on a pole and brought him to the house. He was found, upon measuring, to be 3 feet 3 inches long.—*Monitor.*

The Representatives of Strafford county, to whom the question of the removal of the jail from its present location to some other point was sometime since referred, had an adjourned meeting on Monday, and voted seventeen to ten in favor of the erection of a new jail at the County farm, two miles from Dover on the Rochester road. The old jail is to be sold. The new jail is to cost about $12,000, and is to be of brick on the outside with slated roof, and the inside will be made very strong by the use of rolled iron. The experiment is a doubtful one of having the jail so far from the court room, and the increased expense of transportation, the danger of escape on the part of the criminals and the unbecomingness of mingling paupers with criminals are no trifling considerations, says an exchange.

DOWNER
KEROSENE OIL CO.
Office, No. 108 *Water Street, Boston.*

TO CONSUMERS OF OIL.
CAUTION.

It having come to our knowledge that many dealers, both in New England, are in the habit of buying small quantities of our Oils, and in larger quantities of inferior oils, and using our brand and packages fraudulently in the sale of these inferior oils, we are determined to stop such frauds, and hereby offer a **Reward of 100 Dollars** for information that will lead to the detection and punishment of any party using our name or brand in the sale of any other than our own Oil. The "**Downer Kerosene Oil**" has been frequently tested and analyzed by Dr. A. A. HAYES, State Assayer, and in a communication to us, dated July 5, 1867, he says: "The term 'Kerosene' as used by the **Downer Oil Company**, applies to the highest grade of Oil only, which, our trials show, does not inflame below 120 degrees Fahrenheit, and carries the assurance of both safety and excellence with it; while the mixed Oils are not only unsafe, but in causing accidents, destroy confidence in the safe and excellent article for affording light produced by the honest manufacturer."

GLEASON HALL
PRESENTATION FESTIVAL.
The Fourth and Last Grand Concert
Of the Gleason Hall Presentation Festival, under the auspices of DORING'S BAND,
Will positively take place on
Thursday Evening, October 10, 1867,
AT GLEASON HALL, WEST TROY, N. Y.

The first, second and third Concerts of the series took place (as per former advertisements), on July 25th, Aug. 8th and 29th, and gave unlimited satisfaction, the large Hall being filled to overflowing on each of the above evenings with a refined and appreciative audience from all parts of the State. There was a committee of three reliable and well-known gentlemen selected by the audience on the night of the first Concert to superintend the drawing, which will positively take place on the evening of the last Concert. The Committee are most desirous that all ticket holders should be present to witness the drawing, and thereby remove all manner of any doubt as to the fairness of the transaction. They also assure those who cannot make it convenient to be present, that their interests will be guarded the same as if they were present. The tickets, which have been limited to 75,000, at

ONE DOLLAR EACH,

can be procured by addressing JOHN H. CASEY, Box 69, West Troy, N. Y., or any of the Agents throughout the United States. There will be a present to the holder of every ticket drawn. Among the presents to be awarded are the following:—

DREADFUL SUFFERING AT SEA.—Full particulars of the loss of the miniature yacht John T. Ford, which sailed from Baltimore for Havre, are given by the English papers. The seaman Armstrong, who alone survives, gives the following statement, which ought to constitute in itself a warning against the suicidal foolishness of men who risk their lives in doing what has neither utility nor common sense to commend it:

In all kinds of weather two out of the crew of four had to be on deck, as there was only room for two below, and then they were cramped up. On 29th, strong wind with heavy sea, the boat under foresail, shipped a sea and capsized; righted again in a minute. The water damaged all the bread and books, and wetted all the clothes. Aug. 2d, moderate weather, spoke a barque, asked for bread, but they could not supply any, but gave a bottle of rum and a little tobacco. The 5th, wind strong, a sea struck the boat; she turned over again, but righted almost immediately, and lost all their oil and the principal part of their water, which placed them in great distress.—They were all suffering very much from cramp and pains in their legs. The 8th, spoke a ship, got a supply of bread, a little oil and tobacco. The master of the ship did not report the miserable state they were in. Shortly afterward got out of oil again, and had no light for the compass or to make anything warm to eat or drink. They cut up the boards that secured the ballast, and all the internal fittings of the boat, to burn. Aug. 17, spoke a barque, which furnished them with a little bread and a few candles. Experienced very heavy weather, with cross sea. Monday, 19th, sea struck the boat and turned her over, and the ballast boards having been burnt, the ballast shifted, and all on board were thrown into the water.

The boat kept revolving round as all the crew were trying to get on her, until the lad got entangled between the rigging and the mast, and by that means she was kept steady until they all got on her. She continued on her side, and two of the hands were on her mast and two on the side of her keel. They were in that position all that night, frequently being washed off and on, until next day, when they observed a brig bearing down upon them. They were all cheered with the hopes of speedy relief, but instead of rendering them any aid, she came close to them, hoisted Dutch colors, and stood away without giving them any assistance.

About an hour after, the mate, John Shanney, asked Armstrong to pray for him. They all prayed together, and continued so for some time, and while they were so engaged they were now and then washed off and on the bottom of the boat. Shortly afterward the ears of the mate were observed to swell very much, his eyes protruded. He shook hands with all of them, then took his wife's likeness out and kissed it, after which he became very excited, and bit the captain's thigh. The captain pushed him from him, and said, "John, for God's sake don't bite me." The mate then fell over the boat and sunk immediately. The lad (Edward Murphy) asked Armstrong to make him fast. He did so to his belt.—Shortly afterward a sea swept him away, and then the captain and the survivor, Armstrong, were washed off. The captain cried, "God help my poor wife and family," and then sunk. Armstrong succeeded in regaining the boat, and remained on the bottom of the craft without the least food or nourishment, and being often washed off by heavy seas, until the 23d, when the ship Aerolite of Liverpool hove in sight and rescued him from his perilous position. He was much exhausted and almost insensible when taken on board.

THE "CHAMPION" BUSINESS.—The New York Times thinks the champion business is considerably overdone. We have billiard champions, fighting champions of half a dozen sorts, heavy weights, catch weights; base ball champions, quoit champions, running, leaping, swimming, shooting, walking, singing, dancing and skating champions. Each trade has its champions; there is a type-setter, a calf butcher, a chair-maker, and a score of others, each of whom claims the championship in his own particular department. Then we have champion yachts, horses, skiffs, billiard tables, &c., and the cry is still they keep coming. Let the "champion" business subside; the thing is a nuisance. A new hobby is wanted.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of the U. S. Patent Office, Washington under the Act of 1837.
No. 78 State street (opposite Kilby street,)
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, Bonds, and all papers or drawings for Patents, executed on reasonable terms, with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded in Washington.
No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.
During eight months the subscriber, in the course of his large practice, made on *twice* rejected applications, SIXTEEN APPEALS; *every one* of which was decided *in his favor* by the Commissioner of Patents.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHAS. MASON,"
Commissioner of Patents.
"I have no hesitation in assuring inventors that they can not employ a man *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent office. EDMUND BURKE,"
Late Commissioner of Patents.
"Mr. R. H. EDDY has made for me THIRTEEN applications, in all but *ONE* of which patents have been granted, and that one is *now pending*. Such unmistakable proof of great talent and ability on his part, leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges JOHN TAGHART."

THE STOVE FOR THE MILLION!
THE
KEARSARGE
HAS NOT BEEN BEATEN!
URIAH BLAISDELL,
NO. 43 MARKET STREET,
Takes pleasure, as the cold season approaches, in again inviting public attention to this superior
COOK STOVE!
Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well with WOOD OR COAL, an economizer of fuel, and a heavy, well-made and durable Stove, as it is a neat and symetrical one. It has been in no Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified encomiums of its numerous purchasers—of all who know what a good stove is and how to appreciate it.
Pleasure is taken in showing the KEARSARGE and all in want of a stove of the first merit at a moderate price, are invited to call and examine it whether they purchase or not.

The Daily Chronicle.

Portsmouth, N. H.

WEDNESDAY, SEPTEMBER 17, 1867.

WASHINGTON ITEMS.—The N. Y. Times' special says the President will officially recommend reopening of registration at the South and postponement of elections.—The subject has not been referred to Gen. Grant.

The President assures collector Smythe that Secretary McCulloch will not be removed.

Gen. Howard has ordered a reduction of the force of employees by assistant commissioners, and Gen. Grant has ordered co-operation by detailing subordinates.

Gen. Grant has ordered Gen. Mower to the command of the department of the Gulf to succeed Gen. Griffin, and Major Ronold to the command of the district of Texas.

Gen. Grant will not attend the Antietam celebration.

Gen. Hancock comes to Washington at the request of the President.

Gen. Sheridan will stop at Chicago and New York en route to Washington.

WASHINGTON ITEMS.—Ex-Mayor Withers of Mobile is urging the removal of Gen. Pope.

The friends of Steedman announce their intention of abandoning the urging of him for the War Office, fearing non-confirmation.

The Herald's Washington special says it is semi-officially announced that there will be no immediate Cabinet changes.

Senator Thayer and J. Forney have had a long interview with General Grant.

The Clerk of the House has arrived to open bids for stationery.

The World's special says Gen. Schofield's order is considered a disregard of the President's wishes, and it is rumored that the order was issued at the suggestion of Gen. Grant.

☞ In reply to an anonymous circular distributed from Chicago, giving "sixteen reasons why General Grant should not be the Republican candidate for President," and closing with fulsome praise of Hon. Schuyler Colfax, and which some persons have attributed to the friends of the last named gentleman—he authorizes the South Bend (Ind.) Register to say "that instead of 'countenancing this style of attack,' he utterly repudiates and condemns the whole circular, and all its charges and insinuations against General Grant from beginning to end. Nor does Mr. C. believe that any friend of his had any agency whatever in its preparation, printing or circulation."

FEELERS.—The Washington Intelligencer of Monday declares that the Judiciary is simply the judge of a law, but that the President is the judge of those public events and combinations which threaten the overthrow of the Constitution and the supremacy of the law. It therefore urges him to employ all his authority to preserve the Constitution and put down what it calls a wide spread conspiracy to overthrow the Constitution, as evinced in the enforcement of the Reconstruction act. The writer of the article has of late had frequent interviews with Mr. Johnson, and unusual significance is attached to the editorial in political quarters.

[It is not certain whether the writer is Mr. J.'s tool, or Mr. J. is his tool; but however that may be, no one need to doubt that both of them will do all the mischief they can. But then there are higher powers in which good men trust, and the reign of crazy or drunken magistrates may come to a sudden close.]

— Edward White, the Milwaukee pork packer who filled his barrels with salt and sand, has been sentenced to three years in the State Prison.

— It is ascertained that the Democrats in California have eighteen majority in the House. On joint ballot the Union men will have two majority.

— The Government has refused to give up the trunk of J. Wilkes Booth and its contents to Edwin Booth. The assassin had left the trunk at the National Hotel at Washington.

— Among the dead of yellow fever at New Orleans were a man and wife who leave seven children, all girls under ten years old, in destitute circumstances. He was a Jew and the children will be cared for.

— Mr. John L. E. Trask, of Gloucester, having declined the call of the Congregational Church in Georgetown, who are to occupy the magnificent edifice erected by the munificence of George Peabody, has received a call from the church in Holyoke.

—Mr. Boutwell considers Mr. Johnson able as well as faithless. The Transcript cannot see how a man can be called able when he has not the art to conceal his faithlessness from the simplest observer. Providence, in permitting Mr. Johnson to have the will to deceive, seems at the same time to have deprived him of the art of deceiving.

NEW HAMPSHIRE ITEMS.

—— Rev. Joseph M. Driver, recently of North Beverly, has become pastor of the Baptist church in Hampton Falls, N. H.

—— Two burglars broke into a grocery store in Lebanon, last Saturday night; and both were caught, but one escaped. His accomplice, now in custody, calls him Charles Henry. They had quite a variety of small stolen goods.

—— Margaret Terrence, a noted thief, is in jail at Manchester, for robbing Enoch P. Marshall, Esq., of Dunbarton, of $700 in money, and a gold watch. It appears from Manchester papers, that Marshall, who is a man of good reputation, sold some butter in a saloon in M., where he drank a glass of ale, and talked with some people, and has no recollection afterwards, till he was found in a distant part of the city.—But witnesses saw Margaret with him in the streets, leading him, and offering a man $5 to help her get her father home, as he was drunk. It is supposed she had an accomplice, and that the man was drugged.

MAINE ELECTION.—The Bangor Whig gives returns from nearly 400 towns and plantations, embracing over nine-tenths of the vote of Maine. In these towns Gov. Chamberlain has 53,711 votes, Mr. Pillsbury, 42,163; majority 11,548. Last year the same towns gave for Chamberlain 63,708, for Pillsbury 38,589; majority 25,199. The towns not heard from gave last year for Chamberlain 5929, for Pillsbury 3276. Governor Chamberlain's majority this year will be not far from 14,000. There are also returns from the Legislature, embracing 25 Republicans and 3 Democrats in the Senate (no choice of three in York county), and 93 Republicans and 40 Democrats in the House—18 Districts not heard from.

The Bath Times of Monday says "the returns have so far knocked the bottom out of the Democratic well, that York and Aroostook have escaped them, and their Senators elect have dwindled from the favorite and mystical number of seven to the undesirable and unfortunate number of three."

ADMIRAL FARRAGUT.—On Monday, Sept. 16, at Copenhagen, Admiral Farragut was entertained at a grand fete given in his honor by the United States Minister, George H. Yeaman. All the Americans in the city—visitors and residents—took part in the festivities. Several members of the Danish Government and many officers of the Danish Navy were present, and vied with his countrymen in doing honor to the distinguished guest. The entertainment concluded with a dinner, at which speeches were made by both Americans and Danes, heartily welcoming the Admiral, and toasts were drank to his health and to the welfare of the United States.

A DICTIONARY OF THE BIBLE, comprising its Antiquities, Biography, Geography and Natural History, with Illustrations and Maps, edited by William Smith, Classical Examiner of the University of London. This is a well printed volome of 1000 pages, just published by S. S. Scranton & Co., Hartford, Conn. It is compiled from the best and latest authorities, and will be a popular and useful book of its kind, as it is adapted to students of the Bible, without distinction of sect, especially in Sunday Schools, Bible classes and families. It will command a speedy and large sale.

GOLD, Tuesday, 144 3-4.

— Henry Ward Beecher has the asthma, and did not preach last Sunday.

— During the great demonstration in honor of Gen. Sheridan in St. Louis, a liquor dealer's window was broken by the excited crowd. Thereupon he sent a bill of $18 to the General.

— A Canadian, named Richards, fell into a large vat of potash water, heated to about 170 degrees, at the bleachery of H. H. Stevens in Dudley, on the 13th inst., and was so badly scalded that he died on the next morning.

— It has transpired that the real cause of weakness of the Farmers & Citizens' National Bank of Brooklyn is the fact that four firms, members of which are all Directors in the Bank, owe the institution more than $300,000, which was not considered by the Comptroller as perfectly good debts.

— A firman from the Sublime Porte, granting a general amnesty to the Greek insurgents in the Island of Candia, has just been officially promulgated. The Turkish Government has concluded not to send to Candia, as first proposed, a mixed commission consisting of Ottoman and Greek members to inquire into and report upon the grievances of the Cretans.

— Gen. Grant received from Gen. Schofield a telegram comunicating the important fact that he had ordered the election in Virginia for the 22d of October under the Reconstruction act, thus disregarding the suggestion which the President had made for uniform elections in all the Southern States on the first Tuesday in November. The fact elicits considerable comment, and the friends of the President say that he will certainly remove Schofield unless he postpones his election order.

☞ Ever since we remember, we have somehow been conscious that "Pearson" on bread, like "Freeman" on oysters, was guaranty sufficient for the quality of their several specialities. And wherever the proof of the pudding is, we have proved to our satisfaction, that the new cream biscuit of Pearson's is literally as much superior to the egg biscuit which it so much resembles in appearance, as cheese to chalk.

These Newburyport Pearsons have been famous bakers for three generations. The old gentleman, Mr. John Pearson senior, who is still living in Newburyport at the age of 80 years,—was, we believe, a native of Portsmouth, and at any rate was for some years in the business here; removed to Exeter, we think, and thence to Newburyport, where he continued baking, as his son John jr. still continues.

We have heard that the other bakers in that city, finding they could not equal his cookery, hired the old gentleman to leave town, and promised to pay him $500 for so doing; and he removed to Portland,—but as his rivals failed to pay the money, he returned to Newburyport, and is there today, hale and hearty;—but we regret that although he has never "failed" to make toothsome bread, nor to pay 100 cents on a dollar, yet he has not a great store of this world's goods. Still, as he says if he was to live his life over again, he should follow the baking business; and as his son is in it, and his grandson drives the cart which circulates the nice cream buscuit referred to, we may conclude the occupation is natural to the family.

DO HORSE RAILROADS PAY?—The Lowell Courier shows the success of the horse railroad in that city—which was ridiculed at the building, and the projector thought to be insane—by giving the figures for the month of August for the four years past: the travel has nearly doubled. So it always is with cheap and easy modes of conveyance—railways, by steam or horse power. They create their own business.—The travel between Rockport and Gloucester has more than trebled during the six years the cars have been running, and the business of the road is constantly increasing. A railroad around the Cape would prove self-supporting in two years, and soon begin to pay handsome dividends.—To East Gloucester the rails cannot be laid too soon, as the prosperity of the villages on either side of the harbor is retarded by the delay.—*Tel.*

Just so the omnibuses to Kittery and Newcastle—especially the latter, have greatly increased the travel between those points and this city. We have long thought a horse railroad on that route would pay, and perhaps to Rye Beach also.

☞ The patent Clark rein we advertise again this morning, combines both check rein and driving rein in one, and gives more than all the excellencies of both.—There is no need to add anything to the testimonials given in the advertisement; but having personally tested the article, we can cordially recommend it as very useful and desirable. The writer of this has a spirited and fleet mare, which carries a low head and pulls unpleasantly, and when speeded draws unequally on one rein and swerves to one side, with common rig; but with this simple little appliance, as shown in the cut, her style of carriage is greatly improved, and she can be kept straight and more easily held with two fingers, than with all the strength of both hands without it.—For double teams it is especially desirable, as it not only keeps both horses alike in style, but enables the driver to ease off his team or "pick them up" speedily, as he chooses.

☞ On Sunday night, at East Abington, Mass., the house of Jarius Keene, who is absent in New Orleans, was destroyed by fire, and two daughters and only children, Abby, aged 19, and Lucy, 21, perished in the flames. The mother slept in the lower part of the house, and the daughters in a chamber overhead. The daughters had been to an evening meeting, and it is supposed that as they hung their clothes in a closet, they accidentally set them on fire by the light they carried.

THE GOOD SAMARITAN.—The good Samaritan poured oil and wine into the wounds of the unfortunate Jew who had been beaten and left for dead; but James Pyle pours into the market the best Saleratus ever made, proving himself a greater benefactor than was the good Samaritan. Housekeepers should ask for Pyle's Saleratus, and see that his name is on each package.

MARTYRS TO CARELESSNESS.—If all the teeth that have been ruined by neglect could be strung together, they would reach thrice round the world. There may have been some excuse for this havoc in days gone by, when there was no absolute safeguard against dental decay in existence, but there is no apology for it now.—FRAGRANT SOZODONT, the world-renowned antiseptic dentifrice, as certainly protects the teeth against decay, as oil prevents steel from rusting, or water arrests the progress of fire. 1y

VINUM BONUM SANGUINEM FACIT.—Speer's Sambucl Wine makes good blood and imparts new life and tone to the whole system. Excellent for kidney affections, and the best tonic for ladies, weakly persons and invalids. Sold by druggists.

— Dyspeptic persons, would you be cured of this dreadful disease, and all others arising from the use of common Saleratus? Also, have light white and healthy bread and biscuit? Do not fail to procure a paper of Herrick Allen's Gold Medal Saleratus after which you will never use any other. It is the best in the world. Try it. Call on you Grocer for it. DIRECTIONS FOR
MAKING YOUR OWN SOAP
WITH YOUR WASTE GREASE!
Penn'a Salt M'fg Co.'s Renowned
SAPONIFIER:
(Patents of 1st and 8th Feb., 1859,) OR CONCENTRATED LYE!
Two Cents only for every pound of Soap.
DIRECTIONS.—Dissolve one box of Lye in 2½ pounds (pints) of hot water, in an iron pot. Melt in another pot or pan 5 lbs. of clean fat or grease. Take off the fire, and into *this* stir slowly the dissolved lye, and keep stirring until the whole becomes well mixed and like molasses. Now cover up, and set in a warm place over night. Next day cut up into small pieces, add 6 lbs. (or pints) of water, and melt with a gentle heat until the soap is *all dissolved*, then pour into a tub to cool. When cold cut into bars, which will be fit to use in about ten days.
Beware of Counterfeits.—Be particular in asking for PENN'A SALT MFG CO'S SAPONIFIER. dl—eowdawly

A NEW GLEE BOOK.
THE GREETING.—A collection of Glees, Quartetts, Choruses, Part-Songs, &c., By L. O. Emerson. Author of "The Jubilate," "Harp of Judah," "Golden Wreath," "Merry Chimes," &c.
Upwards of half a million copies of Mr. Emerson's Music Books have been sold, a fact proving a popularity which has rewarded no other author of the same class of books, and which enables us to insure for this new volume an immense sale.—The contents of this work are, for the most part, NEW. A large proportion of valuable pieces have been contributed by Mr. L. H. Southard, whose name is a sufficient guarantee of their excellence. The main feature of the collection is its originality, Brilliancy and Variety; and it will be found, upon careful examination, that there is no Glee Book ever before the public that contains so many Musical Societies and Conventions, Conservatories, Clubs and Amateur Singers. Price $1.38. Mailed post paid. OLIVER DITSON & CO., Publishers, 277 Washington street, Boston.

Local.

☞ The funeral of Mr. Howard M. Somerby at the Middle Street Church on Tuesday afternoon, was very numerously attended. Mount Tabor Lodge F. A. M. of East Boston, of which deceased was a member, attended, and also a very large number of the workmen in the shops of the Eastern R. R. Co., in the same place. A good number of St. John's and St. Andrew's Lodges, attended by the Portsmouth Cornet Band, escorted the visitors and mourners. The funeral services at the church were most feelingly conducted by Rev. Mr. Cudworth of Mount Tabor Lodge, and Unitarian pastor at East Boston.

☞ Among the projected improvements to be made in the streets of our city, is the continuation of the sidewalk from the Unitarian Church to the residence of John N. Handy, on State street. A portion of the footway there seems to be in the same condition as when Fernando Gorges lauded here nearly two centuries and a half since. The great travel upon this thoroughfare on the Sabbath, has often carried a query in the minds of many as to how this need for more pedestrian accommodation has been so long neglected.

☞ The U. S. Circuit Court had an adjourned term Tuesday, Judge Clark presiding. The continued case of "The Dental Vulcanite Company" vs. Dr. Severance of Salmon Falls and Dr. Gill of Great Falls.—The pffs. applying for an injunction against defts. to prevent an infringement of Patent for a new improvement in artificial gums and palates of hard rubber vulcanite. C. Brown of Boston for pffs. and S. H. Goodall for defts. Decision reserved.

☞ On Tuesday the visiting firemen from Newburyport changed their programme a little, and were deterred from going to the clam bake by the impossibility of reaching the carsin season to arrive home that night. In the forenoon they visited the Navy Yard, and at night they left for home, well pleased with their reception here.

☞ Mr. Martin Hoyt, hair dresser, of this city, was on board the Kearsarge when she sunk the piratcer Alabama. A few days since he thought he recognized in a customer, one whom he had met before; and a little conversation proved the stranger to have been an engineer on board the rebel craft.

☞ Major Gen. George G. Meade and Staff (Gen. Markoe, Col. Sanders and Col. Meade,) arrived in our city on Tuesday forenoon, having been on an eastern tour of inspection. They visited Fort Constitution, and left on the evening train for the West.

INFECTED SHIPS.—U. S. Steamer Tacony arrived at quarantine on Monday.
Two men on board the Tacony have died, and 20 are on the sick list, but are improving.
It is reported that the Sunapee, from Hampton Roads, and the Mahaska from New Orleans, are also ordered to this station.

☞ Dr. Carpenter the well known Occulist and Aurist, is now engaged in active practice at the Franklin House in this city. The Doctor devotes his attention exclusively to diseases of the eye, ear, throat, and catarrhal affections, and comes to us with the best of recommendations. Persons interested may consult him at once.

POLICE COURT, Sept. 17.—Wm. C. Wiley et als. on charge of stealing a watch from the store of Charles T. Emery. Joseph W. Davis was discharged and Wiley gave $200 bail for his appearance at the October term S. J. C.

PROMOTED.—D. Horace Holman of this city, and formerly of Biddeford, Me., has been promoted from a "writer" on the Navy Yard to "Store-keeper" in the Bureau of Steam Engineering. Mr. Holman was in the 5th Maine regiment, and was wounded at West Point, Va.

☞ A buggy containing a lady and gentleman, was overset at the corner of Market and Russell streets, on Sunday afternoon, the lady's face considerably scarred and the carriage wrecked.

☞ The pickpockets who are following the European Circus continue to reap a fair harvest. At Exeter, on Monday, John Norris had his pocket picked of $130 while buying a ticket, and one or two other losses were reported by individuals whose names we did not ascertain.

☞ The County Convention at Exeter, Tuesday, voted $2 to 13, not to purchase a County Farm at present.

☞ The U. S. District Court, Judge Clark, met in this city Tuesday. No business of importance was transacted.

☞ A lady from Hampton had her pocket picked of a small amount while visiting our city on Monday.

☞ Peterson's Magazine for October is received, and may be had at the bookstores of Messrs. Shores, Foster and Head.

☞ A good live Boy can have an opportunity to carry a Chronicle list.

☞ The Committee of Arrangements for the Mechanic Association's excursion visited Portland on Tuesday and secured a room in Mechanics' Hall building for the convenience of those who may go there on Thursday. The room is on the lower floor, easy of access, and will be used by the excursionists as headquarters for the day.

☞ Indian hostilities have been renewed on the Smoky Hill route. In a late attack Lieut. Howard lost a horse and $5000 in currency. White men disguised as Indians were among the attacking party of Indians; two were killed.

☞ Dr. Dio Lewis' School for Young Ladies will open as advertised, on the 25th inst., at the Spy-Pond House, within five miles of Boston, on the Lexington Railroad.

—A correspondent of a Southern paper, speaking about impeachment, affirms that "Mr. Johnson's friends say that he will meet the attempt to oust him from his position in a manner which will astonish everybody."

☞ Holloway's Pills.—Dizziness—Headache.—Who would with patience suffer the pangs of excruciating headache—the gnawing stings of indigestion, the sickening nausea of biliousness, the horror of shattered nerves, the broken and troubled sleep—with the gradual constitutional decay from excess—when these evils may be avoided or permanently cured by the agency of these invaluable medicines. Sold by all druggists. s14daw1w

ACROSS THE SIERRA NEVADAS.
THE
CENTRAL PACIFIC RAILROAD,
THE WESTERN HALF OF THE
GREAT NATIONAL TRUNK LINE
ACROSS THE CONTINENT,
being constructed with the AID and SUPERVISION OF UNITED STATES GOVERNMENT, is destined to be one of the MOST IMPORTANT LINES FOR COMMUNICATION IN THE WORLD, as it is the *sole link between the Pacific Coast and the Great Interior Basin*, over which the immense Overland Travel must pass to and from the
Principal Portion of the Main Steam Line between the Two Oceans.
Its line extends from Sacramento, on the tidal waters of the Pacific, eastward across the richest and most populous parts of California, Nevada and Utah, contiguous to all the great Mining Regions of the Far West, and will meet and connect with the roads now building east of the Rocky Mountains. About 100 miles are now built, equipped and in running operation to the summit of the Sierra Nevada Mountains. In a few days 35 miles, now graded, will be added, and the track carried entirely across the mountains to a point in the Great Salt Lake Valley, whence further progress will be easy and rapid. Iron, materials and equipment are ready at hand for 300 miles of road, and 10,000 men are employed in the construction.
The local business upon the completed portion of itself far previous estimate. The figures for the quarter ending August 31 are as follows in GOLD:

GROSS EARNINGS.	OPERATING EXPENSES.	NET EARNINGS,
$487,079 61	$86,548 47	$401,031 17

or at the rate of two millions per annum, of which the net profit on the fourth of this sum will be less than 100 miles worked. This is the only national legitimate traffic of the road, with its terminus in the populous city of Sacramento, and the only one normal ratio of government transportation, and is exclusive of the materials carried for the further extension of the road.
The Company's interest liabilities during the same period were less than $125,000.
And to this are ever expanding through traffic and the proportions of the latter must become immense.
The Company are authorized to continue their line eastward until it shall meet and connect with the roads now building east of the Rocky Mountain ranges.
Assuming that they will build and control half the entire distance between the San Francisco and the Missouri River, as now seems probable, the United States will have invested in the completion of 865 miles $28,892,000, or at the average rate of $33,000 per mile—no including an absolute grant of 10,000,000 acres of the Public Lands. By becoming a joint investor in the magnificent enterprise, and by waiving its first lien in favor of the First Mortgage Bondholders, the GENERAL GOVERNMENT, IN EFFECT, INVITES THE CO-OPERATION OF PRIVATE CAPITALISTS, and its carefully guarded their interests against all ordinary contingencies.
The Company offer for sale, through us, their
First Mortgage Thirty Year, Six per Cent. Coupon Bonds.
Principal and interest payable in Gold Coin, in New York city. They are in sums of $1000 each, with semi-annual gold coupons attached, and are selling for the present at 95 per cent and accrued interest from July 1st added in currency, at which rate they yield nearly
Nine per Cent. upon the Investment.
These Bonds, authorized by Act of Congress, and secured only as the work progresses, and to the same amount only as the Bonds granted by the Government; and represent, in all cases, the *first lien* upon a completed, equipped and productive railroad, in which have been invested Government subsidies, stock subscriptions, donations, unpaid earnings, etc., and which is worth more than three times the amount of First Mortgage Bonds which can be issued upon it.
The Central Pacific First Mortgage Bonds have all the sanctions, sanctions and guarantees of the Pacific Railroad Act of Congress, and have in addition several incontestible advantages over all other classes of railroad bonds.
First—They are the superior claim upon altogether the most vital and valuable portion of the through line.
Second—Beside the fullest benefit of the Government subsidy, (which is a subordinate lien,) they also receive the benefit of large donations from California.
Third—Fully half the whole cost of grading 800 miles eastward of San Francisco is concentrated upon the 150 miles now about being completed.
Fourth—A local business already yielding three-fold the annual interest liabilities, with advantageous rates payable in coin
Fifth—The principal as well as the interest of its Bonds being payable in coin, upon a legally binding agreement.
Having carefully investigated the resources, progress and prospects of the road, and the management of the Company's affairs, we cordially recommend these Bonds to Trustees, Executors, Institutions and Capitalists, as eminently sound, *reliable and remunerative form of permanent investment.*

Morning Chronicle.

FRANCESTOWN, N. H., is, like most of the other villages here-about, very small.—It is celebrated for its soap-stone quarries and Academy. Its streets are very prettily laid out, flanked on either side by large trees of different varieties, and altogether is as handsome a place as one would wish to live in.

The soap stone quarries are about a mile and a half from the village, and are worked quite extensively. The first things that announced our approach to them were the tall derricks, reminding me of the granite quarries at Rockport,—the only resemblance between the two, in looks or mode of getting out the blocks. I had expected to see them drilling and blasting it out, and thought that my previous experience in the Cape Ann quarries would render me quite familiar with the process. But the nature of the soap-stone is so "crumbly" that it will not admit of being blasted. Instead of drills, long rods of steel are used, sharpened on one end like a chisel, which are worked by hand, making a seam about an inch in width, and as long as they wish the block to be. A crow-bar is then inserted and the block easily started from its bed. On the whole I should take it to be quite as laborious as working on granite.

The sides of the ledge are very smooth, and do not present that jagged appearance which distinguishes granite quarries. The stone is very valuable, more so than I supposed. The price varies, according to the size of the blocks, ranging from forty-five to seventy-five dollars; one fine specimen, about ten feet long and from three to four feet square, weighing seven tons, was worth the modest sum of seventy-five dollars per ton.

There is an engine, similar to those used in the oil wells in Pennsylvania, on the edge of the quarry, constantly employed in pumping out water, which makes very fast. It is also used for hoisting, taking the largest blocks and placing them at the top, a distance of nearly seventy feet in seven minutes.

The quarries are owned by a company in Boston, and are under the skillful management of a Mr. Woodward, to whom our party was under many obligations for information as to the *modus operandi* of the works. The overseers' houses on the premises are models of neatness and good taste, with large spots of polished soap-stone in front. We brought away some fine specimens of the stone, and have been busily engaged since in making them into crosses, etc., as *souvenirs* of our visit. Geologists have it that this vein of soap-stone runs through Greenfield. Should this assertion be verified, it will prove a mine of wealth to some one,—who, remains to be seen.—*Cor. Gloucester Tel,*

—"Amelia, for thee—yes, for thee—at thy command—I'd tear this eternal firmament into fragments. I'd gather the stars one by one as they tumbled from the regions of ethereal space and put them into my breeches pocket. I'd pluck the sun, that oriental god of day, that traverses the blue arch of Heaven in such majestic splendor. I'd tear him from the sky and quench his bright effulgence in the fountain of my eternal love for thee!"

Amelia—"Don't, Gustavus Adolphus, it would be so very dark!"

DOWNER

KEROSENE OIL CO.

Office, No. 108 *Water Street, Boston.*

TO CONSUMERS OF OIL.

CAUTION.

It having come to our knowledge that many dealers, throughout New England, are in the habit of buying small quantities of our Oil, and larger quantities of inferior oils, and using our brand and packages fraudulently in the sale of these inferior oils, we are determined to stop such frauds, and hereby offer a **Reward of 100 Dollars** for information that will lead to the detection and punishment of any party using our name or brand in the sale of any other than our own Oil. The "**Downer Kerosene Oil**" has been frequently tested and analyzed by Dr. A. A. HAYES, State Assayer, and in a communication to us, dated July 5, 1857, he says: "The term 'Kerosene' as used by the **Downer Oil Company**, applies to the highest grade of Oil only, which, our trials show, does not inflame below 120 degrees Fahrenheit, and carries the amount of both safety and excellence with it; while the mixed Oils are not only unsafe, but in causing accidents, destroy confidence in the term and excellent article for affording light produced by the honest manufacturer."

GLEASON HALL

PRESENTATION FESTIVAL.

The Fourth and Last Grand Concert

Of the Gleason Hall Presentation Festival, under the auspices of DORING'S BAND,

Will positively take place on

Thursday Evening, October 10, 1867,

AT GLEASON HALL, WEST TROY, N. Y.

The first, second and third Concerts of the series took place (as per former advertisements,) on July 23th, Aug 8th and 29th, and gave unlimited satisfaction, the large Hall being filled to overflowing on each of the above evenings with a refined and appreciative audience, from all parts of the State. There was a committee of three reliable and well-known gentlemen selected by the ticket holders on the night of the first Concert to superintend the drawing, which will positively take place on the evening of the above Concert. The Committee are most desirous that all ticket holders should be present to witness the drawing, and thereby relieve themselves of any doubt as to the fairness of the transaction. They also assure those who cannot make it convenient to be present, that their interests will be guarded the same as if they were present. The Tickets, which have been limited to 75,000, at

ONE DOLLAR EACH,

can be procured by addressing John H. Casey, Box 69, West Troy, N. Y., or any of the Agents throughout the United States. There will be a present awarded the holder of every ticket.—Among the presents to be awarded are the following:—

Metropolitan Hotel, West Troy, $30,000

FARM, fifty acres, Rensselaer Co., - 4,000

Six Building Lots, Albany City, - - 6,000

One Mortgage, Albany City Property, 1,000

Two Billiard Tables, - - - - 1,200

One Mortgage, Farm 56 acres - - 1,176

One Piano - - - - - 500

Three Melodeons, - - - - 375

Two Sewing Machines, - - - 300

One Grover & Baker Sewing Machine, plated, 85

One Wheeler & Wilson Sewing Machine, 70

And Thousands of Other Presents,

Consisting of

Marble Top Centre Tables, Mirrors, Clocks, Stoves, Chandeliers, Statuary, Engravings, Vases, Silverware, Silver Pitchers, Sets Knives and Forks, Sets Spoons, Dressing Cases, Port Monnaies, Scarfs, Ties, Bedsteads, Chairs, Mattresses, and other articles too numerous to mention.

The above property will be delivered to the person entitled to it free from all incumbrance and a title guaranteed.

The property may be seen at any time by calling on the owner, John H. Casey, Metropolitan Hotel, West Troy, N. Y.

We, the undersigned, having been appointed an Executive Committee by Mr. Casey, do hereby certify that all moneys received for the sale of Tickets are to be placed in our hands, and will be by us retained until the distribution takes place. That we will audit and pay all bills and expenses that shall be countersigned by Mr. Casey as correct, and we will pay off and discharge, from the money so received, all mortgages upon the property. ANDREW ALEXANDER,

THOMAS RATH.

The undersigned Citizens would most cordially recommend the gentlemanly manager to get up these Concerts as an honorable and reliable person, and believe he will conduct the presentation with honor, fairness, and try to give satisfaction to the public

Hon. Oscar F. Potter, Member of Assembly, Albany Co.; George Dawson, Esq., Sheriff Albany Co.; N. F. Wilbeck, N. Y. C. R. R.; R. Wilbeck, Atty'y and Coun. at Law; A. J. Rousseau; Dr. J. H. Wilbeck; Geo. Hall, Esq., Asst. Sup't Troy & Boston R. R.; Hon. Chas. Tracy, Justice of the Peace; Russ & Co., 84 Dey st., N. Y.; John A. Gladding, Lansingburgh, N. Y.

SPECIAL RATES for Club Rates.—Five Tickets, $4 50; Ten Tickets, $8; Twenty Tickets, $18. A photograph of the Metropolitan Hotel may be seen at the store of our agents.

Tickets may be procured

At BATCHELDER & CO.'S STORE,

3 Congress Street, Portsmouth.

N. B.—In order to give confidence to the public, and secure them in their investment, we allow our agents to retain all moneys received for the sale of tickets, until the distribution takes place.

We, the undersigned, having been appointed a Committee by the ticket holders of the Gleason Hall Presentation Festival to decide in what manner the drawing shall be conducted, do decide and determine that all the numbers from 1 to 75,000 shall be placed in one wheel and the first drawn number shall take the highest prize, the second the next highest, and so on until all the prizes are drawn. Hoping this will meet the approval of the ticket holders, we remain, &c.,

The Chronicle.

☞ In Boston there is a body of men calling themselves the "Seamen's Protective Union,"—but they seem to be a union of sailor landlords. Capt. Hough of the Harbor Police makes the following report concerning a difficulty which occurred last Friday night: At a meeting of the above named Union, holden at their hall, corner of North and Lewis streets on Friday night, they voted to prevent the crew of the brig Cyclone from proceeding to sea from T wharf, alleging as their reason for so voting, that the crew had shipped for less wages than the keepers of sailor boarding houses demanded. In order to carry out their design the meeting appointed a committee to execute their work, consisting of about fifty, who collected alongside the brig at the wharf, and after intimidating the men they rushed on board, seized the luggage of the crew and put it ashore and, with the sailors, started up the wharf. The Harbor Police, however, had heard of the matter, and interrupted the proceedings by turning the sailors back and putting them and their luggage on board the brig, arresting the chairman of the committee, named Wm. C. Davis, and assisting the brig to sea. The affair was conducted by the boarding house masters and their runners, in order to dictate to ship owners the way and at what rates they must man their vessels and pay seamen, and if a man dares to ship for less than they say, they threaten his life.

GEN. BEAUREGARD is said to have made a very sensible speech to a party of Southerners who gave him a private dinner in New York. He told them it was sheer nonsense to talk of another rebellion. If they wanted to raise one they could not. It is utterly impossible and will be impossible for them to do so for the next generation. Before the war he said he was in favor of State sovereignty, but he had had that dogma essentially whipped out of him, and thought all should now bend their energies toward again building up our Union to that magnificent status among the nations of the world, to which its destiny evidently points.

—John McGrath had a silver cup given him by his comrades on taking his discharge. He has served twenty-two years, has five good-conduct badges, a medal for distinguished conduct in the field, a medal for good conduct and long service, and the Crimean and Turkish medals, and for all that leaves the service a private. But then it is the British service.

— A Moscow paper states that in the year 1853 the Russian army consisted of 580,000 men. At the present time it consists of 800,000 men. This number could soon be increased to 1,500,000, besides 300,000 irregular troops. The Czar has, therefore, a total military force of nearly 1,500,000 men.

— The influence of food on the quality of milk is very striking. A half starved cow not only yields but little milk, but what it yields is miserably poor. On the other hand, the liberal supply of food rich in nutrogeneous and phosphatic elements of nutrition tell directly on the milk. Nothing, therefore, can be more injudicious than to stint dairy cows in food.

— The London Art Journal pays a high compliment to the bronzed iron works of the Tucker Manufacturing Company which are in the Paris Exhibition. The articles so highly commended were made by the convicts at the Charlestown State Prison under the personal direction of Mr. Tucker, who contracts for the prison labor.

— In a cheap eating-house, which was about half way between a beanery and a paper collar restaurant, some chaps who were dining discovered a placard, "BEWARE OF PICKPOCKETS." One of them cut the pasteboard and transposed the inscription to "PICKPOCKETS BEWARE." "Beware of what?" asked one of them.—"Why, I want the pickpockets to beware of the steaks," said he. "The beefsteaks are bully," said his companion. "Ah, that's just it; they are not only *bully*, but they were cut too near the bull's horns!"

THE STOVE FOR THE MILLION!
THE
KEARSARGE
HAS NOT BEEN BEATEN!
URIAH BLAISDELL,
NO. 43 MARKET STREET,
Takes pleasure, as the cold season approaches, in again inviting public attention to this superior
COOK STOVE!
Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well with WOOD OR COAL, an economizer of fuel, and a heavy, well-made and durable Stove, as it is a neat and symetrical one. It has been in no Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified encomiums of its numerous purchasers—of all who know what a good stove is and how to appreciate it.
Pleasure is taken in showing the KEARSARGE and all its want of a stove of the first merit at a moderate price, are invited to call and examine it whether they purchase or not.
The following names from its large list of purchasers are given for reference:

THURSDAY, SEPTEMBER 19, 1867.

ANTIETAM.—The Dedication of the National Cemetery at Antietam, took place on Tuesday, and was attended by Pres. Johnson and part of his Cabinet. Gen. Grant and Mr. Stanbery did not go. A Washington item says Gen. G. was "unusually busy at the War Department. It appears that no invitation reached him to accompany the Presidential party to Antietam." It is said the President was half an hour behind time in getting to the Railroad train, and the exercises at the field were three hours behind the time advertised.—There was some rain,—nevertheless there was a large attendance.

Ex-Governor Bradford, who made the address, abused the occasion to puff Johnson,—and that dignitary, as usual, swung partly round the circle in the following speech:

My Fellow Countrymen: In appearing before you it is not for the purpose of making any lengthy remarks, but simply to express my approbation of the ceremonies which have taken place to-day. My appearance on this occasion will be the speech that I will make. My reflections and my meditations will be in *silent* communication with the dead whose deeds we are here to commemorate. I shall *not attempt* to give utterance to the feelings and emotions inspired by the addresses and prayers which have been made and the hymns which have been sung. I shall *attempt no such* thing. I am merely here to give my countenance and aid to the ceremonies on this occasion, but I must be permitted to express my hope that we may follow the example which has been so eloquently alluded to this afternoon and which has been so clearly set forth by the illustrious dead. When we look on yon battlefield and think of the brave men on both sides who fell in the fierce struggle of battle, and who sleep silent in their graves—yes, who sleep in silence and peace after the earnest conflict has ceased,—would to God we of the living could imitate their example as they lay sleeping in peace in their tombs and live together in friendship and peace. (Applause.)

You, my fellow citizens, have my earnest wishes as you *have had my efforts* in times gone by, in the earliest and most trying perils to preserve the Union of these States, to restore peace and harmony to our distracted and divided country, and you shall have my *last efforts* in vindication of the flag of the Republic and of the Constitution of our Fathers. (Applause.)

LEGAL "INSANITY."—We were the first, so far as we know, to protest against the general and fashionable, but absurd and often outrageous legal plea of insanity, as justifying or excusing any crime. We are glad to see the subject is coming to be thought of elsewhere. The other day Gov. Geary of Pennsylvania, refused to pardon or remit the sentence of one of these condemned "insane" criminals, who was hung in spite of the greatest exertions of humanitarians, so called, and notwithstanding being being proved a monomaniac from childhood. And why not? The only thing, if anything, that really crazy people fear, is overwhelming brute force; and the prospective certainty of death as punishment, would prevent many people becoming "insane" criminals.

At Manchester last week, the Mirror reports that "the Court charged the Grand Jury on the Law of Insanity as applied to criminal actions. The charge was listened to with much interest, not only for its clear and broad statement of the law, but for the vigor of its attack on the modern idea, first announced in the philosophy of Rousseau, that all men are mad in some degree, and therefore excusable for the crimes they commit."

WASHINGTON ITEMS.—Gen. Ord, commanding the 4th Military District, has issued orders forbidding assemblages of armed citizens, and requiring rebels returned from voluntary exile to report and be paroled.

The Times' special says Gen. Porter will not be granted a new trial. It is said that the new evidence in his favor comprises documents from Lee and other rebels.

OUR NEW RUSSIAN TERRITORY.—Gen. Halleck telegraphs Gen. Grant, suggesting that the government at once apply the regulations governing the Indian Territories to the recently acquired Russian Territory on the Northwest Pacific, in order to prevent an illicit traffic in liquor, and to obviate its demoralizing tendencies on the natives. Gen. Halleck does not state that any such trade has commenced, but he doubtless bases his telegram on some facts which have come to his notice. General Grant has referred the subject to the State Department, where the opinion is entertained that Gen. Rousseau, our Special Commissioner, and the Revenue Agent who accompanies him, are fully competent to protect the government and guard the interests of the new subjects.

[Perhaps so. But Gen. Halleck is no ultra temperance man, and no alarmist.—He certainly must understand matters out there, better than any gin-drinker in the State Department.]

— Beecher says a man with nothing to do is no gentleman; and a greater than Beecher says, "If a man will not work, neither should he eat."

NEW HAMPSHIRE ITEMS.

—— The Concord Monitor mentions a large and elegant car, now building to run on the Concord & Portsmouth Railroad.

—— Miss Georgiana Clifford of Laconia committed suicide on Saturday last by drowning herself in a mill pond.

—— Mr. Colby, Assistant Register of the Treasury, is dangerously sick at Haverhill, where he is on a visit with his family.

—— The frost of Saturday night is reported to have been severe in Northern New Hampshire, and to have caused damage to growing crops.

—— The Episcopal church, at Exeter, is nearing completion, under the superintendence of Messrs. Brown and Warren, who have contracted to build the new Unitarian Church in that place, and will commence work on the same in October.

—— Last Sunday noon fire was discovered in the attic of Prof. Dixi Crosby's house in Hanover, and before the flames could be got under control the roof was entirely consumed and other portions of the building somewhat damaged and completely drenched with water. By the help of the students the lower portion of the house was saved. The fire was caused by defective furnace arrangements. The loss is estimated at three thousand dollars, with a good insurance.

INCIDENT.—On occasion of the ordination of Rev. Mr. Murray, at Kensington, seven ladies were sitting together at table, when the subject was mentioned of their bereavements in the late war: and it was ascertained that of the seven, three had lost a brother each; one, a mother of six children, a husband; one two sons; and the other two severely affected, one by the drowning of a son.—*News Letter.*

NATIONAL CONVENTION OF ODD FELLOWS.—The members of the Grand Lodge of Odd Fellows, of the United States, are holding their annual session at New York. New England is represented in the Convention as follows: Massachusetts by Messrs. E. D. Bancroft, Samuel W. Hodges, Amos Johnson and W. H. Pierson; Connecticut, by Julius Atwood, Fred. Botsford and Geo. L. Townsend;—Maine, by W. H. Beckett, Benj. Kingsbury, Jr., and Cyrus K. Ladd; New Hampshire, by Jos. B. Adams, S. S. Davis and Ira Doe; Rhode Island, by John F. Driscoll and G. W. Ham, and Vermont, by J. A. Q. Burton. The report of the Grand Secretary shows that, so far as heard from, there are in the United States 581 subordinate encampments, with 33,111 members, and 2719 subordinate lodges with 200,619 members—total members, 233,730.

☞ The cases of "genteel" fellows stealing other folks' money to "spread" on, are pretty numerous of late. A recent forgery caused the deepest regret among a very wide circle, in Boston and Charlestown, where the guilty party, Mr. Frederick Hobbs, is well known. He forged the name of one merchant for $13,500, and fears are entertained that other bogus paper will come to light. The Transcript says Mr. Hobbs was a young man of very pleasing manners and address, more prized in fashionable than in business circles, as many of his speculations had proved disastrous, and he had twice failed. He is most respectably connected by marriage, and for many years has been one of the leaders of social life in Charlestown, where he resided.

☞ The idea of giving Fitz John Porter a new trial meets with little favor from the loyal press. President Lincoln said the severest thing about Porter that he ever uttered against any public officer. When the sentence of the court martial was placed before him for his approval, he signed it with alacrity, and remarked, *"I wish the court martial had ordered him to be shot!"*

☞ A Leavenworth dispatch of the 17th says a general attack was made by the Indians to-day upon the grading parties at the end of the track of the Union Pacific Railroad, Eastern Division, and seven men were killed. There was great excitement at the forts. All the stock of the Government had been captured between Walker and Fossil creeks. White men are suspected of instigating the late outrages on this route.

☞ A Cincinnati special of the 17th says that in a coal mine at Petersburg, Mahoning County, Ohio, John Eckert has been running a distillery the past eight months without paying a revenue tax. The concern was 200 feet under ground, but the officer found and seized it Saturday.

☞ At Augusta, Ga., frequent rows have occurred for some days past between soldiers and freedmen. One negro is reported mortally and one soldier badly wounded. The soldiers are said to be the aggressors.

☞ A Montreal special of the 17th says Spellman's distillery was fired and totally destroyed. Loss $100,000. One fireman was killed and another mortally injured by the fall of one of the walls of the building.

☞ The Salem Gazette regards the new Water Works in that city as "a most stupendous folly," and thinks the cost will be a million dollars or so.

TERRIBLE CRIME.—Rachel and Mary Jones are under arrest in Philadelphia for poisoning their neighbor's child, a little girl of four years, named Annie E. Richards, for having called them "old maids." The two Misses Jones, to obtain revenge, had for a long time been throwing poisoned cakes into Mr. Richards' yard for the little girl to pick up. These were thrown away by the parents as fast as discovered. Recently the little girl found a peach and ate it, and in five hours afterward she was a corpse. It was subsequently ascertained that the peach contained strychnine.

PLUNDER.—The Washington correspondent of the Cincinnati Gazette, gives a graphic description of the hungry crew—from the National Intelligencer down—endeavoring to get their hands into the national treasury. The band of spoilsmen, having hunted Stanton out of the Cabinet because of his unswerving integrity, are now engaged against Secretaries Seward and Randall, who interpose some slight check to their schemes for stealing from the public purse.

☞ The fact is noted in official quarters that in calling an election for a State Convention in Virginia, Gen. Schofield had named the earliest possible time, instead of complying with the Presidential suggestion for a postponement. The registration closes by law on Oct. 1. Fourteen days notice has to be given before the lists are opened for the five days' revision. This would bring the time to within three days of the election day named by Schofield.

☞ On Tuesday evening a fire broke out at ten o'clock in the Portland Glass Works, and destroyed the main building. It originated in the carpenters' shop. Loss estimated at $200,000; insured about $50,000, divided among several offices, among them the Lorillard, Standard, Connecticut, Hartford, Narragansett, Putnam and Enterprise.

☞ Chief Justice Chase has authorized a statement to be made emphatically contradicting the published paragraph that he had written the President a letter sustaining the course of the civil authorities in North Carolina, and approving of the removal of Gen. Sickles.

☞ A special cable from the Hague states that the bonds seized on the man named Gardersier, proved to be valueless rebel issues. Another lot of the same stuff was also discovered.

ACROSS THE SIERRA NEVADAS.—The great tunnel of the Central Pacific Railroad at the summit of the Sierra Nevada Range is opened. The track is being laid on the eastern slope, a locomotive is already running in the Truckee valley, and in a few days the road will have reached the open country of the Salt Lake Basin, after which be rapid and easy. This overcomes the only noticeable obstacle on the Western portion of the through line; and its significance is understood when we are told that the cost and difficulty of grading the 150 miles now nearly completed, is greater than for the 650 miles next following. The Chief Engineer expects to average a mile a day across the interior valley next year. The local traffic on the completed portion surpasses all previous estimate, and is lucrative without the immense through business which we may expect to flow over it.

In accordance with the Act of Congress the Central Pacific Railroad Company receive a large Government subsidy, and are issuing their First Mortgage Bonds to a limited amount. The merits and advantages of these Securities as an investment are fully set forth in their advertisement in another column.

SHALL THE CHILDREN of the Soldiers and Sailors who gave their lives for the preservation of the Union, be provided with homes, and receive a good education? This is a question which will admit of but one answer—in the affirmative. It only remains, therefore, for us to point out the best mode in which it can be done. A careful examination has satisfied us, and will satisfy the public, that the projectors of the Riverside Institute, located in the village of Riverside, New Jersey, on the Delaware, have devised the most feasible method. Acting under the charter of the Washington Library Company of Philadelphia, incorporated by the State of Pennsylvania, they are offering stock at the low rate of one dollar per share, and will give to each subscriber a beautiful and valuable steel engraving, worth at retail more than the price of the stock, and as an additional inducement will distribute among the stockholders presents valued at $300,000. Who can refuse to do a patriotic and benevolent action on those terms? Let every lover of his country record his name. Read advertisement.

— If you are so far behind the times as not to have used Herrick Allen's Gold Medal Saleratus, put it off no longer, but go immediately and purchase a paper. Everybody who has ever used it, proclaim its good qualities. It takes less in quantity, is a saving in flour and shortening, and will make weak stomachs strong. Do not fail to try it. Most of the Grocers and many of the Druggists sell it. Depot 112 Liberty street, New York.

MARTYRS TO CARELESSNESS.—If all the teeth that have been ruined by neglect could be strung together, they would reach thrice round the world. There may have been some excuse for this havoc in days gone by when there was no absolute safeguard against dental decay in existence, but there is no apology for it now.—FRAGRANT SOZODONT, the world-renowned antiseptic dentifrice, as certainly protects the teeth against decay, as oil prevents steel from rusting, or water arrests the progress of fire. 16

THE GOOD SAMARITAN.—The good Samaritan poured oil and wine into the wounds of the unfortunate Jew who had been beaten and left for dead; but James Pyle pours into the market the best Saleratus ever made, proving himself a greater benefactor than was the good Samaritan. Housekeepers should ask for Pyle's saleratus, and see that his name is on each package.

NOT GOLD ONLY,

BUT

RICH, FRUITY, LUSCIOUS

WINES!

California is making grand strides in her agricultural products and in last withdrawing herself as a purchaser for the manufactures of the various branches of industry she once demanded. She sends a warning voice to the time-worn vineyards of Europe, and enters the lists as a fresh, young combatant for the production of wines from her own rich and increasing vineyards.—The time has come when it is simply ridiculous for any one house to lay claim to especial advantages or peculiar privileges for the sale of

THE WINES OF CALIFORNIA.

As well might they claim a monopoly of the cotton trade.

C. A. RICHARDS & CO.

do not receive or sell all the wines which California produces, but they do claim to have at all times a very large quantity on hand of all the best kinds, and their advantages for getting the best, and getting them at the lowest market value, are such as to enable them to offer them at prices which to-day are lower than any other house which sells California Wines of equality. We bottle five kinds. They are,—

"Angelica,"
"Muscatel,"
"Still Champagne,"
"Hock" and
"Port,"
Also "California Brandy."

They are all perfectly pure, and may be relied upon in sickness or in health. The **Angelica** and **Muscatel** are rich, sweet wines. The **Hock** is fully equal to the medium grades of Rhine wines. The **Port** is actually better than many of the high cost Ports from Oporto. We sell these wines in any required quantity, from a single bottle to a THOUSAND CASES, and are ready at all times to exhibit samples, or to send them to any address.

TO OWNERS OF HORSES AND CATTLE.—TOBIAS' DERBY CONDITION POWDERS are warranted superior to any others, or no pay, for the cure of Distemper, Worms, Bots, Colic, Hide-bound, Colds, etc., in Horses; and Colds, Coughs, Loss of Milk, Black Tongue, Horn Distemper, etc., in Cattle. They are perfectly safe and increase the shining hair and fine working of your animals. They increase the appetite, give a fine coat, cleanse the stomach and urinary organs; and increase the quality of cow. Try them, and you will never be without them. Hiram Woodruff, the celebrated trainer of trotting horses, has used them for years, and recommends them to his friends. Col. Philo. P. Bush of the Jerome Race Course, Fordham, N. Y., would not use them until he was told of what they are composed, since which he is never without them. He has over twenty running horses in his charge, and for the last three years has used no other medicine for them. He has kindly permitted me to refer any one to him. Over 1000 other references can be obtained at the depot, 559 Washington st and Saddlers. Price 25 cents per box.—Depot 56 Cortland street, N. Y. s8dwlm

DR. SCHENCK, THE LUNG DOCTOR.
☞ The Proprietor of SCHENK'S PULMONIC SYRUP, the inventor of SCHENK'S RESPIROMETER, the only instrument that can to a certainty detect the slightest murmur of the respiratory organs.
This is of great importance to Dr. SCHENCK, to know the true condition of the lungs, whether or it is tuberculous, Pulmonary, Bronchial, Pleuritic, or Dyspeptic Consuption, and whether it is both lungs or only one that is affected.
If requires constant and long practice to become familiar with every sound or rattling of a diseased bronchial tube. Patients coming to DR. SCHENCK to get examined that have been examined by their family physician, who told them that their lungs were almost gone; when by a close examination with the Respirometer, it is often found that it is an affection of the bronchial tube; and by getting a healthy action of the liver and tone of the stomach, the sufferer is soon restored to health. Sometimes medicine that will stop a cough is certain death to the patient. It locks up the liver, stops the circulation of the blood—hemorrhage follows, and, in fact, stopping the action of the very organs that cause the cough.
Dr. Schenck will be professionally at his rooms every week, 31 Bond street, New York, and 48 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer the charge is $5. His medicines are for sale by all druggists and dealers, also a good supply at all times at his rooms. Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen; Mandrake Pills 25 cents per box.—GEO. C. GOODWIN & CO., 38 Hanover street, Agents for Boston. For sale by all druggists.

A NEW GLEE BOOK.
THE GREETING.—A collection of Glees, Quartetts, Choruses, Part-Songs, &c. By Lowell Emerson. Author of "The Jubilate," "Harp of Judah," "Golden Wreath," "Merry Chimes," &c.
Upwards of half a million copies of Mr. Emerson's Music Books have been sold, a fact proving a popularity which has rewarded no other author of the same class of books, and which cannot fail to insure for this new volume an immense sale.—The contents of this work are, for the most part, new. A large number of valuable pieces have been contributed by Mr. L. H. Southard, whose name is a sufficient guarantee of their excellence. The marked features of the collection are Originality, Brilliancy and Variety; and it will be found, upon careful examination, that there is no Glee Book now before the public that in every particular will prove so completely satisfactory to Musical Societies and Conventions, Conservatories, Clubs and Amateur Singers. Price $1.38. Mailed post paid. OLIVER DITSON & CO., Publishers, 277 Washington street, Boston.

☞ Good Wine makes good blood. See advertisement of Speer's Wines in another column, —the best for Table, Family and Medicinal Use.

Local.

☞ The Boston Journal tells a pretty tough yarn—or a yarn of a pretty tough fellow, at any rate—how a man driving an ox-cart in New London, fell under the wheel, which passed over him; but he hallowed "whoa" so lustily that the cattle not only stopped, but backed the cart over him again. This recalls to mind an anecdote we heard long ago, of two York basket makers, who were going home from this city with the regular freight of new rum and salt fish, which they had received in exchange for their charcoal and baskets.—One, Jim, drove the traditional yoke of miniature cattle; while the other, Bob, sat on the tongue or pole. Presently Robert bobbed off, and the wheel passed over him. At his outcry, Jim hawed and sh—sh—d and banged his cattle over the head, till they backed directly over Bob the other way. This was more than human nature could stand, especially when prostrate, and Bob sang out: "Here you have been and run right over me twice; if you do it again, I'll wallop ye!"

☞ In consequence of repeated hemorrhage from the lungs, Rev. George Beebe of Gosport finds a brief vacation indispensable; and friends of his mission there will doubtless aid, as best they may, this means of his restoration to health.

☞ Any persons wishing copper or brass work done promptly and properly, will be glad to see (as per advertisement) that the Foundry in Bow street is reopened by N. D. Miller, a workman well known and approved.

☞ Portsmouth in former years made fine exhibitions of pears, apples, peaches and grapes. Let every garden be represented next Tuesday and Wednesday, and we shall surprise ourselves and have an exhibition that will do us credit, and excite a healthy emulation in all to do better next year.

POLICE COURT, Sept. 18.—Harriet Carter, a common night walker, was sent to the House of Correction for three months and ordered to pay $4.60 costs.

——, a common drunkard, was sentenced to three months' hard labor in the H. of C., and ordered to pay $4.60 costs.

Thomas Gray, a marine, for an assault upon Officer Charles W. Shannon, was fined $10 and $3.86 costs, in default of which he was committed to the House of Correction.

☞ Mr. Wendell sells at auction to-day a valuable lot of land at Freeman's Point. Also on Saturday next, the late residence of Horace Webster, Esq., near the Eastern Depot.

Mr. Hackett will sell on Thursday of next week, one of the best pews in St. John's Church.

☞ The Annual Encampment of the 1st Regt. N. H. Militia commenced at Manchester on Wednesday morning. 800 men and officers were present. Col. Patterson commands.

☞ Late dispatches set the loss of the Portland Glass Works, by fire, at $100,000. The Lorillard, North American, Philadelphia and Norwich companies had no insurance, as was erroneously reported, their policies having expired.

ACROSS THE SIERRA NEVADAS.
THE
CENTRAL PACIFIC RAILROAD,
THE WESTERN HALF OF THE
GREAT NATIONAL TRUNK LINE
ACROSS THE CONTINENT,
being constructed with the AID and SUPERVISION OF UNITED STATES GOVERNMENT, is destined to be the most important and prominent LINES OF COMMUNICATION IN THE WORLD, as it is the *sole link between the Pacific Coast and the Great Interior Basin*, through which the immense Overland travel must pass, and the
Principal Portion of the Main Steam Line between the Two Oceans.
Its line extends from Sacramento, on the tidal waters of the Sacramento River (one of the richest and most populous parts of California, Nevada and Utah, contiguous to all the great Mining Regions of the Far West, and will meet and connect with the roads now building east of the Rocky Mountains. About 100 miles are now built, equipped and running operation to the summit of the Sierra Nevada. Within a few days 35 miles, now graded, will be added, and the track carried entirely across the mountains to a point in the Great Salt Lake Valley, whence further progress will be easy and rapid. Iron, materials and equipment are ready at hand for 300 miles of road, and 10,000 men are employed in the construction.
The local business upon the completed portion surpasses all previous expectations. The gross fares for the quarter ending August 31 are as follows in GOLD:

GROSS EARNINGS,	OPERATING EXPENSES,	NET EARNINGS,
$187,379 61	$86,548 47	$401,031 17

or at the rate of two millions per annum, of which more than three-fourths is profit on less than 100 miles worked. This is upon the actual legitimate traffic of the road, with its terminal facilities in the mines only the normal ratio of government transportation, and is exclusive of the materials carried for the further extension of the road.
The Company's interest liabilities during the same period were less than $126,000.
Add to this an ever-expanding through traffic and the proportions of the future business become immense.
The Company are authorized to continue their line eastward until it shall meet and connect with the roads now building east of the Rocky Mountains.
Assuming that they will build and control half the entire distance between the San Francisco and the Missouri River, as now seems probable, the United States will also have invested in the completion of 865 miles $28,592,000, or at the average rate of $35,000 per mile—not including an absolute grant of the 12,000 acres of the Public Lands. By becoming a joint investor in the magnificent enterprise, and by waiving its first lien in favor of the First Mortgage Bondholders, the GENERAL GOVERNMENT, IN EFFECT, INVITES THE CO-OPERATION OF PRIVATE CAPITALISTS, and has carefully guarded their interests against all ordinary contingencies.
The Company offer for sale, through us, their
First Mortgage Thirty Year, Six per Cent. Coupon Bonds.
Principal and Interest payable in Gold at the Chemical National Bank of New York. They are in sum of $1000 each, with semi-annual gold coupons attached, and *are selling for the present at 95 per* cent. and accrued interest from July 1st, added in currency, at which rate they yield nearly
Nine per Cent. upon the Investment.
These Bonds, authorized by Act of Congress, are issued only as the work progresses, and to the same amount only as the Bonds granted by the Government; and represent, in all cases, the *first lien* upon a completed, equipped and productive railroad, in which have been invested Government subsidies, stock subscriptions, donations, surplus earnings, etc., and which is worth more than three times the amount of First Mortgage Bonds which can be issued upon it.
The Central Pacific first Mortgage Bonds have all the safeguards, sanctions and guarantees of the Pacific Railroad Act of Congress, and have in addition several noticeable advantages over all other classes of railroad bonds.
First—They are the superior claim upon altogether the most vital and valuable portion of the through line.
Second—Beside the fullest benefit of the Government subsidy, (which is a subordinate lien,) the road receives the benefit of large donations of lands and mineral lands.
Third—Fully half the whole cost of grading 800 miles eastward of San Francisco is concentrated upon the 130 miles now about completed.
Fourth—A local business already yielding three times the annual interest liabilities, with advantageous rates payable in coin.
Fifth—The principal as well as the interest of its Bonds being payable in coin, upon a legally binding agreement.
Having carefully investigated the resources, progress and prospects of the road, and the management of the Company's affairs, we cordially recommend these Bonds to Trustees, Executors, Institutions and others as an eminently *sound, reliable and remunerative form of permanent investment.*

Morning Chronicle.

EVERYBODY who remembers Boston thirty years ago, will recollect the hat store of Col. Messinger, on Washington street. It is related that two of his apprentices, Sol. and Ben., one summer coveted the fruits of Col. Roulstone's beautiful pear trees in the next inclosure, which was surrounded by a very high fence. Ben says to Sol, "I should like a few of those nice pears, how can we get them?" "Easy enough," says Sol; "fetch me your fishing pole." The pole was brought, and after attaching one of the knives used for cutting fur from the beaver skins, together with a small bag to drop the fruit in, the robbery was completed.

Col. R. saw the whole transaction, but the boys were not aware of it. The next day the Colonel's little girl called on Ben, and asked him to lend papa the pole that he had used to steal his pears with. Ben, of course, appealed to Sol, who answers, "I think we had better let him have it."

When the new machine was returned it gave so much satisfaction that the little girl says, "Pa sends his compliments, and wants to know if you will please to lend him your pole next year after you have done stealing his pears?"

SUFFRAGE IN OHIO.—The contest in Ohio is squarely on the issue of negro suffrage. The ablest speakers are canvassing on both sides, and the people will decide the long vexed question. Ohio has, like Indiana and Illinois, been very bitter in her legislation against the negro race. The "black laws" of that State were, for a generation, a reproach to republican institutions. But the rebellion has swept away the prejudice that enacted them and sustained them; and now the people, by their own free vote, are about to confer the ballot upon a race that, a little while ago, they would not permit to breathe the air of the State.

A FORGER ARRESTED.—One Henry Livingston has been arrested for forgery on the National City Bank of New York of $75,000, in the name of Cornelius Vanderbilt, payable to the order of Henry Keep, President of the New York Central Railroad, whose name it also bore. The check was presented and paid on the 11th of July, and the forgery was not discovered till the 19th, as Mr. Vanderbilt was examining his checks drawn on the bank. The matter was at once placed in the hands of a detective, who was aided in his search by a pen and ink sketch of the perpetrator, drawn by the teller who paid out the money. The officer at first struck his trail at Harlem, where the forger had purchased several horses. Thence he traced him to Buffalo, to Chicago, and finally to a country place, five miles distant from Blackberry station. There he was found to be luxuriating. He had purchased two farms, one for $16,000 and another for $9000, both of which he had stocked, and employed a large number of men to work them.—In his barns were found forty valuable horses and several teams, worth each from $3000 to $4000. Besides these he had several light wagons, any amount of fancy harness, and all together, farm and stock, he was in possession of property to the value of $60,000.

When Livingston was arrested, $10,000 in greenbacks were found on his person.—On arrival in New York, he was identified by the teller of the bank, as the man who presented the check. The accused says that he was formerly a conductor on the Albany and Boston line. His property in Illinois was attached, to prevent its transfer.

A CRASH—Tuesday last week the immense iron gearing, working all the machinery in the Naumkeag mill at Salem, while in full operation, burst into fifty or sixty fragments, with a tremendous crash and explosion, the fragments thrown in every direction, breaking and damaging several of the looms in the nearest vicinity, while twenty persons were at work within a circuit of twenty feet of this terrible disruption. Yet no one of the two hundred persons in that room was touched or scratched, and the only personal damage was the spraining an ancle of one of the operatives, caused by jumping in her fright from one of the windows.

— The "Star Spangled Banner" was hissed at a minstrel concert in Memphis last week, and "Dixie" greeted with uproarious applause.

— The Springfield Republican says that Dr. S. F. Pomeroy has settled the abortion case, for which he was prosecuted some time ago, the interested parties having agreed to press the prosecution no further and to keep out of the way when they are wanted as witnesses.

DOWNER

KEROSENE OIL CO.

Office, No. 108 *Water Street, Boston.*

TO CONSUMERS OF OIL.

CAUTION.

It having come to our knowledge that many dealers, throughout New England, are in the habit of buying small quantities of our Oil, and large quantities of inferior oils, and using our brand and packages fraudulently in the sale of these inferior oils, we are determined to stop such frauds, and hereby offer a **Reward of 100 Dollars** for information that will lead to the detection and punishment of any party using our name or brand in the sale of any other than our own Oil. The "**Downer Kerosene Oil**" has been frequently tested and analyzed by Dr. A. A. HAYES, State Assayer, and in a communication to us, dated July 5, 1867, he says: "The term 'Kerosene' as used by the **Downer Oil Company**, applies to the highest grade of Oil only, which, our trials show, does not inflame below 120 degrees Fahrenheit, and carries the assurance of both safety and excellence with it; while the mixed Oils are not only unsafe, but in causing accidents, destroy confidence in the safe and excellent article for affording light produced by the honest manufacturer."

Caution

To Females in Delicate Health.

DR. DOW'S Female Infirmary and Surgical Institute, No. 7 ENDICOTT ST., Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or fall of the womb, suppression and other menstrual derangements, are all treated on new pathological principles, and speedy relief guaranteed in a very few days. No invariably certain is this new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience the cure of diseases of women than any other hysician in Boston.

Boarding accommodations for those who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

☞ At the Grand Lodge of Good Templars in Springfield, Mass., last week, a resolution was offered and unanimously adopted, enjoining on all the members of the grand and subordinate lodges to attend caucuses and nominating conventions, to see to it that no person is nominated who is not pledged to sustain the prohibitory law. The ground on which this resolution is based was stated to be: That the principle and platform of the order being prohibition, any member thereof openly favoring license to sell liquors as a beverage, acts with the common enemy and against the order. Lodges were authorized and directed to prefer charges against and expel all such members from the order.

A SAD FAILURE.—The Brooklyn (N. Y.) Press says that the representative of a large New England house closed his counting-room and allowed his paper to go to protest last week. The sudden death of the senior member of the house, who dropped down dead while he was talking, brought things to a stand-still. The house was found to be bankrupt, and a large amount of trust money was swept away.—Drinking, gambling, and dissipation in New York scattered the funds. Some of the shrewdest New England men have gone down with the concern. One well-known N. England lawyer, reputed to be worth $300,000, is involved in the calamity to the full extent of his property and word. Widows and orphans have lost their all.

— A New York paper calls Andrew Johnson "the chief barnacle on the bottom of the ship of State."

— Gen. Charles G. Halpine (Miles O'Reilley) is stated to be in very poor health, and his recent ramblings on the seashore have not improved it.

— Two spinisters in Philadelphia, named Jones, poisoned the child of a neighbor with whom they quarreled, and have been committed for murder.

— A lady passenger between Norfolk and New York, by sea, while her attention was directed to a passing ship, unfortunately plied her fan too near her person and raked from her bosom a diamond brooch, knocking it into the sea. The value of the pin was $500.

— People who get into law suits and refuse to compromise their difficulties, generally find their obstinacy to be very costly. There are in prison in England at present, two men whose fate it has been to illustrate this. A farmer at Taunton refused to pay a church rate of about $4; but the cost of the proceedings by which he was condemned swelled the bill to $739. Another man refused to pay a church rate of about $8, and his bill of cost amounts to $1285.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of the U. S. Patent Office, Washington under the Act of 1837.
No. 78 State street, (opposite Kilby street,) **Boston.**
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, Bonds, and all papers or drawings for Patents, executed on reasonable terms, with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded in Washington.
No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.
During eight months the subscriber, in the course of his large practice, made on more rejected applications, SIXTEEN APPEALS; *every one* of which was decided *in his favor* by the Commissioner of Patents.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they can not employ a man *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.
"Mr. R. H. EDDY has made for me THIRTEEN applications, in all but *ONE* of which patents have been granted, and that one *is now pending*. Such unmistakable proof of great talent and ability on his part, leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."

THE STOVE FOR THE MILLION!
THE
KEARSARGE
HAS NOT BEEN BEATEN!
URIAH BLAISDELL,
NO. 43 MARKET STREET,
Takes pleasure, as the cold season approaches, in again inviting public attention to this superior
COOK STOVE!
Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well with WOOD OR COAL, an economizer of fuel, and a heavy, well-made and durable Stove, as it is a neat and symetrical one. It has been in no Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified encomiums of its numerous purchasers—of all who know what a good stove is and how to appreciate it.
Pleasure is taken in showing the KEARSARGE and all in want of a stove of the first merit at a moderate price, are invited to call and examine it whether they purchase or not.
The following names from its large list of purchasers are given for reference:

The Daily Chronicle.

Portsmouth, N. H.

FRIDAY, SEPTEMBER 20, 1867.

☞ The Lexington, Ky., Statesman remarks in the course of an article on the result of the election in Kentucky:

"In the Fall of 1861 George W. Johnson was inaugurated Povisional Governor of Kentucky by the Democratic party. This gentleman held that office until met and slain by a loyal bullet shot at the enemies of the Union on the field of Shiloh. Richard Hawes of Paris, Ky., was chosen by this same Democracy to succeed Mr. Johnson. At last Kentucky has a rebel Democratic Governor. What rebel arms were unable to do, rebel votes have done. The spirit of secession rules the State of Clay and Crittenden."

[Very natural that it should be so; the Kentucky resolutions of State sovereignty were the seeds of it; and they were fostered and made fruitful by two miserable compromises which virtually sanctioned a great wrong.]

THE LAW OF LIBEL AND THE PRESS. In a libel suit brought against the New York Herald, Judge Barnard of the Supreme Court decided that to hold that the proprietor of a newspaper can be sued by every one who may imagine he has been damaged by a publication, would be to prevent its usefulness as a journal. To hold that such an action would lie would offer and hold out a premium for individuals to commence suits for that which they might think damaging, but which no one else would. The object of a journal is information; that can only be obtained by publishing such items of fact as may be of general notoriety.

☞ Gen. Fitz John Porter's case was again up for consideration Thursday in the War Department. The true state of the case is a petition asking for the re-opening and rehearing, was referred by the President *pro forma* to Gen. Grant, who, though disposed to give Gen. Porter a fair opportunity to right himself before the country, has, upon the suggestion of a legal question, claimed to be adverse to the application, reported the case back with a recommendation that the legal questions be referred to the Attorney General for his opinion.

☞ The distillery of Samuel Bobem of Hunter's Point, N. Y., one of the largest establishments in the United States, and the rectifying establishment of John Devlin, in Concord street, New York, were seized Wednesday by the Internal Revenue officers on charges of violating the law.

GOLD, Thursday, 144 1-4.

— A Paris correspondent of the New York Nation tells about chickens being hatched from eggs 1200 years old!

—There is authority for contradicting the telegram of the President's Boston organ that Gen. Grant will postpone Gen. Schofield's election order.

— John G. Saxe says it is a common notion in Boston that, if a person is born in that city, it is unnecessary for that favored individual to be born again.

— Formerly when a man got drunk in Jamestown, N. Y., he was compelled to dig out a stump from the town lot and thus in a short time a beutiful common was made.

— The planters of Tennessee are shipping corn, in considerable quantities, to the North. This is the reconstruction of trade and commerce, giving money to one party and cheaper food to the other.

— A man courting a young woman was interrogated by her father as to his occupation. "I am a paper hanger on a large scale," he replied. He married the girl and turned out to be a bill-sticker.

— The Times' Mexican correspondent says that the popularity of the Juarez government is on the increase, and declares that the annexation of Mexico to the United States is looked upon favorably.

—George P. Kane, the leader of the Baltimore riots in 1861, has declined the Democratic nomination for Sheriff. He should have been elevated by the Sheriff long ago.

—Carl Benson complains with reason, that the pleasure hotels in this country pay no attention to having nice shady drives and walks in their vicinity; while in Europe this is a chief feature, as it would and should be here.

—N. P. Willis once said that a woman would tire of Phœbus himself, if the young man hung about the house all the time.—From which it may perhaps be fair to infer that the dear creature would prefer he should retire a part of the time, eh?

—At Detroit, on Wednesday night, the tug W. K. Miner exploded her boiler, totally destroying the boat and instantly killing Captain Pigeon, the mate, engineer, fireman and cook, and seriously injuring five others, one probably fatally.

—The Pacific Railroad is now receiving hemlock railroad ties from Chicago, five hundred miles, and then up the road four hundred miles, by rail—at a cost delivered at the Missouri river, of not over eight cents per tie.

NEW HAMPSHIRE ITEMS.

—— 129,893 pairs of shoes, valued at $190,611, were sold in Dover during the month of August.

—— Jeremiah P. Clough, a freight brakeman on the Concord, Manchester & Lawrence Railroad, was knocked off the train by a covered bridge in Londonderry, Wednesday afternoon, and instantly killed. He was a son of Col. Charles H. Clough of Concord, 22 years of age, and a young man highly esteemed for his good character and upright habits.

BEAUTIFUL OBJECTS. — Among the many beautiful objects in the Metropolis of New England are the statues upon the Horticultural Building on Tremont street, raised into position about a year ago. The figure representing Ceres, the upper one of the three, weighs eleven tons, and they compose a group upon which the spectator looks with increasing satisfaction. The cost of these statues we have never seen stated. The sculptor is now only 25 years of age, and if he achieved no further successes would not have lived in vain. He is a native of New Ipswich, this State, and is engaged in an elaborate work, commemorative of those soldiers of Roxbury, Ms., who fell in the recent war.

New Hampshire has turned out many granite block that were wrought into beautiful forms; but here a substance, the texture of which presumptively forbids the artist to give the appearance of life to the works of his hands, is found better for effect in high position than even marble. If the excellence and truth of sculpture are proved by the satisfaction with which they are seen,—satisfaction not impaired by frequent and protracted gazing upon it—then these figures are, beyond all cavil, amongst the highest achievement of the mallet and chisel.—*Statesman.*

WASHINGTON ITEMS, Sept. 19.—The Times' special says the President, when on the trip to Antietam is stated to have responded to urgings to remove Secretary Seward, that he would do so before the end of the week.

The Herald's special says Gen. Sharpe has returned from Europe, where he has been to push the claims for rebel pirate damages, and will furnish a report to Secretary Seward next week.

The Tribune's special says loyal men express themselves disgusted with the Antietam celebration.

Gen. Grant has approved the sentence of dismissal of a lieutenant who seized a hotel because the proprietor refused a room to his paramour.

The efforts to have Gen. Pope removed are unsuccessful.

— Gen. Sheridan had an enthusiastic reception in Cincinnati on Wednesday.

— The swindling shopkeepers of London are looked after. At a petty session in Upper Hall, Islington, about one hundred tradesmen had to answer summonses for possessing fraudulent weights and measures. The usual fines were inflicted.

— There is to be a novel celebration at Jay Peak, Vt., on the 26th. The principal attraction will be the rolling of a rock, estimated to weigh one hundred tons, down a perpendicular decent of one thousand feet.

— The Treasury Department has commenced to pay the immense cotton claims on which the Court of Claims passed judgment some three months ago. The amount involved reaches as high as two millions of dollars.

—As Mr. Charles Stetson was playing with the monster elephant at a circus in East Saginaw, Mich., on Tuesday evening, the animal became enraged and threw Mr. S. about fifty feet from the ring. The cause was feeding him a rotten apple. Mr. S. escaped with a few slight scratches.

— A few days since a young gentleman, with his sister and another young lady, arriven at Galena in a skiff from St. Paul, having accomplished the whole distance of four hundred miles in nine days. The voyage was a hard one, and the oarsman fainted away twice on the way, from fatigue.

— The New Orleans Crescent says: "The unusual early appearence of equinoctial weather indicates an early frost, while this indication is moreover confirmed by the arrival of snipe and water-fowl, which already are flying south for winter quarters. This latter occurence during the first week of September is almost without a precedent."

— When the ex-Emperor Soluque arrieved from Curacoa he was prevented from landing by the authorities at Petit Goave, Hayti, until they heard the pleasure of President Salnave regarding him. This refusal produced such a sudden reversion of feeling on the part of the ex-Emperor that he burst into a flood of tears, and so violent was the character of his grief that it brought on a fit of apoplexy, and he died three days after he was permitted to land.

— The Chief Mabba, who for six years has been a scourge to the native tribes on the West Coast of Africa, died recently. He was a usurper, having killed the native king, and with fire and sword promulgated the Mohammedan faith. It is computed that no less than twenty thousand human beings have been killed or have died through starvation, or have been abducted and sold into slavery, by this monster.

A BURGLAR SHOT.—A gunsmith in Jackson, Michigan, has an ingenious arrangement in his establishment for shooting burglars, with whom he has been much troubled of late. Three times this gun has been fired by midnight burglars. The first time, being loaded with powder, it merely frightened off the thief; the second time, being loaded with small shot, it wounded the rogue, but not so that he could not get away, leaving marks of blood behind him; but on Monday night (the 9th) the discharge of the gun, it being loaded with coarse shot, proved fatal to an old State Prison convict by the name of John Stacy, who had entered the premises in the night, armed with a long sharp butcher's knife, evidently for the purpose of stealing. The burglar was found in the morning at the inner door of the store, dead, having received the contents of the gun in the thigh and groin.

A FREE PASSENGER.—At the Police Court in Liverpool, August 24, a fashionably dressed young man, who said he was a Spanish nobleman, but who also gave the name of Sheenes, was sent to prison for three months for not paying his fare for a passage from New York to Liverpool in the Cunard mail steamer Russia. On the voyage the prisoner gave himself such grand airs as to completely impose upon the purser, but on arriving at Liverpool he confessed that he had neither ticket nor money. His wine bill alone was $155.

☞ On Wednesday, on the Kim ra and Canandaigua branch of the Northern Central Railroad, between Millport and Pine Valley, an excursion train of ten cars collided with a portion of a freight train, which had broken from the main train, standing on the track. The train was going slowly, so that only those on the platform were injured. The engineer and firemen saved themselves by jumping off the engine.—Two men were killed and four seriously injured.

—It is now stated as a certainty that the fire which destroyed the Lexington House caught from a defective chimney.

—The Common Council of Cincinnati arrived in New York Wednesday evening on an excursion.

— It is one of the rules of the new Fenian army shortly to be raised, that no man addicted to drink shall be enlisted, and any one found drunk shall be discharged.

—Edwin Booth has renewed his application for his brother's remains, earnestly pleading that his aged mother craves the body that she may inter it near that of his father before she dies. The application was refused, as it ought to be.

—A private letter received at the Treasury Department from one of the employees at the Custom House at Galveston, Texas, gives a most terrible account of the suffering and desolation occasioned in that section of the country by the yellow fever.—Nearly all of the Internal Revenue officers and Custom House officers have died.

— Mr. Ernest Jones at his recent lecture in Dublin gave some interesting statistics. He said there were 71,000,000 acres in the three kingdoms. In 1770 this land had 250,000 owners. In 1856 the number had diminished to 32,000 and was still decreasing The Duke of Cleaveland might ride twenty-three miles through his estate; the Duke of Devonshire had 96,000 acres in the county of Derby alone; the Duke of Richmond possessed 340,000 acres; and the Marquis of Breadalbane might ride 100 miles in a straight line through his property from his own house door.

KIND WORDS.—Kind words! how cheap, indeed, and yet how very dear. Kind words are Heaven's sweet angel messenger. So is Herrick Allen's Gold Medal Saleratus earth's sweet messenger to all who love a good, nice, light, white Biscuit. You had better throw your flour away and go hungry, rather than use any other. Call for Herrick Allen's, and have no other: it is harmless as flour. Try it. Most everybody sells it. Depot 112 Lithery street, N. Y. 45

MARTYRS TO CARELESSNESS.—If all the teeth that have been ruined by neglect could be strung together, they would reach thrice round the world. There may have been some excuse for this havoc in days gone by, when there was no absolute safeguard against dental decay in existence; but there is no apology for it now.—FRAGRANT SOZODONT, the world-renowned antiseptic dentifrice, as certainly protects the teeth against decay, as oil prevents steel from rusting, or water arrests the progress of fire. 16

THE GOOD SAMARITAN.—The good Samaritan poured oil and wine into the wounds of the unfortunate Jew who had been beaten and left for dead; but James Fyle pours into the market the best Saleratus ever made, proving himself a greater benefactor than was the good Samaritan. Housekeepers should ASK for Fyle's Saleratus, and see that his name is on each package.

A STORY WITH A MORAL.—A Connecticut exchange tells the following story of a boy who was sent from Croton, Connecticut, to New London one day last summer, with a bag of green corn. The boy was gone all day, and returned with the bag unopened, which he dumped on the floor, saying:

"There is your corn; go and sell it; I can't."

"Sold any?"

"No; I've been all over London with it, and nobody said anything concerning green corn. Two or three fellows asked me what I had in my bag, and I told them it was none of their business what it was!"

The boy is not unlike hundreds of merchans, who will promptly call him a fool for not telling what he had to sell. They are actually doing the same thing on a much larger scale than did that boy, by not advertising their business.

CHRONIC CATARRH.

There are undoubtedly hundreds in this vicinity who are suffering from Chronic Catarrh and its unhappy consequences, who are not aware of the danger to which they are exposed. The symptoms of this disease are usually so mild at first, as to excite little or no attention on the part of the sufferer, and thus it is allowed to pass on from one stage to another, involving in its destructive march more and more serious results. Reader, if you would avoid the dangers of a seated Consumption, do not neglect a "Cold or Catarrh in the head." That this disease is so fatal in its tendency and productive of such unhappy consequences, no one will be surprised to learn, if he will but reflect that every breath of air that is inhaled into the system, by those suffering from Chronic Catarrh, must pass over an unhealthy and diseased membrane, and the air in passing over these putrid and ulcerated surfaces, must of necessity imbibe the most noxious and deadly properties, and in this manner every breath of air you take into the lungs is converted into a poisonous agent of death. There is no disease in the entire catalogue of human ills, the treatment or which has been so little understood as Chronic Catarrh, and hence from the practice ordinarily adopted by the profession, there is little to hope.

DEAFNESS,

Weak eyes, noises, pains, and disagreeable sensations in the head, usually attributed to Neuralgia, frequently arise from Catarrh.

Dr. C.'s success in treating Catarrh has been almost wonderful. He does not profess to cure every case that may be presented to him, but having had years of experience in treating Diseases of the Eye, Ear and Throat, and Catarrh alone, he thinks himself better qualified to perform cures in many cases than physicians who have not enjoyed similar opportunities.

HOME TESTIMONIALS.

From the Lewiston Journal, May 24th, 1867.

Dr. Carpenter, who has been in this city for a few weeks at the DeWitt House, treating diseases of the Ear, Eye and Throat, will leave for Bath in a few days, but we cannot forbear adding a word of special endorsement to the Doctor's skill and ability. There are many good reasons why people should look with distrust upon professionals generally, who practice from place to place—But these do not apply to Dr. Carpenter, who confines his practice to the leading cities and towns in Maine, and has met with great success everywhere he has practiced. He is a reliable and skillful specialist, and a physician of reputation and honor. We are glad that the Doctor has visited our city—a feeling in which large numbers who have received the benefit of his treatment unite. We trust the Doctor's engagements will permit him to visit Lewiston frequently.

From the Augusta Gospel Banner, Feb, 16, 1867.

Persons troubled with blindness, deafness or catarrh, will do well to consult Dr. Carpenter.—We know him personally. He is a gentleman—is well read in his profession, is no humbug or deceiver, will not, as many do, tell the patient he can effect a cure without reasonable grounds for the declaration. He wrought several cures in this vicinity, and essentially helped others who had suffered for years. This is written by the editor of the Banner without solicitation from any one.

From the Portland Press.

Dr. Carpenter, the Oculist and Aurist, who has been spending several months in practice in this city, has had marked success in the treatment of diseases of the Eye, Ear and Throat, as also of Catarrh in its worst form. He is well versed in the treatment of the diseases he has made his specialities, gentlemanly in the treatment of patients, and prompt in the discharge of all pecuniary obligations.

☞ DR. CARPENTER, during the past few years, has confined his practice to the principal cities and towns in Maine, the State of his residence, but having received many solicitations from persons in Portsmouth and vicinity, he has been induced to visit Portsmouth a few weeks professionally.

DR. S. S. FITCH,
Of 714 BROADWAY, NEW YORK, Author of the Six Lectures on the Prevention and Cure of Pulmonary Consumption, Asthma, Catarrh, Dyspepsia, Heart Disease and all Chronic Diseases, will be at the
ROCKINGHAM HOUSE, Portsmouth,
On THURSDAY, Sept. 26, and on the same day of the week every 4th week afterward.
Dr. Fitch treats all Diseases of the Head, Scalp, Eyes, Nostrils, Throat, Lungs, Stomach, Heart, Liver, Bowels, Piles, Kidneys, Skins, Joints, Dropsy; also Diseases peculiar to Males and to Females. Good Complexion perfectly restored. Most persons, somewhere from 15 to 80 have one or more bad fits of sickness. Cure them wholly, and they will live ten to fifty years longer. Dr. Fitch's most prominent specialty is the prolongation of human life.
A respectable physician said to me four weeks ago, "For seventeen years you have kept me well of diseases you called utterly incurable by several eminent physicians."
Mrs. Elizabeth Huntington Long writes, (Saratoga Springs, March 30, 1867,) twenty three years ago she had ulcerated lungs, and true, dread, hereditary consumption, of which her sister died. I cured her perfectly. Fourteen years later she had a bad attack of heart disease, of which her brother died. Of this I cured her perfectly. She says, "I shall never forget with gratitude, for, under God, I owe my life to you."
Miss Anna Judkin, at Portsmouth, N. H., June 7, 1867, said, "Twenty-four years ago I was your patient, and very bad with lung disease. My father, four brothers and three sisters, had died with consumption. I was wholly given up. In six months you cured me. I am now enjoying perfect health twenty two and a half years; not a single sign of lung disease in all that time."
D. D. Benjamin of Union, N. J., says, "Over twenty years ago I and my brother were both in consumption. I had bleedings and ulcerated lungs. My brother refused treatment, and died in three months. You cured me, and I have not had any cough or lung trouble in twenty years. I was then forty, and I am now sixty years old."
All consultations are wholly free.

TO OWNERS OF HORSES AND CATTLE.—
THOMAS' DERBY CONDITION POWDERS
are unquestionably superior to any others, or no pay, for the cure of Distemper, Worms, Botts, Colic, Hide-bound, Colds, etc., in Horses; and Colds, Coughs, Loss of Milk, Black Tongue, Horn Distemper, etc., in Cattle. They are perfectly safe and innocent; no need of stopping the working of your animals. They increase the appetite, give a fine coat to the skin, cleanse the stomach and organs; also increase the milk of cows. Try them, and you will never be without them. Hiram Woodbury, of Bedford, N. H., says he has used them for horses, has used them for years, and recommends them to his friends. Col. Philo. P. Bush of the Atwood House, Bedford, N. H., says he has not use them until he was told of what they are composed, since which he is never without them. He has over fifteen years' experience in horses in charge, and for the last three years has used no other medicine for them. He has kindly permitted me to refer any one to him. DR. SCHENCK, THE LUNG DOCTOR.
☞ The Proprietor of SCHENK'S PULMONIC SYRUP, the inventor of SCHENK'S SEAWEED TONIC, the only instruments that will positively detect the slightest murmur of the respiratory organs.
This is of great importance to Dr. SCHENCK, to know the exact condition of the lungs, whether it is Tuberculous, Pulmonary, Bronchial, Pleuritic, or Dyspeptic Consumption, and whether it is both lungs or only one that are diseased.
It requires constant and long practice to become familiar with the sound or murmur of a diseased bronchial tube. Patients come to Dr. SCHENCK to get examined that have been examined by their family physician, who informs them that their lungs were almost gone; when by a close examination with the Respirometer, it is found to be only a local affection of the bronchial tube; and by getting a healthy action of the liver and tone of the stomach, the sufferer is soon restored to health by the use of those medicines that will stop a cough in certain death to the patient. It locks up the liver, stops the circulation of the blood—hemorrhage follows, and, in fact, stops pain; the action of the very organs that cause the cough.
Dr. Schenck will be professionally at his rooms every week, 32 Bond street, New York, and 35 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer the charge is $5. His medicines are for sale by all druggists and dealers, and can be had of us in all these cities. Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen, or one hundred and $25 each per box.—GEO. C. GOODWIN & CO., 38 Hanover street, Boston. A NEW GLEE BOOK.
THE GREETING.—A collection of Glees, Quartette, Chorus and Part-Songs, &c. By L. O. Emerson. Author of "The Jubilate," "Harp of Judah," "Golden Wreath," "Merry Chimes," &c.
Upwards of half a million copies of Mr. Emerson's Music Books have been sold, a fact proving a popularity which has rewarded no other author of the same class of books, and which may be relied to insure for this new volume an immense sale —The contents of this work are, for the most part, NEW, a large number of valuable pieces having been contributed by Mr. L. H. Southard, whose name is a sufficient guarantee of their excellence. The marked features of the collection are its variety, Brilliancy and Variety; and it will be found upon careful examination that there is no Glee Book now before the public that in every particular will prove so completely satisfactory to Musical societies and Conventions, Conservatories, Children and Amateur Singers. Price $1.50. Mailed post paid. OLIVER DITSON & CO., Publishers, 277 Washington street, Boston.

Local.

☞ On Wednesday evening, as Mr. Munroe Holmes of this city was driving down Pleasant street in a wagon, at a late hour, he dropped one of the reins from his hand. In the wagon were two Irish boys in his employ, named Harrington and Holland. The latter, in trying to recover the reins, caused the horse to sheer, or he was frightened by the lightning, when the wagon struck a tree in front of the residence of the late Jacob Wendell, throwing the whole party out, and seriously injuring Messrs. Holmes and Harrington. Holland was not much hurt. On Thursday afternoon Harrington was reported to be dead, and Mr. Holmes was said to be more comfortable; but as his skull is said to be fractured by the horse stepping on him, and he had not recovered consciousness up to that time—his case would seem to be exceedingly critical.

☞ The Salisbury Beach gathering on Wednesday was one of the most successful that has ever occurred. Twenty thousand people and over 1600 carriages were present, some of the latter carrying thirty passengers. Gen. Butler was principal speaker. Rev. So say all the papers, and it would seem her reported husband *must* have "left her," for if we mistake not he—Lieut. Samuel Harding of this city, and reported an officer in the rebel service,—was said to have died during the war.

A WESTERN ROMANCE.—*Enoch Arden Eclipsed.*—The Courier, published at Muscatine, Iowa, relates a story of one John Hughes, who resided at Aledo at the commencement of the late war, and who entered the army after being only a week married to a young lady to whom he had been long attached. He left into the hands of the enemy during the Red River expedition, and was sent to Tyler, Texas, where, in consequence of hard treatment, he became insane. Meantime news went home that he had been killed. His young bride mourned for him nearly two years, when, on the advice of her parents and friends, she accepted the hand of another, and married him last December. Her first husband was discharged from the asylum restored again to his reason, and so soon as he could accumulate the necessary means, he started for home.
Arriving at the nearest river town to Aledo, he fell in with a man from that place, and without making himself known, soon learned the condition of affairs at home. Grieved beyond expression, he thought over the situation, and finally determined, like Enoch Arden, to leave his whilom wife and her new found love to themselves. Following out the resolve, he went up into Tulara County, where he had distant relatives living. The desire to hear from his old home became at last so absorbing that, under an assumed name, he subscribed to the village paper.
Last month he saw an announcement of the death of his wife's second husband, together with a paragraph sympathizing with the bereaved widow, and giving an account of his own melancholy death as illustrative of the hardness of her lot. Knowing that his wife was again free, he forgot whatever resentment he might have felt over her second marriage, and on Saturday last he put in his appearance in person. The meeting was undoubtedly a happy one, as a few days afterward the couple were seen on the way to Tulara, looking as loving as bride and bridegroom could be.

ACROSS THE SIERRA NEVADAS.
THE
CENTRAL PACIFIC RAILROAD,
THE WESTERN HALF OF THE
GREAT NATIONAL TRUNK LINE
ACROSS THE CONTINENT,
being constructed with the AID and SUPERVISION OF UNITED STATES GOVERNMENT, is destined to be one of the MOST IMPORTANT LINES OF COMMUNICATION IN THE WORLD, as it is the *sole link between the Pacific Coast and the Great Interior Basin*, over which the immense Overland travel must pass, and the
Principal Portion of the Main Steam Line between the Two Oceans.
Its line extends from Sacramento, on the tidal waters of the Pacific, eastward across the richest and most populous parts of California, Nevada and Utah, contiguous to all the great Mining Regions of the Far West, and will meet and connect with the roads now building east of the Rocky Mountains, about 100 miles are now built, equipped and in running operation to the summit of the Sierra Nevadas. Within a few days 150 miles, now graded, will be added, and the track carried entirely across the mountains to a point in the Great Salt Lake Valley, whence further progress will be easy and rapid. Iron, materials and equipment are ready at hand for 300 miles of road, and 10,000 men are employed in the construction.
The local business upon the completed portion surpasses all previous estimate. The figures for the quarter ending August 31 are as follows in GOLD:

GROSS EARNINGS,	OPERATING EXPENSES,	NET EARNINGS,
$187,579 61	$86,548 77	$101,031 17

or at the rate of *two millions* per annum, of which more than three fourths are net profit on the 150 miles worked. This is upon the strictly local legitimate traffic of the road, with its terminus in the mountains, and with only the normal ratio of development, population, and of exclusive of the materials carried for the further extension of the road.
The Company's interest liabilities during the same period were less than $125,000.
Add to this an ever expanding through traffic and local proportions of the future business become immense.
The Company are authorized to continue their line eastward until it shall meet and connect with the roads now building east of the Rocky Mountain range.
Assured that they will build and control half the entire distance between the Pacific Ocean and the Missouri River, as now seems probable, the United States will have invested in the completion of 865 miles of road $35,000,000, at the average rate of $35.000 per mile—not including the absolute grant of 10,000,000 acres of the Public Lands. By becoming a partner in the magnificent enterprise, and by waiving its first lien in favor of the First Mortgage Bondholders, the GENERAL GOVERNMENT, IN EFFECT, INVITES THE CO-OPERATION OF PRIVATE CAPITALISTS, and has carefully guarded their interests against all ordinary contingencies.
The Company offer for sale, through us, their
First Mortgage Thirty Year, Six per Cent. Coupon Bonds,
Principal and Interest payable in Gold in the City of New York. They are in sums of $1000 each, with semi-annual gold coupons attached, and are selling for the present at 95 per cent. and accrued interest, which is a fair basis of interest, when rate they yield nearly
Nine per Cent. upon the Investment.
These Bonds, authorized by Act of Congress, are issued only as the work progresses, and to the same amount only as the Bonds granted by the Government; and represent, in all cases, the *first lien* upon a completed, equipped and productive railroad, in which have been invested Government subsidies, stock subscriptions, donations, region earnings, etc., and which is worth more than three times the amount of First Mortgage Bonds which can be issued upon it.
The Central Pacific First Mortgage Bonds have all the assurances, sanctions and guarantees of the Pacific Railroad Act of Congress, and have in addition several notable advantages over all other classes of railroad Bonds.
First—They are the superior claim upon altogether the most vital and valuable portion of the whole line.
Second—Beside the fullest benefit of the Government subsidy, (which is a subordinate lien,) the road secures the benefit of large donations from California.
Third—Fully half the whole cost of grading 800 miles eastward of Sacramento is concentrated upon the 150 miles now about completed.
Fourth—A local business already yielding threefold the annual interest liabilities, with advantageous rates payable in coin.
Fifth—The principal as well as the interest of its Bonds being payable in coin, upon a legally binding agreement.
Having carefully investigated the resources, progress and prospects of the road, and the management of the Company's affairs, we cordially recommend these Bonds to Trustees, Executors, Institutions and others as an eminently *sound, reliable and remunerative form of permanent investment.*

Morning Chronicle.

SPEAKING LIES IN HYPOCRISY.—Judge Kelley, in a recent address in Ohio, detailed a satisfactory interview he had with President Johnson shortly after the death of Mr. Lincoln, and then added the following:

"I had seen Hon. Charles Sumner the night before, and he told me that in a conversation which he had had with the President that day, Mr. Johnson had made a similar statement to him. Said Mr. Sumner: 'Providence seems to have taken care of us, and to have inspired Mr. Johnson with the truth beyond the measure in which I was permitted to hope he possessed it.—He takes the view that will make the North safe for the present and ultimately give us a harmonious country.'

As I left the executive room, having gone thither at Mr. Johnson's request, from Mr. Hooper's house, he saying to Gen. Grant, for he was with me: 'the time has come when I must be in the executive room.—Our conversation is not finished. Goover; and here is my card to the messenger. Be in the room awaiting me, that we may conclude it there.' As I left the room, to which I had been thus confidentially introduded by him, I met Gen. Carl Schurz, fresh from Gen. Sherman's army in North Carolina, with his stars bright on his shoulders and the dust from Sherman's grand march to the sea yet upon his war-worn uniform. After the close of this interview—I met him but for a moment—said he: 'The President is all right, if he don't talk a little too strongly.' Said he: 'I am afraid he doth protest too much, and the very vehemence of his protestations makes me fear the fidelity of his statements.'

I met him the next day in Philadelphia, and in the presence of a gentleman in the Union League building, General Schurz and I compared notes and found that Andrew Johnson had talked to him as to me, and to both as to Charles Sumner. A few days afterward I met Gen. Steward L. Woodford and Gen. Littlefield, the one fresh from the command of the city of Charleston, and the other from the city of Savanah, Ga., and I learned from one of these that he had heard from a prominent gentleman, who had been with the President and had an interview with him, that it was his purpose to overthrow the Radical party and reorganize the national Democratic party. 'And,' said General Woodford, naming some gentleman from Charleston, S. C., prominent rebels, 'that is the statement Mr. Johnson has given to each and all of them, each separate and apart from the others.'

[Could hypocrisy or lying be baser or more deliberate? And does such a person deserve any forbearance?]

— A repudiation (that is, a paying off the debt in legal tenders) resolution was regularly reported in the Wisconsin Democratic Convention, but the following was substituted and adopted:

"*Resolved*, That we are in favor of full and punctual discharge of the national obligations and debts, precisely on the conditions and terms on which they were contracted, and the faith of the Government pledged to its creditors."

COFFEE AND COTTON IN BRAZIL.—A Brazilian paper, dated August 7, says that everybody concurs in anticipating the largest harvest ever gathered in coffee. Every year new plantations are coming into bearing, and the yield of the trees is particularly abundant this season. Of cotton, likewise, the anticipations are very sanguine.

☞ On Sunday a man swam across Niagara river, starting from the ferry on this side and landing on the Canadian side nearly opposite the towers of the new suspension bridge. It is considered a great and dangerous feat.—*Exch.*

[So it is, and wonderfully foolish also.]

SPEER'S SAMBUCI WINE.

Prescribed by Physician for FEMALES, WEAKLY PERSONS AND INVALIDS.

As a Tonic, it has no equal, causing an appetite and building up the system of the most debilitated person.

As a Diuretic, it imparts a healthy action to the Glands, Kidneys and Urinary Organs; very beneficial in Dropsy, Gout and Rheumatic Affections.

As a Blood Purifier, it is superior, being one of the most alterative known in the medical pharmacopoeia.

The qualities of SAMBUCI are "*medium in person*," being at once a Tonic, Diuretic, Alterative, Diaphoretic and Soporific.

N B.—Frauds known as spurious imitations of SPEER'S SAMBUCI are a pure juice wine with a fine flavor, rich body and pleasant taste. It is peculiarly adapted for weak and debilitated persons, the aged and infirm, and benefiting ladies and children.

Be sure the signature of *ALFRED SPEER*, Passaic, N. J., is over the cork of the bottle.

DOWNER

KEROSENE OIL CO.

Office, No. 108 *Water Street, Boston.*

TO CONSUMERS OF OIL.

CAUTION.

It having come to our knowledge that many dealers, throughout New England, are in the habit of burning small quantities of our Oil, and larger quantities of inferior oils, and using our brand and packages fraudulently in the sale of these inferior oils, we are determined to stop such frauds, and hereby offer a **Reward of 100 Dollars** for information that will lead to the detection and punishment of any party using our name or brand in the sale of any other than our own Oil. The "**Downer Kerosene Oil**" has been frequently tested and analyzed by Dr. A. A. HAYES, State Assayer, and in a communication to us, dated July 5, 1867, he says: "The term 'Kerosene' as used by the **Downer Oil Company**, applies to the highest grade of Oil only, which, our trials show, does not inflame below 120 degrees Fahrenheit, and combines the assurance of both safety and excellence with it; while the mixed Oils are not only unsafe, but in causing accidents, destroy confidence in the safe and excellent article for burning light produced by the honest manufacturer."

POLYGAMY was no part of Jo. Smith's creed. He denounced it, and his widow and sons have discarded the Salt Lake people on account of it. It is the invention of Brigham Young, and is made by him a means of strengthening his power, as it enables him to connect himself by marriage with every family of importance in Zion.—The heart-broken wives suppose that their crosses here will procure for them brighter crowns above.

No two writers estimate alike the number of Young's family, and no Mormon professes to know. Probably he has fifteen or twenty wives in his household, besides others who are simply sealed to him, to share his crown in the future world. Even the dead have been married to him by proxy. His first wife—lawfully wedded before the invention of polygamy—now lives by herself in a pleasant cottage, some distance from the harem. She is said to be a firm believer, and to accept her situation as divinely ordained. She seems to be the most intelligent and refined of all.—The last taken wife—a niece of the first—is of quite a different spirit, being disorderly and rebellious to the last degree. She was tried in the harem, but threatened the subversion of all law and order there, and is now quartered in a house of her own, beyond range of the others. No wife is displaced for a successor, without keen sorrow and frenzied resistance.

A HEAVY TRAIN.—The largest train, consisting of fifty three cars, and the heaviest load of iron ore, ever run over the Bay de Noquet & Marquette road, was hauled by the engine Joseph S. Fay, under Andrew Steele as engineer and conductor, on Friday, of last week. The net weight of the ore was four hundred and seventy five and one quarter tons, and the cars weighing an addition of about one hundred and seventy five tons, would make the gross weight of the train, without the engine, six hundred and fifty tons. And this enormous load was hauled by the Fay up several heavy grades, some of them one hundred and fifty feet to the mile.—*Lake Superior Mining Journal.*

A NOBLE ACT.—Nearly nine years ago Cyrenie Woodworth, a daughter of John Woodworth of Middletown, became insane. Her friends being unable to support her, she was removed to the Asylum at Brattleboro', and has been there supported at the expense of the town of Middletown. A few days since, a brother named Andrew Jackson Woodworth, returned on a visit after an absence of several years, and called upon the Selectmen of the town to ascertain the amount that had been paid for the maintenance of his sister. A statement was made which amounted to nearly nine hundred dollars. He at once paid the town one thousand dollars, and as the case of his sister is hopeless, he made provision for her future support at Brattleboro'. This act is one of a thousand, and is worthy of this public record.—*Rutland (Vt.) Herald.*

— Capt. David Hinckley of Livermore, Androscoggin co., Maine, rode six miles the 9th and voted for Gen. Chamberlain for Governor. Capt. Hinkley was born in 1765, and is therefore, one hundred and two years of age. He voted for Gen. Washington for the first President of the United States, and has voted for President at every election since that time. We presume there is not another such instance on record. He hopes, he says, to live to vote for Gen. Grant for President in 1868, and he will then have voted for him who founded, him who liberated, and him who saved the Republic—Washington, Lincoln and Grant.

THE STOVE FOR THE MILLION!
THE
KEARSARGE
HAS NOT BEEN BEATEN!
URIAH BLAISDELL,
NO. 43 MARKET STREET,
Takes pleasure, as the cold season approaches, in again inviting public attention to this superior
COOK STOVE!
Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class range—a quick baker, doing its work equally as well with WOOD OR COAL, an economizer of fuel, and a heavy, well-made and durable Stove, as it is a neat and symetrical one. It has been in no Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified encomiums of its numerous purchasers—of all who know what a good stove is and how to appreciate it.
Pleasure is taken in showing the KEARSARGE and all in want of a stove of the first merit at a moderate price, are invited to call and examine it whether they purchase or not.
The following names from its large list of purchasers are given for reference:

The Daily Chronicle.

Portsmouth, N. H.

SATURDAY, SEPTEMBER 21, 1867.

AT MANCHESTER, England, Thursday forenoon, Sept. 19, quite a serious Fenian riot occurred, resulting in the killing and wounding of several persons. While a strong police escort were conducting the Fenians Kelley and Deany from the jail to the railroad depot, preparatory to their removal to Dublin for trial, it was attacked by a mob armed with clubs, stones and fire-arms. A desperate battle ensued for a time, when the police, finding themselves overpowered, gave way, the prisoners were rescued by the mob and carried off in triumph. The city is now quiet. One policeman was killed and several others injured. Many rioters were also badly injured.

A proclamation was immediately issued by the authorities, offering a reward of £300 for the recapture of the prisoners, but at 5 P. M. they had not been recovered, though it is thought they cannot have escaped from the city. Many of the rioters have been arrested.

AT WASHINGTON, on Thursday, Gen. Hancock, accompanied by General Grant, called on the President and had a long conference. The President informed him that although the telegram asking him to visit Washington appeared to come from Gen. Grant, it was really sent through army headquarters by himself. The President discussed the propriety of having a uniform day of election in all the Southern states, which, if agreed on by all the other District Commanders, would probably be acquiesced in by Gen. Schofield. He added that he possessed no power to fix such a day, but merely suggested it to the District Commanders.

☞ The Central Church in Portland have united in a call to the Rev. Mr. Frink of Mont Vernon, N. H., at a salary of $2000 a year. The Third Parish having rejected the proposition of the former Society for a consolidation, it has been withdrawn. So we should think; oil and water don't mix well.

☞ We have returns from 440 towns in Maine, comprising nearly all the State, which figure thus:

	1866	1867
Republican,	68,022	56,406
Democratic,	40,319	44,702
Republican majority,	27,706	11,704

The total vote is 101,108, against 108,338 last year—a falling off of 7,230. The Democrats gain 4,396, and the Republicans lose 11,616. The Republican majority will be fully up to the average for ten years past. The reader has probably noticed a sudden cessation of Democratic crowing over Maine.

☞ In Portland, on Wednesday, a man came to town to sell his load of beans and was offered the best market price, $5.25 a bushel, but he wanted another quarter and was stiff in his demand. So he left his team on Middle street and went to put up a trade. Pretty soon Dobbin got tired of standing still and went prospecting on his own hook, and traveled over to look at the ruins of Wood's Hotel, where he unfortunately run the wagon upon a big stone and upset it, spilling the beans into the cellar, rather to the displeasure of the owner.

— A Western paper dubs Olympia Brown "Brevet Reverend."

— Sidewalk peanut stands are coming to grief in New York.

— The Stonington, Conn., Bank and its Cashier are in a snarl.

—The Portland Glass Company have voted to rebuild their works at once.

— The Harpers are soon to publish a weekly fashion paper on a very extensive scale.

—The debt of Portland is $1,067,817, of which only $75,000 was incurred during the war.

— The Hoboken Ferry Company at New York has accumulated twenty-five barrels of pennies that they cannot dispose of.

— Gen. Beauregard says the United States Government is the strongest in the world. He is a good judge of its power.

— Miss Susan C. Godas of Hickman, Ky., has slept for eighteen years, except in a few intervals each day, lasting each five or ten minutes.

—It has been independently discovered by three several astronomers that a new crater has appeared in the moon and an old one filled up by the eruption from it.

— The Chicago Post asks if "Radicalism" is dying out, what must have been the condition of Copperhead Conservatism for the last five years?

— A freight train lately passed over the Lehigh Valley Railroad consisting of two hundred and twenty-five cars. Each car was fourteen feet long, and the total length of the train was 3850 feet—over two-thirds of a mile. The whole weight was about sixteen hundred tons.

NEW HAMPSHIRE ITEMS.

—— George Davis of Nashua, was severely if not fatally injured by being thrown from his load of lumber and run over by the wheels, while descending a hill in Hollis.

—— John Dicky of Manchester has raised this season from one potato of half pound weight, 71 pounds of sound potatoes. The seed potato was the Early Goodrich, was cut in sixteen pieces, and planted in eight hills.

FRIENDS.—There are two societies of Quakers or Friends, in Brooklyn, New-York. The Unitarians or Hicksites, have a fine house and large attendance on Schermerhorn street. The Orthodox meet in a small room in Packer Institute. This latter body have grown greatly within a year or two. Quite an unusual attendance of young people marks the meetings. It is now proposed to build. Eligible lots have been bought on Washington avenue, near Myrtle, A house will be at once begun, to be completed in the fall. All the funds needed have been raised, $25,000 of which were donated by Friends in New-York. Among the sign of the times may be named new measures introduced into the Grammercy Park meetings—the brown-stone front meeting-house of the city. A sabbath-school has been set up, a sewing-meeting held in rooms got up for that purpose, apparatus for crockery and teas, and indeed "all the modern improvements."

ESCOBEDO AND FOREIGNERS. — The Mexican General Escobedo has published a denial of the authenticity of the late alleged letter against foreigners, stating that it was only those bad Mexicans who had favored Maximilian, who, after their defeat, wished to place their country in a disreputable position, had originated the calumny. He says he recognizes as enemies only those who are unfriendly to his country, and appeals to all Americans who have visited his encampments, and who have had opportunity to know his sentiments, to refute the falsehoods contained in the letter imputed to him.

☞ The returns faom nearly all the State of Vermont give the following vote: Republican—27,080; Democratic—8,983; Republican majority, 18,097.

There was little excitement, but the Republican majority is there. It is fully equal to the average for a series of years, excepting those in which were votes for President.

☞ Ex-Admiral Semmes has been going backward so long that his ideas of things generally are getting rather mixed. He says in a late number of his paper: "We regard the President's impeachment as highly probable unless the Fall elections *put a bridle on the unruly rump.*" But perhaps it is too much after all to expect a seafaring man to know much about the use of a bridle.—*Tribune.*

☞ Steamboat Dean Richmond was sunk near Rondout, Thursday night, by collision with the Vanderbilt. Passengers and crew all safe.

☞ The new steamship Ontario arrived at Boston, Thursday, in ten days and six hours from Queenstown.

— The accident to Mr. Edwin Booth occurred at the Holliday Street Theatre, Baltimore, on Thursday evening last. In the play of the "Apostate," he was accidentally stabbed in the fleshy part of the right hand by a dagger in the hands of Mr. Vanderhoff. Notwithstanding this mishap, Mr. Booth played on Friday and Saturday nights, but it was learned on Sunday that he would be compelled to forego an appearance for a few evenings, in consequence of the inflamed state of his wound.

— The Washington correspondent of the New York Tribune, speaking of the Antietam visit, says that Mr. Johnson and the members of the Cabinet with him, snubbed every one of note excepting Swann, Bradford and the other Maryland rebels. It is stated that, had it not been for Govs. Geary and Fenton, the audience would not have listened to Mr. Johnson.

— A South Carolina correspondent of the New York Times says that the press throughout the State is doing its utmost to induce every white man to register who is allowed the privilege; but, in spite of every effort, the negro majority on the registration lists of South Carolina will be at least twenty thousand.

— Remarking upon the prevalence of cholera in New Orleans, the Republican says very few men born North of the Potomac are mentioned in the list of those to whom the present epidemic has proved fatal. The proportion of Northern men who recover from yellow fever is very large.

— The strike of the miners in Pennsylvania has resulted in a resumption of labor at very low wages, their average earnings being from $7 to $9 per week. The miners find themselves involved in almost inextricable debts to grocers and clothiers.

— On Tuesday night a robber was shot dead at Saugerties, New York, while in the act of picking up some harnesses to carry away from a stable. Good.

GOLD, Friday, 143. The fall possibly owing (as a protest) to the correction of the election returns.

☞ The late tipsy and brilliant Senator McDougal was the first man to detect Andrew Johnson's drunkenness, on the 5th day of March, 1865, the day of his disgraceful exhibition at his inauguration.—McDougal, himself well in liquor, listened a few minutes to the idiotic harangue, and turning to an eminent Senator who sat near him, remarked in a husky voice: "I say—you, when I—talk in that way—you think—I'm drunk."—*Exch.*

We never had any doubt that His Accidency was drunk when he disgraced himself and outraged his country on that occasion,—as our files at the time will show; but we will allow we were given enough to believe the excuses his friends then put forth for him—that he "took something" for sickness, and his copperhead enemies (then,—now his friends) drugged him.

MAINE AND MASSACHUSETTS.—Every one who knows anything about the matter, knows the only issue in Maine was that of a local character. It was a square fight upon the rum question, and the result is the rummies of all parties are overwhelmingly whipped. It is a great triumph to the temperance cause. It is equally notorious that the same issue is before the people of Massachusetts, and there is no doubt the result will be the same.—*Wolfeborough News.*

Yes, and the same tussle will follow in New Hampshire—and we predict with the same result, seizure and imprisonment clause, State Constables and all. Look out for them!

FEVER AT THE SOUTH.—In New York c. the Physicians' Executive Committee have issued an appeal in behalf of the Southern people suffering from yellow fever, in which they make some startling revelations. In New Orleans no less than 200 are prostrated daily. In Texas the disease is not confined to the seaboard, but is spreading into the interior.

There are from 4000 to 5000 patients in New Orleans alone requiring unremitting attention at this moment. Nurses they have, but money is required, and the physicians appeal, as they never appealed before, for material aid.

WASHINGTON ITEMS.—The N. Y. Times special Washington dispatch says the President informed persons urging him to re-open Southern registration, that he could not do so without incurring a certain risk of impeachment, the Reconstruction laws conferring the sole control over registration on Military Commanders. His only power is the removal of commanders.

Immediately after the removal of Secretary Stanton, the President offered the War Department to Gen. McClellan, who promptly declined it.

Gen. Grant will probably recommend that the law be amended so as to allow the three months extra allowance to officers to be paid to their heirs.

THE LAST OF A FAMOUS BLOCKADE RUNNER.—Admiral Simon, commander of the French fleet in Greek waters, gives account of the destruction of the famous blockade runner Arcadi, once better known in western waters as the Confederate war ship Sumter. "She fought three Turkish ships for a while, and then sailed right between and was run ashore and fired."

To every barrel of flour you can make thirty pounds more bread or biscuit (and much better) by using Herrick Allen's Gold Medal Saleratus, than by yeast fermentation or any other saleratus. It is perfectly healthy, will not turn your cookery yellow, will strengthen weak stomachs, and cure dyspeptic persons.—It is much better to use with cream tartar than soda. Try one paper and you will be convinced. Most of the Grocers sell it. Depot 112 Liberty Street, New York. 1

THE RIVERSIDE INSTITUTE.—We append a list of the most valuable presents to be awarded those who purchase stock, at one dollar per share, in aid of the Rivers de Institute, a home for the gratuitous education of soldiers' and sailors' orphans, from all parts of the country under the management of the Washington Library Company of Philadelphia. The first present is worth Forty Thousand Dollars; the second, twenty thousand dollars; the third, eighteen thousand dollars; the fourth, ten thousand dollars; the fifth, five thousand dollars; the sixth consists of two worth twenty-five hundred each. The remainder are valued as follows—two at fifteen thousand dollars each; one at ten thousand dollars; four at five thousand dollars each; two at three thousand dollars each; three at two thousand dollars each; twenty at five hundred dollars each; ten at three hundred dollars each; fifty at two hundred dollars each; twenty at two hundred and twenty-five dollars each; fifty-five at two hundred dollars; fifty at one hundred and seventy-five dollars each; one hundred and ten at one hundred dollars each; twenty at seventy-five dollars each; ten at fifty dollars each, and numerous other articles of use and value, amounting to Eighty-two Thousand Dollars, the whole making an aggregate of three Hundred Thousand Dollars worth of presents which will be distributed among the shareholders, each share guaranteeing some one of the presents named above. In addition to this, a handsome steel plate engraving is given at the time of the purchase of the stock. This engraving at retail, could not be obtained for the amount paid for the stock. Who will hesitate to aid a noble charity on such terms? Read advertisement.

NOT GOLD ONLY,

BUT

RICH, FRUITY, LUSCIOUS

WINES!

California is making grand strides in her agricultural products and is fast withdrawing herself as a purchaser for the manufactures of the various branches of industry and domestic use. She sends a warning voice to the time-worn vineyards of Europe, and enters the lists as a fresh, young combatant for the production of wines from her own rich and increasing vineyards.—The time has come when it is simply ridiculous for any one house to claim to possess advantages or peculiar privileges for the sale of

THE WINES OF CALIFORNIA.

As well might they claim a monopoly of the cotton trade.

C. A. RICHARDS & CO.

do not receive or sell all the wines which California produces, but they do claim to have at all times a very large quantity on hand of all the best kinds, and their advantages for getting the best, and getting them at the lowest market value, are such as to enable them to offer them at prices which to-day are lower than any other house which sells California Wines of equality. We bottle five kinds. They are,—

"Angelica,"
"Muscatel,"
"Still Champagne,"
"Hock" and
"Port,"

Also "California Brandy."

They are all perfectly pure, and may be relied upon in sickness or in health. The **Angelica** and **Muscatel** are rich, sweet wines. The **Hock** is fully equal to the medium grades of Rhine wines. The **Port** is actually better than many of the high cost Ports from Oporto. We sell these wines in any required quantity, from a single bottle to a THOUSAND CASES, and are ready at all times to exhibit samples, or to send them to any address.

CHRONIC CATARRH.

There are undoubtedly hundreds in this vicinity who are suffering from Chronic Catarrh and its unhappy consequences, who are not aware of the danger to which they are exposed. The symptoms of this disease are usually so mild at first, as to excite little or no attention on the part of the sufferer, and thus it is allowed to pass on from one stage to another, involving in its destructive march more and more serious results. Beware, if you would avoid the dangers of a seated Consumption, do not neglect a "Cold or Catarrh in the head." That this disease is so fatal in its tendency and productive of such unhappy consequences, no one will be surprised to learn, if he will but reflect that every breath of air that is inhaled into the system, by those suffering from Chronic Catarrh, must pass over an unhealthy and diseased membrane, and the air in passing over these putrid and ulcerated surfaces, must of necessity imbibe the most noxious and deadly properties, and in this manner every breath of air you take into the lungs is converted into a poisonous agent of death. There is no disease in the entire catalogue of human ills, the treatment or which has been so little understood as Chronic Catarrh, and hence from the practice ordinarily adopted by the profession, there is little to hope.

DEAFNESS,

Weak eyes, noises, pains, and disagreeable sensations in the head, usually attributed to Neuralgia, frequently arise from Catarrh.

Dr. C.'s success in treating Catarrh has been almost wonderful. He does not profess to cure every case that may be presented to him, but having had years of experience in treating diseases of the Eye, Ear and Throat, and Catarrh alone, he thinks himself better qualified to perform cures in many cases than physicians who have not enjoyed similar opportunities.

HOME TESTIMONIALS.

From the Lewiston Journal, May 24th, 1867.

Dr. Carpenter, who has been in this city for a few weeks at the De Witt House, treating diseases of the Ear, Eye and Throat, will leave for Bath in a few days, but we cannot forbear adding a word of special endorsement to the Doctor's skill and ability. There are many good reasons why people should look with distrust upon professionals generally, who practice from place to place.—But these do not apply to Dr Carpenter, who confines his practice to the leading cities and towns in Maine, and has met with great success everywhere he has practiced. He is a reliable and skilful specialist, and a physician of reputation and honor. We are glad that the Doctor has visited our city—a feeling in which large numbers who have received the benefit of his treatment unite. We trust the Doctor's engagements will permit him to visit Lewiston frequently.

From the Augusta Gospel Banner, Feb. 16, 1867.

Persons troubled with blindness, deafness or catarrh, will do well to consult Dr. Carpenter.—We know him personally. He is a gentleman—is well read in his profession, is no humbug or deceiver, will not, as many do, tell the patient he can effect a cure without reasonable grounds for the declaration. He wrought success in this vicinity, and essentially helped others who had suffered for years. This is written by the editor of this Banner without solicitation from any one.

From the Portland Press.

Dr. Carpenter, the Oculist and Aurist, who has been spending several months in practice in this city, has had marked success in the treatment of diseases of the Eye, Ear and Throat, as also of Catarrh in its worst form. He is well versed in the treatment of the diseases he has made his specialties, gentlemanly in the treatment of patients, and prompt in the discharge of all pecuniary obligations.

☞ DR. CARPENTER, during the past few years, has confined his practice to the principal cities and towns in Maine, the State of his residence, but having received many solicitations from persons in Portsmouth and vicinity, he has been induced to visit Portsmouth a few weeks professionally.

DR. S. S. FITCH,
Of 714 BROADWAY, NEW YORK, Author of the Six Lectures on the Prevention and Cure of Pulmonary Consumption, Asthma, Catarrh, Dyspepsia, Heart Diseases and all Chronic Diseases, will be at the
ROCKINGHAM HOUSE, Portsmouth,
On THURSDAY, Sept. 26, and on the same day of the week every 4th week afterward.
Dr. Fitch treats all Diseases of the Head, Scalp, Eyes, Nostrils, Face, Throat, Lungs, Stomach, Heart, Liver, Bowels, Piles, Kidneys, Skins, Joints, Urinary; also Diseases peculiar to Males and to Females. Lost Complexion perfectly restored. Most persons, somewhere from 15 to 80 have one or more bad file of sickness. Cure them wholly, and they will live best to fifty years longer. Dr. Fitch's most prominent specialty is the prolongation of human life.

A respectable physician said to me four weeks ago, "For seventeen years you have kept me well of diseases pronounced utterly incurable by several eminent physicians."
Mrs. Elizabeth Huntington Long writes, (Saratoga Springs, March 26, 1867,) twenty three years ago she had ulcerated lungs, and true, seated, hereditary consumption, of which her sister died. I cured her perfectly. Fourteen years after she had a bad attack of heart disease, of which her brother died. Of this I cured her perfectly. She says, "I always remember you with gratitude, for, under God, I owe my life to you."
Miss Anna Judkin, at Portsmouth, N. H., June 7, 1867, said, "twenty four years ago I was your patient, and very bad with lung disease. My father, four brothers and three sisters, had died with consumption. I was told that only give me in six months you cured me. I have now enjoyed perfect health twenty two and a half years; not a single day of lung diseases in all that time."
D. D. Benjamin of Union, N. J., says, "Over twenty years ago I and my brother were both in consumption. I had ulcerated lungs, and ulcerated lungs. My brother refused treatment, and died in three months. You cured me, and I have not had any cough or lung trouble in twenty years. I was then forty, and I am now sixty years old."
All consultations are wholly free.

DR. SCHENCK, THE LUNG DOCTOR.
☞ The Proprietor of SCHENK'S PULMONIC SYRUP, the inventor of SCHENK'S RESPIROMETER, and the well known author of SCHENCK'S MANDRAKE PILLS, is professionally at his rooms every week, 32 Bond street, New York, and 25 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer the charge is $5. His medicines are for sale by all druggists and dealers, who keep a good supply of all three at his rooms. Price of the Pulmonic Syrup and Mandrake Pills, each $1.50 per bottle, or $7.50 the half dozen; the Seaweed Tonic $1.25 cents per box.—Directions how to use the Respirometer, Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen; Dyspepsia, Consumption, and whether it is both lungs or only one that are diseased.
It requires constant and long practice to become familiar with the sound or wheeze of the diseased bronchial tube. Patients come to Dr. SCHENCK to get examined that have been examined by their family physician, who tells them that their lungs were almost gone; when by a close examination with the Respirometer, it is often found that it is an affection of the bronchial tube; and by getting a healthy action of the liver and tone of the stomach, the sufferer is soon restored to health. Sometimes medicine that will stop a cough is certain death to the patient. It looks up the liver, stops the circulation of the blood—hemorrhage follows and, in fact, stops pin the action of the very organs that cause the cough.
Dr. Schenck will be professionally at his rooms every week, 32 Bond street, New York, and 25 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer the charge is $5. His medicines are for sale by all druggists and dealers, who keep a good supply of all three at his rooms. A NEW GLEE BOOK.
THE GREETING.—A Collection of Glees, Quartetts, Choruses Part-Songs, &c. By L. O. Emerson. Author of "The Jubilate," "Harp of Judah," "Golden Wreath," "Merry Chimes," &c. Upwards of one million copies of Mr. Emerson's Music Books have been sold, a fact that needs a popularity which has rewarded no other author of the same class of books, and which cannot fail to insure for the new volume an immense sale. The contents of this work are, for the most part, new. A large number of valuable pieces have been contributed by Mr. L. H. Southard, whose name is a sufficient guarantee of their excellence. The marked feature of the collection are Originality, Brilliancy and Variety; and in point of sound, upon careful examination, that there is no One Book now before the public that in every particular will prove so completely adapted to Musical Societies and Conventions, Conservatories Clubs and Amateur Singers. Price $1.38. Mailed post paid. OLIVER DITSON & CO., Publishers, 277 Washington street, Boston.

Local.

THE EXCURSION TO PORTLAND, made Thursday by the Mechanic Association of this city, was a very pleasant and successful affair. Seven cars went over the P. S. & P. railroad, each car affording 60 seats, or 420 in all; and there were 419 tickets issued; so that every seat save one was occupied. More tickets were applied for, but too late for seats, and the managers would not crowd and overload the cars.
The day proved to be most favorable; and the large company of men, women and children, enjoyed the trip and the visit to Portland, in the most natural and unrestrained, yet most orderly and decorous manner.
Their headquarters in Portland were in the Library Room of the Portland Mechanics' Building, where the picnic refreshments were enjoyed by parties who made such provision; and the city was pretty thoroughly explored and prospected by promenaders, who examined the wide spread ruins, the rapid and elegant structures rebuilt and rebuilding, with the various improvements and elegances of our sister city, whose activity, energy, and liberality were much admired.
The trips over the road were made, in the morning in two hours; in the evening in two hours and thirty-five minutes, including a half hour's waiting for a down train; and with order and comfort not often excelled.

☞ The body of James F. Burbank, the soldier who was drowned in our harbor on the 30th ult., was found on the west shore on the 10th inst., and was interred.—On Thursday Capt. James F. Beers, who was formerly in command of a gunboat whereon the deceased was serving, arrived in town and secured the services of Undertaker J. F. Adams to disinter the body and prepare it for transportation to the home of his father, John L. Burbank, in South Norwalk, Conn. Deceased was but 19 years of age, and enlisted under the name of James Smith. Mr. Adams is ready to attend to all such work, and will be found prompt, capable and faithful.

☞ We learn that Gen. Gates is not ordered off, but still remains in command at Fort Constitution. Gen. Grant ordered all the Artillery companies to be increased to the War establishment,—to sent 28 men here to fill up Company I, and finding the barracks not spacious enough for the men, rather than go into the expense of extending their quarters, now sends away the company. But Surgeon General Cuyler has come to inspect the hospital here, and to establish a General Hospital for the sick of the Eastern Department. He proposes to send thirty men here immediately, and recommends also a small company of Veteran Reserves to constitute the guard at the post, to act as nurses, &c.
We are pleased to learn that Gen. Gates, who is now at Fort Constitution, is improving in health.

IN BOARD OF ALDERMEN, Thursday evening, a joint resolution for the purchase of the lot of land corner of Middle and Madison streets, as a a site for a new school house, was passed.
It was voted that a special committee be instructed to ascertian if a passage can be obtained around the large elm in front of Mrs. Haven's on Pleasant street. It now occupies the entire width of the sidewalk.
I. Wilson, W. W. Henderson, A. Q. Wendell and T. H. Odlon were appointed Field Drawers.

POLICE COURT, Sept. 20.—Michael Johnson, drunk, was sent to the House of Correction for lack of $6.86. Who shall say impeciuosity is not a crime, when it has such a result?
George Smith, drunk, fined $3 and $3.86 costs.
Daniel Cotton, drunk, sentenced to thirty days hard labor in the House of Correction, and to pay $3.86 costs.
John Hill, drunk, fined $1, and $3.86 costs.
John Adams, drunk, fined $1, and $3.86 costs.

☞ The death of Lieut. Wm. H. Cornelius, U. S. A., at New Orleans Sept. 15, is reported by telegraph. Lieut. Cornelius was a native of this city, where his family now reside. He was visiting here, in good health, but a few weeks since, and we presume was a victim of yellow fever. He did honorable service in the 3d N. H. Reg't, and was now on duty in the Freedmen's Bureau near New Orleans. His age most have been about 40.

☞ Chief Engineer James W. Whittaker, member of the Board of Examiners, and ranking as Lieutenant Commander, arrived here on Tuesday and will, we hear, assume the duties of Storekeeper for the Bureau of Steam Engineering at this station.

☞ Mr. John L. Sheridan, at his residence on South Road in this city, dug from a single hill of common soil, the other day, 110 potatoes, of a round, red variety,—most of them sound, and many of medium size.

☞ Mr. Wendell sells the valuable real estate of the late Horace Webster, near Eastern R. R. Station, this noon.

☞ Mr. C. T. Emery announces a new and large stock of watches, jewelry and silver ware; and that he has engaged a very skillful watchmaker to take charge of that department.

ACROSS THE SIERRA NEVADAS.
THE
CENTRAL PACIFIC RAILROAD,
THE WESTERN HALF OF THE
GREAT NATIONAL TRUNK LINE
ACROSS THE CONTINENT,
being constructed with the AID and SUPERVISION OF UNITED STATES GOVERNMENT, is destined to be one of the MOST IMPORTANT LINES OF COMMUNICATION IN THE WORLD, as it is the *sole link between the Pacific Coast and the Great Interior Basin*, over which the immense Overland travel must pass, and the
Principal Portion of the Main Steam Line of Communication
Its line extends from Sacramento, on the tidal waters of the Pacific, eastward across the richest and most populous parts of California, Nevada, Utah and Colorado, to connect with the Great Mining Regions of the Far West, and will meet and connect with the roads now building east of the Rocky Mountains, about 1000 miles are now built, equipped and in running operation to the summit of the Sierra Nevadas. Within a few days 335 miles, now graded, will be added, and the track carried entirely across the mountains to a point in the Great Salt Lake Valley, whence further progress will be easy and rapid. Iron, materials and equipment are ready at hand for 300 miles of road, and 10,000 men are employed in the mountains.
The local business upon the completed portion surpasses all previous estimate. The figures for the quarter ending August 31 are as follows in GOLD:

Gross Earnings,	Operating Expenses,	Net Earnings,
$187,279 61	$96,541 17	$40,738 17

or at the rate of two millions per annum, of which more than three fourths are net profit on less than 100 miles worked. This is upon the actual, legitimate traffic of the road, with its terminus in the mountains, and with only the normal ratio of government transportation, and is exclusive of the large sums carried for the further extension of the road.
The Company's interest liabilities during the same period were less than $25,000.
Add to this an ever-expanding through traffic and the proportions of the future business become immense.
The Company are authorized to continue their line eastward until it shall meet and connect with the roads now building east of the Rocky Mountain ranges.
Assuming that they will build and control half the entire distance between the San Francisco and the Missouri River, as now seems probable, the United States will have invested in the completed line of 862 miles the sum of $32,000, or at the average rate of $35,000 per mile—not including an absolute grant of 10,000,000 acres of the Public Lands. By becoming a joint investor in the magnificent enterprise, and by waiving its first lien in favor of the First Mortgage Bondholders, the GENERAL GOVERNMENT, IN EFFECT, INVITES THE CO-OPERATION OF CAPITALISTS, and has carefully guarded their interests against all ordinary contingencies.
The Company offer for sale, through us, their
First Mortgage Thirty Year, Six per Cent. Coupon Bonds,
Principal and Interest payable in Gold Coin, in New York city. They are in sums of $1000 each, with coupons for interest, gold coupons attached, and are selling for the present at 95 per cent. and accrued interest from July 1st added (currency), at which they will yield nearly
Nine per Cent. upon the Investment.
These Bonds, authorized by Act of Congress, are issued only as the work progresses, and to the same amount only as the Bonds granted by the Government; and represent, in all cases, *the completed line* upon a completed, equipped and productive railroad, for which has been invested Government subsidies, stock subscriptions, donations, surplus earnings, etc., and which is worth more than three times the amount of First Mortgage Bonds which can be issued upon it.
The Central Pacific First Mortgage Bonds have all the assurances, sanctions and guaranties of the Pacific Railroad Act of 1862, and have, in addition several noticable advantages over all other Railroad Bonds.
First—They are the supreme claim upon altogether the most vital and valuable portion of the through line.
Second—Secure the fullest benefit of the Government subsidy, (which is a subordinate lien,) the road receives the benefit of large donations from California.
Third—Fully half the whole cost of grading 300 miles eastward of San Francisco is concentrated upon the 150 miles now about completed.
Fourth—A local business already yielding three-fold the annual interest liabilities, with advantageous rates per ton per mile.
Fifth—The principal as well as the interest of its Bonds being payable in coin, upon a legally binding agreement.
Having carefully investigated the resources, progress and prospects of the road, and the management of the Company's affairs, we cordially recommend these Bonds to Trustees, Executors, Institutions and others as an eminently *sound, safe and remunerative form of permanent investment.*

Morning Chronicle.

"FLIES IN AMBER."
Picked out for the Chronicle.

— A beautiful and chaste woman is the perfect workmanship of God, the true glory of the angels, the rare miracle of the earth, and the sole wonder of the world.

— However wretched a fellow mortal may be, he is still a member of our common species.

— So live and hope as if thou would'st die immediately.

— Charity is the scope of all God's commands.

— The sweat of Adam's brow has streamed down ours ever since.

— It has been the misfortune of many to live too long.

— Drunkenness is a pair of spectacles, to see the devil and all his works.

— We are never so happy or unfortunate as we think ourselves.

☞ We fear that the following "Signs of Prosperity" are very old-fashioned.

Where spades grow bright, and idle swords grow dull;
Where jails are empty, and where tarns are full;
Where church paths are with frequent feet outworn;
Law court yards weedy, silent and forlorn;
Where cots shoot down, and where farmers ride;
Where age abounds and youth is multiplied;
Where these signs are, they clearly indicate
A happy people and well governed state.

"Women were born, so fate declares,
To smooth our linen and our cares;
And 'tis but just, for by my troth,
They're very apt to ruffle both."

— A little girl of three years was saying her prayers not long since, when her little brother about four years old came slyly behind her and pulled her hair. Without moving her head she paused and said: "Please Lord, excuse me a minute while I kick Herby."

At a Sunday school celebration recently in Long Island prizes were given to such children as had committed the greatest number of verses in the New Testament to memory.

An infant four years old recited one hundred and eleven verses of St. Mark's Gospel. She was "a very pale-faced child," the report says.

— The late Emperor Maximilan gave a state dinner on one occasion, in which the gold and silver table ware which he brought with him from Miramar was put into service. All present were Mexicans, and so one present of a lower rank than General; yet it was discovered after dinner that the guests had stolen a considerable proportion of the most valuable articles of table ware.

— Notwithstanding the misfortunes which befell the first Napoleon through his Austrian marriage, it seems that the prospective fourth French Emperor of that name is to marry a princess of the house of Hapsburg. It is reported that the object and aim of the meeting of the Emperors at Salzburg was a marriage between the Prince Imperial of France and the Princess Gisele of Austria —a charming little creature of 11 years of age, who bids fair to be one of the most amiable and intelligent princesses of Europe —being at present a sort of good fairy to all around her, yet full of simplicity and tenderness.

To the Hon. Marcellus Bufford, Justice of the Peace.

We, the subscribers, members of the Portsmouth Washington Total Abstinence Society, do hereby apply to you to call a Meeting of said Corporation, to be held on MONDAY evening, September 30, 1867, at the Odd Fellow's Banquing Room, at 7 o'clock, P.M. for the following purposes: 1, to choose the Officers of the Society for the current year; and 2, to transact any other business at the Annual Meeting.

Dated at Portsmouth, Sept. 11, 1867.
P. H. MILLER,
F. W. ROGERS.

State of New Hampshire, Rockingham, ss.

Whereas application has been made to me, Marcellus Bufford, a Justice of the Peace for said County, as above:

You are hereby required to warn a meeting of said Corporation, to be held at the time and place and for the purposes mentioned in said application, by publishing a copy of said application and of this warrant fourteen days, in the same manner as is provided for warning the Annual Meeting of said Corporation; and make return of this warrant at the time and place of meeting.

Dated at Portsmouth, the 13th day of September, 1867. MARCELLUS BUFFORD,
Justice of the Peace.

A true copy, attest: J. H. MILLER. s14—2wst

DOWNER
KEROSENE OIL CO.
Office, No. 108 Water Street, NEW YORK.

TO CONSUMERS OF OIL.

CAUTION.

It having come to our knowledge that many dealers, throughout New England, are in the habit of buying small quantities of our Oil, and larger quantities of inferior oils, and using our brand and packages fraudulently in the sale of these inferior oils, we are determined to stop such frauds, and hereby offer a **Reward of 100 Dollars** for information that will lead to the detection and punishment of any party using our name or brand in the sale of any other oil than our own Oil. The **"Downer Kerosene Oil"** has been frequently tested and analyzed by Dr. A. A. Hayes, State Assayer, and in a communication to us, dated July 5, 1867, he says: "The term 'Kerosene' as used by the **Downer Oil Company,** applies to the highest grade of Oil only, which, our trials show, does not inflame below 120 degrees Fahrenheit, and carries the assurance of both safety in use and a high illuminating power. While the mixed Oils are not only unsafe, but in causing accidents, destroy confidence in the safe and excellent article for affording light produced by the honest manufacturer."

GLEASON HALL
PRESENTATION FESTIVAL.

The Fourth and Last Grand Concert

Of the Gleason Hall Presentation Festival, under the auspices of DORING'S BAND,
Will positively take place on
Thursday Evening, October 10, 1867,
AT GLEASON HALL, WEST TROY, N. Y.

The first, second and third Concerts of the series took place in the corner advertisement, on July 25th, Aug 8th and 29th, and gave unlimited satisfaction; the large Hall being filled to overflowing on each of the above evenings with a refined and appreciative audience from all parts of the State. There was a committee of three reliable and well known gentlemen selected by the audience on the night of the first Concert to superintend the drawing, which will positively take place on the evening of the above Concert. The Committee are most desirous that all ticket holders should be present to witness the drawing, and thereby relieve themselves of any doubt as to the fairness of the entire transaction. They also assure those who cannot make it convenient to be present, that their interests will be guarded the same as if they were present. The Tickets, which have been limited to 75,000, at

ONE DOLLAR EACH,

can be procured by addressing John H. Casey, Box 69, West Troy, N. Y., or any of the Agents throughout the United States. There will be a present awarded the holder of every ticket.—Among the presents to be awarded are the following:

Two Diamond sets, - - - -	200
One Grover & Baker Sewing Machine, plated,	85
One Wheeler & Wilson Sewing Machine,	70

And Thousands of Other Presents,
Consisting of
Marble Top Centre Tables, Mirrors, Clocks, Stoves, Chandeliers, Statuary, Engravings, Vases, Glassware, silver Pitchers,
Sets Knives and Forks, Set Spoons,
Dressing Cases, Port Monnaies, Scarfs, Tables, Bedsteads, Chairs, Mattresses, and other articles too numerous to mention.

The above property will be delivered to the person entitled to it free from all incumbrance and a title guaranteed.

The property may be seen at any time by calling on the owner, John H. Casey, Metropolitan Hotel, West Troy, N. Y.

We, the undersigned, having been appointed an Executive Committee by Mr. Casey, do hereby certify that all moneys received for the sale of Tickets are to be placed in our hands, and will be by us retained until the distribution takes place. That we will audit and pay all bills and expenses that shall be countersigned by Mr. Casey and no other, and we will pay off and discharge, from the moneys so received, all mortgages upon the property. ANDREW ALEXANDER,
THOMAS RATH.

The undersigned Citizens would most cordially recommend the gentleman engaged in getting up these Concerts as an honorable and reliable person, and believe he will conduct the presentation with honesty and fairness, and try to give satisfaction to the public.

Oscar F. Potter, Member of Assembly, Albany Co.; George Mark, Supt. West Troy Factory; N. F. Wilbeck, Alty and Coun. at Law; Wilbeck, Alty and Coun. at Law; A. J. Rousseau; Dr. J. P. Wibeck; Hon. Thos. Kenney, Exto Treas., Albany Co.; Hon. Pierce Hogan; C. H. R.; Thomas Ruth; T. W. Jackson, Att'y and Coun. at Law; R. S. Lobdell, Supt. West Troy Foundry Co.; R. WALKING.—Feet were intended for use, and yet immense numbers of sensible people seem to think walking on them is a hardship. Those who ride in carriages habitually have degenerated limbs. The muscles become attenuated in consequence of not being constantly active. Equestrians, horseback-riders, and indeed all who are using their legs as they were designed to be, have them finely developed. The more they are exercised the stronger and more symmetrical they become. But another great gain results from walking more than one rides. It brings into harmonious play the whole muscular cordage of the body. A healthy condition of all the internal organs follows, and the secretions are admirably conducted by pedal exercises.—It is a pleasant condition of eminent civilization to ride any way, but particularly luxurious to bound off in one's own soft-cushioned carriage; but there is a penalty positively following too much comfort of that kind. Digestion becomes imparied, the legs diminish in size; and the individual who rides when he can, and rarely walks, is soon weary when the attempt is made.—Longevity is the compensation for free out door walking, without much reference to weather, when business or duty requires it. We were created for use, not altogether for ornament.—*Harper.*

AN UNEXPECTED TABLEAU was given the other evening at the French Theatre, New York, where Mrs. Lander is playing "Elizabeth." The audience had been in the habit of demanding a repetition of the tableau at the close of the drama; but on the night in question it was supposed the house had emitted itself without the encore. It seems it had not, however, and the curtains rose suddenly, discovering the Queen of England and restored to perfect health, sitting up on her cushions and talking glibly with "Essex," who had survived his decapitation, and was standing there very complacently with a cigar in his mouth and a cotton umbrella under his arm. "Burleigh," the venerable prime minister, had removed his wig and was drinking a glass of of lager-beer; while "Lady Howard" was waltzing with "Sir Francis Drake," to the regular puffs of her (historic) husband's cigar.

The house burst into a fit of laughter, and the curtain fell again, to the amusement of the audience and the confusion of the actors.

— An old miser, who was notorious for self denial, was one day asked why he was so thin. "I do not know," said the miser, "I have tried various means for getting fatter, but without success." "Have you tried victuals?" inquired the friend.

— Two manufacturers of Dusseldorf, in Prussia, who applied for space before the Paris exhibition opened, never sent any of their goods. These firms have received, to their surprise, doubtless, each a bronze medal, with a certificate of excellence in their several exhibits. How must the genuine medal holders value their prizes, with such distinguished comrades equalling them in glory.

— The Hon. B. F. Perry of South Carolina has been proposing two very foolish plans for getting rid of the negroes. One is to settle them on "reservations," as separate and distinct communities, "as has been done with the Indians." Is Mr. Perry so delighted with the success of our Indian system that he wants to see it extended to four millions of blacks? The other plan is to send them all to Liberia, and he wishes to know if the removal could not be accomplished in ten or twenty years. Well, the colored population of the South alone would make about 8,000 large ship-loads, and to send out 800, or even 400 vessels every year, would require a very respectable navy. But, pray, what right has Mr. Perry, or any other white man, to either imprison the freedmen on reservations or transport them to a foreign land? The country is just as much theirs as his, and if he does not want to live with them, Mr. Perry had better go away himself.—*Trib.*

Boston
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, Bonds, and all papers or drawings for Patents, executed on reasonable terms, with dispatch. Researches made in the American and Foreign Works, to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded in Washington
No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.
During eight months the subscriber, in the course of his large practice, made on *three* rejected applications, SIXTEEN APPEALS; *every one* of which was decided *in his favor* by the Commissioner of Patents.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHAS. MASON,"
Commissioner of Patents.
"I have no hesitation in assuring inventors that they can not employ a man *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them as early and favorable consideration as the Patent Office.
EDMUND BURKE,"
Late Commissioner of Patents.
"Mr. B. H. EDDY has made for me THIRTEEN applications, in all but *ONE* of which patents have been granted, and that one is *now pending*. Such unmistakable proof of great talent and fidelity on his part, leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. THE STOVE FOR THE MILLION!
THE
KEARSARGE
HAS NOT BEEN BEATEN!
URIAH BLAISDELL,
NO. 43 MARKET STREET,
Takes pleasure, as the cold season approaches, in again inviting public attention to this superior
COOK STOVE!
Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well with WOOD OR COAL, an economizer of fuel, and a heavy, well-made and durable Stove, as it is a neat and symetrical one. It has been in no Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified encomiums of its numerous purchasers—all of who know what a good stove is and how to appreciate it.
Pleasure is taken in showing the KEARSARGE and all its want of it shows of the Iron merit at a moderate price, are invited to call and examine it whether they purchase or not.
The following names from its large list of purchasers are given for reference:

MONDAY, SEPTEMBER 23, 1867.

WASHINGTON ITEMS.—Gens. Sickles and Sheridan have both arrived in Washington.

The Att. General's office has received information from the Second Military District, showing that while Gen. Canby had not in any official order modified or suspended Gen. Sickles' order No. 10, he had nevertheless directed his officers not to interfere with the process which had issued from U. S. Courts in North Carolina. The U. S. Marshal was therefore proceeding to execute the writs to him directed, and in one instance had already sold property to satisfy a judgment obtained. Owing to the unsettled affairs the Marshal's sale brought just one-tenth of the appraised value of the property.

A petition is in circulation in North Carolina, asking Gen. Canby to prohibit the execution of these judgments on the ground of the great hardship it was working among the people.

Gen. Sickles has received a letter from Gov. Orr of South Carolina, stating that while he had looked upon some of his orders as a little harsh, subsequent events had proved that he was mistaken, and that they had been of benefit, especially to the white population. He alludes to the order of Sickles prohibiting the seizure, for debts incurred before the war, by the courts, of the property of impoverished people. [This shows that Gen. Sickles was in the right, and the opposite "policy" was wrong.]

It appears that Gen. Hancock is not going to assume at once the command of the Fifth Military District. At the suggestion of Gen. Grant he made application to be allowed to avail himself of the order giving officers ordered to sections where the yellow fever was prevailing, to the 15th of October to report for duty. Gen. Hancock will therefore not assume command for the present. This fact on becoming known at the White House excited some comment among the kitchen cabinet and other vermin.

Gen. Pope informs Gen. Grant that he has ordered elections in Alabama, Georgia and Florida for the 29th of October.

— A Portland correspondent of the Dover Enquirer says that "the stringent prohibitory law and amendments and the State constabulary movement, have served only to change the means used to obtain liquor, and not prevent its use. Some six or more private clubs are in existence in the city and are well known to the authorities, but are beyond their reach and power. We have seen more drunkenness since July 1 (when the new amendment went into operation) than for a year before.—Some time since a whole house full of laboring men got tight one Sunday, and laid stretched out on the floor, unknown to the police. Their rum was obtained secretly and carried home, and on it a big time was experienced. It is universally known that as much liquor is drank here as ever, only in a different manner."

A careful reader may see that the writer of the above is admitted behind the curtain, and knows all about the private drinking. But it is not universally known that as much liquor is drank in Portland as ever. Such a statement is not even believed by some of its most sober citizens; and though the above writer may have seen a great amount of drunkenness there since July 1, yet the story of an increase at this time and on this account, is simply incredible.

We did not happen to see any drunkenness or any spirit drinking there, in a six hours' perambulation last week,—but that does not prove there was none, any more than his seeing some proves there is an increase.

No doubt there is secret drinking there, and when laboring men (or any others) will drink such stuff, they must take the consequences; for as a man soweth, so shall he reap. Human laws are easily evaded, and often changed, but the Divine Laws, that govern nature, are inflexible and permanent. Spirit drinking is folly in general, and often madness and death.

☞ The Saco Democrat publishes full returns from York county, which give Chamberlain 6240 and Pillsbury 6252.—Democratic majority 12. The votes for Senators are also given, which, if correct, show that Messrs. Morrow and Barbank, Democrats, are elected, while there is some doubt about the election of the third one, Mr. Neal, who runs lowest on the ticket.—The Biddeford Journal, noticing scattering votes and errors, says nothing can be known certainly till the official count for Senators.

☞ The superintendents of the Chicago street railroads have determined to abolish smoking on the cars, and the conductors are notified to eject any person who persists in smoking either inside or on either platform. Thus they get rid of a great amount of stench and filth, which would annoy cleanly passengers.

— According to the Galveston Bulletin of the 10th the fever had nearly exhausted the material among the indigent classes, and is spreading among the higher.

— Senator Wade and Representative Spalding of Ohio, announce themselves in favor of a continuous session of Congress from the day of its meeting until the 4th of March, 1869.

NEW HAMPSHIRE ITEMS.

—— Mr. Silas Ketchum was ordained pastor of the Congregational Society in Bristol, Sept. 17.

—— They had a "Lighting Up Ball" at the Town Hall, Great Falls, on Friday evening. Music by Turner's Band, of this city.

—— Miss Georgiana Clifford of Laconia was drowned in Milton Pond, on Sunday. She was visiting some relatives in Milton' and circumstances point to mental derangement. She was 15 years of age.

—— The American Unitarian Association has voted to appropriate $1,000 to aid in building the house of worship now in course of erection for the Unitarian Society in Laconia.

—— Died, last week, at Galveston, Texas, Capt. Lyman H. Warren, of the 17th regiment, located at Galveston. He was from New Hampshire, and about a year since was stationed at Fort Independence.

—— The Cocheco Manufacturing Co. sold in the month of August 1,900,602 yards of prints, valued at $260,936. The U. S. Tax on the same amounted to $12,-019.80.

—— The Merrimack County Fair takes place at Concord this week —and is in the hands of Messrs. White, Humphries and others who always do things up in style.—We shall endeavor to accept their invitation to attend,—for a minute or two.

—— The store of Charles M. Weeks, at Woodville, was broken into on Monday night last, and about ten dollars in money stolen, and some other articles of not very much value carried away. The thieves entered by removing a pane of glass from a window.

—— The Freewill Baptists hold the anniversaries of several of their benevolent associations in Dover, on Tuesday, Wednesday and Thursday, Oct. 8, 9 and 10. The first service will be at 3 P. M. on Tuesday at the grave of the late Rev. Wm. Burr, many years the industrious and highly successful General Agent of the Freewill Baptist Printing Establishment.

—— The following patents have lately been granted to citizens of this state:

Edward Jewett of Rindge, for improvement in cant hooks.

Lewis R. Wiggin of Farmington, for improvement in thread-waxing device for sewing machines.

Walter S. Sargent and Frederick Flanders of Franklin, for improvement in animal tether.

☞ A dispatch of Thursday, from St. Amanda, Canada, says, an excursion party of twenty-five ladies and gentlemen from Boston, on a visit to the peat meadow of Canada, had just passed there. Among the number are Hon. Ginery Twichell, ex-Governor Smith of Vermont, and ex-Gov. Smyth of New Hampshire, Hon. R. M. Pomeroy of Kansas, and representatives of several New England railroads.

COUNTY PAUPERS. — At the County Convention held at Exeter last week, 45 of the 56 representatives were present. After some discussion, it was voted not to make a change at present of the old system. Yeas 32—Nays 15. A committee of three was appointed to make a report to the County Convention at Concord next June.

DANGEROUS.—The position of cashier of a village bank, where that officer labors alone, is becoming perilous, and new means of security must be devised. On Thursday noon, last week, the Blue Hill Bank, Milton, Ms., was entered by three robbers, the cashier seized, gagged and bound, and $22,000 conveyed away. Means have been provided by some banking institutions of New Hampshire to thwart daylight robbers, and lay them dead on the floor, if they commence operations on the Blue Hill plan.

GOLD, Saturday, 142 7-8.

— The Times' special says Gen. Grant is receiving letters commendatory, while others advise him to be careful who he admits to his presence. One advises him to keep away from theatres.

— About 1300 boxes of cheese and 150 tubs of butter were shipped from Richmond Station, Vermont, on Tuesday morning, the prices paid being 10 to 11 1 2 for cheese, and 28 to 30 for butter. Nearly all was sent to Boston market.

—John Brown, Queen Victoria's private servant, is about to marry a Scotch lassie to whom he long ago plighted his troth. He will live at Balmoral and have charge of part of the royal domain.

— A vessel from St. Johns, N. F., to Bristol, England, was saved from foundering during a tremendous gale by throwing overboard some of the oil with which she was loaded. For eight days, as she lay to, the sea never broke over her, the oil preserving a constant calm to windward.

— T. B. Munson, of Virginia, who was buried in Washington on Thursday last, was widely known, not only as the owner of Munson's Hill, where the Rebels held McClellan at bay for six weeks by wooden guns, but also as one of the few prominent Virginians who voted for Lincoln in 1860, though notified at the time that it would be at the risk of his life if he did so.

To Miss ——, Navy Yard.
On leaving Portsmouth.

Farewell to beautiful Portsmouth, fair city of ancient fame,
With its grand old houses, sacred to many a grand old name
With which the songs of the poets, and history's chimes had rung
In good old days of the Kingdom, when the Colony was young.
Where the beautiful elms and maples o'er shaded streets are bending,
The tangled rays of sunshine, in graceful shadows blending
O'er the homes of the beautiful women, whose loviness and grace
Add lustre to the old renown of many a handsome race.

Farewell to the pleasant station, with its beautiful vineclad home,
Where four successive summers in stately pride have come;
Each with its crown of pleasant friends, to brighten with their charms
Those solemn messengers of death, the stacks of balls and arms.
Eyes brighter than the shining swords, their flashing glances flinging,
The jolly laugh of maidens fair, through famous war-ships ringing;
Which, if their figure-heads could speak, would deeds of valor tell,
To the music of the cannon, and howl of shrieking shell.

Success to the gallant hero; all honor to the BRIDE
Which history has proudly traced upon the scroll of fame.
Long as the Mississippi rolls her dark waves to the sea,
'Mid the defenders of the right his name will honored be.
To his delightful family may every blessing come
To crown and sanctify a place wherein they find a home;
No sadder moments may they know, than that in which they tell
To loving friends and places dear, the mournful word Farewell.

Mechanics Association, Secretary's Office.
PORTSMOUTH, Sept. 21, 1867.

At a meeting of the Board of "President and Trustees of the Associated Mechanics and Manufacturers of the State of New Hampshire," holden on the evening of the 20th instant the followieg Resolutions were unanimously adopted:

Resolved, That the thanks of this Board in behalf of the Mechanics Association is hereby tendered to FRANCIS CHASE, Esq., Superintendent of the P. S. & P. Railroad, for the gentlemanly and courteous manner in which he so kindly run an extra train for our excursion to Portland on the 19th inst. Also to the conductors and other employees of the road, on the train, who so efficiently contributed to our safety and comfort while going to and returning from Portland.

Resolved, That our thanks are also hereby tendered to Charles P. Kimball, Esq., President, and to other members of the Mechanics Association in Portland, who so kindly opened their Library Room for our headquarters; and also to the citizens generally, that in so many ways contributed to make our excursion to that city pleasant and interesting to us and our families.

JOHN T. DAME, President.
BENJ. M. PARKER, Secretary.

Herrick Allen's Gold Medal Saleratus is as healthy as the purest flour; will prove a great saving in fats that article; is peculiarly adapted to benefit weak stomachs and dyspeptic persons; is much more healthy and economical than baking powders, and greatly preferred to soda to use with cream tartar. Grocers may say they have as good. They are mistaken. It is the best in the world. Try it. Most of the Grocers have it. Have the Gold Medal or none. 2

CHRONIC CATARRH.

There are undoubtedly hundreds in this vicinity who are suffering from Chronic Catarrh and its unhappy consequences, who are not aware of the danger to which they are exposed. The symptoms of this disease are usually so mild at first, as to excite little or no attention on the part of the sufferer, and thus it is allowed to pass on from one stage to another, inverting in its destructive march more and more serious results. Reader, if you would avoid the dangers of a seated Consumption, do not neglect a "Cold or Catarrh in the head." That this disease is so fatal in its tendency and productive of such unhappy consequences, no one will be surprised to learn, if he will but reflect that every breath of air that is inhaled into the system, by those suffering from Chronic Catarrh, must pass over an unhealthy and diseased membrane, and the air in passing over these putrid and ulcerated surfaces, must of necessity imbibe the most noxious and deadly properties, and in this manner every breath of air you take into the lungs is converted into a poisonous agent of death. There is no disease in the entire catalogue of human ills, the treatment of which has been so little understood as Chronic Catarrh, and hence from the practice ordinarily adopted by the profession, there is little to hope.

DEAFNESS,

Weak eyes, noises, pains, and disagreeable sensations in the head, usually attributed to Neuralgia, frequently arise from Catarrh.

Dr. C.'s success in treating Catarrh has been almost wonderful. He does not profess to cure every case that may be presented to him, but having had years of experience in treating Diseases of the Eye, Ear and Throat, and Catarrh alone, he thinks himself better qualified to perform cures in many cases than physicians who have not enjoyed similar opportunities.

HOME TESTIMONIALS.

From the Lewiston Journal, May 24th, 1867.

Dr. Carpenter, who has been in this city for a few weeks at the DeWitt House, treating diseases of the Ear, Eye and Throat, will leave for Bath in a few days, but we cannot forbear adding a word of special endorsement to the Doctor's skill and ability. There are many good reasons why people should look with distrust upon professionals generally, who practice from place to place.—But these do not apply to Dr. Carpenter, who confines his practice to the leading cities and towns in Maine, and has met with great success everywhere he has practiced. He is a reliable and skillful specialist, and a physician of reputation and honor. We are glad that the Doctor has visited our city—a feeling in which large numbers who have received the benefit of his treatment unite. We trust the Doctor's engagements will permit him to visit Lewiston frequently.

From the Augusta Gospel Banner, Feb, 16, 1867.

Persons troubled with blindness, deafness or catarrh, will do well to consult Dr. Carpenter.—We know him personally. He is a gentleman—is well read in his profession, is no humbug or deceiver, will not, as many do, tell the patient he can effect a cure without reasonable grounds for the declaration. He wrought several cures in this vicinity, and essentially helped others who had suffered for years. This is written by the editor of the Banner without solicitation from any one.

From the Portland Press.

Dr. Carpenter, the Oculist and Aurist, who has been spending several months in practice in this city, has had marked success in the treatment of diseases of the Eye, Ear and Throat, as also of Catarrh in its worst form. He is well versed in the treatment of the diseases he has made his specialities, gentlemanly in the treatment of patients, and prompt in the discharge of all pecuniary obligations.

DR. S. S. FITCH,

Of 714 Broadway, New York, Author of the Six Lectures on the Prevention and Cure of Pulmonary Consumption, Asthma, Catarrh, Dyspepsia, Heart Disease and all Chronic Diseases, will be at the

ROCKINGHAM HOUSE, Portsmouth,

On THURSDAY, Sept. 26, and on the same day of the week every 4th week afterward.

Dr. Fitch treats all Diseases of the Head, Scalp, Eyes, Nostrils, Face, Throat, Lungs, Stomach, Heart, Liver, Bowels, Piles, Kidneys, Skin, Joints, Dropsy; also Diseases peculiar to Males and to Females. Lost Complexion perfectly restored. Most persons, somewhere from 15 to 80 have one or more bad fits of sickness. Cure them wholly, and they will live ten to fifty years longer. Dr. Fitch's great prominent specialty is the prolongation of human life.

A respectable physician said to me four weeks ago, "For seventeen years you have kept me well of diseases pronounced utterly incurable by several eminent physicians."

Mrs. Elizabeth Huntington Long writes, (Saratoga Springs, March 3d, 1867,) twenty three years ago she had ulcerated lungs, and true, seated, hereditary consumption, of which her sister died. I cured her perfectly. Fourteen years later she had a fatal attack of heart disease, of which her brother died. Of this I cured her perfectly. She says, "I always remember you with gratitude, for, under God, I owe my life to you."

Mrs. Anna Judkin, at Portsmouth, N. H., June 7, 1867, said, "Twenty-three years ago I was your patient, and very bad with lung disease. My father, four brothers and three sisters, had died with consumption. I was wholly given up. In six months you cured me. I have now enjoyed perfect health twenty two and a half years; not a single show of lung diseases in all that time."

D. D. Benjamin of Union, N. J., says, "Over twenty years ago I and my brother were both in consumption. I had bleeding and ulcerated lungs. My brother refused treatment, and died in three months. You cured me, and I have not had any cough or lung trouble in twenty years. I was then forty, and I am now sixty years old."

All consultations are wholly free.

Dr. Fitch's "FAMILY PHYSICIAN," a most excellent book in all families, 76 pages, 25 cents, sent free of postage to any address. Send no money until you get the book and approve it. Direct all letters for books or consultation to 25 Tremont St., Boston, Mass. je29—1y

DR. SCHENCK ON DYSPEPSIA.—Symptoms, Causes and Remedy.

Symptoms of Dyspepsia—A sense of fullness, tightness, and weight in the stomach, together with flatulency, acidity, sour, offensive belching of wind, water brash and vomiting, and a great deal of what a person calls an all-gone feeling at the pit of the stomach; frequently there is also a palpitation of the heart, which physicians mistake for heart disease, and when the stomach is in this condition it is coated with a mucus or slime. The rough fibrous portions of the stomach, similar to what we see in tripe, are thrown out the gastric juice, and when the stomach gets a thick coat of slime on it, it prevents the gastric juice from flowing, and digestion ceases. Schenck's Seaweed Tonic assists this mucus or slime, and restores the stomach to its natural condition.

Schenck's Mandrake Pills are also required to carry off this morbid matter. Two-thirds of the cases of Consumption are caused from this diseased state of the stomach; the liver becomes torpid, it ceases to throw out bile, and in a short time the whole system is deranged. The mucous membranes of the bronchial tubes sympathize with the other organs, and before the patient is aware of it, he or she has Bronchial or Pulmonary Consumption.

Schenck's Pulmonic Syrup cannot act freely through the blood when the system is in this locked up condition, without the aid of the Seaweed Tonic and Mandrake Pills. The Liver has all the venous blood to strain, and when it gets in a morbid condition, blood and bile run through the system, and the whole body becomes so low, and the blood so thick it can hardly run through the veins. In a majority of cases hemorrhage from the lungs is the condition of the blood. The Mandrake Pills act on the Liver similar to calomel, or they do what that does—it unlocks the gall bladders, starts the bile, and the blood begins to circulate naturally through the veins, and the hemorrhages cease. Then consumptions are attacked with perfect ease, they would first take a good purgative, something that would act on the liver, they would soon be relieved from bleeding from the lungs. It is the only way, for as astringents are only temporary, and irritate the bronchial tubes, and lay the ground work for consumption.

DR. SCHENCK will be professionally at his rooms every week, 32 Bond street, New York, and 33 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer, the charge is $5.

His medicines are for sale by all druggists and dealers. Also a full supply at all times at his rooms.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7 50 the half dozen. Mandrake Pills 25 cents per box.

TO OWNERS OF HORSES AND CATTLE.—TOBIAS' DERBY CONDITION POWDERS are warranted superior to any others, or no pay, for the cure of Distemper, Worms, Colts, Coughs, Hide-bound, Colds, &c., in Horses; and Colds, Coughs, Loss of Milk, Black Tongue, Horn Distemper, etc., in Cattle. They are perfectly safe and innocent; no need of stopping the working of your animals. They increase the appetite, give a fine coat, cleanse the stomach and urinary organs; also increase the milk of cows. Try them, and you will never be without them. Hiram Woodruff, the celebrated trainer of trotting horses, has used them for years, and recommends them to his friends. Col. Philo. P Bush of the Jerome Race Course, Fordham, N. Y., would not use them until he was sold of what they were composed, since which he is never without them. He has over twenty running horses in his charge, and for the last three years has used no other medicine for them. He has kindly permitted me to refer any one to him. Local.

☞ A serious accident occurred to Mr. William Walton of this city, at the Navy Yard, on Saturday. While in the storehouse of the engineering department, he was standing between two racks containing large plates of boiler iron placed on end.—One of the racks giving way from the great pressure, a quantity of iron estimated to weigh about four tons fell over against Mr. W., jamming him terribly against the other rack, crushing his left hip and thigh, and otherwise injuring him very severely, perhaps fatally. He was protected somewhat by coming between a couple of standards of 2 1-2 inch joist, but was of course crushed into that extremely narrow space.

☞ The Trustees of the Rockingham Trotting Park desire us to state that the track and fence are completed, and subscribers to the stock are desired to pay their subscriptions to day, and other gentlemen interested in sport are invited to take shares, which are $100 each. It is proposed to open the Track to the public, with a Horse Fair and Cattle Show, early in October;—from the towns in this neighborhood, on both sides of the river;—and all stockholders and others interested are requested to meet at the Franklin House this (Monday) evening at 7 o'clock, to act on all business of the Association.

☞ U. S. steamer Speedwell, Lieut. Comd'r Charles A. Babcock, left here on Thusday morning for the Boston yard. On Friday evening she returned, having in tow the new steamer Nantasket, built at the Boston Yard; being aided by the steamer Aladdin. The Nantasket is a third-rate screw steamer, and will receive her boilers and engines here, they having been built at this yard.

NAVAL. — Lieut. Commander George Dewey has been ordered to duty at the Naval Academy Oct. 1.

Chief Engineer Stephen D. Hibbert has been detached from duty in the Bureau of Steam Engineering, and ordered to duty on board the Piscataqua, Oct 1. On the arrival of that vessel at her station he is to perform the duties of Fleet Engineer of the Asiatic squadron.

U. S. MARINE CORPS.—Capt. George W. Collier has been detached from the Brooklyn yard and ordered to report at this station by the 25th, for duty on board the Piscataqua, and as Fleet Captain of Marines for the Asiatic Squadron.

Lieut. John C. Morgan, (son of late Commodore Chas. W. Morgan,) late from Mound City, Ill., arrived in town on Friday evening, to report for duty on board the Piscataqua.

Lieut. Israel H. Washburne, promoted to the grade of First Lieutenant Sept. 4th, takes rank after Lieut. Wm. S. Nuse.

Lieut. Frank D. Webster, of this city, is enjoying leave of a month from the Boston Yard.

☞ At the exhibition on Tuesday and Wednesday, there will be, without doubt, a splendid display of pears, &c., and the lovers of good things, (and who is not one of them,) will have a chance to obtain some of them, as all unclaimed articles will be sold at auction on Wednesday evening at 9 o'clock.

☞ The lad Harrington, who was injured by the accident on Pleasant street on Wednesday evening and who was reported dead on Thursday afternoon, was still alive on Saturday, and hopes were entertained of his recovery. Mr. Holmes still remained in a critical condition on that day.

☞ It will be gratifying to the members of St. John's Lodge of this city, of which the late Lieut. Wm. H. Cornelius was formerly a member, to know that Louisiana Relief Lodge No. 1, attended his funeral, which occurred in New Orleans on the 14th inst.

☞ The dead trees on the north side of State street, killed by the burning of Locke's stable, have been removed. We trust to see their places filled on that finely shaded avenue.

POLICE COURT, Sept. 21.—Andrew Goodwin, drunk, fined $3 and costs $3.86.

William Cook, drunk, fined $3 and costs $3.86.

Samuel Dennett, drunk, fined $3 and costs $3.86.

Rebecca J. Brown, common drunkard, sent to House of Correction for four months, and pay costs $5.57.

HISTORICAL LECTURES.—The ability of Rev. Dr. Lord as a lecturer is too well known here to require any comment from us. He has selected three interesting subjects for his course at Congress Hall, to commence this (Monday) evening.

☞ A good live Boy can have an opportunity to carry a Chronicle list.

☞ One Republican only, Mr. Higby, is elected to Congress from California. The Republican majority in the State Senate is 4, which will prevent a repeal of the Registry Law, and the division of the School Fund—both of which rascalities were in the Democratic programme.

— It is quite probable that Gen. Sheridan's removal from New Orleans may be the means of saving his life for future usefulness.

ACROSS THE SIERRA NEVADAS.
THE
CENTRAL PACIFIC RAILROAD,
THE WESTERN HALF OF THE
GREAT NATIONAL TRUNK LINE
ACROSS THE CONTINENT,
being constructed with the AID and SUPERVISION OF UNITED STATES GOVERNMENT, is destined to be one of the most important lines of communication in the WORLD, and to the United States, *to the Pacific Coast and the Great Interior Basin*, over which the immense Overland travel must pass, and the
Principal Portion of the Main Steam Line between the Two Oceans.
Its line extends from Sacramento, on the tidal waters of the Pacific, eastward across the richest and most populous portion of California, Nevada and Utah, contiguous to all the great Mining Regions of the Far West, and will meet and connect with the roads now building east of the Rocky Mountains. About 300 miles are now built, equipped and in running operation to the summit of the Sierra Nevadas. Within a few days 35 miles more graded, will be added, and the track carried entirely across the mountains to a point in the Great Salt Lake Valley, whence further progress will be rapid. Iron, materials and equipment are ready at hand for 300 miles of road, and 10,000 men are employed in the construction.
The local business upon the completed portion surpasses all previous estimates. The figures for the quarter ending August 31 are as follows in GOLD:

Gross Earnings,	Operating Expenses,	Net Earnings,
$187,370 01	$86,548 47	$101,031 17

or at the rate of two millions per annum, of which more than three fourths are net profit on the first 100 miles worked. This is upon the actual, legitimate traffic of the road, with its terminus in the mountains, and with only the normal ratio of per cent. of through and foreign travel exclusive of the materials carried for the further extension of the road.
The Company's interest liabilities during the same period were less than $125,000.
Add to this an ever-expanding through traffic and the proportions of the future business become immense.
The Company are authorized to continue their line eastward until it shall meet and connect with the roads now building east of the Rocky Mountain ranges.
Assuming that they will build and control half the entire distance between the San Francisco and the Missouri River, as now seems probable, the United States will have invested in the completion of 800 miles $28,592,000, or at the average rate of $35,000 per mile—not including an absolute grant of 10,000,000 acres of the Public Lands. By becoming a joint investor in the magnificent enterprise, and by waiving its first lien in favor of the *First* Mortgage Bondholders, the Government, in effect, invites the co-operation of private capitalists, and has carefully guarded their interests against all ordinary contingencies.
The Company offer for sale, through us, their
First Mortgage Thirty Year, Six per Cent. Coupon Bonds,
Principal and Interest payable in Gold Coin, in New York city. They are in sums of $1000 each, bear annual coupons, and are attached, and are selling for the present at 95 per cent. and accrued interest from July 1st added in currency, at par, to yield nearly
Nine per Cent. upon the Investment.
The Bonds, authorized by Act of Congress, are issued only at the ratio of $16,000 per mile, and for the same amount only as the Bonds granted by the Government; and represent, in all cases, the *first lien upon a completed, equipped and productive* railroad, in which have been invested Government subsidies, stock subscriptions, donations, surplus earnings, etc., and which is worth more than three times the amount of First Mortgage Bonds which can be issued upon it.
The Central Pacific First Mortgage Bonds have all the advantages, sanctions and guaranties of the Pacific Railroad Act of Congress, and have in addition several noticable advantages over all other classes of railroad bonds.
First—They are the superior claim upon altogether the most vital and valuable portion of the through line.
Second—Beside the fullest benefit of the Government subsidy, (which is a subordinate lien,) they also receive the benefit of large donations from California.
Third—Fully half the whole cost of grading 300 miles eastward of San Francisco is constructed upon the 150 bonds now about completed.
Fourth—A local business already yielding three-fold the annual interest liabilities, with advantageous rates payable in coin.
Fifth—The principal as well as the interest of its Bonds being payable in coin, upon a legally binding agreement.
Having carefully investigated the resources, progress and prospects of the road, and the management of the Company's affairs, we cordially recommend these Bonds to Trustees, Executors, Institutions and others as an *eminently sound, reliable and remunerative form of permanent investment.*

Morning Chronicle.

PRINTING OFFICE PORTRAITS—*Editors.* An editor's qualifications are various. It is to work harder, more hours in the day, with less recreation, on less sleep and poorer pay than any of your fellow mortals. It is to be busy when your neighbors are idle, butier when they sleep, and busiest when they are enjoying a good time. It is to be always in a hurry, always under a press of business, always "setting up" when others are lying down, and always charitably "distributing" the result of your daily labor. It is to have your opinions always put to "proof" and seldom into practice. It is to advertise other people's wants, wishes and wares; to announce *facilities* for pleasure; to herald the approach of diseases and the invention of cures for them; to make known who has been robbed, where, how much, who is the robber, his personal history, his trial, sentence, and its execution. It is to receive nice fruit and notice it, to be shown natural curiosities and describe them, to be everywhere at all times, and to be able to answer all questions on all subjects. It is to publish too much sentiment for one, too much politics for another, and too little news for all. It is to make a dozen enemies to one friend, and to be pitched into by any one who chooses to consider himself aggrieved. It is to take complimentary tickets to everything, and pay for them in complimentary notices. It is to be bored by friends suggesting how you should carry on your business, and bullied by those whom you have hit in vulnerable spots. It is a life of mingled good and ill, trial and triumph, never-ending toil and never-beginning felicity, wherein you work out your allotted time with the "devil" always at your elbow, calling for your sole end in this life —a little more copy.

Printers. — Printers are unlike other classes of men. There vocation imparts to them an intelligence that does not result from any other business. Dealing with language exclusively, in its combination of letters, words, sentences, and paragraphs, they are constantly brought into communion with thoughts and their working, which thus insensibly become imbued with the ideas of those minds whose creations they help to embody into those forms that give them to the world. They literally get grammar at their finger's ends while picking up the types that form sentences that are grammatical. Spelling comes to them as natural as breathing, for they fall into correct orthography through force of habit. The characteristics of printers are not so favorable to personal thrift as those of other professions. They partake of the nature of artists in some degree, and are generally liberal to a fault, thoughtless of the future and frequently improvident for the present—flush when in a good situation, and dead broke on a tramp. They may be said to be the working Bohemians of the world of operatives.

Printers' Devels.—From wild, friend'eas boys in the streets, are made what are called printers devils: next they become printers, after that sometimes editors, in which capacity they not unfrequently make their mark in the nation and in the world. Dr. Franklin was a most eminent instance in the early days of our country, and Thurlow Weed, Horace Greeley, Simon Cameron, Hannibal Hamlin, General Dix, Schuyler Colfax, Gideon Welles, and many others are striking examples at the present time.

— Punch says that man is a dangerous character who "takes life" cheerfully.

— A group of eight American rattlesnakes lately landed in Liverpool.

— Forty thousand cattle have been driven from Texas to Kansas this year.

— Taking a good hat or umbrella for a bad one shows more judgement than honesty.

— The Chickerings are great advertisers. Cuts of their Legion of Honor appear in legions of publications.

— Prentice says, "There are persons who would burn a living victim at the stake and then kindly fan the charred skeleton to cool it."

— A poetically disposed cotemporary said that: "It is comforting to know that one eye watches fondly for our coming, and looks brighter when we come." The other paper condoled, in its next issue, thus: "It grieves us to learn that our cotemporary's wife has lost an eye."

— There is no word in the English language as much abused as "Professor." It sounds well when used to distinguish the calling of a man of intellect, but when assumed by peddlers in soap, music and legerdemain, it weakens even their pretensions.

— A stained glass window, designed for a church in Cannes, was a part of the cargo of a ship which foundered near the coast of France. After being immersed in the Mediterranean five months, the ship and cargo were sold in Marseilles at auction, and the window now graces a church in Lancashire.

BOSTON MUSIC SCHOOL.

The Fall Term will commence on MONDAY, Oct. 3, at Odd Fellows' Block, 554 Washington street, Boston.

This Institution was incorporated about ten years ago, and having been in successful operation ever since, is now fully prepared to furnish instruction to students, in the theory and practice of vocal and instrumental music. Pupils may enter at any stage of progress and pursue three branches of study, viz:

PIANOFORTE, HARMONY and SINGING, or, instead of Singing, they may study any orchestral instrument, receiving in each branch of study two lessons a week.

The pupils will be graded and classed according to their attainments. The classes comprise from one to three persons, who receive half hour instruction, and recite their lessons in the presence of the class to which they belong.

No extra charges are made excepting for the studies of the GUITAR and HARP, for which the terms will be moderate. Price of tuition $36.

BOARD OF INSTRUCTION:

B. F. BAKER, WULF FRIES,
WILLIAM SCHULTZE, E. M. RICE,
GEORGE H. HOWARD, HIRAM WILDE.

For particulars address B. F. BAKER, 4 Rowe Place, Boston, WM. READ, M. D.,

NEW ADVERTISEMENTS.

DOWNER
KEROSENE OIL CO.
Office, No. 108 *Water Street, Boston.*

TO CONSUMERS OF OIL.
CAUTION.

It having come to our knowledge that many dealers, throughout New England, are in the habit of buying small quantities of our Oil, and larger quantities of inferior oils, and using our brand and packages fraudulently in the sale of these inferior oils, we are determined to stop such frauds, and hereby offer a **Reward of $1,000 Dollars** for information that will lead to the detection and punishment of any party using our name or brand in the sale of any other than our own Oil. The "**Downer Kerosene Oil**" has been frequently tested and analyzed by Dr. A. A. HAYES, State Assayer, and in a communication to us, dated July 5, 1867, he says: "The term 'Kerosene' as used by the **Downer Oil Company**, applies to the highest grade of oil only, which, our trials show, does not inflame below 120 degrees Fahrenheit, and carries the assurance of both safety and excellence with it; while the mixed Oils are not only unsafe, but in causing accidents, destroy confidence in the safe and excellent article for affording light produced by the honest manufacturer."

— Prentice says, "There are persons who would burn a living victim at the stake and then kindly fan the charred skeleton to cool it."

— A poetically disposed cotemporary said that: "It is comforting to know that one eye watches fondly for our coming, and looks brighter when we come." The other paper condoled, in its next issue, thus: "It grieves us to learn that our cotemporary's wife has lost an eye."

— There is no word in the English language as much abused as "Professor." It sounds well when used to distinguish the calling of a man of intellect, but when assumed by peddlers in soap, music and legerdemain, it weakens even their pretensions.

— A stained glass window, designed for a church in Cannes, was a part of the cargo of a ship which foundered near the coast of France. After being immersed in the Mediterranean five months, the ship and cargo were sold in Marseilles at auction, and the window now graces a church in Lancashire.

Of the Gleason Hall Presentation Festival, under the auspices of the NEGRO BAND,
Will positively take place on
Thursday Evening, October 10, 1867,
AT GLEASON HALL, WEST TROY, N. Y.

The first, second and third Concerts of the series took place (as per former advertisements,) on July 25th, Aug 8th and 29th, and gave unlimited satisfaction, the large Hall being filled to overflowing on each of the above evenings with a refined and appreciative audience from all parts of the State. There was a committee of three reliable and well known gentlemen selected by the audience on the night of the first Concert to superintend the drawing which will positively take place on the evening of the above Concert. The Committee are most desirous that all ticket holders should be present to witness the drawing, and thereby relieve themselves of any doubt as to the fairness of the transaction. They also assure those who cannot make it convenient to be present, that their interests will be guarded the same as if they were present. The Tickets, which have been limited to 75,000, at

ONE DOLLAR EACH,

can be procured by addressing John H. Casey, Box 69, West Troy, N. Y., or any of the Agents throughout the United States. There will be a present awarded the holder of every ticket drawn. Among the presents to be awarded are the following:—

AN ACCOMPLISHED SWINDLER IN PITTSFIELD.—The local sensation in Pittsfield just now, is the exploits of a confidence man, who played the role of an ex-confederate general with marked success. His first victim was a young lady from Canada, who left a convent there, went to Pittsfield, renounced the Catholic faith, and became a Baptist and a teacher in Rev. W. C. Richards' school for boys. This young lady replied, a few weeks ago, to an advertisement for a governess in Paducah, Ky., and inclosed the necessary testimonials. An answer was promptly received, stating that her testimonials, terms, &c., were satisfactory, and that Gen. Humphries, a friend of the family, would shortly go on to accompany her to Paducah. Soon after, another letter came, purporting to be from the general himself, which announced that he would be unavoidably detained a few days in New York, and mentioned where he could be addressed.

Rev. Mr. Richards then wrote a letter inviting the "General" to come to Pittsfield. The invitation was accepted in a handsomely turned reply, and in a few days General Humphries made his debut in that place, armed with letters of introduction, one of which purported to be from Rev. Dr. Barnes of Philadelphia. His apparent education and refinement, his gentlemanly manners, coupled with his testimonials, at once initiated him into the good graces of Mr. Richards, who became much interested in him, which interest seemed to be fully reciprocated. He professed to be a reconstructed rebel, said he was in the battle of Fair Oaks, was also in command of the brigade which took Gen. Bartlett of Pittsfield prisoner. He represented himself as wealthy, and said his business in New York at that time was to receive a large sum of money, which, owing to some unforseen causes, could not be paid as promptly as had been anticipated. He proposed to loan Mr. Richards $5000, and, in the meantime, just for a few days' accommodation, got Mr. Richards to cash a check for $190.

During his stay in Pittsfield, he professed to become deeply enamored with the young lady, whom he came to escort to Kentucky, and even proposed marriage to her, which proposition was not accepted. The next week the General left for New York, accompanied by Mr. Richards, with an arrangement for the young lady to follow, at such time as he could have completed his business. At New York the General introduced Mr. Richards at the bank where he was to deposit his funds, in order that there might be no unnecessary delay or difficulty in drawing the $5000 loan, which Mr. Richards was to receive from his check.—The General also procured the services of Mr. Richards in selecting a library of 600 volumes, which were to be sent to Kentucky. In the meantime Mr. Richards had cashed another small check for the General, and had introduced him very generally to his friends and acquaintances in the city.

The sequel of the story is, the young lady went to New York, and left in company with the general for parts unknown, since which time nothing has been heard from them. Letters recently received from Paducah show that the advertisement was a hoax, as no such parties reside there. Skillful detectives have been put upon the track of the General, but as yet without success. The friends of the young lady feel confident that she has been deceived, and as yet remains so, and that as soon as she finds out the true character of the villain, she will at once communicate with them. It is hardly necessary to say that the General's loan to Mr. Richards hasn't appeared, nor has the money which Mr. Richards loaned him.—*Springfield Republican.*

[Truly the young lady may be a victim, as suggested,—but it looks a little as if she might be an accomplice.]

COUGHING UP A KNIFE BLADE.—The Boardstown Illinoisian states the following remarkable case: "A remarkable effort of Nature to relieve the human body of an obstruction, has occurred in this vicinity, which should attract the attention of scientific men. About twelve years since, Mr. James Thompson, a wealthy farmer of this county, was waylaid by ruffians, and in the encounter was stabbed in the back, under the left shoulder blade. He was treated by physicians, and in a short time the wound healed over. A few years since he began to cough, and since that time had all the appearance of a person under the influence of consumption, to such an extent that his friends despaired of his recovery. About three weeks since, in a violent fit of coughing, he threw up a piece of the knife blade with which he was pierced, about one inch and a half in length, and half an inch in width. It had passed, during that long interval, from his back into his stomach, through his lungs, and upward through the bronchial tube. A more wonderful freak of nature we have never read in the books. Mr. Thompson is now doing well, and bids fair to live as long as any other man."

—A countryman walking along the streets of New York found his progress stopped by a close barricade of lumber.—"What is that for?" said he to a person in the street. 'Oh, that's to stop the cholera." "Aye, I have often heard of the board of health, but I never saw one before."

THE STOVE FOR THE MILLION!
THE
KEARSARGE
HAS NOT BEEN BEATEN!
URIAH BLAISDELL,
NO. 43 MARKET STREET,
Takes pleasure, as the cold season approaches, in again inviting public attention to this superior
COOK STOVE!
Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well with WOOD OR COAL, an economizer of fuel, and a heavy, well-made and durable Stove, as it is a neat and symetrical one. It has been in no Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified encomiums of its numerous purchasers—of all who know what a good stove is and how to appreciate it.
Pleasure is taken in showing the KEARSARGE and all in want of a stove of the first merit at a moderate price are invited to call and examine it whether they purchase or not.
The following names from its large list of purchasers are given for reference:

Portsmouth, N. H.

TUESDAY, SEPTEMBER 24, 1867.

CONCORD.—Business called us to spend a night at our capital recently; and very pleasantly we passed the time, as we always do there—and in fact almost anywhere else, perhaps because we are always too busy to have the time drag. At our old headquarters, the Phenix Hotel, we found Ken. Elliot, almost alone of all the old crew; but Mr Littlehale, the new landlord, who is not very little, but is hale and hearty, knows his business and keeps a good house. He was formerly of the Columbian Hotel; and since the American (the famous Gass's of old) is in ashes, it would not be strange, perhaps, considering the well known proclivities of the owners of the great houses, —Nath'l White of the Eagle and Jas. R. Hill of the Phenix,—if these noted hostelries should ultimately swap their political persuasions.

We were glad to find Ben. Davis at his music hall—and it was pleasing indeed, as we approached the door, to hear his sweet voice lead a private class he was drilling.—It is rarely indeed that one who sings so much as he has, and so long, retains so great purity and power of tone. He is our ideal of a "sweet singer in Israel," and his cordial greeting to friends is inspiring.

Morey was there too,—after a while; for as we found this incorrigible pair of actual Bachelors of Arts still "courted their muse" and nobody else, we accepted Davis' invitation to stop with them all night. Mr Morey gave us a touch of his quality as pianist, and of their new grand. We don't know anybody who plays better—and the concert he gave us was worth going twice as far to hear. They have got the best and most complete private music hall and home we ever saw; and Mr. Davis has a rare collection of curiosities, including a late purchase of a couple of handsome and quaint chairs which Noah or some of his ancestors had—and the only thing they seem to lack is a brace of good wives.

As usual with a few people, we rose before breakfast, and enjoyed a stroll of the city,—getting, at the early market, a basket of luscious blackberries, which fruit is always far better there than with us.

Concord was originally laid out with a great deal more sense than some other cities we know of, and there is generally more room between the houses there than is frequently granted elsewhere. And when they have a fire,—which visitations here are not like angels'—they improve the appearance and condition of things thereafter.

The new Statesman (printing office) Block is a very fine building, and we wish somebody would put us up one as good—if they don't, we shall have to do it ourself, as our thriving (or "thriven") and enterprising friends of the Statesman have done, and done so well. But we really think their erection of this palace of the art of Franklin, lost the State printing to Concord this year: and now that it has broken the ice and gone to Manchester, who knows where it may land next, and whether the State pap may not yet aid us to make a like pile.

Having thought, said and sung all which, and gotten a good breakfast at the Phenix —which is a fitting name for fire-y Concord—we took the morning train for the glorious old seacoast, and were somewhat surprised to find only our own humble quarters for business, but glad to still have the "inspiration of opportunity" for moderately successful labor, and perhaps some measure of usefulness.

☞ There was a Johnsonian Mass Meeting at Bladensburg, last Saturday, but it is said to have been a small affair. Montgomery Blair, in his speech there, denounced the Cabinet as "a set of political vermin," and said that Secretary Seward, on the eve of the coming elections, was endeavoring to betray the Administration into the hands of its enemies. He believed that the President would be impeached, and declared that the present condition of things was without precedent in the history of the country.

[There is something rich in Mr. Blair's denouncing the Cabinet as vermin. Welles, and Gen. Grant, and Stanbery, (and Binckley *pro tem*) and Jerry Black as a supplementary member—all vermin! and Randall, and Seward, and McCulloch—all vermin in Mr. Blair's view, are they? who then can be pure, but Mr. Blair himself, and politicians of his sort?]

☞ In England, the regular session of the Pan Anglican synod commences this week at the Archiepiscopal palace at Lambeth. It is understood that reporters of the newspaper press will not be permitted to be present at the deliberations of the Synod. This is a pity; for the debates, if properly reported, would interest a large class of readers, on both sides of the Atlantic.

— It is estimated that Maine has water power enough, if used, to support a population of five millions of souls. She would then not be so populous as the British Isles. In the southern basin of the State there are at least a million of horse powers.

RYE BEACH AND THE BOSTON TRANSCRIPT ONCE MORE.—It may seem a little late in the day, but the beach season has not entirely closed yet, and we desire to fire a sundown gun on this much mooted subject. It will be recollected by those who have felt sufficient interest in the subject to keep the run of the discussion for the two or three seasons it has continued—that the Transcript did at last state, in a recent issue, that the landlords of the Ocean House were *not* those alluded to as copperheads who refused to receive greenbacks early in the war; and that by pretty direct and pointed implication, the last article in that paper *did* leave the burden of this charge on the gentleman now proprietor of the Farragut House.

Well, we had entirely forgotten that mine host J. C. Philbrick, at the time the Transcript, as he thought and we thought, so unfairly left it to be inferred that *he* was the one alluded to—did deny the implication in a card in the Post; until the fact was yesterday recalled to mind, by a friend in our counting-room. And Mr. Philbrick himself, who was also present settling his annual account, most positively denies ever refusing, by letter or otherwise, to receive greenbacks or any other U. S. currency, or in any way seeking or tending to depreciate the same or bring it into contempt.—And since the Transcript has at different times offered to publish the list of the gold-bearing boarding house keepers, if either of the hotel men referred to would furnish it—and seeing both these plead not guilty to the charge or any kindred one; and that they were the only two who would generally or fairly be understood as "landlords" at Rye at that time—we think it now their turn to call upon the Transcript to say distinctly who they did and do mean, and give the chapter and verse of proof of their accusation, or retract the same.

NEW HAMPSHIRE ITEMS.

—— A bakery has been started in Littleton, and a starch factory is approaching completion. Littleton is the greatest lumber depot in the State.

—— A son of Geo. B. Lord, Great Falls, three years old, was choked to death on the 12th, by having his clothes caught in a hay cart.

—— It is expected that the Rockingham Base Ball Club of this city will participate in the base ball tournament to be held at Concord on Wednesday and Thursday, in connection with the Merrimack County Fair.

—— The Manchester Mirror says that a wealthy man in that city detected in making false income returns to the Collector of revenue, arranged the matter by paying $2500, rather than come before the United States Court

—— Edw. Shirley of Goffstown, while moving a felled tree in Bedford, on Friday last, had his hand caught between the tree and a stone, breaking the bones and holding his hand so firmly that two men were required with levers to extricate it.

—— William M. Gwin, immediately after the election in California, took passage for San Francisco, preparatory to a canvass for an election to the Senate of the United States. But the returns took a better Republican look shortly after his departure, so that "the Duke" will stand no chance.

—— The best animal on exhibition at the State Fair was a red Durham bull owned by Harrison Smart of New Market. Ex Lieut. Governor Brown of the N. E. Farmer in the agricultural meeting declared him so faultless in shape that he should not know where to improve him. We understand Mr. Smart has been offered $1000 for him.

—— The Cocheco Manufacturing Company held its annual meeting at Dover, last week. The report presented showed the business of the company to have been prosperous the past year. During the year $100,000 was divided semi annually, and $300,000 of the capital stock returned to the stockholders. About twelve million yards of cotton cloth has been manufactured, and over thirteen million yards of prints. Although the mills have been able through the introduction of improved machinery to turn out more goods than ever, both the mills and printery have been run to their full capacity all the time.

—— A new cotton mill is now going up at Great Falls, which is to be 160 feet in length, 100 feet in width and four stories high. The Great Falls Journal says: "The mill is to be conected with number three mill, and the walls of the north end of number three mill are to be removed, as the walls between numbers three and four have been already. This arangement will afford a spinning room, a weaving room and carding room, each *five hundred and thirty six feet in length*, making these rooms among the longest, if not the longest in America.

— A severe drought prevails in the northern part of the Chinese empire.

— The whiskey cheats, after working many weeks to oust Mr. Commissioner Rollins, have, it is said, subsided, and given up the job. If manufacturers of whiskey had their deserts, three quarters of them would be in the penitentiary, dressed in red and black, instead of prowling about the Department, seeking the removal of honest men.—*Exchange.*

— The Democratic papers in the West have been representing that Gen. Carl Schurz had advised his German compatriots of the Republican party to desert that organization in all State and local elections, and only vote with it in the national elections. The General replies in a long letter, and pronounces the statement entirely untrue.

WASHINGTON NEWS.—Information received here from New Orleans indicates that the Louisiana State election, fixed by Gen. Sheridan for the 27th Sept., will be postponed. The yellow fever is so prevalent that it is doubtful if half of the registered vote could be polled in that portion of the State below Baton Rouge. Gen. Mower has the matter under consideration, and as Gen. Hancock has not formally assumed command, the discretion of postponing it rests with him as acting commander.

Gen. Hancock will remain in Washington several days, and obtain a knowledge of the Reconstruction acts, before returning to St. Louis. The President approves of his remaining at St. Louis until the 15th of October.

Official correspondence has taken place between Gen. Grant and Gen. Canby, relative to the Order No. 10, about which so much has been said. Gen. Canby has not suspended the order, but examines each case that comes under it; where the military authorities are satisfied that an effort is made by a debtor to defraud a creditor, the execution of the judgment of the court is not interfered with; but where it is believed a debtor will lose all his property in order to satisfy a small judgment, Order No. 10 will be enforced the same as under Gen. Sickles' command.

At Washington the scramble over some of the New York and Pennsylvania offices is becoming very bitter.

Gen. Sickles has made, formally, a demand for a court of inquiry relative to his removal from the command of the Second Military District, and Gen. Grant has recommended that his request be granted.

FROM ITALY, Sept. 22.—Garibaldi has issued a stirring address, announcing that the time has now come for them to overthrow the tyrany of the Pope, restore Rome to Italy, and give the eternal city its ancient supremacy as the capital of the Italian nation. A proclamation has also been promulgated by King Victor Emanuel, warning all Italians against taking part in aiding or abetting a revolutionary movement against Rome, which is denounced as a crime against the laws of Italy and of nations. The proclamation concludes with a threat that the government will not fail to visit with vigorous punishment all persons found engaged in illegal hostilities against the Papal authority.

A dispatch from Rome states that the Pope has publicly denounced the proposed sales of Church lands in Italy, and declared the decree of the Italian Government to that effect null and void.

ITEMS FROM CHINA.—The failure of the English tea house of McMillan & Co. caused great excitement in Hankow among the native losers. A mob of 80 attacked the British Consul and kicked and bruised him. No man of-war was in port at the time. The Chinese attempted to plunder a store. Americans think the United States should have a gunboat on the Yang Tse Kiang at once, to protect the large interests at stake on that river. The imports at Hankow by the American steamers for the quarter ending in June amount to $4,000,000 in value. The river is very high and the country is flooded for miles.—The American squadron now in China and Japan numbers six vessels, beside a supply ship. France is withdrawing her fleet from Chinese waters, while England and the United States are increasing theirs.

☞ In Portland, on Friday morning, a watchman at the Atwood Lead Works, was found nearly dead from the effects of going inside of a retort for the purpose of cleaning it out. It was full of poisonous gas and it is supposed he was at once prostrated. He survived only about two hours.

☞ The steamboat Chipola, on the Chattahoochee river, bound to Columbus, Ga., exploded her boiler eighteen miles below C., Thursday afternoon. Six persons—two white and four colored, all employees on the boat—were killed. Only one body has been recovered. The passengers were all saved. The boat is a total loss.

☞ Gross carelessness, or a great blunder was the cause of the collision between the steamer Vanderbilt and Richmond, which sent the latter to the bottom, and came near destroying 300 lives.

— The Concord Monitor thinks that when so much is said of "gentlemanly conductors," a few words of praise would not be misspent on steady and responsible locomotive engineers.

It is becoming more and more evident every day that a terrible retribution awaits the manufacturers of the unhealthy compounds denominated Saleratus, Baking Powders, &c.—Since Herrick Allen's Gold Medal Saleratus has been introduced, we are happy to state he has, and is still working great revolutions for good. We would say to all our readers to try one paper, and they will say with us, the half has not been told. Our better half says, Tell everybody to use it. 3

NOT GOLD ONLY,

BUT

RICH, FRUITY, LUSCIOUS

WINES!

California is making grand strides in her agricultural products and is fast withdrawing herself as a purchaser for the manufactures of the various branches of industry she once demanded. She sends a warning voice to the time-worn vineyards of Europe, and enters the lists as a fresh, young combatant for the production of wines from her own rich and increasing vineyards. The time has come when it is simply ridiculous for any one house to lay claim to especial advantages or peculiar privileges for the sale of

THE WINES OF CALIFORNIA.

As well might they claim a monopoly of the cotton trade.

C. A. RICHARDS & CO.

do not receive or sell all the wines which California produces, but they do claim to have at all times a very large quantity on hand of all the best kinds, and their advantages for getting the best, and getting them at the lowest market rate, are such as to enable them to offer them at prices which to-day are lower than any other house which sells California Wines of equality. We bottle five kinds. They are,—

"Angelica,"
"Muscatel,"
"Still Champagne,"
"Hock" and
"Port,"
Also "California Brandy."

They are all perfectly pure, and may be relied upon in sickness or in health. The **Angel** and **Muscatel** are rich, sweet wines. The **Hock** is fully equal to the medium grades of Rhine wines. The **Port** is actually better than many of the high cost Ports from Oporto. We sell these wines in any required quantity, from a single bottle to a Thousand Casks, and are ready at all times to exhibit samples, or to send them to any address.

CHRONIC CATARRH.

There are undoubtedly hundreds in this vicinity who are suffering from Chronic Catarrh and its unhappy consequences, who are not aware of the danger to which they are exposed. The symptoms of this disease are usually so mild at first as to excite little or no attention on the part of the sufferer, and thus it is allowed to pass on from one stage to another, involving in its destructive march more and more serious results. Reader, if you would avoid the dangers of a seated Consumption, do not neglect a "Cold or Catarrh in the head." That this disease is so fatal in its tendency and productive of such unhappy consequences, no one will be surprised to learn, if he will but reflect that every breath of air that is inhaled into the system, by those suffering from Chronic Catarrh, must pass over an unhealthy and diseased membrane, and the air in passing over these putrid and ulcerated surfaces, must of necessity imbibe the most noxious and deadly properties, and in this manner every breath of air you take into the lungs is converted into a poisonous agent of death. There is no disease in the entire catalogue of human ills, the treatment or which has been so little understood as Chronic Catarrh, and hence from the practice ordinarily adopted by the profession, there is little to hope.

DEAFNESS,

Weak eyes, noises, pains, and disagreeable sensations in the head, usually attributed to Neuralgia, frequently arise from Catarrh.

Dr. C.'s success in treating Catarrh has been almost wonderful. He does not profess to cure every case that may be presented to him, but having had years of experience in treating Diseases of the Eye, Ear and Throat, and Catarrh alone, he thinks himself better qualified to perform cures in many cases than physicians who have not enjoyed similar opportunities.

HOME TESTIMONIALS.

From the Lewiston Journal, May 24th, 1867.

Dr. Carpenter, who has been in this city for a few weeks at the De Witt House, treating diseases of the Ear, Eye and Throat, will leave for Bath in a few days, but we cannot forbear adding a word of special endorsement to the Doctor's skill and ability. There are many good reasons why people should look with distrust upon professionals generally, who practice from place to place—But these do not apply to Dr. Carpenter, who confines his practice to the leading cities and towns in Maine, and has met with great success everywhere he has practiced. He is a reliable and skilful specialist, and a physician of reputation and honor. We are glad that the Doctor has visited our city—a feeling in which large numbers who have received the benefit of his treatment unite. We trust the Doctor's engagements will permit him to visit Lewiston frequently.

From the Augusta Gospel Banner, Feb, 16, 1867.

Persons troubled with blindness, deafness or catarrh, will do well to consult Dr. Carpenter.—We know him personally. He is a gentleman—is well read in his profession, is no humbug or deceiver, will not, as many do, tell the patient he can effect a cure without reasonable grounds for the declaration. He brought several cures in this vicinity, and essentially helped others who had suffered for years. This is written by the editor of the Banner without solicitation from any one.

From the Portland Press.

Dr. Carpenter, the Oculist and Aurist, who has been spending several months in practice in this city, has had marked success in the treatment of diseases of the Eye, Ear and Throat, as also of Catarrh in its worst form. He is well versed in the treatment of the diseases he has made his specialties, gentlemanly in the treatment of patients, and prompt in the discharge of all pecuniary obligations.

☞ Dr. CARPENTER, during the past few years, has confined his practice to the principal cities and towns in Maine, the State of his residence, but having received many solicitations from persons in Portsmouth and vicinity, he has been induced to visit Portsmouth a few weeks professionally.

ROCKINGHAM HOUSE, Portsmouth,

On THURSDAY, Sept. 26, and on the same day of the week every 4th week afterward.

Dr. Fitch treats all Diseases of the Head, Scalp, Eyes, Nostrils, Throat, Lungs, Stomach, Heart, Liver, Bowels, Piles, Kidneys, Bones, Joints, Dropsey; also Diseases peculiar to Males and to Females. Also Deformities perfectly restored. Most persons, somewhere from 15 to 80 have one or more bad fits of sickness. Cure them wholly, and they will live ten to fifty years longer. Dr. Fitch's most prominent specialty is the prolongation of human life.

A respectable physician said to me four weeks ago, "For seventeen years you have kept me well of diseases pronounced utterly incurable by several eminent physicians."

Mrs. Elizabeth Huntington Long writes, (Saratoga Springs, March 3d, 1867,) twenty, three years ago she had ulcerated lungs, and true, undoubted hereditary consumption, of which her sister died. I cured her perfectly. Fourteen years later she had a bad attack of heart disease, of which her brother died. Of this I cured her perfectly. She says, "I always remember you with gratitude, for, under God, I owe my life to you."

Miss Anna Judkin, at Portsmouth, N. H., June 7, 1867, said, "Twenty-three years ago I was your patient, and very bad with lung disease. My father, four brothers and three sisters, had died with consumption. I was wholly given up, in six months you cured me. I have now enjoyed perfect health twenty-two and a half years; not a single show of lung diseases in all that time."

D. D. Benjamin, of Union, Ct., says, "Over twenty years ago I and my brother were both in consumption. I had bleeding and ulcerated lungs. My brother refused treatment, and died in three months. You cured me, and I have not had any cough or lung trouble in twenty years. I was then forty, and I am now sixty years old."

All consultations are wholly free.

POLICE COURT, Sept. 23. — Erastus Goodall, who pleaded guilty to a charge of drunkenness, was fined $3 and $3.86 costs, in default of which he was sent to House of Correction.

David Barry, drunk, was mulcted of $6.86.

☞ The Vancouver (W. T.) Register of Aug. 17 states that a detachment of the 21 Artillery and the 23d Infantry arrived there on the last steamer, in command of Lieut. Fred. L. Dodge. The latter would shortly leave for Boise City, in the vicinity of which a new military station is shortly to be established.

☞ This evening at 6 o'clock, the Horticultural Exhibition will be opened at the Temple, and everybody is expected to be there.—It will be a grand social gathering of the lovers of Fruits, Flowers and Vegetable.

Communication.

☞ The old story in Mother Goose, of the man who

"Jumped into a bramble bush
And scratched out both his eyes;
And when he saw his eyes were out,
With all his might and main,
He jumped into another bush
And scratched them in again,"

has always been considered a fable; but a similar case of blindness and restoration occurred in Portsmouth. On July 6, 1866, a boy named H., about 16 years old, accidentally received a charge of powder from a small cannon into his eyes, particularly the left eye, making it totally blind, or as we commonly say, putting it out.

Several months afterwards, when he had recovered, with the exception of the blindness of this eye, as he was holding a hen in his arms with her head near this blind eye, she saw it glisten, and pecked the eye in again, or restored it to its sight and former appearance, so that with a cataract glass he can read well with this eye.

The blaze from the discharge of powder burnt the chrystaline lens, leaving the opaque membrane of this lens (made so by the blow) hanging directly across the pupil. The peck of the hen jarred this membrane from its fastening, so that it dropped below the pupil and let the light into the eye.—So, as an oculist, this old hen fully equals Moother Goose's wonderful bush. NEW HAMPSHIRE ITEMS.

— The house of George Goss, in Henniker, was robbed of money and clothing, on the 5th, while the family were at church.

— A. F. Marsh has accepted the call of the First Congregational Church, Rochester, to become its pastor.

— The shoe busines of Farmington foots up 98,838 pairs for the month of August, valued at $142,311.

— On the night of the 14th inst., a young thief named John A. Woods was caught in the store of Rufus Baker & Son, at Lebanon. Property stolen from stores in Woodsville and Newbury, Vt., was found in his possession.

— A young man by the name of Walter P. Spencer, came from Boston one day recently, and made a visit to Farmington and Rochester and paid up an indebtedness of his father's of seventeen years' standing, amounting to several hundred dollars.

— Hon. Stoddard B. Colby, Register of the United States Treasury, died at Haverhill on Saturday night last, where he was on a visit. His illness was quite protracted and painful. He was a native of Derby, Vt., and about 50 years of age.

☞ A messenger of the Merchant's Union Express Co., and $70,000 from Montreal, are missing at New York.

GOLD, Monday, 142 1-2.

— Dr. A. Eaton, a half-brother of President Lincoln, dropped dead at Mumfordsville, Ky., on Friday last, while mixing medicine for a patient.

— The Newton Journal understands that the money to purchase the Sears estate, adjoining the Watertown Arsenal, in all some forty acres in extent, has been furnished by Government, in accordance with the recent act of Congress, and that the transfer will probably be made within a few days. This will give a total area for the yard of upward of ninety acres.

— On Monday afternoon, just before the Portland train left the Eastern Railroad station at South Danvers, for Boston, a young man stood near one of the cars of the tram and was very officious in aiding ladies to get into the car. Shortly after the train had started, three ladies found that this very polite individual had relieved them of their pocket books.

— One of the largest and most perfect diamonds in the country, valued at $2000, is owned by a gentleman of this city.—Great is paper collars!—*Biddeford Jour.*

O, *pshaw!*

— Gen. Sheridan is said to have remarked in conversation Friday night, that "he did not blame the President for choosing Cabinet advisers and executive subordinates who accord with his own policy, any more than he should condemn a General for selecting such officers as he deemed best for the several subordinate commanders in a campaign. If a President's policy is unpopular the people have the power to change at the end of his term of office.—*Exchange.*

[Very doubtful if Gen. S. said anything of this sort. The *say so* of scribblers who get their information from eaves-droppers, is not the best authority for anything.]

—All the bodies of the victims of the late Naugatuck railroad disaster have been recovered, one being found fastened in the sand in a nearly erect position. Only seven persons were lost, instead of ten as first reported.

—Two young men in Albany, N. Y., named Fitzsimmons and McAllister, while intoxicated, on Saturday, got into difficulty with a policeman named Welds, and assaulted him, when he drew a revolver and fired four shots, killing Fitzsimmons and wounding McAllister. It is thought the latter will recover.

ACROSS THE SIERRA NEVADAS.

THE
CENTRAL PACIFIC RAILROAD,
THE WESTERN HALF OF THE
GREAT NATIONAL TRUNK LINE
ACROSS THE CONTINENT,

being constructed with the AID and SUPERVISION OF UNITED STATES GOVERNMENT, is destined to be one of the MOST IMPORTANT LINES OF COMMUNICATION IN THE WORLD, as it is the *Pacific Railroad proper, and the Great Interior Basin*, over which the immense Overland travel must pass, and the

Principal Portion of the Main Steam Line between the Two Oceans.

Its line extends from Sacramento, on the tidal waters of the Pacific, eastward across the richest and most populous parts of California, Nevada and Utah, connecting at its eastern terminus with the regions of the Far West, and will meet and connect with the roads now building east of the Rocky Mountains. About 100 miles are now built, equipped and in running operation to the summit of the Sierra Nevadas. Within a few days 35 miles more will be added, and the track carried entirely across the mountains to a point in the Great Salt Lake Valley, whence further progress will be easy and rapid. Iron, materials and equipments for the construction of 300 miles of road, and 10,000 men are employed in its construction.

The local business upon the completed portion surpasses all previous estimate. The figures for the quarter ending August 31 are as follows in GOLD:

GROSS EARNINGS.	OPERATING EXPENSES.	NET EARNINGS.
$457,370 64	$856,336 47	$401,034 17

or at the rate of two millions per annum, of which more than three fourths are net profit on less than 100 miles worked. This is upon the actual, legitimate traffic of the road, within its terminus in the mountains, and with only the normal ratio of government transportation, and is exclusive of the materials carried for the further extension of the road.

The Company's *interest liabilities* during the same period were but $25,000.

Add to this an ever-expanding through traffic and the proportions of the future business become immense.

The Company are authorized to continue their line eastward until it shall meet and connect with the roads now building east of the Rocky Mountain ranges.

Assuming that they will build and control half the entire distance between the San Francisco and the Missouri River, as now seems probable, the United States will have invested in the completion of $63 thousand, or $32,000, or at the average rate of $35,000 per mile—and in addition an absolute grant of 10,000,000 acres of the Public Lands. Assuming a joint investor in the magnificent enterprise, and by waiving its first lien in favor of the First Mortgage Bonds—THE GENERAL GOVERNMENT, IN EFFECT, INVITES THE CO-OPERATION OF CAPITALISTS, and has carefully guarded their interests against all ordinary contingencies.

The Company offer for sale, through us, their

First Mortgage Thirty Year, Six per Cent. Coupon Bonds.

Principal and Interest payable in Gold Coin, in New York city. They are in sums of $1000 each, with semi-annual coupons attached, and are selling for the present at 93 per cent. and accrued interest from July 1st added in currency at the rate of 6 per cent. yearly

Nine per Cent. upon the Investment.

These Bonds, authorized by Act of Congress, are issued only as the work progresses, and to the same amount only as the Bonds granted by the Government; and represent, in all cases, the *first lien* upon a completed, equipped and productive railroad, in which have been invested Government subsidies, stock subscriptions, donations, net earnings, etc., and which is worth more than three times the amount of First Mortgage Bonds which can be issued upon it.

The Central Pacific First Mortgage Bonds have all the assurances, securities and guaranties of the Pacific Railroad Act of Congress, and have in addition several notiicable advantages over all other classes of railroad bonds.

First—They are the superior claim upon altogether the most vital and valuable portion of the whole property.

Second—Beside the fullest benefit of the Government subsidy, (which is a subordinate lien,) the road receives the benefit of large donations from California.

Third—Fully half the whole cost of grading 800 miles eastward of San Francisco is concentrated upon the 150 miles now about completed.

Fourth—A local business already yielding threefold the annual interest liabilities, with advantageous rates payable in coin.

Fifth—The principal as well as the interest of its Bonds being payable in coin, upon a legally binding agreement.

Having carefully investigated the resources, progress and prospects of the road, and the management of the Company's affairs, we cordially recommend these Bonds to Trustees, Executors, Institutions and others as an eminently *sound, reliable and remunerative form of permanent investment.*

Morning Chronicle.

THE ROXBURY SCHOOL WHIPPING CASE.—This case came up before the criminal term of the Superior Court at Roxbury, Mass., last week, on an appeal. The case for the government was that Mr. Chase, the defendant, had no right to punish for an offence committed out of school, and the judge gave his construction of the law as follows:

The relation between teacher and scholar is a peculiar one. It partakes, while the pupil is in school, of a parental character, and is, if he chooses it, absolute and without appeal from any quarter when exercised within its proper limits. Such also is the power of the parent. His authority is absolute at home, on the same conditions, if he chooses to exercise it. A good parent desires to co-operate with the teacher, and is thankful for any proper correction of his child. A good teacher desires to aid parents in training up his pupils in habits of good order and obedience to authority.—Between the school and the home the jurisdiction of the teacher and the parent is concurrent. If the teacher sees or knows a boy to violate the laws, if he finds him acquiring habits of a dangerous character, if he sees him becoming vicious, and his example injurious to others, it is his duty to intertere, to restrain and reform. For this purpose it is his right to punish, to a reasonable extent, if no other method will avail. But the teacher must hold himself responsible to the law in his punishment and be careful not to transcend in severity its humane and proper limits.

The jury returned a verdict of "not guilty" without leaving their seats. The boy's offence was throwing stones in the streets; the punishment was not severe;—but the boy's father was indignant, and made complaint to the Police Court.

WORK.—Henry Ward Beecher, in a sermon delivered in Plymouth Church recently, produced the following picture:

"Men seem ashamed of labor, and often you will find men who have made themselves respected by labor, have built up a business and amassed a fortune, who turn to their sons and say—'You shall never do as I did; you shall lead a different life; you shall be spared all this.' Oh, these rich men's sons! They aim to lead a life of emasculated idleness and laziness. Like the polyp that floats useless and nasty upon the sea, all jelly, all flabby, no muscles, no bone; it shuts and opens, and opens and shuts, and sucks in and squirts out again, of no earthly account, influence or use. Such are these poor fools. Their parents toiled and grew strong, and built up their forts of iron and bone, but denying this to their sons, they turn them upon the world boneless, muscleless, simple gristle, and soft at that."

— In Great Britain, after October 1st, beer and other liquor dealers will be prohibited from bringing suits to recover any debt for sales of beer or other liquors.

— An usher in an English school, seeing one of the boys with a thick lump in one of his cheeks, asked, "Quid est hoc?" To which the lad, spattering out a large piece of chewing tobacco, replied "Hoc est quid," for which repartee the master forgave him.

— In Gloucester, the berry-pickers have done a good business this season. One gentleman in town has picked ninety-four quarts of high-bush blackberries. A man and wife at the Cove picked and sold $133 worth of berries in seven weeks, averaging over $3 a day.

—A poor toper, in a last resort for more drink, took his bible to pawn for liquor, but the lady wouldn't take it.

"Well," said he, "if she won't take my word or God's word, it's time to give it up."

And he went and signed the pledge and kept it faithfully.

TO CONSUMERS OF OIL.

CAUTION.

It having come to our knowledge that many dealers, throughout New England, are in the habit of buying small quantities of our Oil, and larger quantities of inferior oils, and using our brand and packages fraudulently in the sale of these inferior oils, we are determined to stop such frauds, and hereby offer a **Reward of 100 Dollars** for information that will lead to the detection and punishment of any party using our name or brand in the sale of any other than our own Oil. The "**Downer Kerosene Oil**" has been frequently tested and analyzed by Dr. A. A. HAYES, State Assayer, and in a communication to us, dated July 5, 1867, he says: "The term 'Kerosene' as used by the **Downer Oil Company**, applies to the highest grade of Oil only, which, our trials show, does not inflame below 120 degrees Fah., and carried to the highest point of both safety and excellence with it; while the mixed Oils are not only unsafe, but in causing accidents, destroy confidence in the safe and excellent article for affording light produced by the honest manufacturer."

Of the Gleason Hall Presentation Festival, under the auspices of DORING'S BAND,

Will positively take place on

Thursday Evening, October 10, 1867,

AT GLEASON HALL, WEST TROY, N. Y.

The first, second and third Concerts of the series took place (as per former advertisement,) on July 25th, Aug 8th and 29th, and gave unlimited satisfaction, the large Hall being filled to overflowing on each of the above evenings with a refined and appreciative audience from all parts of the State. There was a committee of three reliable and well known gentlemen selected by the audience on the night of the first Concert to superintend the drawing, which will positively take place on the evening of the above Concert. The Committee are most desirous that all ticket holders should be present to witness the drawing, and thereby relieve themselves of any doubt as to the fairness of the transaction. The Tickets, which have been limited to 75,000, at

ONE DOLLAR EACH,

can be procured by addressing John H. Casey, Box 69, West Troy, N. Y., or any of the Agents throughout the United States. There will be a present awarded to the holder of every ticket.—Among the presents to be awarded are the following:—

And Thousands of Other Presents,

Comprising

Marble Top Centre Tables, Mirrors, Clocks, Stoves, Chandeliers, Statuary, Engravings, Vases, Bronzes, silver Platters, Sets Knives and Forks, Sets Spoons, Dressing Cases, Port Monnaies, Cards, Tables, Bedsteads, Chairs, Mattresses, and other articles too numerous for mention.

The above property will be delivered to the person entitled to it free from all incumbrance and a title guaranteed.

The property may be seen at any time by calling on the owner, John H. Casey, Metropolitan Hotel, West Troy, N. Y.

We, the undersigned, having been appointed an Executive Committee by Mr. Casey, do hereby certify that all moneys received for the sale of Tickets are to be placed to our credit, and will be by us retained until the distribution takes place. That we will audit and pay all bills and expenses that shall be contemplated by Mr. Casey as correct, and we will pay off and discharge, from the moneys so received, all mortgages upon the property. ANDREW ALEXANDER,

THOMAS RATH.

The undersigned Citizens would most cordially recommend the gentleman engaged in getting up these Concerts as an honorable and reliable person, and believe he will conduct the presentation with honesty and fairness, and try to give satisfaction to the public.

The Chronicle.

☞ A Newfield, Me., correspondent of the Biddeford Journal, says last Spring the Methodists and Free Baptists got into some difficulty about their "meeting house" and finally the latter concluded to employ a clergyman, the committee consisting principally of Democrats. They told the clergyman they did not want him to preach politics, and he replied he did not carry politics into his pulpit. Harmony prevailed until the minister voted the Republican ticket in Sept., and now the cops swear he never shall preach there again, and a general muss has been kicked up, generally, all on account of a minister exercising the right of suffrage. The Journal suggests that they hire Rev. Petroleum V. Nasby.

☞ In Mound City, Ill., they have a curiosity in the shape of a three-legged chicken. The third extends out behind the other two, and is perfect in every respect. It is of no use, however, for the chicken drags it along after it, without making any attempt to work it as a propeller.

☞ The Richmond Enquirer, alluding to the recent course of the New York World and other Northern Democratic papers, in discussing the President as a party man, says:

"It indicates that the President has become so odious at the North that no party dares to shoulder the burden of his unpopularity. This seems to render his impeachment inevitable, and the indications are thickening, that as there is no legal or constitutional ground for such an attempt, the President will resist it as revolutionary."

The New York Herald thus compliments Andrew Johnson on his recent performance at Antietam:

"The President might insult whom he pleased there; by doing so he only disgraced himself, the nation and the dead whom he ostensibly went there to honor. For any one to take notice of it by public speech on the spot was only to lower the speaker to the same level to which the President descended."

— Port wine is manufactured from the common blackberry. There is an advantage in this, since it can be made at home—while most of that imported—ninety-nine casks in a hundred—are not real port.

— A few families increase for a few generations very rapidly, and rise in influence, because they form a superior stock, until some habit or vice, or peculiarity of employment, or disposition, injures the race and renders them inferior, and then they decline.

— Queen Victoria has nearly ready a volume of her own writing; the staple of which will be an account of several journeys made by herself and her husband in Scotland. It is said to contain many pleasant references to her traveling companions and servants, Brown figuring among the number.

— An aged lady, member of the Tyringham (Mass.) family of Shakers, one day recently, took from her closet some articles of dress, telling some of the "sisters" present that they were the clothes she wished to be buried in. A few minutes afterward she went to bed, where she died almost immediately.

— The authorities of Munich for some years past have required that in all cases of children dying in their first year, the parents should declare whether or no the infant had been sucked by the mother. A statistical table of the last two years shows that out of one hundred deceased, eighty-eight were not so brought up.

— About three weeks ago the house of Simeon Putnam of Danvers, was entered in the night and a gold watch and chain and gold bracelet stolen. No clue to the property was found till Wednesday last, when the property was left in Mr. P.'s buggy in his stable, in an envelope, bearing the words, "Forgive me."

— Needles were first made in London by a negro from Spain, in the reign of Queen Mary. He died without imparting the secret of his art. The art was recovered in 1565. Elias Growse first taught the English to make needles, but the art was again lost for nearly a century, when it was again recovered by Christopher Greening, who settled at Long Crendon in Buckinghampshire.

— A prominent citizen of San Francisco has offered, upon certain conditions, to give $50,000 for the foundation of a "Labor Exchange"—an institution for the protection of labor, and the advancement of industry; a place where every one who seeks employment, can find it without fee or reward, and where the minutest information and statistics respecting every branch of industry shall be collected and imparted gratuitously.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of the U. S. Patent Office, Washington under the Act of 1837.
No. 78 State street, (opposite Kilby street,) **Boston.**
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, Bonds, and all papers of drawings for Patents, executed on reasonable terms, with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded in Washington.
No Agency in the United States possesses superior facilities for obtaining Patents, or ascertaining the patentability of inventions.
During eight months the subscriber, in the course of his large practice, made on *twice* rejected applications, SIXTEEN APPEALS; *every one* of which was decided *in his favor* by the Commissioner of Patents.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHAS. MASON,"
Commissioner of Patents.
"I have no hesitation in assuring inventors that they can not employ a man *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,"
Late Commissioner of Patents.
Mr. R. H. EDDY has made for me THIRTEEN applications, in all but *ONE* of which patents have been granted, and that one is *now pending*. Such unmistakable proof of great talent and ability on his part, leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."

THE STOVE FOR THE MILLION!
THE
KEARSARGE
HAS NOT BEEN BEATEN!
URIAH BLAISDELL,
NO. 43 MARKET STREET,
Takes pleasure, as the cold season approaches, in again inviting public attention to this superior
COOK STOVE!
Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well with WOOD OR COAL, an economizer of fuel, and a heavy, well-made and durable Stove, as it is a neat and symetrical one. It has been in no Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified encomiums of its numerous purchasers—of all who know what a good stove is and how to appreciate it.
Pleasure is taken in showing the KEARSARGE and all in want of a stove of the first merit at a moderate price, are invited to call and examine it whether they purchase or not.

Portsmouth, N. H.

WEDNESDAY, SEPTEMBER 25, 1867.

SHERIDAN AND SICKLES.—The serenade, on Tuesday night, at Washington, tendered to Generals Sheridan, Sickles and Hancock, brought out one-half of the population of Washington, and was one of the largest and most imposing demonstrations ever witnessed there. From 10,000 to 15,000 people thronged Pennsylvania Avenue in front of Willard's Hotel. That hotel was brilliantly lighted, and a gas jet, with the word "Union," spanned the main portico. Colored lanterns were suspended from the windows. When General Sheridan appeared he was received with loud and prolonged cheering, and after being introduced spoke as follows:

Gentlemen—I sincerely thank you for this very kind welcome. I shall recollect to-night (cries of "louder" and cheers.) The thought of is will always give me a great deal of pleasure and pride. I feel that you have greatly honored me, and I feel especially honored that a large portion of the assembly now before me is composed of the gallant officers and soldiers of the army. (Loud applause.)

Gen. Sheridan then retired, when the crowd repaired to the Ebbitt House, which was illuminated. Gen. Sickles appeared amid great applause, and addressed the enthusiastic concourse:

He thanked them for the greeting they had given him upon his return to Washington, and for this proof of their confidence and regard. He referred to the war, its lessons and its results, and spoke in favor of the enfranchisement of all loyal people, without regard to color. He declared that the loyal people of the South should have the right to vote down treason. (Great applause.) That the peace, prosperity and welfare of the South, the North, the East and the West depended on the prolongation of military occupation.—The loyal men of the South should be safely intrenched in the fortress of Liberty, of which they are the only guardians upon which we can surely rely in the rebel States. (Cheers.)

The events of the rebellion have taught us many lessons. If we forget these we are untrue to our flag and country. (Voice—That's so.) I am not among those who would ungenerously treat even a Southerner, but I would be the last—if I know myself—to refuse to trust those who have been our steadfast and unflinching friends in the hour of extremest peril. (Applause.) Therefore I say to you that the faithful and thorough execution of the measures of Congress is from my point of view—which is solely a military, and in no sense a political view of the situation—essential to the security of life and property in the Southern States and equally vital to the enjoyment of that repose and security, which, for the whole land, for the whole blessed Republic, which was fought for and won at Atlanta, at Gettysburg, at Spottsylvania, and at Petersburg. (Loud applause.) It is impossible—forever impossible—that the noble act of justice which conferred upon the loyal men of the South liberty and enfranchisement. (Cheers.) Nor can anything be more unreasonable, in my judgment, than the idle apprehensions which have been expressed in many quarters that to make those people free is to take from us some of our freedom, or to take from us some of our privileges or rights. There is a law of gravitation in the moral as in the material world; the weak can never overcome the strong. Numbers, culture, destiny, have decreed the domination of the white race in modern civilization—perhaps in the civilization of all time. It was the celebrated Mr. Fox, I believe, who said that reaction was the most dangerous form of revolution. Such, at least, would be the character of the reaction that would put the rebels and their friends in power; and let me say to you as my fervent aspiration—May that day never come. (Cries of "Never," and loud applause.)

Gen. Sickles then withdrew. A serenade was then given Gen. Hancock at the Metropolitan Hotel. He returned his thanks and made a few remarks, when the serenaders dispersed.

☞ A Washington letter of Sunday night says the President did not attend church, but received callers up to midnight.

Gen. C. G. Halpine spent two hours with the President. He humored him with the story that prominent Radicals concede New York to the Democracy this Fall by 50,000 majority. Halpine told the President that this meant 100,000.

☞ The Howard Association of New Orleans is spending $2000 per day in providing nurses and other relief for the sick, and they call upon Northern cities for help. In many families all are sick with the fever.

☞ The Riverside Magazine—the beautiful—for October is received from the publishers, Hurd & Houghton, New York. All the young people should have it.

☞ There is a report of some trouble between the Mayor of Nashville and Governor Brownlow.

GOLD, Tuesday, 142 1-2.

— A gentleman who had built a small house in a sequestered part of his grounds for his private study, showed it to a friend, remarking: Here I sit reading from morning till night, and nobody a bit the wiser."

— In Virginia, Gen. Schofield has issued a similar order to that of Gen. Canby, that self-exiled Confederates now returned must take the parole oath.

☞ An old citizen complains of illegal fast driving through our streets, and wishes the law enforced against it. The practice is common, but quite unsafe.

NEW HAMPSHIRE ITEMS.

—— Hon. Wm. H. Bartlett, Judge of the S. J. Court, died of consumption on Tuesday morning, at Concord, aged 40 years.

—— A wealthy citizen of Manchester, detected in making false income returns, has arranged the matter by paying $2500 rather than go before the U. S. Court.

☞ The reported N. Y. express robbery, it appears, was no robbery at all. The President of the Merchants' Union Express furnishes the following relative to the reported robbery:

"A messenger, apparently insane, removed $20,000 from his safe. He then went to his hotel, sent to the Agent of the Company, stated what he had done, and finally returned all the money to him."

☞ All the old scholars have heard of the ancient typographical error, where, instead of Worm Destroying Lozenges, an advertisement was headed Storm Destroying Porringers. In modern days we get something like it. In a communication about the loss of a boy's eye-sight, and its subsequent recovery, the manuscript read, "The *blow* from the discharge of powder, *burst* the chrystalline lens." But not being very plainly written, it got printed, "the *blaze* from the discharge of powder, *burnt* the chrystalline lens." This made very good sense, but not the sense intended, and did not not express the facts in the case.

☞ The Bartlett Mills, Newburyport, have given notice of extending the time of labor to eleven hours after this month. They do not pay at present hours of working. The Herald says there is not probably a cotton factory in the town that has made anything this summer. Well, let them live on some of the war profits, then; or if ten hours work won't pay, quit the business—for that is all men, and especially women and children, ought to work.

☞ The Savings Bank at Norway, Maine, was robbed by burglars, on Saturday night, probably about midnight, of $13,000 in bills and bonds, besides other papers. They blew open the safe. $1000 reward is offered for robbers and money, or $500 for each.

☞ A Washington item of Tuesday night says: No decision has been made in the case of Gen. Fitz John Porter, whose appeal is still under consideration by the Attorney General in connection with objections from Gen. Pope, who considers himself a party in the case.

☞ The Atlantic Monthly for October contains, among other good things, a pleasant little poem by T. B. Aldrich, more of Holmes' guardian angel, and the first section of a story of N. E. seaport life by Alice Cary.

— The female college at Bordentown, N. J., has a "department of washing."

— One night, in a thunder shower, we thought the little ones all asleep, when a little voice from the "trundle-bed" called out, "O, mother, the drak is winking! first it shuts up and then it shuts down."

— It is a singular fact that ladies who knew how to preserve everything else, can't preserve their tempers. Yet it may easily be done on the self-sealing principal. It is only to *keep the mouth of vihe essel tightly closed.*

— A dispatch to the War Department from the Dry Tortugas says Major Stone has arrived from Fort Jefferson and is very sick; Dr. Smith, son of the late Col. B. V. Smith of Washington, died on Wednesday, and Lieut. Orr on the 16th. The sickness is not abating at Tortugas.

— A man in Chicago was prosecuted for kicking his wife out of bed. His counsel admited the charge, but said there were extenuating circumstances. "What are they?" asked the magistrate. "She persistently scratched his back with a curry-comb, may it please your honor." "I don't please me at all, and I dismiss the complaint," was the magisterial response.

— Augustus Shedd of East Wallingford, a brakeman in the employ of the Rutland and Burlington Railroad Company, Vt. was instantly killed, Saturday evening, near Sawyersville, by his head coming in contact with a bridge while the train was moving.

— Several poor girls in Philadelphia have been robbed of their sewing machines by an unprincipled scoundrel, who waited on them, offering employment at a store named, if they furnished their own machines. Accordingly, an accomplice came to their houses to get possession of the machines, and disappeared with them.

— As the steamer Vicksburg was getting into her dock at New York, Friday morning, an iron chock through which the line was passed gave way and a fragment struck the mate, Frank G. Hull, in the head, causing his death in a few hours. The unfortunate man was a son of Captain Thomas Hull of Providence and 24 years of age.

— The drouth still continues at the West. A letter from Noblesville, Ind., remarks: "Each afternoon the clouds come up from the west, only to scatter again without giving us one drop of rain. Next morning the heavens look brazen as ever. The sear and yellow leaf of autumn is coming prematurely. Seven long weeks of continuous drouth! Dust is ankle deep. Pasture is nearly all dead. Everything and everybody is dry."

— At New York, Judge Betts has refused the application of the Kentucky Bourbon Company to have their seized property placed in bond upon furnishing ample security to abide the issue of the suit. It is reported that Wanamaker & Brown, extensive clothing merchants in Philadelphia, have failed for a quarter of a million.

GEN. POPE'S ORDER.—This Dist. Commander has sent to Washington a copy of his order for an election in Georgia on the 29th of October. In the matter of registration a significant fact appears in paragraph 3 of the order. Boards of Registration are required, as provided in the law, to give fourteen days' notice before the election, for a revision of the lists. The order directs them to strike from the registry the name of any person who may have been improperly registered, and then declares the Boards of Registration shall also, during such period, add to said registry the names of all persons who may at that time posess the qualifications required by the Reconstruction acts; and their attention is especially drawn to the supplemental act of July 19. This act prohibits an Executive pardon from giving any one the right to register. The order further provides that the polls shall be open for three days, and that the sheriff of each county shall render assistance in preserving order. No judge of an election is allowed to be candidate for any office.

UNIVERSALIST CONVENTION.—The General Convention of Universalists was held in Baltimore on the 17th, 18th and 19th of the present month, and was largely attended.—The Occasional Sermon was preached by Rev. E. C. Bolles of Portland, Maine, on the evening of the 18th. The next afternoon Rev. A. J. Patterson of Roxbury, Mass., preached. Mrs. E. A. Hanaford reading the Scriptures, and Rev. Mr. Canfield of Brooklyn offering prayer. In the evening Mrs. Hanaford preached. The Convention reaffirmed the belief of the denomination in the divine authority of the Holy Scriptures, and the Lordship of Christ. The reports from the churches were encouraging, and much enthusiasm was manifested in regard to missionary work.

NEW ORLEANS.—According to the Republican's figures the whole number of deaths from yellow fever from its commencement to Saturday morning was 1214. The deaths during the 24 hours ending Sunday morning were 69, and for the 24 hours ending Monday morning 77, being the largest for any two days since the epidemic began.

A "TAKE OFF."—"Gris," the "Fat Contributor," of the Cin. Times, says he was asked to write a "take off" on the Black Crook. He replied that he couldn't see anything to *take off.*

THAD. STEVENS was dangerously ill, at Lancaster, Penn., Saturday, and was thought on Tuesday morning to be dying.

☞ On Tuesday, the President pardoned Stephen R. Mallory, who was rebel Secretary of the Navy. His pardon was recommended principally by the Governor and Legislature of Connecticut. He is the first member of the rebel Cabinet who has been pardoned. The Governor and Legislature of Connecticut are a well known copperhead concern, improperly termed democratic. They are to be known by their works.

☞ The Boston Advertiser's Washington special of Tuesday night says:

"Senator Patterson of Tennessee, a son in-law of the President, got into a row with another Tennessean at one of the hotels this morning, and was knocked down. His opponent said that he would not hurt him because he knew he was drunk."

— A Vienna letter of the 27th ult. states that the government is making great efforts to obtain money. Currency is greatly depreciated, and there are fears of general bankruptcy.

— A Washington special says the Democratic mass meeting at Bladensburg passed resolutions indorsing the President in the removals of Secretary Stanton and Military Commanders Sheridan and Sickles. Both keep very secluded. They were serenaded by the Grand Army of the Republic.

— A Geneva letter of the 11th states that the Peace Congress there was a tame affair. Garibaldi left that day. Neither Victor Hugo, Louis Blanc nor Jules Favre were present. Gen. Hooker and other Americans are in Geneva. The Catholics threatened a rout if Garibaldi remained.

"Why, Mrs. B., how do you manage to have such nice light Bread and Biscuit?" "Because I use Herrick Allen's Gold Medal Saleratus. I never saw any half as good. I like it much better to use with cream tartar than I do soda. I shall never use any other. If you will try one paper, Mrs. W., you will say the same. It has almost cured my dyspepsia." Most all the Grocers keep it. 4

Where are you going?

I am going into CARTER'S Saloon, to get a dozen Providence River Oysters, on half shell.

Has he got Providence River Oysters?

Yes; and has made arrangements to have a supply of them all the time.

Does he cook them?

Yes, any way you desire; Fried in Crumbs, Batter, Roasted or Stewed. So come along and see if you do not get suited at CARTER'S, Corner Congress and Chestnut streets. s24

DIRECTIONS FOR

MAKING YOUR OWN SOAP

WITH YOUR WASTE GREASE!

Penn'a Salt M'fg Co.'s Renowned

SAPONIFIER:

(Patents of 1st and 8th Feb., 1859,) on

CONCENTRATED LYE!

Two Cents only for every pound of Soap.

DIRECTIONS.—Dissolve one box of Lye in 2½ pounds (pint) of hot water, in an iron pot. Melt in another pot or pan 5 lbs. of clean fat or grease. Take off the fire, and into *this* stir slowly the dissolved lye, and keep stirring until the whole becomes well mixed and like molasses. Now cover up, and set in a warm place over night. Next day cut up into cakes, and in 6 lbs. (or pints) of water, and melt with a gentle heat until the soap is *all dissolved*, then pour into a tub to cool. When cold cut into bars, which will be fit to use in about ten days.

Beware of Counterfeits.—*Be particular in asking for PENN'A SALT M'FG CO'S SAPONIFIER.* dl—cowdawly

CHRONIC CATARRH.

There are undoubtedly hundreds in this vicinity who are suffering from Chronic Catarrh and its unhappy consequences, who are not aware of the danger to which they are exposed. The symptoms of this disease are usually so mild at first as to excite little or no attention on the part of the sufferer, and thus it is allowed to pass on from one stage to another, involving in its destructive march more and more serious results. Reader, if you would avoid the dangers of a seated Consumption, do not neglect a "Cold or Catarrh in the head." That this disease is so fatal is its tendency and productive of such unhappy consequences, no one will be surprised to learn, if he will but reflect that every breath of air that is inhaled into the system, by those suffering from Chronic Catarrh, must pass over an unhealthy and diseased membrane, and the air in passing over these putrid and ulcerated surfaces, must of necessity imbibe the most noxious and deadly properties, and in this manner every breath of air you take into the lungs is converted into a poisonous agent of death. There is no disease in the entire catalogue of human ills, the treatment of which has been so little understood as Chronic Catarrh, and hence from the practice ordinarily adopted by the profession, there is little to hope.

DEAFNESS,

Weak eyes, noises, pains, and disagreeable sensations in the head, usually attributed to Neuralgia, frequently arise from Catarrh.

Dr. C.'s success in treating Catarrh has been almost wonderful. He does not profess to cure every case that may be presented to him, but having had years of experience in treating Diseases of the Eye, Ear and Throat, and Catarrh alone, he thinks himself better qualified to perform cures in many cases than physicians who have not enjoyed similar opportunities.

HOME TESTIMONIALS.

From the Lewiston Journal, May 24th, 1867.

Dr. Carpenter, who has been in this city for a few weeks at the De Witt House, treating diseases of the Ear, Eye and Throat, will leave for Bath in a few days, but we cannot forbear adding a word of special endorsement to the Doctor's skill and ability. There are many good reasons why people should look with distrust upon the pretensions generally, who practice from place to place—but these do not apply to Dr. Carpenter, who confines his practice to the leading cities and towns in Maine, and has met with great success everywhere he has practiced. He is a reliable and skilful specialist, and a physician of reputation and honor. We are glad that the Doctor has visited our city—a feeling in which large numbers who have received the benefit of his treatment unite. We trust the Doctor's engagements will permit him to visit Lewiston frequently.

From the Augusta Gospel Banner, Feb, 16, 1867.

Persons troubled with blindness, deafness or catarrh, will do well to consult Dr. Carpenter.—We know him personally. He is a gentleman—is well read in his profession, is no humbug or deceiver, will not, as many do, tell the patient he can effect a cure without reasonable grounds for the declaration. He wrought several cures in this vicinity, and essentially helped others who had suffered for years. The above is written by the editor of the Banner without solicitation from any one.

From the Portland Press.

Dr. Carpenter, the Oculist and Aurist, who has been spending several months in practice in this city, has had marked success in the treatment of diseases of the Eye, Ear and Throat, as also of Catarrh in its worst form. He is well versed in the treatment of the diseases he has made his specialities, gentlemanly in the treatment of patients, and prompt in the discharge of all pecuniary obligations.

☞ Dr. CARPENTER, during the past few years, has confined his practice to the principal cities and towns in Maine, the State of his residence, but having received many solicitations from persons in Portsmouth and vicinity, he has been induced to visit Portsmouth a few weeks professionally.

KINGHAM HOUSE, Portsmouth,

On THURSDAY, Sept. 26, and on the same day of the week every 4th week afterward.

Dr. Fitch treats all Diseases of the Head, Scalp, Eyes, Nostrils, Face, Throat, Lungs, Stomach, Liver, Kidneys, Bowels, Bladder, Nerves, Joints, Dropsy, also Diseases peculiar to Males and to Females. Lost Complexion perfectly restored. Most private diseases cured from 15 to 20 days or more bad fits of sickness. Cure them wholly, and they will live ten to fifty years longer. Dr. Fitch's most prominent specialty is the prolongation of human life.

A respectable physician said to me four weeks ago, "For seventeen years you have kept me well of diseases pronounced utterly incurable by several eminent physicians."

Mrs. Elizabeth Huntington Long writes, (Saratoga Springs, March 30, 1867,) twenty three years ago I had a bad cough, pain in my chest, seated, hereditary consumption, of which her sister died. I cured her perfectly. Fourteen years later she had a bad attack of that disease, of which her brother died. Of this I cured her perfectly. She says, "I always remember you with gratitude, for, under God, I owe my life to you."

Miss Anna Judkin, of Portsmouth, N. H., June 1, 1867, said, "Twenty-three years ago I was your little daughter, and had a bad lung disease. My father, four brothers and three sisters, died with consumption. I was wholly given up. In Dr. Hodgman's of Union, N. J., says, "Over twenty years ago I and my brother were both in consumption. I had bleeding and ulcerated lungs, my brother refused treatment, and died in three months. You cured me, and I have not had any cough or lung trouble in twenty years. I was then forty, and I am now sixty years old."

All consultations are wholly free.

DR. SCHENCK ON DYSPEPSIA.—SYMPTOMS, CAUSES AND REMEDY.

Symptoms of Dyspepsia—A sense of fullness, tightness, and weight in the stomach, together with flatulency, acidity, sour, offensive belchings of wind, water brash and vomiting, and a great deal of what a person calls an ill-gone feeling at the pit of the stomach; frequently there is also a palpitation of the heart, which physicians mistake for heart disease, and when the stomach is in this condition it is coated with a mucus or slime. The rough fibrous portions of food remain in the gastric juice, and when the stomach gets a thick coat of slime on it it prevents the gastric juice from flowing, and digestion ceases. Schenck's Seaweed Tonic dissolves this mucus or slime, and restores the stomach to its natural condition.

Schenck's Mandrake Pills are also required to carry off this morbid matter. Two thirds of the cases of Consumption are caused from this diseased state of the stomach; the liver becoming torpid, it ceases to throw out bile, and in short time the whole system is deranged. The mucous membrane of the bronchial tubes sympathizes with the other organs, and before the patient is aware of it, he or she has Bronchial or Pulmonary Consumption.

Schenck's Pulmonic Syrup cannot act freely through the blood when the system is in this locked up condition, without the aid of the Sea Weed Tonic and Mandrake Pills. The Liver has all the venous blood to strain, and when it gets in a morbid condition, blood and bile run through the system mixed, and the whole body becomes so low and vile the blood so thick it can hardly run through the veins. In a majority of cases Consumption starts from this thick condition of the blood. The Mandrake Pills act on the Liver similar to calomel, or they do what calomel does—it unlocks the gall ducts, starts the bile, and the blood begins to circulate naturally through the veins, and the hemorrhages cease. If, when persons are attacked with hemorrhage, they would take one of Schenck's Pulmonic Syrup that would act on the liver, they would soon be relieved from bleeding from the lungs, and it is the only way for a man to cure himself of pulmonary, and irritate the bronchial tubes, and lay the groundwork for consumption.

DR. SCHENCK will be professionally at his rooms every week, 32 Bond street, New York, and 35 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer, the charge is $5.

His medicines are for sale by all druggists and dealers. Also a full supply at all times at his rooms.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents per box.

TO OWNERS OF HORSES AND CATTLE.—THOMAS' DERBY CONDITION POWDERS are warranted superior to any others, or no pay, for the cure of Distemper, Worms, Bots, Coughs, Hide-bound, Colds, etc., in Horses; and Colds, Coughs, Loss of Milk, Black Tongue, Horn Distemper, etc., in Cattle. They are perfectly safe and innocent, no need of stopping the working of your animals. They increase the appetite, give a fine coat, cleanse the stomach and urinary organs, also increase the milk of cows. Try them, and you will never be without them. Hiram Woodruff, the celebrated trainer of trotting horses, has used them for years, and recommends them to his friends. Col. Philip T. Bush of the Jerome Race Course, Fordham, N. Y., would not use them until he was told of what they are composed. Since which he is never without them. He has over twenty running horses in his charge, and for the last two years has used no other medicine for them. He has kindly permitted me to refer any one to him. Over 1000 other references can be seen at the depot. Sold by Druggists and Saddlers. Price 25 cents per box.—Depot 56 Cortlandt street, N. Y. s8dwlm

Local.

☞ The display made at the Exhibition of the Horticultural Society at the Temple, on Tuesday evening, was very fine, much exceeding what we had hoped for, even with the well selected committee of arrangements having the charge of the exhibition.

The contributions were numerous from the surrounding towns, as well as from the city, and the interest taken in this first display augurs well for the future of the Society.

We have not time to make a detailed report of the contributions, but in the departments of fruits and vegetables it is especially rich, while the floral department is well represented considering the lateness of the season.

Daniel H. Spinney contributes 40 varieties of Pears, C. Hayes & Son 29 varieties of Apples; Chas. H. Salter of Greenland sends Pears, Apples, Filberts, Grapes, &c.; John Rogers, Kittery, and Andrew Wiggin, Stratham, make the largest show of Flowers. Henry M. Clark, C. Hayes & Son, Andrew Gardner, Benj. Murry and others, send vegetables that would almost tempt one to become a vegetarian.

The music of the Portsmouth Cornet Band, the beautiful decorations of the hall, the tempting display of fruits, all feed their aid to make a visit to this exhibition most agreeable.

The exhibition will continue this afternoon and evening—closing with an auction, at which all unclaimed articles will be sold, to-night. Let all the children see the flowers this afternoon—it will make them happier and better. We shall give more details of the display, hereafter.

☞ The Piscataqua River Agricultural Association—which is composed of a number of entirely responsible gentlemen in this city, and others all through Rockingham County, and across the river in Kittery, Eliot and York—have decided, since they are left out in the cold by the Exeter Fair management, to hold a Cattle Show and Horse Fair in Portsmouth, Oct. 8th, 9th and 10th. For this purpose they have leased the New Rockingham Trotting Park, which will thus be grandly inaugurated on that occasion, and will finely accommodate the same—suitable quarters for all stock, and arrangements for cars on both railroads stopping near the spot, being in progress.

Larger Premiums than were ever offered in the county will be awarded to Town Teams, Horses, Neat Stock, Sheep and Swine owned in the county, and other towns around, and liberal prizes for speed will ensure good trotting. No premiums for manufactures, fruit, utensils, poultry or fancy goods will be offered.

Particulars will be announced by the management, shortly—as soon as the arrangements are complete; and in the meantime, citizens interested will be solicited to aid the success of the Fair, by subscriptions of money and inducing entries by friends at home and abroad.

☞ Of course the Exeter Fair folks (for the name of County ought to be dropped from that concern,) cannot find any fault with the new Piscataqua Agricultural Association selecting the same days with them for the Cattle Show here—seeing that no advertisement or bill of any sort, so far as we know, has been sent from Exeter inviting our people or their entries, and our claims and wishes for the County Fair here were utterly ignored. We shall now see what we shall see; but for our part we did not expect any such action as this, and opposed it—but can assure all concerned, that the affair here will be well managed; and as it is to be, we shall do all we can for it.

☞ Mr. S. Sanson, of the firm of S. & S. Sanson, Philadelphia, is now in this city to introduce their celebrated Magnesium Pen to our community. This pen, now in use in over nine hundred banking institutions in this country, has a chemically prepared point which renders it almost indestructible. After seeing Mr. S. roughly strike sparks from a stove with the point of one of his pens, we have found it to write freely and smoothly. The pen itself is a better recommendation than all the numerous certificates so freely offered it. It does not corrode, as steel pens do.

☞ The apple crop in this vicinity is small. One gentleman in this city, from 500 trees, will hardly get enough for his own use—and on a farm in Greenland are nearly 1000 very handsome trees, which have never borne a crop worthy the name.

In Rye there will be more yield—and in a ride of ten miles over the hills in the interior of the State, recently, most of the trees, whether native or grafted fruit, had half a crop or more.

☞ Gen. J. G. Hadley has been appointed Treasurer of the Rockingham Trotting Park; and the Trustees desire all stockholders and contributors to the same to hand their subscriptions to him immediately. A few shares may still be had of him.

☞ The funeral of Mr. Wm. C. Hatch, on Tuesday afternoon, was attended by the Odd Fellows, with the Portsmouth Cornet Band; also by the Mechanic Association, and the Sunday School of the Christian Society, of which bodies he was an active and respected member.

☞ A trace of very nice yellow corn, hanging in front of Chas. T. Emery's jewelry store, attracted much attention on Tuesday. Mr. E. has a couple of acres of similar corn on his farm at Newington, raised from seed procured at Goodwin, Sweetser & Co's Agricultural Warehouse, and not planted until the 5th of June.—The crop is estimated to be at least 70 bushels per acre, and the ears are long, well-formed, and filled out in the most perfect manner.

☞ The National Hotel, (formerly the City,) under the ownership of Mr. Frank Jones and the supervision of Col. W. S. Hadley, has been so thoroughly refitted and so well furnished as to become to all intents a new house. From cellar to roof, nothing has escaped the hand of improvement. It is expected that this hotel will be open to travelling public on the 1st prox. With so pleasant a house and so popular a caterer, we have no doubts that this will be speedily filled.

☞ A correspondent sends us a report of a horse-trot, which did not come off at Eliot last week, for $100 a side, because Stephen C's "dad wouldn't let him have his fast nag," to go for the money and glory.—So the horse Boy Hammond took the $50 forfeit, and showed his half-mile in 1:30, despite his age and unpromising appearance—on the ridge-road near the residence of D. A. Hill, Esq.

A Card.

Hall of "Fox" Steam Fire Ass'n, No. 1, Newburyport, Sept. 20th, 1867.

The Officers and Members of the above Association desire to return their hearty thanks to "Deamond" Steam Fire Ass'n. No. 1, of Portsmouth, for the very gentlemanly manner in which they were received and entertained during their recent visit to that city. The gladsome countenance displayed under those white hats, the cordial grasping of hands, the overflowing mugs at the Engine Houses, plainly foretold that they did not mean to be outdone. Capt. T., it was a success; your efforts were seen and appreciated, and the reception is interchangeable; and we are anxious to reciprocate. Give us a call, individually or collectively,—our latch-string is always out.

We also acknowledge our indebtedness to the Fire Department generally for their efforts to please and make our sojourn agreeable; those yellow mugs were in perfect consonance with our feelings, rendered more pleasant by the non-interposition of the State Constabulary.

The citizens who contributed in any way or shape to our comfort and pleasure, will please accept our warmest thanks.

And last, but not least, we will not forget the gentlemanly landlord of the Frontenac House. His dining room and bar room fully consecrated us that keeping a hotel is his sphere, rather than selling periodicals; when we come that way again, we know where to stop.

Gentlemen, we thank you!

Per Order. JOHN B. REED,

ACROSS THE SIERRA NEVADAS.

THE

CENTRAL PACIFIC RAILROAD,

THE WESTERN HALF OF THE

GREAT NATIONAL TRUNK LINE ACROSS THE CONTINENT,

being constructed with the AID and SUPERVISION OF UNITED STATES GOVERNMENT, is destined to be one of the most important LINES OF COMMUNICATION IN THE WORLD, as it is the *sole link between the Pacific Coast and the Great Interior*, and will command the immense Overland travel must pass, and the

Principal Portion of the Main Steam Line between the Two Oceans.

Its line extends from Sacramento, on the tidal waters of San Francisco Bay, eastward across the richest and most populous parts of California, Nevada and Utah, contiguous to all the great Mining Regions of the far West, and will command connect with the roads now building east of the Rocky Mountains. About 100 miles are now built, graded and ready for operation to the summit of the Sierra Nevadas. Within a few days 35 miles, now graded, will be added, and the road will be finished and in operation over the mountains to a point in the Great Salt Lake Valley, whence further progress will be easy and rapid. Iron, materials and equipments are already on hand for 300 miles of road, and 10,000 men are employed in the construction.

The bonds and stocks upon the completed portion surpasses all previous estimate. The figures for the quarter ending August 31 are as follows in GOLD:

Gross Earnings,	Operating Expenses,	Net Earnings,
$87,570 41	$36,548 47	$101,031 17

or at the rate of $400,000 per annum, of which more than three fourths are net profits, and less than 100 miles worked. This is upon the actual business of the road, with its terminus in the mountains, and with only the natural ratio of government transportation, and is exclusive of Overland Mail carried for the further extension of the road.

The Company's interest liabilities during the same period were less than $125,000.

Add to this the ever-expanding through traffic and the proportions of the future business become immense.

The Company are authorized to continue their line eastward until it shall meet and connect with the roads now building east of the Rocky Mountain range.

Assuming that they will build and control half the entire distance between the San Francisco and the Missouri River, as now seems probable, the United States will have invested in the completion of 865 miles $28,592,000, or at the average rate of $33,000 per mile, including an absolute grant of 10,000,000 acres of the Public Lands. By becoming a joint investor in the same, the Government not only has the first lien in favor of the First Mortgage Bondholders, the GENERAL GOVERNMENT, IN EFFECT, shares in the profits of the enterprise, pays no DIVIDENDS, and has carefully guarded their interests against all ordinary contingencies.

The Company offer for sale, through us, their

First Mortgage Thirty Year, Six per Cent. Coupon Bonds,

Principal and Interest payable in Gold Coin, in New York city. They are in sums of $1000 each, with semi-annual gold coupons attached, and are selling for the present at 90 per cent. and accrued interest from July 1st added in currency, at which rate they yield nearly

Nine per Cent. upon the Investment.

These Bonds, authorized by Act of Congress, are issued only as the work progresses, and to the same amount only as the Bonds granted by the Government; and represent, in all cases, the *first lien* upon a completed, equipped and productive railroad. They have the interest on the Government subsidies, stock subscriptions, donations, surplus earnings, etc., and which is worth more than three times the amount of First Mortgage Bonds which can be issued upon it.

The Central Pacific First Mortgage Bonds have all the guarantees, sanctions and guaranties of the Pacific Railroad Act of 1864, and have in addition several noticable advantages over all other classes of railroad bonds.

First—They are the superior claim upon altogether the most vital and valuable portion of the through line.

Second—Besides the fullest benefit of the Government subsidy, (which is a subordinate lien,) the road receives the benefit of large donations from counties, etc.

Third—Fully half the whole cost of grading 800 miles eastward of San Francisco is concentrated upon the 150 miles now about completed.

Fourth—A local business already yielding three-fold the annual interest liabilities, with advantageous rates payable in coin.

Fifth—The principal as well as the interest of its Bonds being payable in coin, upon a legally binding agreement.

Having carefully investigated the resources, progress and prospects of the road, and the management of the Company's affairs, we cordially recommend these Bonds to Trustees, Executors, Institutions and others as an eminently *sound, reliable and remunerative form of permanent investment.*

Morning Chronicle.

A Just Decision.— The Supreme Court of Massachusetts has given a unanimous decision against the petitioners for a dissolution of the New South corporation in Boston, and a division of its property.— The main ground on which the decision is based is, that an association formed for the purpose, by the erection of a meeting house and in other ways of maintaining public worship, is a corporation holding property for special purposes, in which the interest of the members is limited to the carrying out of those purposes. Their ownership is in the nature of a trust which cannot be alienated or abandoned. If it were otherwise, the existence of religious institutions would be at the mercy of a majority of a parish at any given time when for any reason they choose to exercise their power.

The New South is the elegant octagon meeting house on Church Green, Summer Street, Boston. It is a pity to destroy it, but as the street railway cars start from that point, and the people are moving away from that street, it may be necessary to remove the meeting to another place. The decision of the Court defeats the avaricious or sinister purposes of those who wished to fill their pockets by the process.

☞ Albert Pike, unreconstructed rebel, invents the story that a great many carloads of negroes have been sent from Tennessee and other states into Ohio to vote at the coming election. Pike's paper (The Memphis Avalanche) is quite as bitter and reckless as it was in its enforced migrations during the war.—*Tribune.*

— Nasby designates the rebels as "that large class uv the Republic who was engaged in the little onpleasantness."

— Excess of ceremony shows a want of breeding. That civility is the best which excludes all superfluous formality.

— Gov. Harriman of New Hampshire is to deliver the annual address at the soldiers' reunion at Montpelier, Vt., Oct. 24.

— In order to keep up with the progress of the age, Time has abandoned the scythe and hour glass, and purchased a mowing machine and a watch.

—A gentleman in Connecticut,after reading "every article of every number of the Journal of Commerce" for fifteen years, has just died.

— While a gambler was dealing monte near Los Angeles, three men in disguise rushed in, blew out his brains, threw off the players and made away with the money.

—The Rockingham (Virginia) Register states, as an evidence of returning prosperity in the Valley, that since the war there have been sold there over one hundred and fifty pianos by one house.

— Post Office Savings Banks are established throughout England for the benefit of small depositors. They have been in existence four years, and at the close of 1866 held in deposit, including accrued interest, £40,605,875 in gold.

— A Democratic orator, in denouncing Ben Wade, called him an agrarian, who wanted to divide all the lands among the people. He was astonished at the interruptions of "That's the man for me," "Good for him," "Bully for the 'grariane."

—Nothing could be better than the speech of a Mobile barber, whom a number of ex-rebels lately offered $200 to run for Congress: "Gentlemen, if I sell myself, I sell my people; if I sell my people, I sell my children." If anything half as good was said at Antietam the other day, we shall be glad to record it.—*Tribune.*

—A Boston boy, five years of age, having stolen a can of milk, his mother took him to task with moral suasion, and wound up her discourse by exclaiming, "What in the world was you going to do with the milk, anyhow?" "I was going to steal a little dog to drink it?" was the reply.

—The following conversation occurred between a graceless boy and his teacher: "What does your father do when he sits down at the table?" "He asks for the brandy bottle." "I don't mean that. Well, then, what does your mother do when you sit down at the table?" "She says she will wring our necks if we spill any grease on the floor."

—An ingenious smuggling operation has been discovered at Detroit. Men in the employ of the Great Western Railway send trunks filled with liquor from Windsor to Detroit as unclaimed American baggage.— Checkmen on the ferry-boat, in the plot, exchange the checks and send the trunks to Eastern cities. Two checkmen on the ferry-boat have been arrested.

DOWNER

KEROSENE OIL CO.

Office, No. 108 *Water Street, Boston.*

TO CONSUMERS OF OIL.

CAUTION.

It having come to our knowledge that many dealers, throughout New England, are in the habit of buying small quantities of our Oil, and larger quantities of inferior oils, and using our brand and packages fraudulently in the sale of these inferior oils, we are determined to stop such frauds, and hereby offer a **Reward of 100 Dollars** for information that will lead to the detection and punishment of any party using our name or brand in the sale of any other than our own Oil. The **"Downer Kerosene Oil"** has been frequently tested and analyzed by Dr. A. A. Hayes, State Assayer, and in a communication to us, dated July 5, 1867, he says: "The term 'Kerosene' as used by the **Downer Oil Company**, applies to a very high grade of Oil only, which, our trials show, does not inflame below 120 degrees Fahrenheit, and carries the assurance of both safety and excellence with it; while the mixed Oils are not only unsafe, but in causing accidents, destroy confidence in the safe and excellent article for affording light produced by the honest manufacturer."

Double, " - $15.00

For the complete control and easy government, breaking, training and imparting the best possible style to old, young, spirited, unruly, hard or tender-mouthed horses.

TESTIMONIALS.

I am using the Clark Check and Rein on old horses having every conceivable vice; with the kind and gentle influence of this rein they all come under perfect control. I can drive steadier, faster and speed better with this rein than any other. John Lyman, Fifth Ave Hotel, N. Y.

The Clark Check and Rein is a perfect remedy for pullers and side runners. So gentle they don't fight it, so powerful they can't resist it.

Jas. A. Murdock, Brooklyn, N. Y.

It is the only perfect rein for single or double. —*N. Y. Tribune.*

It leaves no room for invention in driving reins.—*Scientific American.*

It brings all kinds of horses under complete control.—*Turf, Field and Farm.*

The only perfect rein with which you can hold vicious horses, and at the same time speed them. —*Wilkes' Spirit.*

With the Clark rein the horse is driven exactly alike every time, no matter who holds the reins. —*N. Y. Clipper.*

Humanity and common sense demand the use of the Clark check and rein.—*H. W. Beecher.*

The tortures of the old check rein teach the colt to balk.—*Hiram Woodruff.*

The Clark check rein is a new letter in the alphabet of civilization.—*Gen. Sherman.*

This rein is simple, neat, strong, durable and can be adjusted to any bridle in one minute.

BAVARIAN BEER AND ITS EFFECTS.—Rev. Dr. Bellows, in one of his letters from Europe to the Liberal Christian, speaks of Bavarian beer, in the following terms:

The road-sides all the way from Nuremberg to Munich tell you that you are in the heart of the beer country of Germany. Here the hop fairly beats the vine. Instead of wine bottles and glasses, casks and mugs of beer meet the eye at every corner and at every railroad station. The abundance of this pale and pleasant drink, light and nutritious, called Bavarian beer, is something astonishing. Last evening, for instance, I think I must have met a thousand people in the English Garden (a mile out of Munich) at Gimgi's open-air concert—men, women and children of the better class. I doubt it, with the exception of a few visitors like ourselves, there was a man, woman or child that did not drink at least a pint, and most of them from one to two quarts of beer. They sat, indeed, perhaps three hours, listening to music and slowly drinking glass after glass of their mild potation. It costs 7 1-2 kreuzers a mass (that is a quart mug), about five cents, and cannot be purchased at retail at less than 6 kreutzers per quart, the whole profit of the retail sale being about one kreutzer per glass and the saving made by the fact that the foam in each quart mug lengthens out the measure of the barrel about a sixth part.

About three quarts a day is the average drink of a sober workman, and with this he only requires one solid meal. But twice as much, and even four or five times as much as this is not uncommon, and many of the people are kept *heavy and poor* by the abuse of this beverage. The general attachment to it is something half-amusing, half-saddening. The Bavarians will stand any governmental abuse, it is said, except a rise in the beer tax. That has really made and often threatened a revolution. It is said that the brewers are putting less malt in their beer; and that the effect has been to increase the use of *eau de-vie*. Drunkenness is almost unknown, but systematic *hard-swilling* is terribly common. The *effect* of this beer is very obvious in the paunchy ponderosity of most of the older men, and it tells on their noses as well as their stomachs, and does not improve the German face, never very handsome.—There is, however, a delightful cordiality and genialness in their manners, and a quiet enjoyment of leisure, chat and music, which is very refreshing to see.

— Last Sunday was the fiftieth anniversary of the ordination of Rev. Dr. Muhlenberg, of New York, the author of the beautiful hymn, "I would not live alway." We notice he has tarried on this globe to a pretty ripe old age, notwithstanding the hymn.

The hymn referred to, has much poetic beauty, but it takes too gloomy a view of life in general, and all its verses cannot be sung in spirit and truth, except by a small portion of the worshippers, in any congregation. It is founded on a passionate, gloomy, and discouraged utterance of Job, when, added to his sickness, he had frightful dreams and visions by night, and was tormented by his officious and self righteous "friends" in the day time. We are glad to find that the modern Job, Dr. Muhlenberg, is enjoying prosperity in his latter days, on the earth.

☞ A yankee pedler, passing a solitary house among the New Hampshire hills, noticed a dozen less one of faces staring from the single window looking out on the road, to get a glance at the stranger. Stopping his cart and calling to a man standing at the door, this colloquy ensued:

Peddler—I say, has there been a funeral here lately?"

Man of the House—"Not's I knows on.—Why?"

Peddler—"Because I see there's one pane o' glass that hain't got no face in it."

Man of the House—"Tell you what I if you don't start along pretty darned quick, there *will* be a funeral, and you'll go to it, tew."

BOSTON MUSIC SCHOOL.

The Fall Term will commence on MONDAY, Oct 7, at Odd Fellows' Block, 554 Washington street, Boston.

This Institution was incorporated about ten years ago, and having been in successful operation ever since, is now fully prepared to furnish instruction to students, in the theory and practice of vocal and instrumental music. People may enter at any stage of progress and pursue three branches of study, viz:

PIANOFORTE, HARMONY and SINGING, or, instead of Singing, they may study any orchestral instrument, receiving in each branch of study two lessons a week.

The pupils will be graded and classed according to their attainments. The classes comprise from one to three persons, who receive individual instruction, and recite their lessons in the presence of the class to which they belong.

No extra charges are made excepting for the studies of the GUITAR and HARP, for which the terms will be moderate. Price of tuition $36.

BOARD OF INSTRUCTION:

THE STOVE FOR THE MILLION!

THE

KEARSARGE

HAS NOT BEEN BEATEN!

URIAH BLAISDELL,
NO. 43 MARKET STREET,
Takes pleasure, at the cold season approaches, in again inviting public attention to this superior

COOK STOVE!

Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well with WOOD OR COAL, an economizer of fuel, and a heavy, well-made and durable Stove, as it is a neat and symetrical one. It has been in No Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified encomiums of its numerous purchasers—of all who know what a good stove is and how to appreciate it.

Pleasure is taken in showing the KEARSARGE and all in want of a stove of the first merit at a moderate price, are invited to call and examine it whether they purchase or not.

GLEASON HALL
PRESENTATION FESTIVAL.
The Fourth and Last Grand Concert
Of the Gleason Hall Presentation Festival, under the auspices of DORING'S BAND,
Will positively take place on
Thursday Evening, October 10, 1867,
AT GLEASON HALL, WEST TROY, N. Y.

The first, second and third Concerts of the series took place (as per former advertisements,) on July 25th, Aug. 8th and 22d, and gave unlimited satisfaction, the large Hall being filled to overflowing on each of the above evenings with a refined and appreciative audience from all parts of the State. There was a committee of three reliable and well-known gentlemen selected by the audience on the night of the *first* Concert to superintend the drawing, which will positively take place on the evening of the above Concert. The Committee are most desirous that all ticket holders should be present to witness the drawing, and thereby relieve themselves of any doubt as to the fairness of the transaction. They also assure those who cannot make it convenient to be present, that their interests will be guarded the same as if they were present. The Tickets, which have been limited to 75,000, at

ONE DOLLAR EACH,

can be procured by addressing John H. Casey, Box 69, West Troy, N. Y., or any of the Agents throughout the United States. There will be a present awarded the holder of every ticket.—Among the presents to be awarded are the following:

The above property will be delivered to the person entitled to it free from all incumbrance and a title guaranteed.

The property may be seen at any time by calling on the owner, John H. Casey, Metropolitan Hotel, West Troy, N. Y.

We, the undersigned, having been appointed an Executive Committee by Mr. Casey, do hereby certify that all moneys received for the sale of Tickets are to be placed in our hands, and will be by us retained until the distribution takes place. That we will audit and pay all bills and expenses that shall be presented by Mr. Casey or his agents, correct, and we will pay off and discharge, from the moneys so received, all mortgages upon the property. ANDREW ALEXANDER,
THOMAS RATH.

The undersigned Citizens would most cordially recommend the gentleman engaged in getting up these Concerts as a person honorable and reliable person, and believe he will conduct the presentation with honesty and fairness, and try to give satisfaction to the public.

Hon. Oscar F. Potter, Member of Assembly, Albany Co.; George Mark, Supt. West Troy Factory; J. N. F. Wilbeck, N. Y. C. R. R.; R. Witbeck, Att'y and Coun. at Law; A. J. Rousseau; Dr. J. P. Witbeck; Hon. Thos. Kearney, Ex-Co. Treas. Albany Co.; Henry Fichett, N. Y. C. R. R.; Thomas Rath; T. W. Jackson, Att'y and Coun. at Law: R. S. Lobdell, Supt. West Troy Co.; Hon. THURSDAY, SEPTEMBER 26, 1867.

LOUISIANA AND TEXAS.—At New Orleans, the number of interments from yellow fever for the twenty-four hours ending Tuesday morning is 82.

Letters from La Grange, Texas, state that the number of citizens remaining in that town was barely 500, yet the interments have reached 24 in two days. The disease is proving fatal in nine cases out of ten. Every house was filled with sickness and death, and whole families have been swept away, and in some cases there is no one to bury them. The disease was spreading in the country. There were no provisions in the town, and the country people will not venture in with produce. On the 9th not even meal could be had to make gruel for the sick. Business had ceased entirely. Stores were closed and newspapers had ceased publication. The jail was emptied of its inmates, who fled to the interior from the scene of desolation.

ROME—ITALY.—Garibaldi was on Monday at Sinigalia, 16 miles northwest of Ancona, at the mouth of the river Misa, in the papal territory. He was summoned to retrace his steps by the Italian Government, but refused, and was immediately arrested, and conveyed to Fortress Alessandria.—Arms and munitions intended for the Garibaldian troops were seized on the frontier. Italian volunteers were also made prisoners by the agents of the King of Italy. Intense excitement prevails in the city.

The papal troops, including the famous Antibes Legion, which many Romans regard as a French force in reality, are very active and on the alert everywhere.

Paris is full of talk, and at Toulon, a number of French transports and war vessels are under orders to be ready to embark a force of Imperial troops to Italy to aid the King's Government against the revolutionists.

GEN. HANCOCK received a grand serenade, at Washington, Tuesday night. A correspondent says it was all an immense affair. Four bands were in attendance.—The hotel was illuminated, and there was a brilliant display of fireworks. In response to great cheering, Gen. Hancock came forward and spoke briefly, without any sharp point.

The band afterward proceeded to the White House, where the President spoke for two minutes. He said the country was in great peril, and he urged every man to rally to its support. The crowd cheered "for the man who was not afraid to be shot at," and dispersed amid much excitement. The President seemingly spoke with great feeling.

THE CABINET at Washington, on Tuesday had before them the case of Dr. Blackburn, who was a rebel agent in Canada during the war, and attempted to introduce yellow fever into the United States, on behalf of the Confederates. It seems that on the 16th of this month he took the oath of allegiance before our Consul at Toronto, and claimed the benefit of the Amnesty proclamation. The case was referred to Washington, and it was decided that Blackburn came within the exceptions of foreign agents, and was not pardoned by the recent proclamation.

THE NASHVILLE TROUBLE.—The Washington correspondent of the Boston Journal gives the following account of this matter:

The President has received a lengthy telegraphic dispatch from a delegation of conservative citizens of Nashville, Tenn., earnestly soliciting the interference of the Government to prevent a civil outbreak in that city. They represent the matter as very threatening, and proceed at length to state what they regard as the facts in the premises. The city authorities, it seems, declare that they intend to hold a mayoralty election on Saturday next, under the amended charter of 1858, in disregard of Brownlow's proclamation, which insists that it shall be held under the franchise law giving the negroes the right to vote. The local authorities declare that they are ready to fight the armed State militia, while the State officials in turn declare that the franchise law shall be enforced if it brings every armed man in Tennessee to Nashville. The telegram shows a condition of things that has warranted the Government in entering a State that is not within the military district provided in the reconstruction acts, and assuming command. Gen. Grant sent a dispatch to Gen. Thomas at Louisville, ordering him to proceed at once to Nashville and take command, and maintain the peace at the point of the bayonet. Gen. Grant says: "You will be supplied with all the troops that are necessary." The President and Gen. Grant believe that Gen. Thomas will prevent an outbreak, although the Government has not undertaken to decide as to which party is right.

— The London Spectator, speaking of the hasty recognition of the rebels by England, says "that it would have been more decent for England to have waited. But," it adds, "it is not dignified to insist on the enormity of a mere impoliteness."

That indolitaness cost the loyal people of the United States many thousand precious lives, and at least $100,000,000.

TO WOLFEBOROUGH.—O for the Dover Railroad! and still more on this occasion, O for the Conway Road continued to the beautiful town by the Lake. But "as is," the city auctioneers say—we must take things as they are. So by the Portsmouth, Great Falls & Conway R. R. to Union Village, and thence per private team ten miles or so to Wolfeborough, or to Dover the best way you can, over two or three Railroads, and thence per the Lake Winnipisaukee Road to Alton Corner—but not to Alton Bay if it be the evening train, for that, alas! does not connect at this season with the boat, and the best place to get a team for Wolfeborough is Fifield's stable at the Corner. The ride is called ten miles, but would not be more than half this distance if the hills were level ed. It is a pleasure to meet so courteous a driver, and such moderate charges for so nice a turnout as the returned soldier Fifield furnished us.—His $3.50 for a new top buggy, with a horse and harness to match, was quite in contrast with—but no matter, let us not anticipate.

Suffice it to say, that leaving Portsmouth at 4:40 over the C. & P. R. R., at 9 o'clock we rejoined at the Hotel "Pavilion" at Wolfeborough, the party of friends who took the morning train (and boat from Alton Bay,) the same route. Here we found them, with nearly the whole house to themselves—with a cheerful wood fire blazing welcome from the open grate, and our friends full of the beauties of their day's trip, despite the coolness of the weather. Though the Pavilion, under Mr. A. L. Howe's management, is yearly growing in favor, and had more company this season than ever before—the summer weather being about ended, most of the visitors had gone, the banquet hall was almost deserted, and landlord and servants preparing to close the house.

Mine host Howe told us we ought to have come before, but we replied we didn't go to the country to see people—there are plenty of them in miserable, pitiable cities — but we wanted to enjoy nature. And Wolfeborough is better situated with regard to the Lake, we think, than any other place—and the Pavilion superior to any of the "mountain houses" below the great Pemigewasset at Plymouth.

Next morning we found our old friend Capt. Sanborn, of steamer Lady of the Lake, on board his staunch boat at the wharf in Wolfeborough; and as she does not run regular trips on Sunday, we were highly delighted at his invitation to take a cruise on the Lake in the afternoon, with our party and invited friends—he very kindly firing up for our especial benefit—which very handsome compliment we hope we appreciated. This trip we made in good style, on that lovely, quiet, "blue and gold" Sabbath even—visiting Diamond Island and its neat little hotel, fine groves, platforms, booths, and all necessary appurtenances for picnics—hunting up the footprints in the rocks, which are here very distinct, though it is by no means so clear to us who or what made them—plucking wild wood flowers, &c. And as we read sermons in these noble stones, and books in the running brooks and the waters of the placid Lake, we thought it no wonder the red man christened this the Smile of the Great Spirit, and could but feel indeed there was "good in everything," and that it was well to be there—for we were not less inspired to true worship in this beautiful temple of nature, "with the blue above and the blue below," than when attending the more regular and orthodox church service in the morning,—where if the teachings were sounder, the harmony of sounds was not half so complete, for the singing was about as poor as we ever heard.

Well, back to the wharf and our hotel, about sundown,—a nice supper, and then some social sacred music in the spacious parlor of the Pavilion. But it is astonishing, and often vexatious, to find how few even really good singers can conduct or aid an affair of this kind. Either there are not two books alike at hand, or nobody knows more than one verse to a familiar tune, and are not sure of that, or nobody can play without the notes.

Wolfeborough is well located, on a cluster of hills, which give sightliness and beauty to the place; for there is nothing more dreary than a dead level country village. It is more agreeable even to be located below your neighbors, so that you may look up and see somebody and something, rather than all be on one grade. The town is yearly improving and increasing, and growing in favor as a summer watering place, as well it may. It is beyond dispute that the town was named for Gen. Wolfe; and yet the stupid town clerk who made the first record, in which he states this fact, leaves off the final e, and puts the animal's name, Wolf-borough—and all who come after him are equally stupid, to follow his ignorant example.

Monday morning before 5 o'clock, found us on our way over those hills to Alton Bay again—ten miles, to take a train at half past 6—which as a facetious conductor friend of ours once said, "goes out before you get up"—though if by "you" he meant us, he reckoned without his host that time, sure. For we were on hand in ample season—though hardly in good order and well conditioned; our conveyance that morning being a sad contrast to that of Saturday night—the only improvement being that this early bird, with his rickety and shivering old open team, had a more exalted idea of his services than the other, and wanted $6 where the first asked but $3.50.

Now down, down, down, over the Dover & Winnipisaukee R. R. to Dover, through Farmington, Rochester, &c.; thence to Newmarket Junction, and home at 10 o'clock—having swung around a most agreeable circle in 42 hours' absence from our desk, and seen and enjoyed enough for a week's trip. We could but note the contrast between having a valuable steamer placed at your service, and haggling with a swindler for the hire of a worthless old nag—between an always courteous but never obsequious landlord, welcoming you as if you owned stock in the house, and a fellow with wine in and wit out, abusing you with his foul language in the street, for a fancied injury. Such is life.

One thing we want somebody to do—it ought to be done, and it will pay to do it—that is, build the Conway Railroad, or a branch, from Union Village to Wolfeborough. If we had money enough, we would do it ourself—but never unless Squire Fox, the News man, and Howe of the Pavillion, agree to put that e in the town name, which ignorance alone omitted.

THE OLD WAY TO PAY DEBTS.—Senator Morton, in a late letter on the National Debt, says:

Within ten years the southern States will be reconstructed and in the enjoyment of comparative prosperity. Within ten years, and perhaps within five, the increase of population, wealth and capital will enable the government to sell at par bonds bearing a much lower rate of interest than the present and thus consolidate and reduce the debt.

Should the government find itself at any time in possession of coin or currency that can be applied to the reduction of the debt, it should of course, be promptly applied; but any attempt to pay the bounded debt in advance by heavy taxation, or by inflating the currency will be unnecessary, unwise and injurious.

I would pay the interest promptly according to the cotract. I would pay off our currency obligations and other debts as they mature, and see to it that the public debt should under no circumstances be increased.

"I would reduce the rate of taxation to the lowest point that would defray the expences of the government, economically administered, may pay the interest and maturing obligations and leave the principal of the bonded debt to be discharged in other and better times.

In fifteen years, and possibly in five, the difference in value between gold and greenbacks will have ceased to exist by a gradual return to specie payment, and the question of the mode of payment of the bonds, whether in gold or greenbacks, will have become unimportant.

What do we need (says the Portland star) but to impress the world with a full sense of our desire and ability to pay this debt; and how can we better do this than by acting like honest and sensible men and make the most of our resources.

There is not an honest industrious, economical and good business debtor in the world who cannot deal favorable with a creditor, and it has yet to be learned he can actually wipe out his debt by crediting a new one. "He would pay all he owes—if he could borrow the money," was a critical remark upon a poor fool once, and we heartily commend the saying to those who think they discern some sudden and mysterious way to pay our debt in a minute.

☞ Sam'l Larcheimer, keeper of a hat store in New York, was arrested on Monday for setting fire to his store, probably to get insurance. He shot himself dead in his cell, soon after being locked up. He was 35 years of age, and leaves a wife.

On the same day, in the same city, Thos. S. Swift committed suicide by poison. He had been a skillful and successful music teacher; but took to the bottle and lost his scholars and was dismissed from his organ on that account,—which led to despair and death.

— Hon. Rufus Soule of Frankfort, Me., died on Sunday last, at the advanced age of 82 years. Capt. Soule was at the time of his death, probable the oldest shipbuilder in the State, and had perhaps built more vessels than any other.

— Senator Sherman of Ohio recently said in a speech that he had no doubt Mr. Stanton would be restored to his office by the Senate, unless the President's reasons for removing him were different from what they were represented to be.

— The sugar wedingd," occurring thirty days after marriage, is the newest fashion.

— Georgia has built more than seventy cotton factories since the war.

It is a bad thing to make up a fight, but a good thing to make up a quarrel; but it is better to fight than to have your Grocer palm off any other Saleratus on to you than Herrick Allen's Gold Medal, manufactured at 112 Liberty street, New York. We are glad to see that a good many of our merchants are selling it, notwithstanding they can't make so good a profit on it as on other kinds. If any one wants to get up a fight with us, let them try and put some other kind of Saleratus or Soda on to us besides Herrick Allen's Gold Medal. 5

GOLD, Wednesday, 143 1-2.

WASHINGTON ITEMS, Wednesday.—Gen. Sheridan left at noon for Philadelphia, accompanied by his staff and escorted by a delegation of Philadelphia officials.

An attempt to make the demonstration of last night to Gen. Hancock a partisan affair, in the interest of the Administration, was severely reprobated by that officer, who was so disgusted with the rebel element present that he said to Gen. Cobb: "I have asked you to face the rebels in the field, and do not hesitate to ask you to face them now."

The President refuses Sickles a Court of Inquiry. [So much the worse for the President. Congress will make inquiry.]

— The annual sale of buffalo robes took place at the stores of the Hudson Bay Company in Montreal last Wednesday. Among the buyers there were several Americans, representing the most prominent fur establishments in the United States, but the high prices paid for the robes as compared with last year prevented them making any purchases.

— The concluding words of a Utah obituary notice are very pathetic: "He leaves thirteen widows and fifty-four children to mourn his loss."

— An old bachelor remarks that though the Scripture says, "the glory of woman is in her hair," it nowhere says that the glory of any woman is in any other woman's hair.

NOT GOLD ONLY,

BUT

RICH, FRUITY, LUSCIOUS

WINES!

California is making grand strides in her agricultural products, and is fast withdrawing herself as a purchaser for the manufactures of the various kinds of wines she used to be bonded. She sends a warning voice to the time worn vineyards of Europe, and enters the lists as a fresh, young competitor for the production of wines from her own rich and increasing vineyards.—The time has come when it is simply ridiculous for any one to lay claim to special advantages or peculiar privileges for the sale of

THE WINES OF CALIFORNIA.

As well might they claim a monopoly of the cotton trade.

C. A. RICHARDS & CO.

do not receive or sell all the wines which California produces, but they do claim to have at all times a very large quantity on hand of all the best kinds, and their advantages for getting the best, and getting them at the lowest market val ue, are such as to enable them to offer them at prices which to-day are lower than any other house which sells California Wines of equality. We bottle five kinds. They are,—

"Angelica,"
"Muscatel,"
"Still Champagne,"
"Hock" and
"Port,"

Also "California Brandy."

They are all perfectly pure, and may be relied upon in sickness or in health. The **Angelica** and **Muscatel** are rich, sweet wines. The **Hock** is fully equal to the medium grades of Rhine wines. The **Port** is actually better than many of the high cost Ports from Oporto. We sell these wines in any required quantity, from a single bottle to a THOUSAND CASES, and are ready at all times to exhibit samples, or to send them to any address.

CHRONIC CATARRH.

There are undoubtedly hundreds in this vicinity who are suffering from Chronic Catarrh and its unhappy consequences, who are not aware of the danger to which they are exposed. The symptoms of this disease are usually so mild at first as to excite little or no attention on the part of the sufferer, and thus it is allowed to pass on from one stage to another, involving in its destructive march more and more serious results. Hence, if you would avoid the dangers of a seated Consumption, do not neglect a Cold or Catarrh in the head. That this disease is so fatal in its tendency and productive of such unhappy consequences, no one will be surprised to learn, if he will but reflect that every breath of air that is inhaled into the system, by those suffering from Chronic Catarrh, must pass over an unhealthy and diseased membrane, and the air in passing over these parts and ulcerated surfaces, must of necessity imbibe the most noxious and deadly properties, and in this manner every breath of air you take into the lungs is converted into a poisonous agent of death. There is no disease in the entire catalogue of human ills, the treatment or which has been so little understood as Chronic Catarrh, and hence from the practice ordinarily adopted by the profession, there is little to hope.

DEAFNESS,

Weak eyes, noises, pains, and disagreeable sensations in the head, usually attributed to Neuralgia, frequently arise from Catarrh.

Dr. C.'s success in treating Catarrh has been almost wonderful. He does not profess to cure every case that may be presented to him, but having had years of experience in treating Diseases of the Eye, Ear and Throat, and Catarrh alone, he thinks himself better qualified to perform cures in many cases than physicians who have not enjoyed similar opportunities.

HOME TESTIMONIALS.

From the Lewiston Journal, May 24th, 1867.

Dr. Carpenter, who has been in this city for a few weeks at the DeWitt House, treating diseases of the Ear, Eye and Throat, will leave for Bath in a few days, but we cannot forbear adding a word of special endorsement to the Doctor's skill and ability. There are many good reasons why people should look with distrust upon professionals generally, who practice upon this place—But these do not apply to Dr. Carpenter, who confines his practice to the leading cities and towns in Maine, and has met with great success everywhere he has practiced. He is a reliable and skillful specialist, and a physician of reputation and honor. We are glad that the Doctor has visited our city—a feeling in which large numbers who have received the benefit of his treatment unite. We regret the Doctor's engagements will permit him to visit Lewiston frequently.

From the Augusta Gospel Banner, Feb, 16, 1867.

Persons troubled with blindness, deafness or catarrh, will do well to consult Dr. Carpenter.—We know him personally. He is a gentleman—is well read in his profession, is no humbug or deceiver, will not, as many do, tell the patient he can effect a cure without reasonable grounds for the declaration. He wrought several cures in this vicinity, and essentially helped others who had suffered for years. This is written by the editor of the Banner without solicitation from any one.

From the Portland Press.

Dr. Carpenter, the Oculist and Aurist, who has been spending several months in practice in this city, has had marked success in the treatment of diseases of the Eye, Ear and Throat, as also of Catarrh in its worst form. He is well versed in the treatment of the diseases he has made his specialities, gentlemanly in the treatment of patients, and prompt in the discharge of all pecuniary obligations.

☞ DR. CARPENTER, during the past few years, has confined his practice to the principal cities and towns in Maine, the State of his residence, but having received many solicitations from persons in Portsmouth and vicinity, he has been induced to visit Portsmouth a few weeks professionally.

DR. S. S. FITCH,

Of 714 BROADWAY, NEW YORK, Author of the Six Lectures on the Prevention and Cure of Pulmonary Consumption, Asthma, Bronchitis, Catarrh, Sick Headache, Neuralgia, Nervousness, Spinal Disease and all Chronic Diseases, will be at the

ROCKINGHAM HOUSE, Portsmouth,

On TUESDAY, Sept. 28, and on the same day of the week every 4th week afterward.

Dr. Fitch treats all Diseases of the Head, Scalp, Eyes, Nostrils, Face, Throat, Lungs, Stomach, Heart, Liver, Bowels, Spine, Nerves, Blood, Joints, Dropsey; also Diseases peculiar to Males and to Females. Lost Complexion perfectly restored. Moles, pimples, eruptions, from 15 to 60 have one or more bad fits of sickness. Are them wholly; and they will live ten to fifty years longer. Dr. Fitch's most prominent specialty is the prolongation of human life.

A respectable physician said to me four weeks ago, "For seventeen years you have kept me well of diseases pronounced utterly incurable by several eminent physicians."

Mrs. Elizabeth Huntington Long writes, (Saratoga Springs, March 9d, 1867,) twenty three years ago she had suffered lungs, and I be, seated, hereditary consumption, of which her sister died. I cured her perfectly. Fourteen years later she had a bad attack of heart disease, of which her brother died. Of this I cured her perfectly. She says, "I always remember you with gratitude, for, under God, I owe my life to you."

Miss Avon Judkin, at Portsmouth, N. H., June 7, 1867, said, "twenty-three years ago I was your patient, and very bad with lung disease. My father, four brothers and three sisters died with consumption. I was wholly given up. In fix months you cured me. I have now enjoyed perfect health twenty-two and a half years, not a single show of lung diseases in all that time."

D. D. Benjamin, of Union, N. J., says, "Over twenty years ago I had my brother over both of consumption. I had bleeding and ulcerated lungs. My brother refused treatment, and died in three months. You cured me, and I have not had any cough or lung trouble in twenty years. I was then forty, and I am now sixty years old."

All consultations are wholly free.

DR. SCHENCK ON DYSPEPSIA.—SYMPTOMS, CAUSES AND REMEDY.

Symptoms of Dyspepsia—A sense of fullness, tightness, and weight in the stomach, together with flatulency, acidity, sour, offensive belching of wind, water-brash and vomiting, and a great deal of what a person calls an all-gone feeling at the pit of the stomach; frequently there is also a palpitation of the heart, which physicians mistake for heart disease, and when the stomach is in this condition it is coated with a mucus or slime. The rough fibrous portion of the stomach, similar to what we see in tripe, is what throws out the gastric juice, and when the stomach gets a thick coat of slime on it, it prevents the gastric juice from flowing, and digestion ceases. Schenck's Seaweed Tonic dissolves this mucus or slime, and restores the stomach to its natural condition.

Schenck's Mandrake Pills are also required to carry off this morbid matter, or the blood and the cases of Consumption are caused from this diseased state of the stomach; the liver becoming torpid, the bowels refuse to throw out bile, and in short time the whole system is deranged. The mucous membrane of the bronchial tubes sympathizes with the other organs, and before the patient is aware of it, he or she has Bronchial or Pulmonary Consumption.

Schenck's Pulmonic Syrup cannot act freely through the blood when the system is in this locked up condition, without the aid of the Sea Weed Tonic and Mandrake Pills. The liver has all the venous blood to strain, and when it gets in a morbid condition, blood and bile run through the veins, and in short, thick blood becomes so low, and the blood so thick it can hardly run through the veins. In a majority of cases these symptoms from this bilious state of the liver similar to calomel, or they do what that does—kill the gall bladders, starve the bile, and the blood begins to circulate naturally through the veins, and the hemorrhages cease. If, when persons are attacked with hemorrhage, they would take a dose of Mandrake Pills occasionally, they would act on the liver, they would soon be relieved from bleeding from the lungs, and it is the only way to relieve the distressing cough, pleurisy, and irritate the bronchial tubes, and lay the groundwork for consumption.

DR. SCHENCK will be professionally at his rooms every week, 32 Bond street, New York, and 35 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer, the charge is $5.

His medicines are for sale by all druggists and dealers. Also a full supply at all times at his rooms.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents per box.

Local.

☞ A novel treason case is reported about town as progressing at the Navy Yard. Rumor has it that a certain very important man of physic, in private dispute with a follower of Fulton, denounced, in fact d—d Congress; and that the engine man said the President ought to be impeached. This, that is the impeaching part, the man of blue pills reports to the new Detective of the Yard; and it is asserted that Grandmaram Welles has actually adopted the child thus born, and that a court martial has been ordered to sit on the case at the Yard, Oct. 2d. We don't believe they can hatch much out of such a mare's nest asthis; but we should like to be tried on the same charges—and this engine man, who has the sympathy of all loyal men, will gain more glory by such a trial, if it ever comes off, than he could by the longest and most honorable term of service.

☞ In 1812 William Claggett opened a law office at the head of Market street in this city. The same man, after an interval of more than half a century, has just reopened the same room, and advertises to continue or resume his profession. The location is over the Hutchings drug store—and few men have experienced more of the vicissitudes of life than the now venerable attorney. As a politician and writer, few in the State have shown more activity or wielded greater influence at times.

☞ A correspondent calls attention to the following City Ordinance, and informs fast drivers through the streets that the Police will arrest those who violate the law.—It has become often dangerous to ladies as well as men, in crossing the streets, when carriages are running at the rate of 10 or 12 miles an hour:

"If any person shall ride through any street or lane in the compact part of the town, on a gallop, or at a swifter pace than at the rate of six miles an hour, he shall be deemed guilty of a violation "of this chapter."

☞ We shall probably be able to publish the officers of the new Piscataqua River Agricultural Association, to morrow. See the advertisement this morning.

☞ One of the most valuable and desirable pews in St. John's Church is advertised in our auction columns, to be sold today.

☞ Rev. Dr. Lord's second Lecture at Congress Hall this evening. Subject, "Lord Bacon."

☞ The first cargo of Salt we have announced for a long while, is just received and advertised by N. F. Mathes & Co.

☞ Mr. Monroe Holmes has recovered sufficiently from his injuries, to able to ride out.

☞ Mr. Richard H. Paine, formerly of this city, is now engaged in a firm of Commission Merchants and Jobbers of Cloths, them to his friends. Col. Philo. P Bush of the Jerome Race Course, Fordham, N. Y., would not use them until he was told of what they were composed, since which he is never without them. He has over twenty running horses in his charge, and for them he says he has found no other medicine for them. He has kindly permitted me to refer any one to him. — In a recent speech Senator Wade said, as for himself, a rebel and he would never sit side by side. He believed that the conquered States of the South lay at the mercy of Congress, and that it would be unsafe to allow rebels to come back to Congress, where, in fellowship with the Democracy of the North, they could accomplish the destruction of this Government. He said Johnson was making the most terrible usurpations to effect the demoralization of the Republican party; that his recent acts were in defiance of Congress, but that there was a power in front of the throne which may yet prove stronger than the throne itself.

— As one of the teamsters was backing up to the ore pile, at Port Henry, N. Y., Sept. 19, one of the reins got entangled so that the team became unmanageable and backed over the bank into the pit. The horses fell a distance of over 100 feet almost perpendicularly, and were instantly killed; and the wagon was completely demolished.

— Mrs. Cummings, a lady over seventy-five years old, who resides with her son-in-law, William Briggs, at Great Neck, Marion, N. Y., went out huckleberrying on Friday, and getting lost in the woods, was not found until Sunday afternoon. She says that a searching party came within fifteen feet of her on Saturday, but she was so much exhausted that she could not speak loud enough for them to hear.

—The editor of the Baltimore American says that Gen. Sheridan, in the course of an interview in that city, said that in New Orleans the registration list showed there were more colored people who could sign their names on the registry lists than there were whites.

— A fellow who has had the mitten more than a dozen times, says that the custom of joining hands during the performance of the marriage ceremony is taken from the practice of pugilists shaking hands before they begin to fight.

ACROSS THE SIERRA NEVADAS.

THE

CENTRAL PACIFIC RAILROAD,

THE WESTERN HALF OF THE

GREAT NATIONAL TRUNK LINE

ACROSS THE CONTINENT,

being constructed with the AID and SUPERVISION of the UNITED STATES GOVERNMENT, is destined to be one of the MOST IMPORTANT LINES OF COMMUNICATION IN THE WORLD, as it is the *sole line between the Pacific coast and the Great Interior Basin*, over which the immense Overland travel must pass, and the

Principal Portion of the Main Steam of Commerce

Its line extends from Sacramento, on the tidal waters of the Pacific, eastward across the richest and most populous parts of California, Nevada and Utah, contiguous to the great Mining Regions of the Far West, and will meet and connect with the roads now building east of the Rocky Mountains. About 100 miles are now built, equipped and in running operation to the summit of the Sierra Nevadas. Within a few days 150 miles more will be completed, and the track carried entirely across the mountains to a point in the Great Salt Lake Valley, whence further progress will be rapid. Men, means, materials and equipment are ready at hand for 300 miles of road, and 10,000 men are employed in the construction.

The local business upon the completed portion surpasses all previous estimate. The figures for the quarter ending August 31 are as follows in GOLD:

GROSS EARNINGS.	OPERATING EXPENSES.	NET EARNINGS
$187,579 61	$86,561 47	$101,018 14

or at the rate of two millions per annum, of which more than three fourths are net profit on less than 100 miles of road. This is upon the actual, legitimate traffic of the road, with its resources in the mountains, and with only the normal rate of governmental transportation, and is exclusive of the materials carried for the further extension of the road.

The Company's interest liabilities during the same period were less than $125,000.

Add to this an ever-expanding through traffic and the proportions of the future business become immense.

The Company are authorized to continue their line eastward until it shall meet and connect with the roads now being built east of the Rocky Mountain ranges.

Assuming that they will build and control half the entire distance between the San Francisco and the Missouri River, as now seems probable, the United States will have invested in the completion of 861 miles $28,392,000, or at the average rate of $35,000 per mile—not including an absolute grant of 10,000,000 acres of the Public Lands. By becoming a joint investor in the magnificent enterprise, and by waiving its first lien in favor of the First Mortgage Bondholders, the GENERAL GOVERNMENT, IN EFFECT, INVITES THE CO-OPERATION OF PRIVATE CAPITALISTS, and has carefully guarded their interests against all ordinary contingencies.

The Company offer for sale, through us, their

First Mortgage Thirty Year, Six per Cent, Coupon Bonds.

Principal and Interest payable in Gold in the City of New York. They are in sums of $1000 each, with semi-annual gold coupons attached, and are selling for the present at 95 per cent and accrued interest from July 1st added in currency, at which rate they yield nearly

Nine per Cent. upon the Investment.

These Bonds, authorized by Act of Congress, are issued only as the work progresses, and to the same amount only as the Bonds granted by the Government; and represent, in all cases, the *first lien* upon a completed, equipped and productive railroad, in which have been invested Government subsidies, stock subscriptions, donations, surplus earnings, etc., and which is worth more than three times the amount of First Mortgage Bonds which can be issued upon it.

The Central Pacific First Mortgage Bonds have all the securances, sanctions and guaranties of the Pacific Railroad Act of Congress, and have in addition several additional advantages over all other classes of railroad bonds.

First—They are the superior claim upon altogether the most vital and valuable portion of the through line.

Second—Beside the fullest benefit of the Government subsidy, (which is a subordinate lien,) the road receives the benefit of large donations from California.

Third—Fully half the whole cost of grading 800 miles eastward of the Sierra Nevadas is concentrated upon the 150 miles now about completed.

Fourth—A local business already yielding threefold the annual interest liabilities, with advantageous rates payable in coin.

Fifth—The principal as well as the interest of its Bonds being payable in coin, upon a legally binding agreement.

Having carefully investigated the resources, progress and prospects of the road, and the management of the Company's affairs, we cordially recommend these Bonds to Trustees, Executors, Institutions and others as a permanently *sound, reliable and remunerative form of permanent investment.*

Morning Chronicle.

Communication.

☞ The government of God is perfect; and when rightly understood it is the standard of supreme excellence, by which all governments should be made and administered.—The Supreme Ruler, in his great Amnesty Proclamation, grants pardon to those who have sinned against this government, upon condition *that the rebels sincerely repent. If* repentance is unfeigned, or if it is false, *thoughts*, words and deeds will prove it.

No one has a claim upon God's mercy, or a well grounded hope *that* he may be relieved from experiencing the just punishment for sin, unless he has a desire to know what is right, what is duty in his several relations in life, and a will to do it. It is the righteous only that are saved from the destructive consequences of guilt. All others are required to atone for their responsible antagonism to Divine authority, by such expiation as Divine Justice demands.

The above concise conclusions are recalled by passing events. M. C.

Why sits that maiden sad and pale,
Amid the glittering throng?
Why bears her face the marks of pain,
Why heedless of the song?

Has he whom she so fondly loves
Left her young heart forlorn?
More poignant are the pangs she feels,
She suffers from—a Corn.

A Remarkable Tree.—The Liberty (Miss.) Herald mentions:

On Woodville Road, about five miles distant from this place, there is, or was a short time ago, a singular freak of nature in the vegetable creation. This is nothing more nor less than two trees, the one an oak and the other a pine, growing from the same trunk or parent stem. From the ground up some four or five feet to the fork, the body of the tree is covered with alternate rows of oak and pine bark, and then the pine tree shoots up to a distance of about thirty feet, while the oak is about ten feet shorter. Both of these trees are sixteen or eighteen inches in diameter at the point where they leave the parent stem.—Can any of our readers explain this wonderful phenomena?

— A lawyer had his portrait taken in his favorite attitude, standing with his hands in his pockets. 'It would resemble him more closely,' said an acquaintance, 'if he had his hands in somebody's else pocket.'

— A lady was telling a young man of a child a few weeks old, whose grandmother was only thirty-eight years old. The young man replied that that was nothing. He knew a young lady whose grandchildren were not born yet.

— A woman's modesty gets humanized by degrees. She who has danced through a couple of seasons, and worn costumes at a few fancy balls, has no longer a very distinct idea how much it is permitted or forbidden her to display.

— An exquisite at Saratoga had a diamond pin of great magnifying power, and seeing a man with a large diamond come in, he went up to him. "That's a nice diamond." "Yes." "A first rate stone." "Yes." "Now, I s'pose that stone must be worth fifteen hundred dollars, but then *I'm no epicure!*"

— The celebrated English wit and *bon-vivant*, (fat Lord Alvanley,) attending a dinner in the newly decorated saloon of a friend, where the table was scantily served with provender, when asked his opinion of the display, replied: "*I should like less gilding*, and a little more *carving*."

— The Standard, the Democratic organ of this Territory, is its last issue tries very hard to prove that Flanders was elected by Democratic votes, which had been secured by the lavish expenditure of money by the radicals in Walla Walla, Clark, Pacific and other counties. That is certainly paying a very sorry compliment to the immutability of Democratic principles and individual integrity, if members of the party can be corrupted and induced to sell their principles for the sake of a few dollars. —*Vancouver Register.*

DOWNER KEROSENE OIL CO.

Office, No. 108 *Water Street, Boston.*

TO CONSUMERS OF OIL.

CAUTION.

It having come to our knowledge that many dealers in Northern New England, are in the habit of buying small quantities of our Oil, and larger quantities of inferior oils, and using our brand and package fraudulently in the sale of these inferior oils, we are determined to stop such frauds, and hereby offer **a Reward of 100 Dollars** for information that will lead to the detection and punishment of any party using our name or brand in the sale of any other than our own Oil. The **Downer Kerosene Oil** has been frequently tested and analyzed by Dr. A. A. HAYES, State Assayer, and in a communication to us, dated July 6, 1867, he says: "The term 'Kerosene' as used by the **Downer Oil Company**, applies to the highest grade of Oil only, which, our trials show, does not inflame below 120 degrees Fahrenheit, and carries the highest of both safety and excellence with it; while the mixed Oils are not only unsafe, but in causing accidents, destroy confidence in the safer. The excellent article for affording light produced by the honest manufacturer."

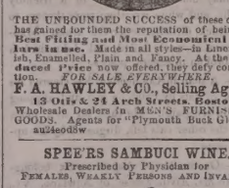
SPEER'S SAMBUCI WINE.

Prescribed by Physician for
FEMALES, WEAKLY PERSONS AND INVALIDS.



As a Tonic, it has no equal, causing an appetite and building up the system of the most debilitated person. *As a Diuretic*, it imparts a healthy action to the Glands, Kidneys and Urinary Organs; very beneficial in Dropsy, Gout and Rheumatic Affections. *As a Blood Purifier*, it is superior, being one of the best alteratives known in the medical pharmacopoia.

The qualities of SAMBUCI are "*unitum in potes*," being at once a Tonic, Diuretic, Alterative, Diaphoretic and Soporific.

A BOSTON BOY FARMING.—A man living in Rumney, writes to the Boston Journal, thus:

"I have a grandson, not quite thirteen years old, who lives in Boston. He came to visit me last spring, during planting time. At his request, the use of a small piece of plowed ground was given to him. He bought a bushel of potatoes for seventy-five cents; planted them; in due time hoed them twice; has dug them; gave away one-ninth in charity; sold the remainder; paid for the potatoes he bought, and realized three dollars and seventy-five cents net, which he put into the Savings Bank. The labor was cheerfully performed by him, without any aid, and as a matter of recreation, and he has now returned to his school in Boston.

I relate this to show how little Boston boys, when they visit their friends in the country, may amuse themselves, and at the same time promote their pecuniary and physical interest."

THE VALUE OF A MILWAUKEE GIRL'S KISSES.—A rather funny case came before a Justice at Milwaukee the other day. A young woman who had accepted the attentions and civilities of a gentleman for some time, at length was married to somebody else, to whom she had been privately engaged at the time she acceptee his services. Whereupon the deceived individual sued for a bill of $104.25, the amount he had paid in her behalf in taking her to concerts operas, pic-nics, rides and ice-cream saloons.

As an offset he credited her with sundry kisses, valued at $16 67 1-2, several squeezes of the hand, $3 37 1-2, an unreturned photograph and a ring, making a total of $37 75. He recovered the bill, the judge allowing the plaintiff the kisses at his own valuation. The case is to be carried up, and there promises to be much conflicting testimony as to the value of the Milwaukee girl's kisses.

TEMPTATIONS.—When a founder has cast his bell, he does not presently fix it in the steeple, but tries it with his hammer, and beats it on every side, to see if there be any flaw in it. Christ does not, presently after he has converted a man, convey him to heaven, but suffers him first to be beaten upon by many temptations, and then exalts him to his crown.—*Arrowsmith.*

— The Putnam (Ct.) National Bank was obliged to suspend business for two days last week, because the vault couldn't be opened in consequence of a derangement in the lock. A telegram brought the maker of the safe and an assistant, who, after seventeen hours work, opened a passage to the treasures.

— An editor wrote an article on the fair sex, in the course of which he said: "Girls of seventeen or eighteen are fond of beaux." When the paper was issued he was rather shocked to discover that an unfortunate typographical error had made him say, "Girls of seventeen or eighteen are fond of *beans!*"

— The pecuniary wants of the Brazilian government it seems, are pressing, and a motion has been brought forward in the Chamber of Deputies proposing to raise the export duty on coffee by three per cent., and it is quite probable that this will ere long pass into law.

— A young gentleman of the city, describing affairs in the country, writes that "the cows often act very badly about being milked; sometimes, when you are almost through, they will kick the milk all over, and you have to go to work and *milk them all over again!*"

☞ Thad. Stevens is said to be improving. His disorder is dropsy.

BOSTON MUSIC SCHOOL.

The Fall Term will commence on MONDAY, Oct 7, at Odd Fellows' Block, 364 Washington street, Boston.

This Institution was incorporated about ten years ago, and having been in successful operation ever since, is now fully prepared to furnish instruction to students, in the theory and practice of vocal and instrumental music. Pupils may enter at any stage of progress and pursue three branches of study, viz:

PIANOFORTE, HARMONY and SINGING, or, instead of Singing, they may study any orchestral instrument, receiving in each branch of study two lessons a week.

The pupils will be graded and classed according to their attainments. The classes comprise from one to three persons, who receive individual instruction, and recite their lessons in the presence of the class to which they belong.

No extra charges are made excepting for the studies of the GUITAR and HARP, for which the terms will be moderate. Price of tuition $36.

THE STOVE FOR THE MILLION!
THE
KEARSARGE
HAS NOT BEEN BEATEN!
URIAH BLAISDELL,
NO. 43 MARKET STREET,
Takes pleasure, as the cold season approaches, in again inviting public attention to this superior
COOK STOVE!
Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well with WOOD OR COAL, an economizer of fuel, and a heavy, well-made and durable Stove, as it is a neat and symetrical one. It has been in no Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified encomiums of its numerous purchasers—of all who know what a good stove is and how to appreciate it.
Pleasure is taken in showing the KEARSARGE and all in want of a stove of the first merit at a moderate price, are invited to call and examine it whether they purchase or not.
The following names from its large list of purchasers are given for reference:

The Fourth and Last Grand Concert
Of the Gleason Hall Presentation Festival, under the auspices of DORING'S BAND,
Will positively take place on
Thursday Evening, October 10, 1867,
AT GLEASON HALL, WEST TROY, N. Y.
The first, second and third Concerts of the series took place (as per former advertisements,) on July 25th, Aug. 8th and 29th, and gave unlimited satisfaction, the large Hall being filled to overflowing on each of the above evenings with a refined and appreciative audience from all parts of the State. There was a committee of three reliable and well-known gentlemen selected by the audience on the night of the first Concert to superintend the drawing, which will positively take place on the evening of the above Concert. The Committee are most desirous that all ticket holders should be present to witness the drawing, and thereby relieve themselves of any doubts as to the fairness of the transaction. They also assure those who cannot make it convenient to be present, that their tickets will be handled the same as if they were present. The Tickets, which have been limited to 75,000, at
ONE DOLLAR EACH,
can be procured by addressing John H. Casey, Box 63, West Troy, N. Y., or any of the Agents throughout the United States. There will be a present awarded the holder of every ticket.—Among the presents to be awarded are the following:—

FRIDAY, SEPTEMBER 27, 1867.

GEN. SHERIDAN, though he declined the invitation of a committee from Philadelphia, to undergo a formal public reception in that city, has been the actual recipient of a continued ovation at every place between Washington and Philadelphia, and the enthusiasm with which he has been greeted is very great. He has made no speeches beyond mere thanks.—The crowds of people were immense, and their approbation is much more than an offset for the displeasure of the crazy man in the White House.

ROME AND ITALY.—When it became known that Garibaldi had been arrested and imprisoned in the Fortress of Alessandria, his partisans were greatly exasperated, and, appearing in the streets of Florence, made turbulent demonstrations of sympathy for their leader. The manifestations finally developed into a riot, but the disturbance, though threatening, was suppressed by the prompt action and firmness of the Government. All the volunteers of Garibaldi who had gathered at various points on the Roman frontier have been compelled to disperse and retire by the Italian troops.

Victor Emmanuel has issued another proclamation in which he says the faith of the Government is pledged in its treaties with foreign powers, and it is exacted of it the painful duty of arresting Garibaldi, the acknowledged leader of a movement in direct violation of these treaties.

A Florence dispatch of Wednesday noon reports that the Italian Government has offered to send Garibaldi to his home at Caprera, and relieve him of all restraint, if he will give his parole not to engage in further hostilities against the Roman States.

The Paris Moniteur and all the journals, official or of a semi-official character, praise the decision and firmness of the King of Italy in preventing a lawless invasion of Rome and maintaining the faith of treaty obligations, and say that the conduct of the Italian Government in the matter affords another strong guarantee for the peace of Europe. [Poor Victor Emmanuel is in a tight place, between France and the Pope on one hand, and Garibaldi and the people on the other.]

WASHINGTON ITEMS.—It is understood that the Secretary of the Treasury has suspended the sales of Government gold, and the probability is that they will not be resumed until after the payment of the interest on the 5-20 s, which fall due in November next.

Special advices from New Orleans seem to leave no doubt but that now the election in Louisiana will take place on Friday and Saturday next. The registers of voters have given notice of the places in the city where the election will be held.

A telegram received at the War Department from New Orleans says that the officers of the army there who have been attacked with yellow fever are doing well and will soon recover. But few of the soldiers have died of the disease.

Advices state that out of four hundred prisoners at Dry Tortugas, one hundred are sick with yellow fever. The commanding officer of the post and the surgeon of the hospital are also sick with the same disease. Dr. Mudd, sentenced to imprisonment there for his connection with the conspiracy to assassinate the late President Lincoln, is rendering medical assistance to those who are stricken, and among his patients are the officers mentioned. O'Laughlin, the only one of the conspirators who was sick, has died.

The case of the United States vs. Fraser, Trenholm & Co. is now in a fair way of settlement, owing to complications by which the latter are threatened to be put into bankruptcy by private creditors, which leads them to desire a settlement with the Government, as that course will cover private as well as public claims.

Gen. Sickles has been ordered to New York.

The World's special says registration at New Orleans is closed, election judges appointed and places for polling designated.—The election will take place on Friday and Saturday.

Gen. Ord has forbidden assemblages of armed citizens in his Military District.

Wednesday afternoon the last one of the marble columns completing the portico of the House wing of the Capitol at Washington, was placed in position. This completes the one hundred columns.

—A great "gift concert," which had been extensively advertised, took place in New York on Monday night, but nothing was said about the prizes, one of which was of the trifling value of $30,000.

— The Washington correspondent of the Philadelphia Press says the President seriously contemplated interfering directly with the Southern elections, but he was persuaded not to do so after urgent representation from his friends that the influence of such a step would be disastrous to the pending elections in Pennsylvania and Ohio.

NEW HAMPSHIRE ITEMS.

—— Senator Cragin is at Washington.

—— Mrs. Jenny Varney, aged 103 years, died at West Ossipee Sept. 17.

—— The Executive Committee of the Veterans' Union of New Hampshire in Concord are making arrangements for the annual military ball and levee.

—— The Convention of Band Musicians at Nashua Tuesday was a very interesting occasion. Eight organizations were present and one hundred and twenty-five performers played together through the streets of the city.

—— A man went into a jeweller's in Nashua last Monday, and bought a gold watch for $165. He pretended to have business in an adjoining store for a moment, and left the watch without paying for it.—He did not come back, and on opening the paper in which the watch was supposed to be wrapped, a wooden one, covered with lead, was found.

FROM NASHVILLE.—A dispatch of the 25th says:

The apprehensions of a riot at the municipal election felt for a week past are much quieted by Gen. Grant's order to Gen. Thomas. It carried out properly the election will be peaceful. The city authorities feel assured that they will be permitted to hold the election as provided for by the charter, while the leading Radicals are of opinion that Gen. Thomas will not assume to decide the question, but act upon Gov. Brownlow's decision and thus sustain the franchise law. Probably both parties will hold an election and let the courts determine the question.

General Thomas is expected to-night, when General Cooper, Commander of the militia, will consult with him. The latter expects to have 600 militia men here on Saturday, one company from Jackson having already arrived. Four disbanded companies have been recalled into service, but with plenty of Federal troops under General Thomas, no collision need be feared. The Mayor has telegraphed to Washington asking that more definite instructions be given Gen. Thomas.

[We do not believe the President will give any, unless Binckley and Black, of the kitchen cabinet, have lost their wits.]

☞ Elections have been ordered under the Reconstruction law in three Southern States, viz: In Louisiana on the 27th of this month; in Virginia 22d October, and in Georgia 29th October. A report has been received from Alabama that the election in that State will be held on the 29th of October, but no order to that effect has yet been received at headquarters. The official result of registration is as follows: Louisiana—whites, 44,732; blacks, 82,907. Virginia—whites, 115,157; blacks, 101,490. Georgia—whites, 35,503; blacks, 93,417. Alabama—whites, 72,747; blacks, 88,248. Registration has been completed in South Carolina, but the election is not yet ordered.

☞ The semi-annual report of Freedmen's schools for the first half of this year shows the following figures for the first of July, 1867: Day schools 1416; night schools 423; industrial and similar schools 668. Total 2507. Teachers 2442; pupils 103,735, being an increase in six months of 908 schools, 784 teachers, and 40,232 pupils. Of the whole numbr of pupils 1348 are whites. Total expenditure by the Freedmen's Bureau for educational purposes in the six months $220,834; tuition paid by freedmen $87,332; school buildings owned by the freedmen 393; furnished by Bureau 428. About two-fifths of the teachers are negroes. There are 21 normal schools with 1881 pupils, and 1468 Sunday schools with 105,706 pupils.

☞ The Strafford Co. Agricultural Soc. holds its First Annual Fair at Cochoco Park, Dover, Oct. 1, 2 and 3. Premiums to over $1000 are offered, with large purses for trotting and running. A match game of base ball for the championship, open to all clubs in the State, will be played. The names of such men as Col. A. H. Young, ex-Mayor William F. Estes, Hon. Jacob H. Ela, J. Frank Lawrence and Hon. M. C. Burleigh among the directors, is sufficient guaranty that the programme will be well carried out.

☞ Six boys, their ages ranging from 15 to 18 years, have been arrested for setting fire to the Universalist Church in Charlestown, Mass., Tuesday evening. The loss by the fire will amount to about $2000, the library having been entirely destroyed and the vestry much damaged. The upper portion of the Church was injured by smoke and water.

☞ A new paper named The Protectionist, is just issued at New York, to advocate a tariff for the protection of American manufacturers, and to combat the theories of the free traders, which are being pushed with great energy and industry.—The first number gives promise that it will be ably conducted.

☞ The Lawrence detectives watched some of the Italian beggars that visit that city and obtain considerable quantities of flour from the charitable, followed them to Boston, and found a depot in Ferry street, where the flour is barreled and sold. Two of the women have been arrested and sent to the Essex House of Correction.

☞ The Washington Chronicle of Wednesday morning, contains an article about the Maryland militia, from the pen of a prominent citizen of Baltimore. The writer says there are four thousand six hundred of these militia already organized in Baltimore, and at least an equal number outside the city. He thinks the total of paid militia will be 10 or 12,000. These men are being uniformed at a cost of about $19, and equipped at a further cost of about $23 per man, making the aggregate of not far from half a million dollars, in face of the fact that the State has already been pronounced bankrupt by her treasurer and comptroller. The entire artillery force, and many of the infantry companies are composed almost exclusively of returned rebel soldiers. The most extraordinary fact is, that while the government has a vast quantity of muskets and other small arms good enough for all the ordinary purposes of a State militia, and for sale at a low figure, this standing army of Maryland is being supplied with new Springfield arms. No demand was made upon the Government for any infrantry equipments, but the value of the Maryland quota, under the act of Congress, was reduced to artillery and a demand was made upon Secretary Stanton for the entire amount to which the State was entitled in artillery equipments.—It may be added to this statement that a very large proportion of the officers of this force are either returned rebels or Johnson democrats. The War Department is making careful note of the doings and proceeding generally in reference to this force, and no loyal man believes it being raised for good or needful purposes.

SENATOR HOWARD, of Michigan.—A letter has been published which is understood to be from Senator Howard. In referring to those threats of the Washington Union, that the Senators who have declared their convictions beforehand shall not sit in judgment upon President Johnson, Mr. Howard says: "It is generally understood that the Union is under the patronage and control of Mr. Johnson and his immediate advisers, and that in view of the military preparations now going on in Maryland and other border States, such threats can hardly be regarded as merely for buncombe, but the original purpose of the President to attempt violence upon Congress has become deepened and intensified under the malign influence of his private advisers."

Mr. Howard continues to say that Congress will do their duty regardless of these revolutionary preparations, and adds: "Let him be sure of that, and it rests with the people and the army to protect them in so doing. If the rebels and the rebel sympathizers have not had enough of strife and blood, they can, in my opinion, become easily satiated by stirring up Johnson to assault Congress by military violence, and, indeed, I am not sure that in the long run such a mad attempt would not, as leading to the final and conclusive suppression of the rebellion by the condign punishment of the fomenters, be a decided benefit to the Government and nation. There must be a final decision at some time. Perhaps it is the will of Providence that Johnson's madness shall hasten it."

— Rev. George T. Williams, who was suspected of picking a lady's pocket in New York a few months ago, has been deposed from the ministry by the Protestant Episcopal Church in Virginia. [Iosane.]

— Our Consul at Malaga writes that the Spanish Government has declared the whole United States as foul with cholera and yellow fever, and that in consequence all vessels arriving from ports of the United States must perform ten days quarantine.

—Secretary Seward has dispatched a letter to Consul Thurston at Toronto, stating that the President's proclamation offers no immunity in the case of Dr. Blackburn, who lies under the charge of felony in conceiving and putting into execution a plot to disseminate contagion and pestilence in Washington and other cities of the United States.

CONFESSED AT LAST.—That Herrick Allen's Gold Medal Saleratus is the best article known for making nice, light Bread, Biscuit, Pies, Puddings, &c. Baseless imitators are trying to palm off to the public their articles, saying it is Gold Medal, or as good; therefore all who would preserve their stomachs and health, look and see that the name of Herrick Allen is on the wrapper, and not be put off with the spurious because the merchant tells you that it is good. Have nothing but the genuine Gold Medal. Dyspeptics can use it and it will do them good. Try it. 6

Yes, any way you desire; Fried in Crumbs, Batter, Roasted or Stewed. So come along and see if you do not get suited at CARTER'S, Corner Congress and Chestnut streets. s26

TRE COMPASS BOXED.—East, west, north, south, in every direction, Fyle's O K Soap is unsurpassed by all others. Its detersive and economical qualities are readily appreciated by housekeepers, and grocers find a ready sale for it. 21

☞ Good Wine makes good blood. See advertisement of Speer's Wines in another column, —the best for Table, Family and Medicinal Use.

CARD TO THE PUBLIC.—The undersigned, Trustees of THE RIVERSIDE INSTITUTE, an institution chartered by the State of New Jersey, for the maintenance and education of the orphans of the Soldiers and Sailors of our whole country, which is being established and endowed by the enterprise and patriotism of the Washington Library Company of Philadelphia, would announce to the public that in their opinion, the efforts being made by that company for the establishment and endowment of the Riverside Institute cannot fail of success. Their agencies have been established, and their advertisements published throughout the country at great expense, and the results are now being realized. If the distribution were to take place, and the labors of the company cease, on the 25th inst., as advertised, the Institution, though established, would not have provided the means for a proper and permanent continuance, nor could it be so extensively useful as the public and the Trustees desire.

After mature consideration, we have therefore recommended that the Washington Library Company postpone their distribution until the 8th of January next, and continue the sale of certificates and engravings until that time, under the firm belief that the result will assuredly provide a permanent home for the maintenance and education of very many of the orphans of those who have died in the service of their country.

☞ The N. Y. Times' Washington special of Thursday says the application of General Sickles for a court of inquiry is suspended, awaiting the opinion of the Attorney Gen.

[What should Stanberry, Binckley or Black know about the merits of an officer, or the propriety of a court of inquiry?]

☞ A fire in Salem, Mass., about 3 o'clock Thursday morning, destroyed a small block of stores, called Naumkeag Block.

☞ A Key West special of the 25th says Major Stone died last night of yellow fever.

—A heavy hail storm visited Philadelphia Wednesday, and did much injury.

— Mrs Fanny Kemble came passenger in the Java, and has left for Philadelphia to see her children. Her husband, Pierce Butler, died a few months since in Georgia.

CHRONIC CATARRH.
There are undoubtedly hundreds in this vicinity who are suffering from Chronic Catarrh and its unhappy consequences, who are not aware of the danger to which they are exposed. The symptoms of this disease are usually so mild at first as to excite little or no attention on the part of the sufferer, and thus it is allowed to pass on from one stage to another, involving in its destructive march more and more serious results. Reader, if you would avoid the dangers of a seated Consumption, do not neglect a "Cold or Catarrh in the head." That this disease is so fatal in its tendency and productive of such unhappy consequences, no one will be disposed to deny, if he will but reflect that every breath of air that is inhaled into the system, by those suffering from Chronic Catarrh, must pass over an unhealthy and diseased membrane, and the air in passing over these putrid and ulcerated surfaces, must of necessity imbibe the most noxious and deadly properties, and in this manner every breath of air you take into the lungs is converted into a poisonous agent of death. There is no disease in the entire catalogue of human ills, the treatment of which has been so little understood as Chronic Catarrh, and hence from the practice ordinarily adopted by the profession, there is little to hope.

DEAFNESS,
Weak eyes, noises, pains, and disagreeable sensations in the head, usually attributed to Neuralgia, frequently arise from Catarrh.
Dr. C.'s success in treating Catarrh has been almost wonderful. He does not profess to cure every case that may be presented to him, but having had years of experience in treating Diseases of the Eye, Ear and Throat, and Catarrh alone, he thinks himself better qualified to perform cures in many cases than physicians who have not enjoyed similar opportunities.

HOME TESTIMONIALS.
From the Lewiston Journal, May 24th, 1867.
Dr. Carpenter, who has been in this city for a few weeks at the De Witt House, treating diseases of the Ear, Eye and Throat, will leave for Bath in a few days, but we cannot forbear adding a word of special endorsement to the Doctor's skill and ability. There are many good reasons why people should look with distrust upon professors generally, who practice from place to place—But these do not apply to Dr Carpenter, who confines his practice to the leading cities and towns in Maine, and has met with great success everywhere he has practiced. He is a reliable and skillful specialist, and a physician of reputation and honor. We are glad that the Doctor has visited our city—a feeling in which large numbers who have received the benefit of his treatment unite. We trust the Doctor's engagements will permit him to visit Lewiston frequently.
From the Augusta Gospel Banner, Feb, 16, 1867.
Persons troubled with blindness, deafness or catarrh, will do well to consult Dr. Carpenter—We know him personally. He is a gentleman—is well read in his profession, is no humbug or deceiver, will not, as many do, tell the patient he can effect a cure without reasonable grounds for the declaration. He wrought several cures in this vicinity, and essentially helped others who had suffered for years. This is written by the editor of the Banner without solicitation from any one.
From the Portland Press.
Dr. Carpenter, the Oculist and Aurist, who has been spending several months in practice in this city, has had marked success in the treatment of diseases of the Eye, Ear and Throat, as also of Catarrh in its worst form. He is well versed in the treatment of the diseases he has made his specialities, gentlemanly in the treatment of patients, and prompt in the discharge of all pecuniary obligations.
☞ Dr. CARPENTER, during the past few years, has confined his practice to the principal cities and towns in Maine, the State of his residence, but having received many solicitations from persons in Portsmouth and vicinity, he has been induced to visit Portsmouth a few weeks professionally.

DR. SCHENCK ON DYSPEPSIA.—SYMPTOMS, CAUSES AND REMEDY.

Symptoms of Dyspepsia—A sense of fullness, tightness, and weight in the stomach, together with flatulency, acidity, sour, offensive belching of wind, water brash and vomiting, and a great deal of white pasteon coats all all-gone feeling at the pit of the stomach; frequently there is also a palpitation of the heart, which physicians mistake for heart disease, and when the stomach is in this condition it is coated with a mucus or slime. The rough fibrous portion of the stomach, similar to that seen in tripe, is what throws out the gastric juice, and when the stomach gets a thick coat of slime on it, it prevents the gastric juice from flowing and digestion ceases. Schenck's Seaweed Tonic dissolves this mucus or slime, and restore the stomach to its natural condition.

Schenck's Mandrake Pills are also required to carry off this morbid matter. Two-thirds of the cases of dyspepsia are caused from an acid diseased state of the stomach; the liver becoming torpid, it ceases to throw out bile, and in a short time the whole system is deranged. The mucous membrane of the bronchial tubes sympathizes with the other organs and before the patient is aware of it, he or she has Bronchial or Pulmonary Consumption.

Schenck's Pulmonic Syrup cannot act freely through the blood when the system is in a

SUMMER EVENING TWILIGHT.

There are smouldering flames in the West;
There's a whistle or two from the fen;
There's a chirp here and there, from a nest,
And the tremulous cry
Of a cricket near by;
Then a slumberous silence again.

But the katy-did's querulous song
Grows all bolder in deepening shade;
And the tree-toad, of some hidden wrong,
Murmurs pleadingly down in the glade.

There are bats on their short wheeling flight,
And the mossy leaves darkier grow.
Ah! the sadness and sweetness of night,
When the fire flies gleam
Till they verily seem
To be flakes in a fall of golden snow.

☞ Senator Thayer of Nebraska has made a rather sensational speech at Cincinnati about Andrew Johnson and his purposes, and declares in the most solemn manner that he has positive knowledge of the President's intention to resit the authority of Congress. We have no fears. Blind as Mr. Johnson is, he can hardly be ignorant that in such a conflict he would have to stand up not against Congress, nor against even the army, but against the whole loyal country. The people would rise as one man and hurl him to destruction. If he is prepared to withstand the entire North with the aid of Maryland militia, he is more of a fool even than a knave.—*Tribune.*

☞ At New York, Sept. 14, the children of David P. Lambert of Boston applied to the police to be sent to their father, as their aunt, a Mrs. Ransom in Brooklyn, obliged them to beg on the street for a living. She had sent for them to take care of on account of their mother's death. They are fine, bright children, two being girls aged fourteen and eleven, and a boy aged seven.

HIC, HŒC, HOC.—When the Rev. Dr. Patton was in England, he dined with several gentlemen who used a great variety of arguments to make him give up his cold water principles. "Now here," said one—"here, doctor, is some good old hock; surely you can't decline this!" "Can't," replied the doctor; "why, sir, I learned to decline it when a boy: hic, hœc, hoc." The table was in a roar, and the doctor came off triumphant. Let all boys when they are young decline hoc: if they do, they will never know the drunkard's hic—.

DOWNER
KEROSENE OIL CO.
Office, No. 108 Water Street, Boston.
TO CONSUMERS OF OIL.
CAUTION.
It having come to our knowledge that many dealers, throughout New England, are in the habit of buying small quantities of Crude Oil, and larger quantities of inferior oils, and using our brand and packages fraudulently in the sale of these inferior oils, we are determined to stop such frauds, and hereby offer a **Reward of 100 Dollars** for information that will lead to the detection and punishment of any party using our brand in the sale of any other than our own Oil. The "**Downer Kerosene Oil**" has been frequently tested and analyzed by Dr. A. A. HAYES, State Assayer, and in a communication to us, dated July 5, 1867, he says: "The term 'Kerosene' as used by the **Downer Oil Company**, applies to the highest grade of Oil only; which, our trials show, does not inflame below 120 degrees Fahrenheit, and carries the assurance of both safety and excellence with it; while the mixed Oils are not only unsafe, but in causing accidents, destroy confidence in the safe and excellent article for affording light produced by the honest manufacturer."

GLEASON HALL
PRESENTATION FESTIVAL.

The Fourth and Last Grand Concert
Of the Gleason Hall Presentation Festival, under the auspices of DORING'S BAND,
Will positively take place on
Thursday Evening, October 10, 1867,
AT GLEASON HALL, WEST TROY, N. Y.

The first, second and third Concerts of the series took place on the former advertisements, on July 25th, Aug 8th and 29th, and gave unlimited satisfaction, the large Hall being filled to overflowing each of the above evenings with refined and appreciative audience from all parts of the State. There was a committee of three reliable and well known gentlemen selected by the audience on the night of the first Concert to superintend the drawing, which will positively take place on the evening of the above Concert. The Committee are most desirous that all ticket holders should be present to witness the drawing, and thereby relieve themselves of any doubt as to the fairness of the transaction, and also assure those who cannot make it convenient to be present, that their interests will be guarded the same as if they were present. The Prizes, which have been limited to $5,000, at

ONE DOLLAR EACH,

can be procured by addressing John H. Casey, Box 69, West Troy, N. Y., or any of the Agents throughout the United States. There will be a receipt awarded to the holder of every ticket.—Among the presents to be awarded are the following:—

Three Melodeons, - - - - 675
Two Ice Boat sets, - - - - 200
One Grover & Baker Sewing Machine, plated, 85
One Wheeler & Wilson Sewing Machine, 70
And Thousands of Other Presents,
Consisting of
Marble Top Centre Tables, Mirrors, Clocks, Stoves, Chandeliers, Steamer, Engravings, Vases, Glassware, Silver Pitchers, Sets Knives and Forks, Sets Spoons, Dressing Cases, Work Boxes, Portfolios, Tables, Bedsteads, Chairs, Mattresses, and other articles too numerous to mention.

The above property will be delivered to the person entitled to it free from all incumbrance and a title guaranteed.

The property may be seen at any time by calling on the owner, John H. Casey, Metropolitan Hotel, West Troy, N. Y.

We, the undersigned, having been appointed an Executive Committee by Mr. Casey, do hereby certify that all moneys received for the sale of Tickets are to be placed in our hands, and will be by us retained until the distribution takes place. That we will audit and pay all bills and expenses that shall be countersigned by Mr. Casey as correct, and we will pay all and discharge, from the moneys so received, all mortgages upon the property. ANDREW ALEXANDER,
THOMAS BALL.

The undersigned Citizens would most cordially recommend the gentleman engaged in getting up these Concerts as an honorable and reliable person, and believe that he will conduct the presentation with honesty and fairness, and try to give satisfaction to the public:
Hon. Oscar F. Doring, Member of Assembly, Albany Co.; George Mark, Supt. West Troy Ferry; N. F. Wilbeck, N. Y. C. R. R.; C. Wilbeck, Asst. Supt. do.; Attorney at Law; A. J. Bleecker; Dr. J. F. SPECIAL TERMS OR Club Rates.—Five Tickets, $4 50; Ten Tickets, $8; Twenty Tickets, $15. A photograph of the Metropolitan Hotel may be seen at the stores of our Agents.

Tickets may be procured
At **BATCHELDER & CO.'S STORE,**
3 Congress Street, Portsmouth.

N. B.—In order to give confidence to the public, and secure them in their investment, we allow our agents to retain all moneys received for the sale of tickets, until the distribution takes place.

We, the undersigned, having been appointed a Committee by the ticket holders of the Gleason Hall Presentation Festival to decide in what manner the drawing shall be conducted, do decide and determine that all the numbers from 1 to 75,000 shall be placed in one wheel and the first drawn number shall take the highest prize, the second the next highest, and so on until all the prizes are drawn. Hoping this will meet the approval of the ticket holders, we remain, &c,
CHAS. DORING, JOS. F. LAFT, M. RIDE,

ADVERTISING AGENTS.—It is now something like thirty years since the establishment of the first Advertising Agency in this country. At that time there were scarcely eight hundred periodicals of all descriptions printed in the United States, while now, the number will exceed four thousand. Advertisers have increased and Agencies been established in every important city, and have proved a great assistance to the newspaper press.

It is estimated that at the present time there are several hundred men who make this their business, but of these no more than twenty are known to any considerable extent, and the most important are two or three well known firms in Boston and New York, among which the house of Geo. P. Rowell & Co., No. 40 Park Row, N. Y., occupies a prominent position. Although not among the oldest, this one, by the energy and business ability, which has characterized it, has become an authorized agent of nearly every newspaper printed in the English language in North America, and the amount of their transactions exceeds many of the older but less enterprising establishments. At their office may be found on file newspapers from every section, from Maine to California, and from their books can be learned the rates for subscription and advertising.

The distance of advertisers from the newspaper publishers, as a general thing, renders it difficult for the latter to be correctly informed of the financial reliability of their customers, and therefore they usually prefer to receive their favors through some reliable advertising agency, which, in consideration of the commission allowed, assumes all risk of payment, and does away with the trouble and expense of collecting individual accounts.

The house named in this article is authorized to contract for our paper at our lowest rates, and we to-day insert two columns of "New Advertisements" for them, and we assure customers at a distance that we prefer to receive orders through them, rather than to contract direct with parties who are unknown to us, no matter how good or responsible they may be.

☞ Senator Sherman of Ohio, whose conservative tendencies are well known, said in his speech at Cincinnati:

"I, perhaps, am disposed to take a darker and more gloomy view of the President's position than some others. But I do say to you that there is good reason to believe that the President of the United States contemplates even more than he has yet done. If you pick up the papers that support the President's policy, what are they filled with? Threats against Congress as a rump Congress, and about dispersing Congress. Who is Congress? Who are these Senators and Representatives? Nothing but your agents, sent to do your will, and to disperse them is to disperse you; to deprive them of the power to make laws is to overthrow your power to make laws, and let me tell the President that whenever he attempts to do that, and to run a tilt against you or your agents he will run against live thunder.—(Great applause.)

—A poor man in New York has sent the Mayor $6, to be divided among three public institutions. Some sneer at the small sum, but they should recollect the instance of the widow's mite.

THE STOVE FOR THE MILLION!

THE
KEARSARGE
HAS NOT BEEN BEATEN!

URIAH BLAISDELL,
NO. 43 MARKET STREET,
Takes pleasure, as the cold season approaches, in again inviting public attention to this superior
COOK STOVE!
Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well with WOOD OR COAL, an economizer of fuel, and a heavy, well-made and durable Stove, as it is a neat and symetrical one. It has been in no Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified encomiums of its numerous purchasers—of all who know what a good stove is and how to appreciate it.

Pleasure is taken in showing the KEARSARGE and all in want of a stove of the first merit at a moderate price, are invited to call and examine it whether they purchase or not.

The following names from its large list of purchasers are given for reference:

SATURDAY, SEPTEMBER 28, 1867.

EXTRAVAGANCE OF CONGRESS.—Under this head a "democratic exchange gives a refreshing list of pocket knives, penknives, scissors, brushes, port folios, paper, envelopes, lead pencils and sundries, furnished to the U. S. Senate, and costing a pretty little pile of money. Very extravagant no doubt. And what is the remedy for the evil? Of course the only remedy proposed would be to send economical democrats to Congress, in Senate and House. We well remember a similar outry and parade of figures against the extravagant administration of John Quincy Adams and the extravagant Congress that upheld him. And we remember also that when the economical democratic party came into power under Gen. Jackson, the expenses were increased, and very shortly were doubled.—It is very easy to complain of extravagance in an opposite party; but not so easy to control extravagance in our own, if it so happens that we stand at the door of the Treasury; and it is common for the greatest rogue to call out Stop Thief! louder than his more honest neighbors. D. T.

LOUISIANA.—The President has given Gen. Hancock a letter allowing him to remain at St. Louis until Oct. 15, and longer if he desired. This leaves Gen. Mower in command at New Orleans: and a dispatch from there of Wednesday says: "The election in Louisiana will take place to-morrow. Gen. Mower has recived no suggestion from the President or Gen. Grant to postpone it." And a dispatch of Wednesday evening from Gen Mower himself says: Brig Gen. F. T. Dent and Gen. Wheaton are much better this evening. Gen. Graham and all the other officers are doing well.

GEN. SHERIDAN, it is said, just before his late departure from Washington, made the following statement to prominent officials:

"The reconstruction acts of Congress are the only measures calculated to benefit the people of the Southern States. All of my acts while in command of the Department of Mississippi and Louisiana were not only fully endorsed by Gen. Grant, but in reality might be considered the execution of Grant's own orders. If the first letter written by Gen. Grant to President Johnson, requesting my removal be made public, the people of the North would be astonished at its radical tone; and when it is published the people will find that he (Grant) is radical to the core. As far as radicalness is concerned, Gen. Grant is more so than I am, and in several instances I have written to him asking him to modify the instructions sent me, as being too extreme to suit the occasion for which they were intended."

— Philo Wright of Cumington, aged 64, was killed on Tuesday week while drawing wood. His horse became frightened at the report of a gun and threw him suddenly from the load, breaking his neck.

— In the first ten days of October, the Navy Department will sell at the various naval stations, thirty-five vessels, in part built for the Navy, partly bought for the service from the commercial marine, and partly captured.

— The senior criminal in the French prisons, a man named Decarnin, has just died in the Central Jail at Loos, near Lille, at the advanced aged of ninety-two years. This venerable ecoundrel passed forty-five years of his long life in various prisons.

— The Dutch peasants who suffered so much by the rinderpest have been inspired by their misfortunes to cultivate geese and all other sorts of poultry. Large numbers of these now occupy the fields where cattle used to graze, and both eggs and birds are destined for the London market.

— The French Government, says the Liberte, has ordered 800,000 waistbelts, each having attached to it a small medicine box. The latter will contain whatever is necessary to give, in a rough way, a first dressing to a wound, or to stop dysentery. The whole will cost about 1,500,000, francs.

— A writer in a Charleston journal, who has recently travelled through a portion of South Carolina, says: "I was glad to see the attention paid to the 'small industries' which these many little rice fields argue. It proves that our people are gradually taking more common sense views of farming, and beginning to learn also that growing cotton is not the chief end of man."

— The following treatment of a kicking cow is recommended by C. L. Hubbs, of Oronoco, Min., in a letter to the New York Farmers' Club. "First, tie her by the head; then take a rope the size of a clothes line, and place it around the cow just back of the fore legs and tie loosely; then put in a small stick; now commence milking, and when the cow kicks twist up the rope, and renew the twisting process every time she kicks. You will soon have it tight enough, so that she cannot raise her hind feet more than four inches from the gaound; when she stands quiet, loose up a little. A few doses of this will cure a cow so well that she may be milked anywhere in the yard without trouble." We doubt it.

A SPLENDID BUILDING.—In Charlestown, Mass., a very elegant church is being built by the Trinity Methodist Episcopal Society to replace the one destroyed by fire some time since. The building was commenced in May last, and it is expected will be completed by March, 1868, at a cost of $60,000, exclusive of furnishing.

The extreme dimensions of the church are 70 feet front by 136 feet deep. The audience room is 62 by 90 feet on the floor, and, in the clear from wall to wall above the galleries (which extend around the entire room,) is 52 by 115 feet, exclusive of chancel. The audience room is divided into nave and aisles by iron columns with foliated capitals, from which spring the timbers which support the roof, all being exposed and forming a part of the design.—The heighth of the room will be at the wall 24 feet, and in the centre of the nave 60 feet.

The organ will be placed in the chancel and the choir in front of it, all being in front of the auditory. The pulpit is in front of the choir. The interior will be finished entirely in chestnut, and the furnishing, it is estimated, will cost about $15,000.

The house will seat 1500 people, and the $75,000 total cost will make each seat cost $50 on the average, for the building; and the expenses of music, sexton, preacher, &c., must bring up the price of fixed seats in some parts of the house to $10 per annum, and in no part less than $5.

Splendid and costly houses are in fashion; and no sect appears to disregard it.

☞ A Washington letter says the allegation of the copperhead papers, that the serenade to General Hancock was gotten up and managed by Democrats exclusively and was a partisan affair, is best answered by the facts that the reception speech was made by Hon. Amasa Cobb, member of Congress from Wisconsin, a staunch, uncompromising radical; that other Republicans of equally well known political sentiments participated actively, and that among the audience were many members of the Grand Army of the Republic, who were called there by circulars issued by General Chipman, Provincial Commander of that order, requesting the members to participate in the serenade.

A VALUABLE DOCUMENT.—We have just received from Washington, A Political Manual for 1866–7, containing Executive, Judicial, Legislative, Political, Military and General Facts, from April 1, 1865 to April 1867, by Edward McPherson, Clerk of the U. S. House of Representatives.

This appears to be every way authentic and fair—giving the Reconstruction acts and policies of Congress, the President, and the ex-rebels, and must be very useful to members of Congress and others who wish to understand the matter thoroughly.

☞ The Merrimack County Fair at Concord last week, passed off finely. The display of stock was very fine, 100 yoke of handsome cattle being on the ground; and sheep were plenty and good. This week we have the Strafford Fair at Dover, and next week the twin Rockingham Fairs at Portsmouth and Exeter. We should think every live man would want to take a look at all such people's gatherings within his reach.

☞ In New York, Judge Blatchford of the U. S. District Court has delivered an important opinion on the subject of enlisting minors. He decides that the only power to discharge minors enlisted as soldiers is vested in the Secretary of War. And in Richmond, Va., in the case of Kelber, the soldier who was ordered to be brought before the State Court on the ground of being a minor and not legally held in the army, the military authorities refused to obey the writ.

☞ Dr. Snodgrass of New York publishes a statement by which it appears that the loyal Governors present at the Antietam dedication, especially Governors Fenton and Geary, were to make addresses, but Governor Swan, at the dictation of the President, called for the benediction just in time to cut them off. [This seems almost incredible,—but the reputation of Dr. S. compels belief.]

☞ In Gov. Swann's Maryland Militia, it is said, that the Commissary General, whose saddle-cloth was got up at an expense of eighty dollars, was the former editor of a paper which was suppressed for treasonable and seditious language during the war.

☞ Last Sunday the Rev. Benjamin Sawyer, of the Rocky Hill Congregational Salisbury, Mass. church, was 85 years old, completing the fifty-sixth years of ministerial labor, thirty years of which he has spent over his present charge.

— At the sale of Scranton coal at New York on Wednesday, the average decline, compared with last month's sale, was in lump, 21 1-4 c; in steamboat, 12 3-4 c; an increase in grate of 5 c, 13 3-4 in egg, 30 c in stove, and a decline of 60 3-4 c in chestnut.

— A Newburyport fire company had to go out of our State to consistently pass a vote in commendation of overflowing yellow mugs, and a landlord whose dining and bar rooms convinced them that keeping a hotel was his sphere, rather than selling periodicals.—*Boston Transcript.*

Yes, and who says, after this, that the State Constables don't enforce the law in Massachusetts? or that we don't need the same in New Hampshire?

NOT BAD.—It is said that Senator Patterson remarked, on reading the press dispatches about his fracas with Gen. Kyle, that its publication was a breach of confidence, as the fight was marked "Private," and, like other matters of the Johnsonian policy, was strictly confidential.

POLITICAL.—The National Intelligencer labors through a column editorial to endeavor to convince the N. Y. World, the ablest Democratic paper in the country, that it ought to support Andrew Johnson. But the world doesn't see it. It is too much of a load for modern Democracy to carry.

GRANT SENIOR.—It is now said that Gen. Grant's father made a speech in Cincinnati in support of General Carey (bolting Republican), for Congress, and not at a regular Democratic meeting. It is not so important as if the younger Grant were concerned, but justice ought to be done to the father.

SOMETHING FOR THE LADIES.—The Herald of Health for October contains: "Letters to Ladies," by Mrs. Dr. Glenson; "A Letter to Young Girls," by Mrs. Dr. Miller; and "Farmers' Wives," by Helen Ray.

GEN. THOMAS has arrived in Nashville, and is in conference with the City and State authorities—designing to keep the peace.

— Six thousand six hundred and five loads of dirt were removed from the streets of Cincinnati within two weeks.

— A manufacturer in Lynn has made and sold this season thirty thousand pairs of base ball shoes. These shoes are made with canvas uppers and stout soles, and are more for use than show.

—Probably the oldest person in Massachusetts is Mrs. Cooper of Barre, whose one hundred and fifth birthday occurred last week. He retains his faculties remarkably, and takes pleasure in receiving the numerous visitors who call on him daily.

— Three years ago a little girl five years old, in Fall River, pushed a button up her nose, where it remained, and has since been a constant source of pain. On Tuesday night, after annoying the girl three years, the button came out of the nostril, greatly to the relief of the girl and her parents, who had doubted about its being there.

— Edward Behan and J. McGowan, while driving down Challis' hill in Amesbury, on Saturday evening last, were thrown from a wagon by the breaking of the rocker-bolt, and severely injured. Mr. Behan had his collar bone dislocated, and McGowan had his arm broken. Both were picked up in an insensible condition.

Call on your Grocer for Herrick Allen's Gold Medal Saleratus. It is the only perfectly healthy Saleratus made. After using one half the paper, if you are not satisfied, return the balance and get the money paid for the whole. It is much better to use with cream trtar than soda. It is peculiarly adapted for dyspeptic persons. Try it. For sale by grocers and druggists, and at wholesale by all dealers. Depot 112 Liberty St., New York. 7

PREMIUMS.—We have often wondered why the makers of the celebrated *Estey Cottage Organs* have not advertised to the people their different prizes, of which they have received over fifty. For instance, a Gold Medal was awarded them last year by the N. Y. State Fair, and a first premium by the N. E. Agricultural Society; and at the recent exhibition of the Vermont State Fair, where there was a large display from the most noted makers in the United States, who contested the ground severely, the Estey Organs came off victorious, receiving the highest premiums in the award of the society.—*Brattleboro (Vt.) THE RICHEST MAN IN THE WORLD.—Baron J. Solomon Rothschild recently sent an order to T. Lane & Co., of New York, for two hundred bottles of their celebrated INDIAN LINIMENT. A better certificate of the value of the remedy in question, could not be procured, and the medicine itself has no equal in cases of Rheumatism, Neuralgia, Sprains, Bruises, Cholera, etc. The neat form in which it is put up renders it easy of transportation, and every traveler should have a bottle for a constant companion. It is advertised in another column, and we invite our readers' special attention to it. daw

Where are you going?
I am going into CARTER'S Saloon, to get a dozen Providence River Oysters, on half shell.
Has he got Providence River Oysters?
Yes; and has made arrangements to have a supply of them all the time.
Does he cook them?
Yes, any way you desire; Fried in Crambs, Batter, Roasted or Stewed. So come along and see if you do not get suited at CARTER'S, Corner Congress and Chestnut streets. s24

RICH, FRUITY, LUSCIOUS

WINES!

California is making grand strides in her agricultural products, and is fast withdrawing herself as a purchaser for the manufactures of the various branches of industry she once demanded. She sends a warning voice to the time-worn vineyards of Europe, and enters the lists as a fresh, young combatant for the production of wines from her own rich and inexhaustible vineyards.—The time has come when it is simply ridiculous for any one house to lay claim to especial advantages or peculiar privileges for the sale of

THE WINES OF CALIFORNIA.

As well might they claim a monopoly of the cotton trade.

C. A. RICHARDS & CO.

do not receive or sell all the wines which California produces, but they do claim to have at all times a very large quantity on hand of all the best kinds, and their advantages for getting the best, and getting them at the lowest market value, are such as to enable them to offer them at prices which to-day are lower than any other house in the trade in California Wines of equality. We bottle five kinds. They are,—

"Angelica,"
"Muscatel,"
"Still Champagne,"
"Hock" and
"Port,"
Also "California Brandy."

They are all perfectly pure, and may be relied upon in sickness or in health. The **Angel** and **Muscatel** are rich, sweet wines. The **Hock** is fully equal to the medium grades of Rhine wines. The **Port** is actually better than many of the high cost Ports from Oporto. We sell these wines in any required quantity, from a single bottle to a THOUSAND CASES, and are ready at all times to exhibit samples, or to send them to any address.

CHRONIC CATARRH.

There are undoubtedly hundreds in this vicinity who are suffering from Chronic Catarrh and its unhappy consequences, who are not aware of the danger to which they are exposed. The symptoms of this disease are usually so mild at first as to excite little or no attention on the part of the sufferer, and thus it is allowed to pass on from stage to another, involving in its destructive march more and more serious results. Reader, if you would avoid the dangers of a seated Consumption, do not neglect a Cold or Catarrh in the head." That this disease is so fatal in its tendency and productive of such unhappy consequences, no one will be surprised to learn, if he will but reflect that every breath of air that is inhaled into the system, by those suffering from Chronic Catarrh, must pass over an unhealthy and diseased membrane, and the air in passing over these putrid and ulcerated surfaces, must of necessity imbibe the most noxious and deadly properties, and in this manner every breath of air you take into the lungs is converted into a poisonous agent of death. There is no disease in the entire catalogue of human ills, the treatment of which has been so little understood as Chronic Catarrh, and hence from the practice ordinarily adopted by the profession, there is little to hope.

DEAFNESS,

Weak eyes, noises, pains, and disagreeable sensations in the head, usually attributed to Neuralgia, frequently arise from Catarrh.

Dr. C.'s success in treating Catarrh has been almost wonderful. He does not profess to cure every case that may be presented to him, but having had years of experience in treating Diseases of the Eye, Ear and Throat, and Catarrh alone, he thinks himself better qualified to perform cures in many cases than physicians who have not enjoyed similar opportunities.

HOME TESTIMONIALS.

From the Lewiston Journal, May 24th, 1867.

Dr. Carpenter, who has been in this city for a few weeks at the De Witt House, treating diseases of the Ear, Eye and Throat, will leave for Bath in a few days, but we cannot forbear adding a word of special endorsement to the Doctor's skill and ability. There are many good reasons why people should look more than ordinarily upon professionals generally, who practice from place to place—But these do not apply to Dr. Carpenter, who confines his practice to the leading cities and towns in Maine, and has met with great success everywhere he has practiced. He is a reliable and skilful specialist, and a physician of reputation and honor. We are glad that the Doctor has visited our city—a feeling in which large numbers who have received the benefit of his treatment unite. We trust the Doctor's engagements will permit him to visit Lewiston frequently.

From the Augusta Gospel Banner, Feb, 16, 1867.

Persons troubled with blindness, deafness or catarrh, will do well to consult Dr. Carpenter.—We know him personally. He is a gentleman—is well read in his profession; is no humbug or deceiver, will not, as many do, tell the patient he can effect a cure without reasonable grounds for the declaration. He wrought several cures in this vicinity, and essentially helped others who had suffered for years. This is written by the editor of the Banner without solicitation from any one.

From the Portland Press.

Dr. Carpenter, the Oculist and Aurist, who has been spending several months in practice in this city, has had marked success in the treatment of diseases of the Eye, Ear and Throat, as also of Catarrh in its worst form. He is well versed in the treatment of the diseases he has made his specialties, gentlemanly in the treatment of patients, and prompt in the discharge of all pecuniary obligations.

☞ Dr. CARPENTER, during the past few years, has confined his practice to the principal cities and towns in Maine, the State of his residence, but having received many solicitations from persons in Portsmouth and vicinity, he has been induced to visit Portsmouth a few weeks professionally.

DR. SCHENCK ON DYSPEPSIA.—SYMPTOMS, CAUSES AND REMEDY.

Symptoms of Dyspepsia—A sense of fullness, tightness, and weight in the stomach, together with sour eructations, sour, offensive belching of wind, water-brash and vomiting, and a great deal of what a person calls an ill-gone feeling a the pit of the stomach, frequently there is also a palpitation of the heart, which physicians mistake for heart disease, and when the stomach is in this condition it is coated with mucus or slime. The rough fibrous portions of the stomach, similar to what we see in tripe, is what throws out the gastric juice, and when the stomach gets into a thick coat of slime on it, it prevents the gastric juice from flowing, and digestion ceases. Schenck's Seaweed Tonic dissolves this mucus or slime, and restores the stomach to its natural condition.

Schenck's Mandrake Pills are also required to carry off this morbid matter. Two-thirds of the cases of Consumption are caused from this diseased state of the stomach; the liver becoming torpid, it ceases to throw out bile, and in a short time the whole system is deranged. The mucous membrane of the bronchial tubes sympathizes with the other organs, and before the patient is aware of it, he or she has Bronchial or Pulmonary Consumption?

Schenck's Pulmonic Syrup cannot act freely through the blood when the system is in this locked up condition, without the aid of the Sea Weed Tonic and Mandrake Pills. The liver has all the venous blood to strain, and when it gets in a morbid condition, blood and bile run through the system deranged, and the whole body becomes so low, and the blood so thick it can hardly run through the veins. In a majority of cases hemorrhages occur from this torpid condition of the blood. The Ma drake Pills act on the Liver similar to calomel, or they do what is far more safe—it unlocks the gall bladder, and bile, and the blood begins to circulate naturally through the veins, and the hemorrhages cease. It, when persons are attacked with hemorrhages, they would first take a good purgative, something that would act on the liver, they would soon be relieved from bleeding from the lungs, and it is the only way. Such hemorrhages are dangerous, and irritate the bronchial tubes, and lay the groundwork for consumption.

DR. SCHENCK will be professionally at his rooms every week, 32 Bond street, New York, and 35 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer, the charge is $5.

The medicines are for sale by all druggists and dealers. Also a full supply at all times at his rooms.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7 50 the half dozen. Mandrake Pills 25 cents per box.

TO OWNERS OF HORSES AND CATTLE.—TOBIAS' DERBY CONDITION POWDERS are warranted superior to any others, or no pay, for the cure of Distemper, Worms, Bots, Coughs, Hide-bound, Colds, etc., in Horses; and Colds, Coughs, Loss of Milk, Black Tongue, Hoven, Bad temper, etc., in Cattle. They are perfectly safe and innocent; no need of stopping the working of your animals. They increase the appetite, give a fine coat, cleanse the stomach and urinary organs; also increase the milk of cows. Try them, and you will never be without them. Hiram Woodruff, the celebrated trainer of trotting horses, has used them for years, and recommends them to his friends. Col. Ballo, Fleetwood Park, and Jerome Race Course, Fordham, N. Y., would not use them until he was told of what they are composed; since which he is never without them. All his race horses are fed with them. Over 1000 other references can be seen at the depot. Local.

☞ Among the Pears on exhibition at the Horticultural Fair in this city last week, was a very handsome and highly colored plate of Bartletts, from Mr. John Hodgdon of Warren street. We were the fortunate recipients of a previous sample of the same superb fruit,—from a young tree which thus flourishes where many people would think there was no room for anything.

To Mr. E. Wyatt, also, our thanks for very large and handsome specimens of the Bartlett.

☞ Orderly Sergeant Robert Small, of the Marine Corps, who has been for several years attached to the receiving ship Vandalia, in our harbor, while crossing the river on Thursday night, stood up in the boat and fell over into the water. He was soon rescued and brought to this side of the river, but the nervous shock was so great that he soon expired. Sergt. Small was about 60 years of age, had been in the service 28 years, and was said to be the oldest sergeant in the corps. He was much esteemed by his acquaintances, and was an active Mason. We understand that he has sisters living in Boston.

☞ We are in error in regard to bills of the Exeter Fair. There is one—and a very large and handsome one it is too, from the Manchester Mirror press—in the Post Office here, which, we are informed, has been there some time, but we do not know of any more.

As to the double Fairs, there is plenty of room and material for both in old Rockingham County, if all hands take hold and get the stock and the people out. Some counties in Massachusetts have two and even three Societies.

☞ We learn that an order for the suspension of the movement of the troops from Fort Constitution to Boston, was received by Gen. Gates, Wednesday. The quarters at Fort Winthrop are unfit for their reception, and perhaps can not be made comfortable for them in less than four or five weeks. The order for their departure seems to have been rather a hasty one.—We hear Gen. Gates has been offered a position in New York city, but has declined it for the present, and will remain here till further orders.

☞ A carriage containing a man and woman from Amesbury, was struck by the noon up train on the Eastern Railroad, Friday, at Ward's Crossing, Hampton, and the woman killed. The flag boy tried in vain to stop or warn them.

☞ All members of the Trotting Park Association, and others who would like to become such, are reminded of the meeting at the Franklin House at 9 o'clock this Saturday evening.

— The amount of Premiums and Purses to be awarded at the Piscataqua Agricultural Association's first annual Cattle Fair and Horse Show, at the new Trotting Park in this city next week, is something astonishing as well as attractive, for these parts —footing up $2500!

☞ The woman who fell overboard a few evenings since was not named Reagan but Lynch, and we make the conection to please Mrs. Reagan, who does not wish the credit of an involuntary salt bath.

☞ Auctioneer Wendell sells to day a large lot of furniture, &c.

Betton & Co. have a miscellaneous sale.

— Mrs. Swisshelm says there is a little "sculptress" at Washington, who is as lavish in the display of her own bust as that of her Congress patrons.

—The Staunton, Va. Vindicator says there is nothing more cheering than the division and sale of lands in every portion of Virginia to Northern men of enterprize and good reputation.

—Mr. Charles Kendall of Waltham, Mass., set 300 peach trees on his farm in 1860. They are now in full bearing, averaging from two to three bushels to each tree, and he will realize from the sales from $1500 to $2000 for this year's crop.

— What made Barnum and Girard rich? Advertising. What sold our Government bonds? Jay Cooke's advertising.—What made Bonner's Ledger? Advertising. What made Stewart's fortune? Advertising. What sold 210,000 tickets in the Crosby's Opera House scheme? Advertising. Then what should our merchants do? Advertise.—*Gate City.*

— A lady, being anxious to give a friend, who had never been in Edinburgh, an idea of the great height of the buildings in that city, said that a workman, accidentally falling off the roof of a house in which she resided, had time, after passing several windows in his descent, to exclaim to a friend looking out of one, "Oh, Jamie, such a fall as I shall have!"

ACROSS THE SIERRA NEVADAS.
THE
CENTRAL PACIFIC RAILROAD,
THE WESTERN HALF OF THE
GREAT NATIONAL TRUNK LINE
ACROSS THE CONTINENT,

being constructed with the AID and SUPERVISION OF UNITED STATES GOVERNMENT, is destined to be one of the MOST IMPORTANT LINES of Road ever projected. The rich valley, which in the *sole link between the Pacific Coast and the Great Interior Basin*, over which the immense Overland travel must pass, and the

Principal Portion of the Main Steam Line between the Two Oceans.

Its line extends from Sacramento, on the tidal waters of the Pacific, eastward across the richest and most populous portion of California, Nevada and Utah, contiguous to all the great Mining Regions of the Far West, and will meet and connect with the roads now building east of the Rocky Mountains. About 100 miles are now built, equipped and in running operation to the summit of the Sierra Nevada Mountains, a few days 35 miles, now graded, will be added, and the track carried entirely across the mountains to a point in the Great Basin in Nevada, where the further progress will be easy and rapid. Iron, materials and equipment are ready at hand for 300 miles of road, and 10,000 men are employed in the construction.

The local business upon the completed portion far surpasses all previous estimate. The figures for the quarter ending August 31 are as follows in GOLD:

Gross Earnings,	Operating Expenses,	Net Earnings,
$487,379 64	$86,548 47	$401,031 17

or at the rate of two millions per annum, of which more than three fourths are net profit on less than 100 miles worked. This is upon the actual, legitimate traffic of the road, with its terminus in the mountains, and with only the normal increase of population and development, and exclusive of the materials carried for the further extension of the road.

The Company's interest liabilities during the same period were less than $125,000.

Add to this an ever-expanding through traffic and the proportions of the future business become immense.

The Company are authorized to continue their line eastward until it shall meet and connect with the roads now building east of the Rocky Mountain ranges.

Assuming that they will build and control half the entire distance between the San Francisco and the Missouri River, as now seems probable, the United States will have invested in the completion of 865 miles $28,582,000, or at the average rate of **$33,000** per mile—not including the Donation of Lands and 6,000 acres of the Public Lands. By becoming a joint investor in the magnificent enterprise, and by waiving its first lien in favor of the Mortgage Bondholders, the GENERAL GOVERNMENT, IN EFFECT, INVITES THE CO-OPERATION OF PRIVATE CAPITALISTS, thus carefully guarded their interests against all ordinary contingencies.

The Company offer for sale, through us, their
First Mortgage Thirty Year, Six per Cent. Coupon Bonds.

Principal and Interest payable in Gold Coin. They run thirty years, and are issued in $1000 each, with semi-annual gold coupons attached, and are selling for the present at **90** per cent. and accrued interest, which must be added in currency, at which rate they yield nearly

Nine per Cent. upon the Investment.

These Bonds, authorized by Act of Congress, are issued only as the work progresses, and to the same amount only as the Bonds granted by the Government; and represent, in all cases, the *first lien* upon a completed, equipped and productive railroad, in which have been invested Government subsidies, stock subscriptions, donations, surplus earnings, &c., and which is worth more than three times the amount of First Mortgage Bonds which can be issued upon it.

The Central Pacific First Mortgage Bonds have all the assurances, sanctions and guaranties of the Pacific Railroad Act of Congress, and have in addition several noticable advantages over all other classes of railroad bonds.

First—They are the superior claim upon altogether the most vital and valuable portion of the through line.

Second—Beside the fullest benefit of the Government subsidy (which is a subordinate lien) the road receives the benefit of all donations from California.

Third—Lastly but the whole cost of grading 800 miles eastward of San Francisco is concentrated upon the 150 miles now about completed.

Fourth—A local business already yielding three-fold the annual interest liabilities, with advantageous rates payable in coin.

Fifth—The principal as well as the interest of its Bonds being payable in coin, upon a legally binding agreement.

Having carefully investigated the resources, progress and prospects of the road, and the management of the Company's affairs, we cordially recommend these Bonds to Trustees, Executors, Institutions and others as an eminently *safe, reliable and remunerative form of permanent investment.*

IN A QUARRY.

BY HIRAM RICH.

Beat, beat, beat—
I toil in a quarry alone;
Till the day goes under the sea,
I hammer and rift the stone.

Beat, beat, beat—
Will never the truth be known?
With every blow my life
Goes into the solid stone.

Beat, beat, beat—
To-morrow the visitors come;
Whatever may happen, my blocks,
To them be never so dumb!

Beat, beat, beat—
You have gathered about my knee
When the dear, indifferent night
Held nothing so sweet for me.

Beat, beat, beat—
Oh hearts that have hope with you there!
By the altar my hand hath been,
In the rapture and pause of prayer.

Beat, beat, beat—
In the lull of the hymn ye hear,
As it were an imprisoned heart,
O'erlaboring somewhere near.

Beat, beat, beat—
Ye may build whatever ye will;
But, mark it! a ruin will creep
O'er column, and scope, and sill.

☞ Gen. Schenck, in a recent speech in Ohio, is reported as saying:

"Gen. Grant in conversation with him a few days since, had expressed his great regret that others had not voted as he (Schenck) did to keep Congress in session: when he replied that they would soon be back again. 'It will be seventy-eight days yet,' said Grant. 'Why, General,' remarked Schenck, 'do you count the days?' 'Yes,' said Grant, 'I count them, and it will be just seventy eight days, and I would to God the time were nearer.'"

☞ Why might carpenters really believe there is no such thing as stone? Because they never saw it.

This conundrum may do for some latitudes, but in Texas, where they use a kind of stone for building that may be worked with either saw or plane, it will hardly pass current.

— A hopeful German farmer in Louisiana says the cotton worm "has not done half so mooch eat 'em up as we tink so."

— Six years ago only two families in Brattleboro', Vt, used coal for fuel. This year over one thousand tons have been sold, and its use is becoming general.

— The Alton (Ill.) Democrat says: "The best judges of river matters say that there is now more danger than ever that the channel of the Mississippi will make its way permanently behind the island, opposite Alton. If anything is to be done to prevent such a calamity, prompt action is necessary."

— Robert Burns, ex-collector of Eastport, Me., who was active in opposing the Fenians during their invasion of Campobello, and whose property on Indian Island suffered by fire in consequence, has received $4000 in gold, as indemnity from the British Government.

— A correspondent writing from Yazoo says a freedman being registered, followed the official administering the oath very closely until he came to the words "and that you support the Constitution of the United ——." "Stop dar, massa," said he, "I can't swear to do dat, kaze I has a sickly wife an' seben children, an' dey is all I can support now-a days."

—Frankness seems to be the great characteristic of the Indian Chief Red Cloud when he said, "We do not want peace, because when we are at peace we are poor: now we are rich." Gen. Sherman was equally outspoken when he said: "If you don't leave the roads alone I will kill you."

NEW ADVERTISEMENTS.

THE RICHEST MAN IN THE WORLD.
Extract of a Letter from Baron Solomon Rothschild, Paris, 6th April 1866, to Hue Faubly St. Honore.
Will you be kind enough to have forwarded to me here 200 bottles of your Indian Liniment; if you will send it at the same time your account, I will forward you the amount through Messrs. BELMONT & Co., New York.
Baron Solomon Rothschild having recommended to many of his friends Major LANE'S LINIMENT, and they being desirous to procure it, he should advise him to establish a depot in Paris.

THE INDIAN LINIMENT,
As a relief, ever ready, as a killer of pain, taken inwardly, or outwardly applied, has no equal.—*For the relief and cure of Rheumatic and Neuralgic Affections, Sprains, Bruises, &c.*, it is unequalled.—It takes no more than a teaspoonful taken inwardly, in the cure of *Cholera, Cramps and Pains in the Stomach, Diarrhœa, Dysentery, Cholera Morbus, Cholera Infantum*, and it is without exception the Most Wonderful Panacea the world affords. No FAMILY should be without it. Every TRAVELER by land or sea should have a bottle. MINERS and FARMERS residing at a distance from Physicians should keep it constantly on hand. In case of accidents and sudden attacks of Stomach Complaints, its value cannot be estimated. Inquire for MAJOR LANE'S INDIAN LINIMENT, and take no other. Sold by all Druggists. 50 Cents per bottle. For sale at wholesale and retail by Demas Barnes & Co., 21 Park Row, N. Y.; Gale & Robinson, 138 Fulton street, N. Y.; C. Wells & Co., 192 Fulton street, N. Y.; Chas. N. Crittenton, 78 6th Ave. N. Y., and by respectable Druggists throughout the world. None genuine unless signed by Jerome Knox. LANE and COMPANY, and by J. T. LANE & CO., Proprietors, 103 Broadway, N. Y. Send for circular.

"Buy Me, and I'll do you Good."
☞ Use Dr. Langley's Root and Herb Bitters for Jaundice, Costiveness, Liver Complaint, Humors, Indigestion, Dyspepsia, Piles, Dizziness, Headache, all Drowsiness, and all Diseases arising from Disordered Stomach, Torpid Liver and Bad Blood, to which all persons are subject in Spring and Summer. Sold by C. G. GOODWIN & CO., Boston, and by all Dealers in Medicines.

MORE VALUABLE THAN GOLD.
Dr. Keswick's Drop Up, for the Catarrh, a perfect and speedy cure for this loathsome disease in its worst form. No person suffering from Catarrh or a bad Cold in the Head, should hesitate a moment, but procure the remedy at once and be cured. There is not any mistake in the above. Price $1 per bottle. Send stamp for pamphlet, and all sold by druggists, or sent by the Proprietor, H. H. BURRINGTON, Druggist, Providence, R. I. Also by G. C. Goodwin & Co. Boston, and druggists general y.

A Man of a Thousand. A Consumptive Cured.
DR. H. JAMES, a retired physician of great eminence, discovered, while in the East Indies, a certain cure for Consumption, Bronchitis, *Coughs, Colds and General Debility.* The remedy was discovered by him when his only child, a daughter, was given up to die. His child was cured and is now in good health. Desirous of benefitting his fellow mortals, he will send to those who with it the recipe, containing full directions for making and successfully using this remedy, free, on receipt of their names, with two stamps to pay expenses. There is not a single symptom of Consumption but it yields to, but at once take hold of and dissipate. Night sweats, peevishness, irritation of the nerves, failure of memory, difficult expectoration, sharp pains in the lungs, sore throat, chilly sensations, nausea at the stomach, inaction of the bowels, wasting away of the muscles.
☞ The writer will please state the name of the paper they see this advertisement in Address, CRADDOCK & CO., 1032 Race street, Philadelphia, Pa.

Manhood and the Vigor of Youth restored by Wells's Sure-cure guaranteed.
DR. RECORD'S Essence of Life restores manly power, from whatever cause lost; the effects of early pernicious habits, self abuse, impotency and climate, give way at once to this wonderful medicine, if taken regularly according to directions (which are very simple and require no restraint from business or pleasure). Failure is impossible. Sold in bottles at $3, or 4 quantities in one for $9. To be had only at the sole appointed agent in America, HERMAN GEDIZEN, 323 Bowery and 205 2d Ave., N. Y.

The Chronicle.

—Lazy men, like sporting characters, think a good deal of the home stretch.

— It is wonderful what moral obligation things sometimes assume when we wish to do them.

—Indians are allowed to vote in Michigan, while negroes are excluded. The new constitution gives the right to both.

— The Mobile Times estimates the cotton crop for the present year at about seventeen hundred thousand bales.

— The newest substitutes for the words "died of delirium tremens," are, "he expired because of artificial excitement."

— It has been demonstrated in Chicago that a comfortable house can be built for $350.

— Dr. Hall says that for a period of a month before marriage, and a month after death, men regard their wives as angels.

— An old lady announced in Court at Atlanta, that she "had no counsel, that God was her lawyer." The Judge replied, "My dear madame, he does not practice in this Court."

— The Vicksburg Telegraph is indisputably right when it declares that a new head, or even an old one, is better than no head at all.

— Counterfeit five cent pieces have appeared. They are easily detected by the difference of weight between the bogus and the genuine.

— A placard in the cars of the Eastern Railroad requests gentlemen not to put their feet upon the cushions. Gentlemen never do.

— Drunkenness is a pair of spectacles to see the devil and all his works. Yes, and a great many more people wear them, than of any other kind. Lazarus & Morse's perfected cure even, didn't begin to have so many "wearers of the green."

— A Western New York paper wants the ladies to play base ball, maintaining that it is "worth twice as much as this insipid Amanda-Arabella game called 'Crow-K,' which is nothing but a poor kind of billiards on the grass."

— Under the new jury bill in New York persons who have not been drawn on panels, can signify to the officer of the court which season would suit their convenience to be drawn. This is certainly very accomodating.

— The Memphis Avalanche assures the Copperhead world that reliable gentlemen have repeatedly seen ten or fifteen car loads of negroes who are going to Ohio to vote under the auspices of the Freedmen's Bureau. "All their expenses are to be paid by the Bureau," but the most of them "don't know where they are going." Day and night, but this is wonderous strange! What a stupid Bureau it must be to transport thousands of negroes to Ohio at tremendous expense, when they can't vote after they get there unless they are assorted cargoes of mulattoes.

THE STOVE FOR THE MILLION!
THE
KEARSARGE
HAS NOT BEEN BEATEN!
URIAH BLAISDELL,
NO. 43 MARKET STREET,
Takes pleasure, as the cold season approaches, in again inviting public attention to this superior
COOK STOVE!
Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well with WOOD OR COAL, an economizer of heat, and a heavy, well-made and durable stove, as it is a neat and symetrical one. It has been in no Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified encomiums of its numerous purchasers—of all who know what a good stove is and how to appreciate it.
Pleasure is taken in showing the KEARSARGE and all in want of a stove of the first merit at a moderate price are invited to call and examine it whether they purchase or not.
The following names from its large list of purchasers are given for reference:

GLEASON HALL
PRESENTATION FESTIVAL.
The Fourth and Last Grand Concert
Of the Gleason Hall Presentation Festival, under the auspices of DORING'S BAND,
Will positively take place on
Thursday Evening, October 10, 1867,
AT GLEASON HALL, WEST TROY, N. Y.
The first, second and third Concerts of the series took place (as per former advertisements,) on July 26th, Aug 8th and 29th, and gave unlimited satisfaction, the large Hall being filled to overflowing on each of the above evenings with a refined and appreciative audience from all parts of the State. There was a committee of three reliable and well-known gentlemen selected by the audience on the night of the first Concert to superintend the drawing, which will positively take place on the evening of the above Concert. The Committee are most desirous that all ticket holders should be present to witness the drawing, and thereby relieve themselves of any doubt as to the fairness of the transaction. They also assure those who cannot make it convenient to be present, that their interests will be guarded the same as if they were present. The Tickets, which have been limited to 75,000, at
ONE DOLLAR EACH,
can be procured by addressing John H. Casey, Box 89, West Troy, N. Y., or any of the Agents throughout the United States. There will be a present awarded the holder of every ticket.—Among the presents to be awarded are the following:—

And Thousands of Other Presents,
Consisting of
Marble Top Centre Tables, Mirrors, Clocks, Stoves, Chandeliers, Statuary, Engravings, Vases, Cologne and Hair Pitchers,
Sets Knives and Forks, Sets Spoons,
Dressing Cases, Port Monnaies, Scarfs, Tables, Bedsteads, Chairs, Mattresses, and other articles too numerous to mention.
The above property will be delivered to the person entitled to it free from all incumbrance and a title guaranteed.
The property may be seen at any time by calling on the owner, John H. Casey, Metropolitan Hotel, West Troy, N. Y.
We, the undersigned, having been appointed an Executive Committee by Mr. Casey, do hereby certify that all moneys received for the sale of Tickets are to be placed in our hands, and will be by us retained until the distribution takes place. That we will audit and pay all bills and expenses that shall be countersigned by Mr. Casey as correct, and we will pay off and discharge, from the money so received, all mortgages upon the property. ANDREW ALEXANDER,
THOMAS BATH.
The undersigned Citizens would most cordially recommend the gentleman engaged in getting up these Concerts as an honorable and reliable person, and believe he will conduct the presentation with honesty and fairness, and try to give satisfaction to the public.

SPECIAL TERMS.—For Club Rates.—Five Tickets, $4 50; Ten Tickets, $9; Twenty Tickets, $16. A photograph of the Metropolitan Hotel may be seen at the office of our Agents.
Tickets may be procured
At BATCHELDER & CO.'S STORE,
3 Congress Street, Portsmouth.
N. B.—In order to give confidence to the public, and secure them in their investment, we allow our agents to retain all moneys received for the sale of tickets, until the distribution takes place.
We, the undersigned, having been appointed a Committee by the ticket holders of the Gleason Hall Presentation Festival to decide in what manner the drawing shall be conducted, do decide and determine that till the numbers from 1 to 75,000 shall be placed in one wheel and the first drawn number shall take the highest prize, the second the next highest, and so on until all the prizes are drawn. Hoping this will meet the approval of the ticket holders, we remain, &c.,

Portsmouth, N. H.

MONDAY, SEPTEMBER 30, 1867.

☞ A special Washington dispatch to the Boston Journal says that "Secretary McCulloch has issued a circular forbidding all employees of the Treasury Department to furnish any information to persons connected with the public press, unless by special permission from the head of the bureau. He also directs that no newspaper man be allowed in any room of the Department, unless on business with the Department. He further states that any violation of this rule will subject such employee to immediate dismissal. The Secretary informed the correspondents that he was obliged to issue this order, owing to the many misstatements, intentional and unintentional, put out by minor officials of the Department, and to prevent, if possible, the deliberate manufacture of financial paragraphs with a view to impair the credit of the Government. He animadverted severely on one appearing in the Washington correspondence of the Boston Post, as copied into the New York papers, relative to the sale of twenty millions of gold, and the National Bank reserves, and authorized your correspondent to denounce it as a pure fabrication. The Washington journals are very indignant over the new order."

JEFF. DAVIS' TRIAL.—A telegram to the New York Herald from Richmond, respecting the coming trial of Jeff. Davis, says that—providing Davis chooses to appear in terms of his bail, which many believe he will not do—the Government will go on with his trial. A mass of the most important events connected with the history of the rebellion will be disclosed.—"The counsel for defence," the telegram says, "will demand a trial, and if the Government urges as an excuse, not ready, the Court will express its intention to remain in session sufficient time to prepare; failing in this, a *nolle prosequi* will then be entered by which the discharge of the prisoner may be effected. The latter is not likely, and the trial, which the nation at large demand, will be proceeded with. With Chase on the bench, Jeff. Davis in the prisoner's box, and the right of secession in question, a drama of great national interest will be presented, in which the principal actors will have to study well their parts."

☞ An effort has just been made in Gen. Pope's District to throw open the registration lists by virtue of the proclamation of amnesty recently issued. It appears that S. F. Rice, once member of the Alabama legislature, has applied to the Montgomery Board of Registration, which is revising the lists in that city, and asked to be registered, at the same time producing the oath taken by him under the proclamation of Sept. 10. Under Gen. Pope's instructions the Board refused to register his name. Mr. Rice at once proceeded before the U. S. Commissioner, and made affidavit of the fact with a view of testing the case in the U. S. Courts.

JEFFERSON ON THE CONSTITUTION.—The new "Life of Josiah Quincy," written by his son, contains the following extract from a letter of Thomas Jefferson, which will surprise many who have pinned their faith to the "strict construction" creed ascribed to him. He is speaking of the purchase of Louisiana:

"*The less that is said about the Constitution difficulty the better.* Congress should do what is necessary in silence. I find but one opinion as to the necessity of *shutting up the Constitution for some time.*"

This sounds very much like Thaddeus Stevens' declaration that the work of reorganizing the States dismantled by the rebellion is "outside of the Constitution." At any rate, it shows that Jefferson discriminated between the ordinary administration of the Government and great unforeseen national crises.

☞ In Philadelphia, Thursday night M. V. Gorman, Nat Kenney and a Miss Caroline Herron were arrested, charged with manufacturing counterfeit bank notes. The officers seized $22,500 in finished notes, and $100,000 in unfinished notes, also plates for printing notes on the 4th National Banks of New York and 50 cent fractional currency, together with presses, inks, &c. Gorman is supposed to be the man who first issued counterfeit fractional currency.

☞ Cable dispatches announce the occurrence of serious riots and other revolutionary proceedings in Italy. At Florence and Geneva risings of the partizans of Garibaldi have created great tumult, the crowds calling loudly for the release of their leader.

—Wednesday morning the prisoners in the jail at Augusta, Me., while at breakfast got into a quarrel, and the jailor and turnkey, in attempting to quell the row, were both knocked down and roughly treated. Assistance from without secured the prisoners in dungeons as a punishment for their misconduct.

NEW HAMPSHIRE ITEMS.

—— Only twenty-nine cases of bankruptcy have been begun in New Hampshire since the passage of the act in March.

—— The store of Dr. Nath'l Grant, of Centre Ossipee, was broken into Sept. 2, and $4000 in United States bonds and $575 in greenbacks stolen.

—— Joseph B. Goodwin of Dover was robbed of $200 last Wednesday evening about 7 o'clock, by two men, on the road leading to Barrington.

—— Owners of starch factories in the northern part of the State, the Concord Statesman says, are contracting for potatoes at 33 cents per bushel.

—— Clara E. Martin, daughter of Alfred Martin of Jackson, 8 years old, wove, in a patent loom, forty-five yards of good wool cloth, last winter, and assisted in taking care of an invalid sister and sick mother.

—— The Freewill Baptist denomination, which had its rise in New Hampshire, consists of 29 yearly meetings, 148 quartely meetings, 1276 churches, 1221 clergymen (ordained and licensed) and 59,211 communicants.

—— On Monday night, Sept. 23, the store of John M. Towle, in Newmarket, was broken open, and a coat, pair of pants, and several underskirts and other goods stolen. The thieves entered by boring with a bit through a panel of a back door in the basement of the building, and pushing back a bolt.

—— We had presented us a few days since, from the garden of H. S. Swasey, Esq., on Beacon st., one of the greatest prolifics of fruit bearing yet recorded. The fruit from the blossom of May—fully matured—the fruit from the blossom of July well developed, and the blossom of Sept. 20, *all from the same tree*, and the tree of this year's planting—the tree producing in all twenty apples.—*Great Falls Journal.*

—— The Manchester Mirror says that the receipts at the various hotels and boarding houses in New Hampshire this season will exceed, by nearly 25 per cent., those of any other. Every hole and corner has been literally crammed full, and the only reason more did not come was because they could find no place to lay their heads.—Country boarders have probably left this year a million and a quarter of dollars.

WASHINGTON ITEMS. — The Herald's special says a financial plan has been submitted to the Secretary of the Treasury, which meets the approval of financiers of New York, by which specie payments may be resumed in five years and the National Bank notes retired in 90 days, greenbacks being substituted in commerce, and the West be provided with 90 millions increased circulation, and the greenback and coin interest debt reduced to 300 millions.

The Revenue Inspector from the South and Northwest reports the frauds in tobacco fully equal to the whiskey frauds in New York.

☞ The N. Y. Times' special Washington despatch says a settlement of the case of Frazer, Trenholm & Co., has been concluded, and the counsel of the latter have left for Charleston. The Treasury Department refuse to make the terms of the settlement public.

A large number of Quartermasters' clerks will be discharged at the end of this month. It is alleged that most of the clerks to be discharged are soldiers, while civilians are to be retained.

Wiggin, the Treasury agent in New York, notifies the Treasury Department that he has attached the property of Henry Hart, an owner of warehouses, on account of alleged frauds, and that Hart's property to the amount of $400,000 has been seized.

—A fire in Belfast, Me., on Wednesday night last, destroyed three barns and a large quantity of hay, belonging to Hon. A. G. Jewett. The fire is believed to have been the work of an incendiary.

— The Lewiston Journal gives an acount of a game of base ball in that city, in which a youngster struck at the ball and the bat slipped from his hands, flying some ten feet, striking a Miss Tolcott on the nose and cutting it in two across the centre.

— The oldest wooden house in the United States is the "Minot House," Dorchester, Mass. It was built in 1633, and rents to-day for $80 a year. It was the headquarters of General Washington for a season during the Revolution, and was once defended by Mrs. Minot alone when attacked by Indians.

—The election trouble at Nashville has been settled, and dispatches of Friday evening anticipate a quiet and peaceful election. Gen. Thomas has issued an order for the disposition of a military force of cavalry and infantry to protect the Commissioners of Registration and State authorities in holding an election.

— A co operative movement has been started among laborers and mechanics in the city of New York for the purpose of obtaining flour at first cost. It is stated that the best family flour can be purchased in Milwaukie for $9.15 per barrel, and, after paying freightage and cartage, be delivered at the door of the workingman in New York for $10.45.

Communication.

WEDDINGS.—Next to being married oneself, (we should say—not having tried it), there is an innocent pleasure in attending the nuptials of one's friends. Despite the solemnity of the obligations imposed upon the two principals in the ceremony,—an obligation which should cease only with life—in all cases where the union is that of hearts as well as of hands there can be but one estimate made as to the transaction, and that is that it should be made a season of congratulation and rejoicing, upon the part of friends as well as of the newly wedded.

There may be many reasons to call for a public wedding: there can be none to palliate the exhibitions known as "bridal chambers" and "bridal staterooms" which have caused so much that is repugnant to delicacy, in late years, in our hotels and steamboats. The desire to make a "sensation" or notoriety of an event that shall bring weal or woe to the lifetime of two individuals, is a desire to degrade that which should be held as sacred as aught we do in this life.

There is something to us which seems more fitting that the girl should assume her new relation of wife in the home where she has filled the position of daughter. All the pleasant associations that have endeared her young life surround her, and she realizes more fully the nature of her exchange when she places her hand in that of the man of her choice and voluntarily relinquishes father and mother, sister and brother, the dear old home and all its sources of attachment, which twine more tenderly around the heart at the hour of parting; and with a confiding trust, far too beautiful to be ever betrayed, casts her lot for better or worse with him who must now be to her all in all or simply nothing—worse than nothing.

The surroundings of a home marriage may be made of so charming a character, that to us it is really wonderful that the parties should ever consent to have the sanctity of the occasion invaded by a curious, staring multitude.

So surely as we are born, just so surely must we pass through Death's portal; and almost so surely does adult life bring to its possessor the marriage bond. The sorrow expressed for the departing maiden or youth is not that they should have entered upon the wedded state, but that the ties which have so intermingled with the family life must be more or less rudely abraded in their new relations.

The profusion of flowers which decorate the old home, the delicate vines training about the pictures and gracefully festooning the chandeliers, the presents that serve as a memento of the good will of friends, the scrupulous regard paid by the guests to their fitness of attire, the subdued spirit of cheerfulness that throws a halo over all present, all serve to render the picture one of Life's brightest and to impress it and its lessons indelibly upon the minds of all who look below the mere surface of events. BACHELOR.

A GOOD BUSINESS.—The Advertising Agency of Geo. P. Rowell & Co., No. 40 Park Row, N. Y., furnish regularly from one to three columns of advertising to nearly one-half of all the newspapers in the Eastern, Middle and Western States.

GOLD, Saturday, 143 1-4.

—The Bank of England has now more specie in its vaults than notes in circulation.—That is a "National Bank" indeed.

—The English government is sick of its Abyssinian campaign. The country is found almost impenetrable.

—James Ferguson, Assistant Astronomer of the United States Naval Observatory, died at Washington on Thursday.

—A naughty little Boston boy, whose mother bade him come into the back yard and play, but not to roll marbles on the front doorstep, because it was Sunday, was saucy enough to ask if it was any more Sunday on one side of the house than on the other.

—Last year the London, Brighton & Dover Railway, which lately collapsed, returned an enormous income, in order to keep up appearances, and it paid $500,000 tax to the British Government, when, in reality, the road was running at a loss.—The creditors are now trying to get back the money.

The entrance to a woman's heart is through her eye or ear; but a philosopher has said the way to a man's heart is down his throat.—Good housewives understand this, and use Herrick Allen's Gold Medal Saleratus. If there are any so unfortunate as not to have tried it, go immediately to your grocer and get a paper, and our word for it, it will make a heart as hard as adamant, soften and be joyful, and ever after will praise the seller of Herrick Allen's Gold Medal Saleratus. Everybody sells it. Depot 112 Liberty street, New York. Try it. 8

Where are you going?
I am going into CARTER'S Saloon, to get a dozen Providence River Oysters, on half shell.
Has he got Providence River Oysters?
Yes; and has made arrangements to have a supply of them all the time.
Does he cook them?
Yes, any way you desire; Fried in Crumbs, Batter, Roasted or Stewed. So come along and see if you do not get suited at CARTER'S, Corner Congress and Chestnut streets. s24

THE COMPASS BOXED.—East, west, north, south, in every direction, Pyle's O K Soap is superseding all others. Its detersive and economical qualities are readily appreciated by housekeepers, and grocers find a ready sale for it. 21

☞ Good Wine makes good blood. See advertisement of Speer's Wines in another column, —the best for Table, Family and Medicinal Use.

☞ We notice by a California paper, which has been sent us, that a fine wooden mill has been recently erected at Marysville, (Cal.) a place of some 6000 inhabitants, which is now being started up, under the superintendence of J. W. Tatterson, a manufacturer, lately of Lowell, Mass. Mr. Tatterson is a native of South Berwick, and was formerly engaged in Mr. Burleigh's mill at Great Works. We are glad to see evidences of the prosperity, in distant States, of the sons of old York.—*Biddeford Union.*

☞ At Ottawa, on Thursday, the two mile scull race for the championship of Canada was won by Richard Tinning of Toronto. Tinning has issued a challenge to Hamill of Pittsburg or Brown of Portland to row him for $500, single sculls, distance, place and time to be arranged.

☞ Lord "Dexter" of the trotting turf has "four white feet and snow on his nose," but we don't believe he will be "knocked in the head and given to the crows" just yet. His four feet did not cause Bonner to "pass him by," but he ordered him up to his stables, to the tune of $33,000.

CHRONIC CATARRH.
There are undoubtedly hundreds in this vicinity who are suffering from Chronic Catarrh and its unhappy consequences, who are not aware of the danger to which they are exposed. The symptoms of this disease are usually so mild at first as to excite little or no attention on the part of the sufferer, and thus it is allowed to pass on from one stage to another, involving in its destructive march more and more serious results. Reader, if you would avoid the dangers of a seated Consumption, do not neglect a "Cold or Catarrh in the head." That this disease is so fatal in its tendency and productive of such unhappy consequences, no one will be surprised to learn, if he will but reflect that every breath of air that is inhaled into the system, by those suffering from Chronic Catarrh, must pass over an unhealthy and diseased membrane, and the air in passing over these putrid and ulcerated surfaces, must of necessity imbibe the most noxious and deadly properties, and in this manner every breath of air you take into the lungs is converted into a poisonous agent of death. There is no disease in the entire catalogue of human ills, the treatment or which has been as little understood as Chronic Catarrh, and hence from the practice ordinarily adopted by the profession, there is little to hope.

DEAFNESS,
Weak eyes, noises, pains, and disagreeable sensations in the head, usually attributed to Neuralgia, frequently arise from Catarrh.

Dr. C.'s success in treating Catarrh has been almost wonderful. He does not profess to cure every case that may be presented to him, but having had years of experience in treating Diseases of the Eye, Ear and Throat, and Catarrh alone, he thinks himself better qualified to perform cures in many cases than physicians who have not enjoyed similar opportunities.

HOME TESTIMONIALS.

From the Lewiston Journal, May 24th, 1867.

Dr. Carpenter, who has been in this city for a few weeks at the De Witt House, treating diseases of the Ear, Eye and Throat, will leave for Bath in a few days, but we cannot forbear adding a word of special endorsement to the Doctor's skill and ability. There are many good reasons why people should look with distrust upon professionals generally, who parade from place to place—But these do not apply to Dr Carpenter, who confines his practice to the leading cities and towns in Maine, and has met with great success everywhere he has practiced. He is a reliable and skillful specialist, and a physician of reputation and honor. We are glad that the Doctor has visited our city—a feeling in which large numbers who have received the benefit of his treatment unite. We trust the Doctor's engagements will permit him to visit Lewiston frequently.

From the Augusta Gospel Banner, Feb, 16, 1867.

Persons troubled with blindness, deafness or catarrh, will do well to consult Dr. Carpenter.—We know him personally. He is a gentleman—is well read in his profession, is no humbug or deceiver, will not, as many do, tell the patient he can effect a cure without reasonable grounds for the declaration. He wrought several cures in this vicinity, and essentially helped others who had suffered for years. This is written by the editor of the Banner without solicitation from any one.

From the Portland Press.

Dr. Carpenter, the Oculist and Aurist, who has been spending several months in practice in this city, has had marked success in the treatment of diseases of the Eye, Ear and Throat, as also of Catarrh in its worst form. He is well versed in the treatment of the diseases he has made his specialities, gentlemanly in the treatment of patients, and prompt in the discharge of all pecuniary obligations.

☞ Dr. CARPENTER, during the past few years, has confined his practice to the principal cities and towns in Maine, the State of his residence, but having received many solicitations from persons in Portsmouth and vicinity, he has been induced to visit Portsmouth a few weeks professionally.

QUARTER OF A MILLION SAVED A DAY.
One hundred thousand men now labor with good results, who, until they used
ALLCOCK'S POROUS PLASTERS,
had not done a day's work for years. So these Plasters are the means of increasing the wealth of the nation not less than a quarter of a million a day.
AN IMPORTANT LETTER.
SIBLEY OAK, YORKTOWN, N. Y., Jan. 19, 1860.
T. ALLCOCK & CO.—Gentlemen: I have been troubled with a lame back over ten years, so as to be entirely helpless and unable to do any kind of hard work. In June last I procured one of Allcock's Porous Plasters and wore it two weeks. When I found my back entirely cured, and was able to mow and cradle as well as ever I could in my best days. STEPHEN FUGSLEY.
ALLENSTOWN, Penn., April 4, 1865.
Messrs. ALLCOCK & CO.—Dear Sirs: My daughter used one of your Porous Plasters. She had a very bad pain in her side and it cured her in one week. Yours truly,
JOHN V. N. HUNTER.

CROUP! CROUP!
DR. HOOKER'S COUGH AND CROUP SYRUP
CURES
CROUP, COUGHS FROM COLDS, HOARSENESS, NEURALGIA, COLDS, HOARSENESS, COUGHS FROM HUMORS & BRONCHIAL COUGHS and gives speedy relief in Whooping Coughs and Asthma, and often cures the latter, and invariably shortens the run of the former.
☞ Children are liable to be attacked with Croup without a moment's warning. Hence, therefore, important that every family should have constantly at hand some simple and pleasant, yet effectious remedy for the cure of this painful and too often fatal disease. Such a remedy is
Dr. Hooker's Cough and Croup Syrup.

DR. SCHENCK'S NEW OFFICE.
☞ DR. J. H. SCHENCK, of Philadelphia, has opened a room in second floor of No. 25 HANOVER STREET, Boston, where he will be professionally every WEDNESDAY, from 9 to 3. Every person complaining with Consumption or any disease leading to it, is invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars.
Dr. Schenck can explain to patients very correctly the stage of their disease and how to use his medicines, namely his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part, and whether it is Tuberculous, Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an irritated, inflamed catarrh, or from Liver Complaint.
His medicines have full directions, so any one can take them without seeing him, but he will live near by and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver is kept in perfect order. To get lungs in a healthy condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will heal. Until then the chills and fever and sweats will stop, and the expectoration become free and easy.
He keeps a full supply of medicines at his rooms, which can be had at all times.
Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents.

Local.

POLICE COURT, Sept. 27.—The reporter of this tribunal pleads guilty of being absent from his post on a busy day, but throws himself upon the mercy of the court, and trusts to extenuating circumstances to render his fall a light one.

Four boys—John Lolly, Charles Foye, Michael Herring and Charles McKew—were arraigned on two counts for stealing fruit from the garden of Col. Chas. G. Pickering. On the first count they were discharged, but on the second they received a sentence to severally serve ten days in the House of Correction and to pay $1.62,—one-fourth costs. "Stolen waters" may be sweet, but the disregard so generally paid to that oldest of warnings regarding forbidden fruit, must often bring to the unwary a renewed hint as to the different meaning conveyed by the words mine and thine.—Usage has rendered the umbrella a doubtful piece of property, but the man who has cherished for years a vine or a tree will not so calmly witness its first or best fruits ruthlessly wrested from his possession.

John Blute afforded another lesson to the younger portion of our community, being sentenced to pass thirty days in the Almshouse and to pay $3.86 costs, for habitual truancy.

Nellie Moulton, who so far forgot her self and sex as to become intoxicated, not to say drunk, was required to replenish the municipal exchequer in the sum of $6.86.

Wm. Davis, also but not likewise, produced sufficient funds to insure his personal freedom.

John Lapier, overstepping the bounds of moderation in this matter of intoxicating beverages, and not being in a condition to meet the demands made upon his pocketbook, was sent to the House of Correction to assist in husbanding the rye, in the use of the Extract of which he has been so lavish.

Charles Caswell, another one more unfortunate, joined the serious throng that gather the gifts of Ceres under the eye of Supt. Philbrick, rather than disburse the dread "6 86" pronounced as a sentence upon most cases where the "corn" is acknowledged.

POLICE COURT, Sept. 28.—M. Bufford, J.—Llewellyn Black, a minor and habitual truant, was sent to the Almshouse for fifteen days and ordered to pay $3.26 costs.

THE BOARD OF ALDERMEN had meetings on Thursday and Friday evenings.—The principal business was the award of land damages for the proposed highway to Freeman's Point, as follows: Nathaniel Jackson $226, Jona. Roberts $64.50, Uriah Blaisdell $266.50, Daniel Odion $5.

NAVAL.—Coun'r R. L. Law, Lieut. Coun'r Nathaniel Green, Midshipman Wm. W. Resinger, John M. Taft and Wm. T. Burwell, and First Asst. Engineer George W. Melville have been detached from the Tacony and placed on waiting orders.

Second Asst. Engineer Nathan P. Towne has been detached from the Winooski and placed on waiting orders.

Acting Master James Van Boskirk has been detached from the Winooski, and granted leave for discharge.

Acting Master Josiah G. Hannum, Actg. Ensigns Frederick J. Locke, Thomas W. Bell, W. N. Smith; Actg. Passed Asst. Surgeon Henry Shaw, Acting 2d Asst. Engineer Thomas D. Crosby, and Acting 3d Asst. Engineers Robert Miller and Wm. McFaul have been detached from the Tacony and placed on waiting orders.

FINE BOUQUET.—Our thanks to Andrew Wiggin Esq. of Stratham for a beautiful Bouquet from his Botanic Gardens,—it presents a miniture view of a large garden of choice flowers.

☞ Commodore Joseph Lanman, who has been in service nearly forty years and who has been awaiting orders for a year past, arrived in town on Friday with his family, and will assume command of this naval station on Tuesday, Oct. 1. Com. Lanman brings with him as clerk, Mr. Charles E. Griffith of Baltimore.

☞ The third and last of Rev. Dr. Lord's lectures will be given at Congress Hall this (Monday) evening, at 1-4 to 8 o'clock. Subject, Edmund Burke. Tickets 50 cts., at Mr. Shores' Bookstore and the door.

☞ Mr. Rodrick announces to the public this morning the great improvements he has recently made in his pleasant saloon on Congress street. Any one wishing anything in his line, will find Mr. R. and his assistants courteous and capable.

☞ Thanks to Mr. Rufus K. Oxford for a lot of delicious Bartlett Pears, raised at his residence on Middle street. Mr. Oxford exhibited seven of them at the Horticultural Exhibition, that weighed in the aggregate three pounds and a half.

☞ A. J. McIntire, Master Machinist at the Navy Yard, has been removed, and Jacob Crockett of Dover has been ordered to examination to fill the vacancy.

☞ Charles W. Gardner of this city has been appointed Justice of the Peace, by Governor Harriman and Council.

☞ The funeral of Sergt. Robert Small, U. S. Marine Corps, took place on Sunday afternoon. The steamer brought two detachments of marines,—(one from the Navy Yard and one from the receiving ship,)—a large detail of sailors from the Vandalia, and the band of the Piscataqua, now quartered on the Vandalia: on their arrival at the Navy Landing they were met by a very large body of Masons, representing Washington Chapter, St. John's and St. Andrew's Lodges. The cortege moved Harmony Grove Cemetery, where the remains of the deceased were entombed with Masonic and military honors.

☞ On Saturday last one of the Board of Aldermen was somewhat astonished to receive a portion of a charge of shot in the lower part of his face, while engaged in business in his storehouse. It seems a young man was shooting rats in the yard attached to a store, adjoining the city father's premises, and that the shot passed through one board into a member of a nother board. A fortunate escape from a coffin, the injury received being slight.

☞ The Headquarters of the P. R. Association are at Room No. 4, Franklin House. Meetings will be held every evening, and all officers, members and other citizens interested in the success of the Fair, are invited to be present. 1w

☞ All enterprising citizens will of course aid the Fair in every way they can. Subscription papers will be circulated immediately, to raise funds to aid in defraying the expenses, which will necessarily be heavy.

☞ A game of base ball was played at the Plains on Saturday afternoon between the Min ochaha and Rockingham clubs, which was won by the former, the score standing 15 to 7, three innings being played.

☞ Mr. Horace A. Martin of this city, had one thumb sawed off and his hand terribly mangled by a circular saw, at the Navy Yard, on Saturday last.

☞ The Executive Committee and all other officers of the Philharmonic Society are desired to meet at Mr. Joy's Music Store this (Monday) afternoon at 4 o'clock.

A NEWSPAPER MUDDLE.—Messrs. Sweetser & Ahern, former proprietors of the New York Gazette, have disagreed, and Mr. S. sold his interest in the concern to his partner, and started the Evening Mail, while Mr. Ahern continues publishing the Gazette. The latter now appears with its old heading, but the "make-up" of the paper is changed, while the Mail has a new heading, upon the old form of the Gazette. From this we infer that Mr. Ahern got the head and Sweetser the body of our once vivacious contemporary. Mr. James K. Medbery, late of this city, *was* one of the editors of the Gazette,—but we don't know which born of the dilemma he has taken, though probably he goes with Mr. Sweetser on the Mail.

☞ The Ancient and Honorable Artillery, of Boston, who it was hoped would have the exercises of their Fall Field Day in this city, have decided to accompany the Veteran Corps from Manchester and Newburyport to Providence.

SEPTEMBER.

Last May we sowed the tiny seed,
And covered deep in mother earth;
The embryo burst its husky shield,
And gave the tender leaflet birth.

All through the sunny month of June,
The growing plants spread broad and high;
And all July their lengthening spires
Gave promise of the fruitage nigh.

When August, faithful workman, plied
His skill to form and fill the cup
With every grace, that only needs
September's sunshine to fill it up.

And now comes in the autumn time,
When flowers, and buds, and shining leaves
Have changed to piles of golden fruit,
And heavy laden harvest sheaves.

ACROSS THE SIERRA NEVADAS.
THE
CENTRAL PACIFIC RAILROAD,
THE WESTERN HALF OF THE
GREAT NATIONAL TRUNK LINE
ACROSS THE CONTINENT,
being constructed with the AID and SUPERVISION OF UNITED STATES GOVERNMENT, is destined to be one of the MOST IMPORTANT LINES OF COMMUNICATION IN THE WORLD, as it is the *sole link between the Pacific Coast and the Great Interior Basin*, over which the immense Overland travel must pass, and holding east of the Rocky Mountains. About 100 miles are now built, equipped and in running operation to the summit of the Sierra Nevadas. Within a few days 35 miles, now graded, will be added, and the track carried entirely across the mountains to a point in the Great Salt Lake Valley, where further progress will be easy and rapid. Iron, materials and equipment are ready at hand for 300 miles of road, and 10,000 men are employed in the construction
The local business upon the completed portion surpasses all previous expectations. The figures for the quarter ending August 31 are as follows in GOLD:

GROSS EARNINGS,	OPERATING EXPENSES,	NET EARNINGS,
$187,579 64	$86,548 47	$401,031 17

or at the rate of two millions per annum, of which more than three fourths are net profit on less than 100 miles worked. This is upon the actual, legitimate traffic of the road, with its terminus at the Sierra Nevadas. With the normal ratio of government transportation, and is exclusive of the materials carried for the further extension of the road.
The Company's interest liabilities during the same period were less than $26,000.
Add to this an ever-expanding through traffic and the proportions of the future business become immense.
The Company are authorized to continue their line eastward until it shall meet and connect with the roads now building east of the Rocky Mountain ranges
assuming that they will build and control half the entire distance between the San Francisco and the Missouri River, as now seems probable, the United States will have invested in the completion of 895 miles $28,592,000, or at the average rate of $35,000 per mile—not including in absolute grant of 12,800 acres of land per mile of the Public Lands. By becoming a joint investor in the magnificent enterprise and by waiving its first claim in favor of the First Mortgage Bondholders, the GENERAL GOVERNMENT, IN EFFECT, INVITES THE CO-OPERATION OF PRIVATE CAPITALISTS, and has carefully guarded their interests against all ordinary contingencies.
The Company offer for sale, through us, their
First Mortgage Thirty Year, Six per Cent, Coupon Bonds.
Principal and Interest payable in Gold Coin, in New York city. They are in sums of $1000 each, with semi-annual gold coupons attached, and are selling for the present at 95 per cent. and accrued interest from July 1st added in currency, at which rate they yield
Nine per Cents upon the Investment.
These Bonds, authorized by Act of Congress, are issued only as the work progresses, and to the same amount only as the bonds granted by the Government, and now delivered, in all cases, *the first* upon a completed, equipped and productive railroad, in which have been invested Government subsidy bonds, donations, donations, surplus earnings, etc., and which is worth more than three times the amount of First Mortgage Bonds which are issued upon it.
The Central Pacific First Mortgage Bonds have all the assurances, sanctions and guaranties of the Federal Government, of the Company, and have in addition several noticeable advantages over all other classes of railroad bonds.
First—They are the superior claim upon altogether the most vital and valuable portion of the through line.
Second—Beside the fullest benefit of the Government subsidy, (which, by the time the line is the road receives the benefit of large donations from California.
Third—Only half the whole cost of grading 800 miles eastward of San Francisco is concentrated upon the 150 miles now about completed.
Fourth—A local business already yielding threefold the annual interest liabilities, with advantageous rates yet to come in soon.
Fifth—The principal as well as the interest of its Bonds being payable in coin, upon a legally binding agreement.
Having carefully investigated the resources, progress and prospects of the road, and the management of the Company's affairs, we cordially recommend these Bonds to Trustees, Executors, Institutions and others as an eminently *sound, reliable and remunerative form of permanent investment.*

PORTSMOUTH HORTICULTURAL EXHIBITION.

The exhibition by the Portsmouth Horticultural Society took place on Tuesday evening, and continued to Wednesday evening this week, at the Temple. It was an excellent display of Fruits, Vegetables and Flowers, and was well attended. We doubt whether so fine and extensive a show of Pears has been made at any ... etc. not excepting the State Fair, the present year.

The Temple was handsomely decorated, the Cornet Band was in attendance, and the whole affair was a success in the quantity of handsome articles furnished, in the social occasion it afforded, and in the financial result—leaving about a hundred dollars to operate with another year.

The following is a list of their contributions:—

VEGETABLES, FRUITS, ETC.

George Burt—Southern Corn 13 feet high.

THE BUTTERFLY.

BY EMILY CARTER.

Poor little butterfly under the glass,
You want to be out fluttering over the grass;
You want to be out on your favorite flowers,
To sip the sweet honey these warm, sunny hours!
No longer I'll keep you a captive, and so
Butterfly, go! Butterfly, go!
Butterfly, butterfly, butterfly, go!

Your wings are so beautiful, now they are spread,
How bright are their colors, brown, yellow and red.
Go, fly to the rose and alight there, and sip
The dew of its leaf with your little, wee lip;
Go rest there and rock while the mild breezes blow;
Butterfly, go! Butterfly, go!
Butterfly, butterfly, butterfly, go!

Your life is so short that it shall not be said
I made it unhappy before it had fled;
Go roam in the garden; go follow the bee;
Go flit in the sunshine; enjoy all you see;
In me, little thing, find never a foe;
Butterfly, go! Butterfly, go!
Butterfly, butterfly, butterfly, go!

"CONSIDER THE LILIES."—How exquisite are some of the most common of the wild flowers, such as the wild rose, the mint and pennyroyal, the trailing arbutus, elethra alinfolia, pond lily and many others. What a world of spirited sweetness there is in a sprig of sassafras, and the dryest stick of the tree when broken is a fountain of perfume. The lily, however, is queen of sweets, and has the most exquisite and powerful varieties of fragrance, and goes far beyond the rose. The pond lily thrives greatly here [Fairfield, Ct.] under our rude style of culture, and two roots planted in deep water have yielded leaves and flowers of surprising size and beauty. The leaf is nearly a foot in diameter, and the flower about six inches across, and larger than any specimen I ever saw before. I picked two of them this morning and they filled the house with sweetness. These flowers are so common now as to be a cheering feature of the traffic along our railways, and children turn many an honest penny by the sale.

Great is the lily family and powerful in piety and devotion. The tuberose is one of the tribe, and in its mingled force and sweetness reminds us of that mercy that is the union of resentment with pity, and without its sweetness would be over-strong and pungent like its country cousin the onion, who too is of the lily family.

This morning there was a church funeral here over the remains of the oldest physician of the village. The organ played a requiem as the coffin with its covering of wreaths and crosses was borne down the aisle, and the tuberoses seemed to lift up their sweet voices in the music and pour out melody from their fragrant, trumpet-shaped throats in answer to the organ.—Surely such fragrance is eloquent, and speaks and sings to us a great many precious sentiments.

I am pushed for time, and have friends to talk to now instead of you, kind readers, and I will break off with a little passage for your Sunday reading on the gospel of the lily from the beautiful French volume of Avrillon, "A Year of the Affections," a book somewhat rare.

"Sicut lilium inter spinas, sic amica vola inter filias (Canticles II.)"

"My beloved," says the celestial spouse, "is like the lily among thorns." She must therefore love and suffer at the same time. When the wind sways the thorns they pierce the lily on every side, but how does this beautiful flower revenge herself for so many wrongs? It is by turning her wounds into so many mouths, from which she breathes forth a sweet perfume to embalm those thorns that have so cruelly torn her. Imitate, O my soul, this love and this lilly among thorns; revenge thy sufferings only by increasing thy love for those who make thee suffer. This mystical lily, though torn among the thorns, has ever in her heart her God, and he carries her by his love.

The Frenchman's religion is full of sentiment, yet it is practical enough to tempt an English verson from grave devotees, and this little passage will do to end and point my prosing on the lesson of the lilies.—*Dr. Osgood in Christian Inquirer.*

THE STOVE FOR THE MILLION!
THE
KEARSARGE
HAS NOT BEEN BEATEN!
URIAH BLAISDELL,
NO. 43 MARKET STREET,
Takes pleasure, as the cold season approaches, in again inviting public attention to this superior
COOK STOVE!
Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well with WOOD OR COAL, an economizer of fuel, and a heavy, well-made and durable Stove, as it is a neat and symetrical one. It has been in no Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified encomiums of its numerous purchasers—all of whom know what a good stove is and how to appreciate it.
Pleasure is taken in showing the KEARSARGE and all in want of a stove of the first merit at a moderate price, are invited to call and examine it whether they purchase or not.

Late Agent of the U. S. Patent Office, Washington under the Act of 1857.
No. 78 State street, (opposite Kilby street,)
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, Bonds, and all papers or drawings for Patents, executed on reasonable terms, with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded in Washington.
No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.
During eight months the subscriber, in the course of his large practice, made on *twice* rejected applications, SIXTEEN APPEALS; *every one of which was decided in his favor by the Commissioner of Patents.*
"I regard Mr. Eddy as one of the *most capable and successful practitioners* with whom I have had official intercourse." THOS. EWING, Commissioner of Patents.
"I have no hesitation in assuring inventors that they can not employ a man *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
Late Commissioner of Patents. EDMUND BURKE,"
"Mr. R. H. EDDY has made for me THIRTEEN applications, in all but *ONE* of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part, leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."

Portsmouth, N. H.

TUESDAY, OCTOBER 1, 1867.

TO NEW BEDFORD.—Having occasion to visit Fairhaven, Mass., a few days since, to examine at the Machine shop there, a new Printing Press—we took cars at the Providence depot in Boston, for New Bedford, which is on the opposite side of the river.—The New Bedford Branch Road runs through Taunton and Mansfield, besides which there is very little of interest to be seen along the line. The only things that at all drew our attention, were a beautiful octagonal house and barn a few miles from Boston—a shape of building which has always been our ideal in imagination, but we believe we never saw it before. It appeared to be all our fancy had long painted it.

This road runs through a long stretch of flat, poor land, like that between Portsmouth and Concord, and eastward to Portland. The scenery is tame, the evidences of life and thrift few and far between. We had designed going direct to New Bedford — which ought no longer to be called *new*—per the Old Colony Road, but on going to that depot found the trains did not suit our case. So we went to the Providence, where Superintendent Folsom kindly extended to us the courtesies due our profession. At the Old Colony we found Albert Blaisdell, Esq., finishing the spacious and convenient new depot he has been constructing, and were indebted to him, as usual, for polite attentions.

Arrived at quaint old New Bedford, a ferry boat took us, after a while, to Fairhaven; where at the Boston & Fairhaven Iron Works we found the object and subject of our pilgrimage—concerning which we will only say now, that if the printing machine realizes our expectations, our readers will ere long have as much reason to rejoice as ourselves. There are almost as many kinds of presses as of mowing or sewing machines or clothes wringers—many of all these good, no doubt, but differing greatly in construction and operation, and requiring some care in selecting the kind best adapted to the needs of the purchaser. We have hunted long and studied well, our subject—and if we are correct, a few weeks will enable us to issue a larger and better paper.

We found the newspaper men of New Bedford, the best set of fellows in the world.—The foreman of the Mercury took his form a couple of miles on a dray,—to the imminent risk of being shaken all to pi, that the new press might print it; and extended every possible courtesy to the press makers and us.—The managers and workmen at the machine shop, also, were very pleasant and agreeable.

Having supped (and breakfasted and dined at the same time) at the Parker House—this is in New Bedford, mind ye, not Boston—and there is as much difference in the houses as in the cities, too—we called on our old friend Elder How. We call him "old," because he numbers many years, but few carry a younger heart about with them than he. And when in his study, we saw the handsome and very convenient black walnut book-case, library table, &c., which he himself has built in his own shop within a few years, and the pear trees and grape vines of his training, and the other evidences of taste and skill in his elegant and attractive home—nothing more was needed to show that his hand has not forgotten its cunning nor is his natural strength much abated. This was pretty evident, too, in the quick, springy step of the old gentleman, as we took a stroll of the city that evening, and we concluded that no man "fat and scant o' breath," had better undertake to walk him down. Elder How—who we believe has never put the new-fangled terminal e on his name, though we often notice other people do for him—insisted on our spending the night with him, and we enjoyed his well-known hospitality much, as we expected, having experienced the same before, under similar circumstances, several years since. The Elder is not now engaged in regular pastoral duty, having declined this a few years since—but is never, can never, be idle; and among other things his marriage list, which now numbers well towards 1800, still increases.

Leaving New Bedford,—which answers our idea of quaint better than any place we know of, but which is by no means devoid of attractions—next morning, we land in Boston in season for noon train home. As we were nearing the public garden, a pair of powerful horses drawing nearly 40 barrels of flour in a three-story wagon, suddenly, as they were climbing the hill, came to the same conclusion the pendulum in the school book did years ago, and "thinks I to myself I'll stop;" and so stop pulling they did, but the immense load took the wagon down the hill, horses and all, in spite of the driver's exertions, till a hind wheel struck and rose over the high curb-stone, and but for crashing through the brick walk, would have demolished the iron fence of the garden. Then the amount of whipping and shouting, and heaving, and hauling, of other men and horses in numbers, which it took to move that load again, would seem to be a lesson to all who saw it, never to load too heavy.

GOLD, Monday, 143 3-8.

— We see it stated that the past season has been the best for the production of honey known during many years.

— Abel Shongo, a horse-thief, hung himself in jail at Moscburg, Vt., the other day, using his suspenders for strangulation.

— A Louisville dispatch states that Gen. Crawford has left there for Nashville with all his troops.

NEW HAMPSHIRE ITEMS.

—— Snow in Concord, Monday, Sept. 30.

—— The house of Augustus Hadley, of Hopkinton, was destroyed by fire, Sept. 26.

—— The immense new mill of the Nashua Manufacturing Co. will be dedicated on the evening of the 3d inst.

—— Reuben M. French of Newmarket, has been appointed Route Agent on the Boston and Maine Railroad, in place of S. B. Cole of Great Falls, resigned.

—— A wide awake scoundrel in Nashua, N. H., tumbled against a store-keeper's window and broke a large pane of glass; he then handed the keeper of the store a counterfeit $100 bill to pay damages, and received back $90 in good money, with which he incontinently sloped.

—— John Mullen, 6 years old, in Manchester, at noon on Friday, was instantly killed, by being run over and crushed by a four-horse team drawing logs. He had just come out of school, and running to the load, caught hold of the log to ride, fell off and was run over by the hind wheels.

—— "L. W. Rowell has discontinued the Littleton Gazette, and subscribers who paid in advance will be, for the balance of the year, supplied with the White Mountain Republic—a paper of Democratic politics, recently commenced by C. E. Cary, in the same town." Well, we should think that kind of a sheet would go better in that locality—but newspapers are a hard load to start in these days, any way or any where.

☞ The following patents bearing date Sept. 24, have been issued to parties in this State:

James B. Fellows of Concord, assignor to C. C. Jones of Portland, Me., for improvement in braces for boring bits.

Alexander Jack of Milton, assignor to self and Edward Brierly of same place, for improved mode of dyeing and embossing table and piano covers.

Henry J. Miller of Nashua, for improved boot-jack and blacking brush.

A. B. Woodbury of Ashuelot, for improvement in jack spinning machine.

Luke W. and Robert A. Blood of Springfield for improvement in water-wheels.

Daniel Kidder of Franklin, for improvement in spring fish-hooks.

C. P. S. Wardwell of Lake Village, for improved machine for making needles.

VERMONT ITEMS.—A salmon trout weighing 165 pounds was caught at Glover last week.

S. W. Monroe, the representative elect from Shaftsbury, weighs 320 pounds.

Barton, Orleans county, produced 1177 tubs or 62,562 pounds of butter during the months of August and September.

Harrison Richardson of Roxbury, of oats raised on new land, from one oat, twenty stalks, on one of which he counted two hundred and forty oats, and the straw measured six feet and four inches.

A Mr. Powers of Pittsfield makes it a point to present $1 to every Union soldier he meets who has lost a leg or an arm in his country's service.

GREAT TRAVELLING.—DeMather, formerly a captain in the Confederate army, walked from Vera Cruz, Mexico, to Memphis, Tennessee—3190 miles—in 145 days, being about 22 miles per day. What is the more singular, he had to walk with a crutch, as a wound in his ankle, received while in the imperial army of Mexico, made him lame.

— A Leavenworth special of the 27th states that 1400 Indians, consisting of Apaches, Arapaboes, Kiowas, Camanches and a few Cheyennes, are assembled 60 miles south of Fort Larned, waiting for the Peace Commission.

— The Circuit Court of Richmond has decided that no preference can be shown to any class of creditors by banks making assignments, and that deposits in Confederate money are to be treated as debts of the bank, of the same value as when deposited.

— It is proposed to construct a magnificent church in Tarrytown, N. Y., to the memory of Washington Irving. The vestry of St. Mark's church have determined to set apart the new edifice they are building as his memorial. It will cost about $40,000.

— The Superintendent of Schools in Buffalo has ejected the colored children from the public schools there. A school was set apart for colored people, but these parties preferred to go elsewhere. Their parents now threaten to sue the Superintendent under the Civil Rights bill.

— The well known trotting stallion Honest Allen has been sold to Mr. John Stewart of Boston. He will remain, however, in Mace's stable with Ethan Allen until after their trot match with George Wilkes,—George to go to wagon and they to pole, Monday, October 14.

— Advices from Hayti to the 8th Sept. state that country was in an extraordinary state of agitation. Gold was fabulously high and provisions scarce. Flour was $20 in gold per barrel, and 34 Haytien dollars were only a fourth of one Spanish silver dollar. The Cacos were still in arms against Salnave, and had pillaged Delmari, a town in the south.

ITALIAN TROUBLES.—The particulars of the riots in various parts of Italy last week show that they were more serious than at first reported. In some cities the mobs were fierce and obstinate, and the troops were frequently obliged to use their bayonets and sometimes to fire upon the people. Many citizens and some soldiers were killed and a large number wounded.

Garibaldi has written a letter in which he says the Romans have the right, which all slaves have, of rising against their oppressors, and that it is the duty of Italians to help them in their struggle for liberty.—He hopes his fellow patriots will not be discouraged by their last reverse, and exhorts them to reorganize and march on again to the liberation of Rome. The letter concludes with an appeal to the Liberal party of Italy, declaring that the eyes of the world are turned upon them and the nations of the world anxiously await the result of their action in the present crisis.

☞ The patent dump wagon which is advertised on our 4th page this morning, has been tested by two or three year's use, and the principle is approved by all who see it.—The Portland papers, where it was first introduced, all speak in the highest terms of it; and Col. A. J. Beck of this city has manufactured one, which meets universal commendation. See the advertisement of the patentee.

☞ The Strafford County Fair, at Dover, which was to commence to-day, has been postponed on account of the storm and its effect on the track,—to Thursday, Friday and Saturday of this week. The managers say the indications are that the affair will be a great success, as we hope it will.

☞ Gen. Sheridan had an enthusiastic reception at Newark, N. J., on Saturday afternoon. He has accepted an invitation to visit Boston, and will be in that city on Monday next, Oct. 7th.

— At Somerville, N. J., on Friday, in a double team trot, Ethan Allen and mate made a mile in 2:19 1-2 on a half mile track. The time is extraordinary.

— A special Washington dispatch says the forthcoming statement of the public debt will show a further reduction in the total, though not so large as the last one.

— Official information shows that Gen. Griffin's order removing the Supreme Court Judges in Texas, has not been revoked.

— On Wednesday evening last a lady named Mary Arnod died at her residence in Brooklyn, N. Y., at the age of 110 years. Her death was occasioned from injuries sustained by a fall about three weeks since. She was born in Georgetown, S. C., in 1757.

—On Monday afternoon an intoxicated individual passing a house in New Haven, heard some one playing on a banjo, when he leaped over a fence, threw off his coat and vest, and commenced a lively jig.—When he had danced enough he departed, leaving coat and vest behind him, together with a silver watch and some currency.

— A dispatch from Oregon states that Lieut. Small, of the First United States Cavalry, fought and defeated a band of Snake Indians near Lake Albert, the same band which lately defeated Gen. Cook's friendly Indians. After the first charge the Snakes made for the swamps, but the troops dismounted and fought them waist deep in the water. Twenty-six warriors, with their chief, were killed, and fifteen taken prisoners. None of the soldiers were hurt.

— A Constantinople special of the 27th states that the Russian demands for the cession of Crete to Greece, and for equality of Christians, being refused, the Russian ambassador, Gen. Ignatieff, went to make a report to the Czar. He has just returned to that city. The Czar declines to see the Sultan, there being nothing agreeable to say. Neither party recedes from its position. Accounts from Athens state that a large party in Greece favors deposing the King and proclaiming a Republic under the protectorate of the United States, or annex it as three States.

All persons who sell Herrick Allen's Gold Medal Saleratus are authorized to give their customers the privilege of using one-half the paper, and if not perfectly satisfactory, to return the balance and get the money paid for the whole. It is the best in the world. It is a great deal better than soda to use with cream tartar. Try it. Most of the grocers and druggists keep it. 9

THE COMPASS BOXED.—East, west, north, south, in every direction, Fyle's O K Soap is superseding all others. Its detersive and economical qualities are readily appreciated by housekeepers, and grocers find a ready sale for it. 21

☞ In the Portland Press of Monday, Walter Brown publishes an acceptance of the challenge of Richard Tinning of Toronto, to row a five mile race in Portland harbor for $500 in gold, granting $200 for expenses, or in Toronto on the same terms, or in Lachine, Canada East, defraying his own expenses.

To William Jackson of Pittsburg he says that he would "row in Boston for a small stake, or even npon some other fair water, but as age deprives the laurel of its verdure, so would Mr. Jackson's age strip the race of the interest and honor which would attend a trial of this kind."

RICH, FRUITY, LUSCIOUS

WINES!

California is making grand strides in her agricultural products, and is fast withdrawing herself as a purchaser for the manufactures of the various branches of industry she once demanded. She sends a warning voice to the time-worn vineyards of Europe, and enters the lists as a fresh, young combatant for the production of wines from her own rich and increasing vineyards.—The time has come when it is simply ridiculous for any one house to lay claim to especial advantages or peculiar privileges for the sale of

THE WINES OF CALIFORNIA.

As well might they claim a monopoly of the cotton trade.

C. A. RICHARDS & CO.

do not receive or sell all the wines which California produces, but they do claim to have at all times a very large quantity on hand of all the best kinds, and their advantages for getting the best, and getting them at the lowest market value, are such as to enable them to offer them at prices which to-day are lower than any other house which sells California Wines of equality. We bottle five kinds. They are,—

"Angelica,"
"Muscatel,"
"Still Champagne,"
"Hock" and
"Port,"
Also "California Brandy."

They are all perfectly pure, and may be relied upon in sickness or in health. The **Angel** and **Muscatel** are rich, sweet wines. The **Hock** is fully equal to the medium grades of Rhine wines. The **Port** is actually better than many of the high cost Ports from Oporto. We sell these wines in any required quantity, from a single bottle to a THOUSAND CASES, and are ready at all times to exhibit samples, or to send them to any address,

CHRONIC CATARRH.

There are undoubtedly hundreds in this vicinity who are suffering from Chronic Catarrh and its unhappy consequences, who are not aware of the danger to which they are exposed. The symptoms of this disease are usually so mild at first, as to excite little or no attention on the part of the sufferer, and thus it is allowed to pass on from one stage to another, involving in its destructive march more and more serious results. Reader, if you would avoid the dangers of a seated Consumption, do not neglect a "Cold or Catarrh in the head." That this disease is so fatal in its tendency and productive of such unhappy consequences, no one will be surprised to learn, if he will but reflect that every breath of air that is inhaled into the system, by those suffering from Chronic Catarrh, must pass over an unhealthy and diseased membrane, and the air in passing over those putrid and ulcerated surfaces, must of necessity imbibe the most noxious and deadly properties, and in this manner every breath of air you take into the lungs is converted into a poisonous agent of death. There is no disease in the entire catalogue of human ills, the treatment or which has been so little understood as Chronic Catarrh, and hence from the practice ordinarily adopted by the profession, there is little to hope.

DEAFNESS,

Weak eyes, noises, pains, and disagreeable sensations in the head usually attributed to Neuralgia, frequently arise from Catarrh.

Dr. C's success in treating Catarrh has been almost wonderful. He does not profess to cure every case that may be presented to him, but having had years of experience in treating Diseases of the Eye, Ear and Throat, and Catarrh alone, he thinks himself better qualified to perform cures in many cases than physicians who have not enjoyed similar opportunities.

HOME TESTIMONIALS.

From the Lewiston Journal, May 24th, 1867.

Dr. Carpenter, who has been in this city for a few weeks at the De Witt House, treating diseases of the Ear, Eye and Throat, will leave for Bath in a few days, but we cannot forbear adding a word of special endorsement to the Doctor's skill and ability. There are many good reasons why people should look with distrust upon professionals generally, who practice from place to place — But these do not apply to Dr Carpenter, who confines his practice to the leading cities and towns in Maine, and has met with great success everywhere he has practiced. He is a reliable and skilful specialist, and a physician of reputation and honor. We are informed that the Doctor has visited our city—a feeling in which large numbers who have received the benefit of his treatment unite. We trust the Doctor's engagements will permit him to visit Lewiston frequently.

From the Augusta Gospel Banner, Feb, 16, 1867.

Persons troubled with blindness, deafness or catarrh, will do well to consult Dr. Carpenter.—We know him personally. He is a gentleman—is well read in his profession, is no humbug or deceiver, will not, as many do, tell the patient he can effect a cure without reasonable grounds for the declaration. He brought several cures in this vicinity, and essentially helped others who had suffered for years. This is written by the editor of the Banner without solicitation from any one.

From the Portland Press.

Dr. Carpenter, the Oculist and Aurist, who has been spending several months in practice in this city, has had marked success in the treatment of diseases of the Eye, Ear and Throat, as also of Catarrh in its worst form. He is well versed in the treatment of the diseases he has made his specialities, gentlemanly in the treatment of patients, and prompt in the discharge of all pecuniary obligations.

☞ DR. CARPENTER, during the past few years, has confined his practice to the principal cities and towns in Maine, the State of his residence, but having received many solicitations from persons in Portsmouth and vicinity, he has been induced to visit Portsmouth a few weeks professionally.

DR. SCHENCK'S NEW OFFICE.
☞ DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of No. 25 HANOVER STREET, Boston, where he will be professionally consulted DAILY, from 9 to 2. Every person complaining with Consumption or any disease leading to it, is invited to call on Dr. Schenck, free, but for a thorough examination with his Respirometer, for the charge is five dollars.
Dr. Schenck can explain to patients very correctly the stage of their disease, and how far his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, will assist the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part; also whether it is Tuberculous, Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an ulcerated throat and catarrh, or from Liver Complaint.
His medicines have full directions, so any one can take them without seeing him, but if they live near by and are well enough, it is best to see him. All three of his medicines are needed in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver is kept in perfect order. To get lungs in a healing condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy.
He keeps a full supply of medicines at his rooms, which can be had at all times.
Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents.

☞ Arrangements are progressing for the Fair in this city next week, though there is an immense amount of work to be done, if the managers hope to equal or excel the other Fair in our shire town the same days,—for our jealous up country friends alluded to have announced to continue three days also, and offer a purse of $250 for trotting the third day. The heavy rain will greatly assist in getting the new Rockingham Trotting Park (which has been leased for this occasion) into good condition, and the soil and situations are such that it can hardly be too wet for use when needed. If all who wish for the success of the Fair, and the P. R. Agricultural Association, which has it in charge, will take hold and work for it, and contribute money and stock, the result is secure.

I. O. OF O. F.—The Grand Encampment of New Hampshire holds its annual session in this city on Monday next.

On Tuesday, the first day of our Fair, the Grand Lodge of this State holds its annual session in this city, for the first time in fifteen years, and we believe only the second time it has ever met here. In the evening there will be a grand complimentary ball at Congress Hall, given by the fraternity in this city to their visitors.

☞ On Sunday afternoon about 3 o'clock, Dennis McCarthy, aged about 17 years, was stabbed by James Sullivan, a lad of about the same age. The boys had been up river in a boat together, and on their return, during an altercation on Bow street, the stabbing took place. McCarthy received a cut on the right cheek, and another on the left side, the latter quite long and deep.

☞ The new Trotting Park will be completed this week, and receives the approbation of many of our leading citizens who have visited it within a few days, and are surprised to find it so well arranged and constructed. If rightly managed, such an institution will be a benefit as well as pleasure to our city; and while we esteem it as worthy the encouragement of all gentlemen,—the more such who are interested in it, the surer it is of being governed aright.

POLICE COURT, Sept. 35.—Thomas Conner, for robbing a garden of fruit, was sentenced to hard labor at the Almshouse for fifteen days, and pay $5.57 costs.

S. A. Avery, was charged with violation of the Sunday ordinance in keeping open the bar room of the Piscataqua House.—He was fined $10 and $5.74 costs, from which decision he appealed, and gave bonds to prosecute his appeal.

Thomas English, who "walked Spanish" on Congress street, while intoxicated, paid the American fine of "$6.86" imposed in such cases.

Thomas Flynn, drunk, was fined $3 and $3 86 costs.

Henry Peirce, drunk, same fine.

Henry Alton and William Noon were charged with violating the Sunday ordinance in keeping a shop, known as the Clinton House, open on the Sabbath for the sale of liquor. Alton was considered not guilty, and Noon was fined $10 and $5.57 costs.

James Palmer, for habitual truancy, was sent to the Almshouse for fifeen days, and ordered to pay $4.67 costs.

Communication.

☞ The statement in Monday's Chronicle that the Minnehaha Club won a game of base ball with the Rockinghams on Saturday, is incorrect. But five members of the Rockingham club were present, and they were divided between the two sides. If the Minnehahas are confident of winning a match with the Rockinghams, the coming Piscataqua Fair furnishes an excellent opportunity for the trial. The Rockinghams have received urgent invitations to play at the Exeter Fair, but prefer a match at home. Q.

☞ The presence of a multitude of officers in Washington during the war, was illustrated by the story of a man who, while standing in a hotel door, threw a stick at a dog, missed the mark, and hit five brigadier generals. The story was recalled to mind a day or two since by seeing a quintet of naval officers standing in front of the Rockingham House, including one admiral, one commodore, two captains, and one commander.

GREAT PANES.—While workmen were removing a sign over the store in the west end of Pierce's Block, on Friday, the ladder shipped and broke two of the large lights of glass in the window below.—Though bidders for public patronage advertise to "spare no pains," the gentlemen spared six out of the eight panes in that window.

☞ It is to be regretted that the Exeter paper and people don't like the arrangements for the Fair here; but then it should be borne in mind that things here were not fixed with special reference to their approval, more than their's were for ours.

☞ A shooting affair, growing out of marital infelicity, occurred at Kittery on Sunday evening, of which we suppress the names for the present.

BASE BALL.—A match game will be played at the Plains, on Wednesday afternoon, by the Minnehaha and Botton Clubs. Play begins at 2 o'clock.

NAVAL.—Lieut. Comd'r Robert Boyd, Jr., has been ordered to screw steamer Wampanoag during her trial trip.

☞ Several fishing vessels are reported to have been carried ashore near the mouth of our harbor during the storm of Sunday night, but we have heard of none where the vessel will not be readily got off. A large fleet has been lying in the lower harbor for a few days.

☞ A. H. Gibon, Surgeon, U. S. N., is detached from duty at this naval station and ordered to a vessel about joining the Asiatic squadron.

☞ Base Ball is getting to be almost as popular as Horse Trotting, at Fairs. We hope the managers of the Piscataqua Fair will give us a Base Ball match.

☞ The thermometer fell 32 degrees in 24 hours, ending Monday morning.

— Tower Rock, in Boston harbor, has been removed by United States engineers, and the channel deepened at that point to twenty-three feet at low water.

— Gen. Scott's will, just probated, bequeaths all his property to his daughter, Mrs. Col. Scott. His other daughters had previously been given very nearly equal portions of his effects. His Pulaski sword was left to West Point Academy, and his sword worn in Mexico to his grandson, Winfield Scott Hoyt.

☞ The Headquarters of the P. R. Ag. Association are at Room No. 4, Franklin House. Meetings will be held every evening, and all officers, members and other citizens interested in the success of the Fair, are invited to be present. 1w

IMPORTANT ANNOUNCEMENT LAST CALL! The Gleason Hall Presentation Festival and Drawing will POSITIVELY TAKE PLACE on THURSDAY Evening, October 10, 1867.—This is no gift swindle gotten up under the guise of charity to defraud the public, but a purely business enterprise, gotten up on strict business principles, to dispose of the large and valuable property named in our advertisement. The better to please the public that are inclined to invest, we allow all of our agents to retain all moneys they receive from the sale of tickets until the drawing takes place, and we advertise to that effect. Parties desirous of investing had better secure their tickets in time, as the drawing will positively take place on the evening above named.

Fresh Beef and Vegetables.

NAVY PAYMASTER'S OFFICE,
53 State St. Portsmouth, N. H., Oct. 1, 1867.
SEALED PROPOSALS, endorsed "Proposals for Fresh Beef and Vegetables," will be received at this office until 2 o'clock, P. M. on the 12th day of October, for the supply of 50 000 pounds of Fresh Beef, and 50 000 pounds of Fresh Vegetables, at the Portsmouth Navy Yard and Station, as required. The Beef and Vegetables must be perfectly fresh and of good quality, and each article must be offered for by the pound. The Beef to be in equal proportions, fore and hind quarters.
Bonds, with approved security, will be required in one-half the estimated amount of the contract, and twenty per cent. in addition will be withheld from the amount of each payment to be made, as collateral security for the due performance of the contract, which will, on no account, be paid until it is fully complied with.
Every offer must be accompanied by a written guaranty, signed by one or more responsible persons, that the bidder or bidders will, if his or their bid be accepted, enter into an obligation within five days, with good and sufficient sureties, to furnish the articles proposed. The responsibility of the guarantors to be certified to by the Assessor of Internal Revenue for the District in which they reside.
No proposal will be considered unless accompanied by such guaranty, and by satisfactory evidence that the bidder is a regular dealer in the articles proposed, and has the means required by act of Congress.
The Department reserves the right to reject any proposal not considered advantageous to the Government.
It is understood that in case the stipulated quantity of either article shall be delivered, leaving a balance due on the other article, the contract may be considered as completed in full at the option of the Department.

ACROSS THE SIERRA NEVADAS.
THE
CENTRAL PACIFIC RAILROAD,
THE WESTERN HALF OF THE
GREAT NATIONAL TRUNK LINE
ACROSS THE CONTINENT,
being constructed with the AID and SUPERVISION OF UNITED STATES GOVERNMENT, is destined to be one of the MOST IMPORTANT LINES OF COMMUNICATION IN THE WORLD, as it is the *sole link between the Pacific Coast and the Great Interior Basin*, over which the immense Overland travel must pass, and the
First Section of the Main Steam Line between the Two Oceans.
Its line extends from Sacramento, on the tidal waters of the Pacific, eastward across the richest and best populated parts of California, Nevada and Utah, contiguous to all the great Mining Regions of the Far West, and will meet and connect with the roads now building east of the Rocky Mountains. About 100 miles are now built, equipped and in running operation to the summit of the Sierra Nevada Mountains, within a few days 35 miles, now graded, will be tracked, and the track carried entirely across the mountains to a point in the Great Salt Lake Valley, whence further progress will be easy and rapid. Iron, materials and equipment are ready at hand for 300 miles beyond, and 10,000 men are employed in the construction.
The local business upon the completed portion surpasses all previous estimate. The figures for the quarter ending August 31 are as follows:

GROSS EARNINGS,	OPERATING EXPENSES,	NET EARNINGS,
$187,579 61	$86,548 47	$401,031 17

or at the rate of two millions per annum, of which more than three fourths are net profit on less than 100 miles now open for use upon the actual legitimate traffic of the road, with its terminus in the mountains, and with only the normal ratio of government transportation and it exclusive of the materials carried for the further extension of the road.
The Company's interest liabilities during the same period were less than $125,000.
Add to this an ever expanding through traffic and the proportions of the future business become immense.
The Company are authorized to continue their line eastward until it shall meet and connect with the roads now building east of the Rocky Mountain ranges.
Assuming that they will build and control half the entire distance between the San Francisco and the Missouri River, as now seems probable, the United States will have invested in the completion of 855 miles $28,592,000, or at the average rate of $33,000 per mile—not including an absolute grant of 10,000,000 acres of the Public Lands. By becoming a joint investor in the magnificent enterprise, and by waiving its first lien in favor of the First Mortgage Bondholders, the GENERAL GOVERNMENT, IN EFFECT, INVITES THE CO-OPERATION OF PRIVATE CAPITALISTS, and has carefully guarded their interests against all ordinary contingencies.
The Company offer for sale, through us, their
First Mortgage Thirty Year, Six per Cent. Coupon Bonds,
Principal and Interest payable in Gold Coin, in New York city. They are in sums of $1000 each, with semi-annual gold coupons at 6 per cent. per annum, and are selling for present at 93 per cent. and accrued interest from July 1st added in currency, at which rate they yield nearly
Nine per Cent. upon the investment.
These Bonds, authorized by Act of Congress, are issued only as the work progresses, and to the same amount only as the Bonds granted by the Government and expressly issued on the *first* 150 miles upon a completed, equipped and proved railroad, in which have been invested Government and individual stock, subscriptions, donations, surplus earnings, etc., and which have cost more than three times the amount of First Mortgage Bonds which can be issued upon it.
The Central Pacific First Mortgage Bonds have all the assurances, sanctions and guaranties of the Pacific Railroad Congress, and have in addition several noticable advantages over all other classes of railroad bonds.
First—They are the superior claim upon altogether the largest and most valuable portion of the through line.
Second—Besides the fullest benefit of the Government subsidy, which the Company have in fact, the road receives the benefit of large donations from California.
Third—Half the whole cost of grading 800 miles eastward of San Francisco is concentrated upon the 150 miles now about completed.
Fourth—A local business already yielding three-fold the annual interest liabilities, with advantages more valuable than can be named.
Fifth—The Principal as well as the interest of its Bonds being payable in coin, upon a legally binding agreement.
Having carefully investigated the resources, progress and prospects of the road, and the management of the Company's affairs, we cordially recommend these Bonds to Trustees, Executors, Institutions and others as an eminently *sound, reliable and remunerative form of permanent investment.*

SENATOR THAYER ON THE PRESIDENT. The following is from Senator Thayer's Cincinnati speech, in which he predicts that President Johnson will make forcible resistance to the authority of Congress:

"The question may be asked, 'How can he do such a thing?' You recollect that six months ago Governor Swann of Maryland was elected a United States Senator, and that a few weeks afterward he declined, giving grave reasons of State as the cause. It was that Lieut. Governor Cox of that State could not be trusted for Johnson's purposes. There is to-day a standing army in Maryland, an organized military force, such as no other State in the Union has, officered mainly by returned rebels.—When the time comes which he looks for, under some pretenses Johnson may declare Maryland and the District of Columbia under martial law, and call upon Governor Swann to bring forth his militia. There is nothing that will deter Johnson from his purpose, except when the issue comes that his courage may fail. I make this statement that the American people may know the danger that threatens their peace and safety."

INFLUENCE OF THE MOON ON THE WEATHER.—The few scientific observations of the weather that extend over any considerable period fail to confirm the popular impression relative to lunar influence in determining the character of the weather. Dr. Marcet examined a register of the weather kept at Geneva for thirty-five years to test this idea. The results which he obtained seemed upon the whole to lead to some support to the popular notion of the influence of the new and full moon, but none whatever to any special influence of the first and third quarters.—Against this slight confirmation are set the results of observations made at the Greenwich Observatory since 1840, from which it seems that changes of weather have been found to be as frequent at every age of the moon as as when she is seven, fourteen, twenty-one or twenty-eight days old.

CURIOUS NATURAL FACT.—At the time of the fire in Wrentham, Mass., which destroyed so much property a few weeks ago, two large horse chestnut trees which stood in front of the Bank building were badly burned, being within twenty feet of the burning buildings. At present new green leaves and blossoms are upon the burned limbs, which have come forth since the fire.

INFLUENCE OF LITTLE THINGS.—Chemists tell us that a single grain of the substance called iodine will impart color to seven thousand times its weight of water. It is so in higher things: one companion, one book, one habit may effect the whole of life and character.

NEW ADVERTISEMENTS.

THE RICHEST MAN IN THE WORLD.
Extract of a Letter from Baron Salomon Rothschild.
PARIS, 8th April, 1864, 35 Rue Faubg St-Honore.
Will you be kind enough to have forwarded to me here 200 bottles of your Indian Liniment; if you will send at the same time your account, I will forward you the amount through Messrs. BELMONT & Co., New York.
Baron Salomon Rothschild having recommended to many of his friends Major LANE'S LINIMENT, and they being desirous to procure it, he should advise him to establish a depot in Paris.

THE INDIAN LINIMENT.
As a relief, ever ready; as a killer of pain, taken inwardly, or outwardly applied, has no equal.—*For the relief and cure of Rheumatic and Neuralgic Affections Sprains, Bruises, &c.*, it is unequalled.—It is also most effectious taken inwardly, in the cure of *Cholera, Cramps and Pains in the Stomach, Diarrhœa, Dysentery, Cholera Morbus, Cholera Infantum, &c.*, and is without exception the Most Wonderful Panacea the world affords. NOT A FAMILY should be without it. Every TRAVELER by land or sea should have a bottle. MINERS and FARMERS residing at a distance from physicians should keep it constantly on hand. In case of accidents and sudden attacks of Stomach Complaints, its value cannot be estimated. Enquire for **Major LANE'S INDIAN LINIMENT**, and take no other. Price **50 Cents** per bottle. For sale by all Druggists and retail Dealers. NOEAN-ELY & CO., 21 Park Row, N. Y.; Gale & Robinson, 186 Greenwich street, N. Y.; F. C. Wells & Co., 138 Fulton street, N. Y.; Lyman Brothers, 68 & 70 Fulton street, N. Y., and by respectable Druggists throughout the world. None genuine unless signed by the name of THOS. LANE, and countersigned by J. T. LANE & CO., Proprietors, 165 Broadway, N. Y. Send for circular.

"Buy Me, and I'll do you Good."
Use **Dr. Laugley's Root and Herb Bitters**, for Saundice, Costiveness, Liver Complaint, Humors, Indigestion, Dyspepsia, Piles, Dizziness, Headache, Drowsiness, and all Diseases arising from Disordered Stomach, Torpid Liver and Bad Blood, to which all persons are subject in Spring and Summer. Sold by GEO. C. GOODWIN & CO., Boston, and by all Dealers in Medicines.

MORE VALUABLE THAN GOLD.
Dr. WADSWORTH'S DEW UP, for the Catarrh, a perfect Remedy, and cure for the loathsomest disease in its worst form. No person suffering from Catarrh or a bad Cold in the Head, should hesitate a moment, but procure the remedy at once, and be cured. There is not any mistake in the above. Price $1 per bottle. Send stamp for pamphlet, all about the Catarrh. For sale by the Proprietor, H. H. BURRINGTON, Druggist, Providence, R. I. Also by G. C. Goodwin & Co., Boston, and druggists general y.

A Man of a Thousand. A Consumptive Cured.
DR. H. JAMES, a retired physician of great eminence discovered, while in the East Indies, a certain cure for *Consumption, Asthma, Bronchitis, Coughs, Colds and General Debility.* The remedy was discovered by him when his only child, a daughter, was given up to die. His child was cured and is now alive and well. Anxious of benefitting his fellow mortals, he will send to those who wish it the recipe, containing full directions for successfully using and preparing this remedy, free, on receipt of their names, with two stamps to pay expenses. There is not a single symptom of Consumption, Asthma or Bronchitis but once take hold of and dissipate. Night sweats, peevishness, irritation of the nerves, failure of memory, difficult expectoration, sharp pains in the lungs, sore throat, chilly sensations, nausea at the stomach, inaction of the bowels, wasting away of the muscles.
☞ The writer will please state the name of the paper they see this advertisement in Address, CHADDOCK & CO., 1063 Race street, Philadelphia, Pa.

FIRST MORTGAGE BONDS.
ST. LOUIS AND IRON MOUNTAIN RAILROAD CO.
Seven per cent. Interest, February and August.
These Bonds cover a road of 90 miles finished from St. Louis to Pilot Knob, and in first-class order, and an extension of about the same length from Pilot Knob toward Iron Mountain, now rapidly constructing, for which the proceeds of these Bonds are to be used, making a through route from St. Louis to New Orleans by rail. The earnings of 91 miles are $600,000 a year; the net profits are now sufficient to pay the interest on the entire issue of Bonds, were they all issued. The land grant of security is believed to be beyond that of any other bonds now offered. Apply at the office of the Company, No. 43 Wall street, to JULIUS MARQUAND, Vice President, or to CLARK, DODGE & CO., corner Wall and Williams street.

THE FLIGHT OF THE GODDESS.
BY T. B. ALDRICH.

A man should live in a garret, I think,
And have few friends, and be poorly clad,
With an old hat stopping the wind in the chink,
To keep the Goddess constant and glad.

Of old, when I walked on a rugged way,
And gave much work for but little bread,
The Goddess dwelt with me night and day,
Sat at my table, haunted my bed.

The narrow, mean attic, I see it now—
Its window o'erlooking the city's tiles,
The sunset's fires, and the clouds of snow,
And the river wandering miles and miles.

Just one picture hung in the room,
The saddest story that Art can tell,—
Dante and Virgil in lurid gloom
Watching the lovers float through Hell.

Wretched enough was I sometimes,
Pinched and harrassed with vain desires;
But thicker than clover sprung the rhymes
As I dwelt like a sparrow among the spires.

Midnight filled my slumbers with song;
Music haunted my dreams by day;
Now I listen and wait and long,
But the Delphian airs have died away!

I wonder and wonder how it befell;
Suddenly I had friends in crowds;
I bade the house-tops a long farewell,
"Good-by," I cried, "to the stars and clouds.

But thou, rare soul, that has dwelt with me,
Spirit of Poesy! thou divine
Breath of the morning, thou shalt be,
Goddess, forever and ever mine."

And the woman I loved was now my bride,
And the house I wanted was my own;
I turned to the Goddess satisfied,—
But the Goddess had somehow flown!

Flown, and I fear she will never return!
I'm much too sleek and happy for her,
Whose lovers must hunger, and waste, and burn,
Ere the beautiful heathen heart will stir!

I call,—but she does not stoop to my cry;
I wait, but she lingers, and ah! so long!
It was not so in the years gone by, [song.
When she touched my lips with chrism of

I swear I will get me a garret again,
And let the wee wife see the sunset's fires,
And lure the Goddess by vigil and pain,
Up with the sparrows among the spires!

For a man should live in a garret aloof,
And have few friends and be poorly clad,
With an old hat stopping the chink in the roof,
To keep the Goddess constant and glad.

Atlantic Monthly, October.

☞ There is a paper published in Wisconsin, called the La Crosse Democrat, which probably has a larger circulation than any other copperhead paper in the country and may be considered as the organ of the "Democracy." Here is what it says of repudiating the national faith:

We are in earnest, and intend to fight it out on this line if it takes a life time. "The faith of the nation" is all bosh! Had the debt been made to save or restore the Union, we should say, pay it.

But it was made, not to save the Union, but enrich a favored few at the expense of toiling many and to keep in power the Radical party.

The nation is not bound to pay for private boxes at the theatre, for picnic parties, for furniture for thieves, nor is it bound to pay bonds issued to keep any party in power.

The Radicals destroyed the Constitution—

Booth killed the Government—

Our fealty is to the working millions of America, who can find relief from enormous taxation in

REPUDIATION!

And if you don't like it, howl!—We hold no bonds and are ready to help organize a party to throw the first *Internal Revenue Collector that comes* into this Congressional District into the Mississippi river, as the *patriots we venerate* threw the tea into the harbor where our interogator resides.

We pay taxes to support the nation—*not to maintain a party!*

Millions for defense, but not one cent for Rump protected *Bond Holders.*

Repudiation!

That is just what we mean. If Lincoln could break through the Constitution to wipe out the taxable slave property of the South, we dare rip our pen through the Bonds which hold the *people* in servitude, to bring relief from the incubus, and wipe out the Bond Holders of New England by *Repudiation!*

How do you like it? Why not let the *people* make money too? And they will do it by

Repudiation!

THE STOVE FOR THE MILLION!
THE
KEARSARGE
HAS NOT BEEN BEATEN!
URIAH BLAISDELL,
NO. 43 MARKET STREET,
Takes pleasure, as the cold season approaches, in again inviting public attention to this superior
COOK STOVE!
Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well with WOOD OR COAL, an economizer of fuel, and a heavy, well-made and durable Stove, as it is a neat and symetrical one. It has been to no Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified encomiums of its numerous purchasers—of all who know what a good stove is and how to appreciate it.
Pleasure is taken in showing the KEARSARGE and all in want of a stove of the first merit at a moderate price, are invited to call and examine it whether they purchase or not.
The following names form its large list of purchasers are given for reference:

The Daily Chronicle.

Portsmouth, N. H.

WEDNESDAY, OCTOBER 2, 1867.

THE NEW HAMPSHIRE GAZETTE, one of our exchanges, is the oldest paper in America. It was established Oct. 7th, 1756, and has reached its one hundred and eleventh volume. We should like to see the first files of that aged journal, as they must be a great curiosity.—*Schenectady Dorpian.*

These files, complete, or nearly so, may be found in the Portsmouth and Boston Athenæums; and they conclusively establish the claim of this Gazette to be the oldest paper in the country. A fac simile of the first number was published at the Printer's Centennial Celebration in this city, in 1856, and the cast of the same is preserved by the N. H. Hist. Society at Concord. It was less than half the size of the present Gazette or Chronicle.

☞ At Nashville, Tenn., Sept. 30, the city authorities petitioned Chancellor Harrison for an injunction restraining the newly elected Mayor and Council from being inducted into office. The Commissioners of Registration have notified Recorder Foster that if he does not administer the oath of office to the new Mayor and Council the Commissioners will.

The Council held a meeting and adopted a resolution instructing the Mayor to ascertain from the Secretary of State whether the newly elected officers had taken the candidates' oath required by law. It was believed that if the old officers do not vacate, Gen. Coopor will eject them.

☞ Helper's "Nojoque" meets with little favor at the South. The New Orleans Times says:

"After accomplishing all the harm he could to the South, and making all the money he could by his radical apotheosis of the negro, he now puts forward as 'Nojoque' the strongest argument in favor of the negro's deportation or extermination, probably thinking there is money to be made on the other side. It may be read from curiosity to learn the absurd extremes of Radicalism."

Helper's Crisis contained much truth but yet on the whole was a foolish book. His other book contains less truth and more folly.

NEW YORK CITY ITEMS, *Monday.*—Gen. Sheridan visited the "Black Crook" Saturday night and the Park yesterday morning, and went to church in the evening. Over 6000 persons have signified their intention of participating in the procession this evening.

Eighty females were arrested on the street Saturday night.

The journeymen shoemakers strike to-day for higher wages.

May Lyons committed suicide and John Jennings attempted it at Brooklyn yesterday. Walter R. Jones, ex-staff officer of Stonewall Jackson, has been arrested for swindling Warren Leland of the Metropolitan Hotel, and many others.

F. Burleigh's dry goods store, on Broadway was found open this morning and robbed of $12,000 worth of silks.

There were 437 deaths in this city last week.

LOUISIANA CONVENTION VOTE.—The total vote of New Orleans falls 2529 short of a majority of the number of registered voters. The Republican has received further returns from Algiers and the parishes of St. Bernard, St. Charles and St. James, showing that so far 850 less than a majority of the number registered have voted on the Convention question, but returns from the country parishes indicate that a majority in the whole State have voted.—The vote against a convention was insignificant, as was the number of white votes, the proportion of whom is less than one in ten.

GOLD, Tuesday, 143 3-8.

GEN. SHERIDAN is to have a public reception in Boston, next Monday, beginning at 9 o'clock.

—The city bells of Boston were rung for the first time, at eight o'clock, Monday morning.

— Isaac Harding of Troy, Me., was drowned in a small brook by the roadside last week. He was probably thrown from his wagon and stunned before falling into the water; he had $880 in his pocket when found.

— Mr. Elijah Peirce, a worthy and respectable citizens of Little Campton, R. I., aged upward of 81 years, on Wednesday even last, in going across lots to his home, missed his way in the woods, where he had to remain all night, exposed to the powerful rain storm. Diligent search was made for him by his friends during the night, but he was not found until day-light. Since that time he has been confined to his bed.

— Mrs. Polly Brightman, widow of Joseph Brightman of South Westport, Mass., who lived by herself in a lonely locality, had not been seen by her neighbors since Thursday, 19th ultimo. On Friday about seventy persons met at her house and commenced to search the woods, and in the afternoon her body was found in a swamp.—She had probably lost herself and perished from exhaustion, and had evidently been dead several days. Her age was about 76 years.

NEW HAMPSHIRE ITEMS.

—— Rev. T. H. Miller is to preach at Fremont next Sunday.

—— A staunch schooner of about 70 tons intended for a coaster, has been built at Hampton during the past season and recently launched.

—— The Sullivan County Temperance Mass Meeting was held at Newport, on Tuesday, Sept. 24, and an excellent meeting it was. Among the speakers were Hon. J. D. Lyman, and Rev. Mr. Babcock.

—— Henry F. Bartlett, of Deering, hired a horse and buggy in Manchester Sept. 16, to go to Claremont, borrowing $10 from the stable keeper. He sold the team (worth $500) in Peterboro', for a watch and chain. The team was recovered, but the rascal is still at large.

—— A Dover item of Monday says: The Strafford County Agricultural and Mechanical Fair, which was to have been held here on Tuesday, Wednesday and Thursday, has been postponed on account of the storm until Thursday, Friday and Saturday of this week. [Tuesday, however, turned out to be a fine day; the storm was very short.]

DEATH OF MRS. EASTMAN.—Died, on Monday morning, at her home, Mrs. Betsy Pettengill Eastman of Salisbury, the oldest person in New Hampshire, in the *one hundred and fifth year of her age.*

Betsey Pettengill was born in Sandown, N. H., in April, 1762, which would have made her 105 had she survived till next spring. Her father, Captain David Pettergill, was one of the first settlers of Salisbury, this State, whither he removed with his family about 1768. At the age of twenty she was married to Joel Eastman, who died about 1850. Soon after her marriage Mrs. Eastman joined the Congregational church in Salisbury, and remained a member to the close of her life. Of the ten children which blessed her home, five are now living —two sons and three daughters. The former are Hon. Joel Eastman of Conway and Gilbert Eastman, Esq., of Salisbury.

There was one incident of peculiar interest connected with the deceased. Soon after the execution of Mrs. Surratt in Washington, a person mentioned that fact in Mrs. Eastman's presence, when she exclaimed with emphasis: "I was the means of a woman's being hung once." She referred to the execution of Ruth Blay, which occurred Dec. 30, 1788. This woman was the school-teacher of Mrs. Eastman, when the latter was about six years of age. One day, through illness, Ruth Blay was absent and the children were at play. Mrs. Eastman found a loose board in the school room floor and got underneath the building, where she discovered a bundle wrapped in white cloth, in which there was a dead infant. The corpse proved to be the child of her teacher, who was arrested for murder,* convicted and hung. A reprieve came for her on the day of her execution, but the Sheriff swung her off a few moments before the appointed time. Circumstances afterwards seemed to prove that Ruth Blay's child was still-born and she was not a murderess. The circumstances made an impression on Mrs. Eastman's mind, that could only be effaced by death.

The deceased attributed her long life to the possession of a good physical constitution, joined with early rising, active duties and temperate living.

* The above we copy from a letter in the Boston Journal. Ruth Blay was tried, convicted and executed in Portsmouth, not for murder, but for concealing the death of her child." And the Sheriff (Packer) getting impatient for his dinner, or for the scene to end, is said to have anticipated the time of her death a few moments, so that her reprieve came too late. The gallows was erected on South road, near Cotton's Burying Ground.—Ruth Blay kept school in Salisbury, which is now in Massachusetts, but which was then in the territory of New Hampshire, the boundary being the Merrimack river. The poor girl was tried here for what would hardly be considered a crime now.—ED. CHRON.

☞ "The Dorpian" is the name of a smart and spicy little quarto weekly just started in Schenectady, N. Y., with the motto "Stand from under." Among other things, it gives the list of Bachelors in that city, with their points and attractions, *a la* Jenkins with the ladies at Saratoga and elsewhere.

☞ A boiler in Ehehold & Ritel's brewery, in Newark, N. J., exploded Monday night, tearing the building to pieces and burying the engineer and a stable man in the ruins. The dwelling adjoining was also demolished and the inmates injured.

☞ The price of telegraphing in Switzerland is to be reduced one half. After next January a message may be sent anywhere in the country for half a franc. We should think it would be as well to frank the whole thing.

☞ Hall's Journal of Health for October has an essay on "Forbearing one another," with other interesting matter.

— A New Orleans letter dated the 23d ultimo, says that owing to the yellow fever, "the city is a vast hospital. It is believed that there are 10,000 cases now under treatment. You hear of it everywhere and in almost every house. It is in all of our crowded orphan asylums. The good sisters stricken down. Language fails to depict the misery and distress existing here."

WASHINGTON ITEMS.—The President has appointed Col. Noah T. Jeffries of Maryland Register of the Treasury, vice Colby, deceased.

The Intelligencer confirms the statement that Gen. Sickles will not be granted a court of inquiry.

The statement that the Government is being consulted relative to the postponement of the trial of Jefferson Davis from November, is without foundation. That question is left solely with the Court to decide. The Attorney General has not even been conferred with as to additional counsel for the Government.

☞ David K. Sprague Jones, a noted confidence man, swindler and forger, who has been stopping at the Revere House in Boston, has been arrested in that city, and confesses several forgeries and swindles.—He has been going backward and forward between Boston and New York, and elsewhere, since July, doing a very shrewd business, but not very profitable.

☞ A disturbance occurred at Savannah Monday evening, among the negroes, which is said to have been stirred up by a mulatto lawyer named Bradley, of Boston, who is also accused of swindling some of the negroes.

☞ The loyal soldiers of New York city did themselves and Gen. Sheridan great honor, in giving him a grand reception last Monday evening.

PASSION.—The man who gets into a passion is said to forget himself; but the fact is, he forgets other people. The man or woman who buys other Saleratus but Herrick Allen's Gold Medal, not only forgets other people and themselves, but runs the risk of scattering broadcast dyspepsia and many other evils naturally attending the human system. As you value health and good eating, never buy any other. Have the Gold Medal or none.—Most everybody sells it. Depot 112 Liberty street, New York. 10

PHILADELPHIA covered herself with glory by feeding the soldiers who went to the late war from all parts of the North and West; and now an association of Philadelphians, not "weary in well doing," have organized a scheme to shelter and to educate the orphans of the same brave men who were welcomed there in those troublous times. Riverside, New Jersey, is the site of their Institute, and the funds for its endowment are being raised by the Washington Library Company of Philadelphia, by the sale of stock at one dollar per share. With each share a handsome steel engraving is given at the time of purchase; and as a further inducement, all are entitled to one of the $300,000 worth of presents to be fairly distributed to the stockholders; or, in other words, for every share of stock held a present is guaranteed. One present to be given away is worth $40 000. Read advertisement.

ARE ALL MEN EQUAL?—All men are equal in natural rights—but not in intellect and inventive genius. Thousands of Saleratus makers have tried in vain to make a first-class article! James Pyle has surpassed them all, and his Saleratus is the perfection of the art. Tell your grocer you want Pyle's Saleratus, and no other. His name is on every package. 22

"Hair! 'tis the robe which curious nature weaves To hang upon the head."

But nature does not always give to us a beautiful head of hair. Art must supply this neglect often, which she does in "Barrett's Vegetable Hair Restorative," pronounced by all who have used it the only reliable Hair Restorer and Dressing in the market. 5

Yes, any way you desire; Fried in Crumbs, Batter, Roasted or Stewed. So come along and see if you do not get suited at CARTER'S, Corner Congress and Chestnut streets. s24

☞ Life Insurance has spread its beneficent influences far and wide thro' the world. It will soon be the rule among men, and a man without a life policy will be an exceptional thing. The chances that a man will die within a year, are eight times as great as the chances that his house will burn during the given year—this is a fact from reliable statistics; how, then, can a man afford to insure his house against fire, which may never burn, and neglect to have an insurance upon his life, that is sure to come to a close? The strength of the Mutual Life Insurance Company with its *twenty-two million dollars* cash assets invite all to come into the ark of safety. We entered some time since, and advise all our friends to do the same.

BLINDNESS, DEAFNESS AND CATARRH.—So great a number of persons are consulting Dr. Carpenter daily at the Franklin House, that he finds it impossible to close his practice in Portsmouth as he intended, without disappointing many in need of his services. He will therefore prolong his visit until further notice, but those desirous of consulting him should do so at once. See advertisement in this paper. 1t6

CHRONIC CATARRH.

There are undoubtedly hundreds in this vicinity who are suffering from Chronic Catarrh in its unhappy consequences, who are not aware of the danger to which they are exposed. The symptoms of this disease are usually so mild at first, as to excite little or no attention on the part of the sufferer, and thus it is allowed to pass on from one stage to another, involving in its destructive march more and more serious results. Reader if you would avoid the dangers of a seated Consumption do not neglect a "Cold or Catarrh in the head." That this disease is so fatal in its tendency and productive of such unhappy consequences, no one will be surprised to learn, if it will but reflect that every breath of air that is inhaled into the system, by those suffering from Chronic Catarrh, must pass over an unhealthy and diseased membrane, and the air in passing over these putrid and ulcerated surfaces, must necessarily imbibe the most noxious and deadly properties, and in this manner every breath of air you take into the lungs is converted into a poisonous agent of death. There is no disease in the entire catalogue of human ills, the treatment of which has been so little understood as Chronic Catarrh, and hence from the practice ordinarily adopted by the profession, there is little to hope

DEAFNESS,

Weak eyes, noises, pains, and disagreeable sensations in the head, usually attributed to Neuralgia frequently arise from Catarrh.

Dr. C.'s success in treating Catarrh has been almost wonderful. He does not profess to cure every case, but may be presented to him, but having had years of experience in treating Diseases of the Eye, Ear and Throat, and Catarrh alone, he thinks himself better qualified to perform cures in many cases than physicians who have not enjoyed similar opportunities.

HOME TESTIMONIALS.

From the Lewiston Journal, May 24th, 1867.

Dr. Carpenter, who has been in this city for a few weeks at the De Witt House, treating diseases of the Ear, Eye and Throat, will leave for Bath in a few days, but we cannot forbear adding a word of special endorsement to the Doctor's skill and ability. There are many good reasons why people should look with distrust upon professionals generally, who practice from place to place. But these do not apply to Dr. Carpenter, who confines his practice to the leading cities and towns in Maine, and has met with great success everywhere he has practiced. He is a reliable and skillful specialist, and deserves reputation and honor. We are glad that the Doctor has visited our city—a feeling in which large numbers who have availed themselves of the treatment unite. We trust the Doctor's engagements will permit him to visit Lewiston frequently.

From the Augusta Gospel Banner, Feb, 16, 1867.

Persons troubled with blindness, deafness or catarrh, will do well to consult Dr. Carpenter. We know him personally. He is a gentleman—is well read in his profession, is no humbug or deceiver, will not, as many do, tell the patient he can effect a cure without knowledge of the disease. We presented several cases in this vicinity, and essentially helped others who had suffered for years. This is written by the editor of the Banner without solicitation from any one.

From the Portland Press,

Dr. Carpenter, the Oculist and Aurist, who has been spending several months in practice in this city, has had marked success in the treatment of diseases of the Eye, Ear and Throat, as also of Catarrh in its worst form. He is well versed in the treatment of the diseases he has made his specialities, gentlemanly in the treatment of patients, and prompt in the discharge of all pecuniary obligations.

☞ DR. CARPENTER, during the past few years, has confined his practice to the principal cities and towns in Maine, the state of his residence, but having received many solicitations from persons in Portsmouth and vicinity, he has been induced to visit Portsmouth a few weeks professionally.

A CURE OF A MILLION SAVED A DAY.

One hundred thousand men now labor with good results, who, until they used

ALLCOCK'S POROUS PLASTERS,

had not done a day's work for years. So these Plasters are the means of increasing the wealth of the nation not less than a quarter of a million a day.

AN IMPORTANT LETTER.

SHRUB OAK, Yorktown, N. Y., Jan. 19, 1860.

T. ALLCOCK & Co.—Gentlemen: I have been troubled with Lame Back over fifteen years, so as to be entirely helpless and unable to do any kind of hard work. In June last I procured one of Allcock's Porous Plasters and used it two weeks, when I found my back entirely cured, and was able to mow and cradle as well as ever I could in my best days. STEPHEN PUGSLEY.

ALLENSTOWN, Penn., April 4, 1865.

Messrs. ALLCOCK & Co.—Dear Sirs: My daughter used one of your Porous Plasters, she had a very bad pain in her side and it cured her in one week. Yours truly,

JOHN V. N. HUNTER.

DR. SCHENCK'S NEW OFFICE.

☞ DR. J. H. SCHENCK, of Philadelphia, has opened a New Office at No. 32 HOWARD STREET, Boston, where he will be professionally every WEDNESDAY, from 9 to 3. Every person desiring with Consumption or any disease leading to it, is invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars.

Dr. Schenck can explain to patients very correctly the stage of their disease, and how to use his medicines namely, his Pulmonic Syrup, Sea-weed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and whether the Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and whether it is Tuberculous, Pulmonary, Bronchial or Dyspeptic (Consumption, or whether it is merely an deranged digestion, a catarrh, or from Liver Complaint

His medicines have full directions, so any one can take them without seeing Dr. Schenck, but they live near by and are well enough, it is best to see *him*. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver is kept in perfect order. To get lungs in a healing condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy.

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents.

TO OWNERS OF HORSES AND CATTLE.—TOBIAS' DERBY CONDITION POWDERS are warranted superior to any others, or no pay, for the cure of Distemper, Worms, Bots, Coughs, Hide-bound, Colds, etc., in Horses; and Colds, Coughs, Loss of Milk, Black Tongue, Hoven, Hide-temper, etc., in Cattle. They are perfectly safe and innocent; no need of stopping the working of your animals. They increase the appetite, give a fine coat, cleanse the stomach and urinary organs; also increase the milk of cows. Try them, and you will never be without them. Hiram Woodruff, the celebrated trainer of trotting horses, has used them for years, and recommends them to his friends. Col. Philo. P. Stanton, of the Jerome Race Course, Fordham, N. Y., would not use them until he was told of what they are composed, since which he is never without them. He has over twenty running horses in his charge, and for the last three years has used no other medicine for them. He has kindly given me leave to refer any one to him. ☞ Operations the Fair Ground near this city are progressing favorably. The Trustees, Messrs. Frank Jones and other, have a small army of men, finishing the track, pens, stands, &c. Col. John S. Godfey, the famous waterfinder, selected the spot within the enclosure for a well, which is being sunk rapidly; and all arrangements will be completed in good style and good season.

The Programme for the Fair is not entirely made up yet, but we believe is to be arranged about as usual. The first day, morning, procession of Town Teams, &c., (which will be a grand one), on the Fair grounds; also the exhibition of all stock, filling committees, &c. And one or more races in the afternoon.

Second day plowing match, drawing match, speaking and more races.

Third day, the grand trot for $200, with perhaps a base ball match, and the award of premiums, unless this is given previously.

The Portsmouth Cornet Band will furnish fine music all through, and probably play in the city on one evening of the Fair.

There will be plenty of good sport, and no doubt a large crowd to enjoy it. The cars on both Railroads will stop near the Park, and it is expected that a train will be run out and in on the Concord Road as often as the public accommodation calls for it.

THE WASHINGTONIANS.—At the annual meeting of the Portsmouth Washington Total Abstinence Society, the following officers were elected :

Tobias H. Miller, President.
John S. Rand, Vice-President.
F. W. Rogers, Secretary and Treasurer.
Rev. S. G. Kellogg, A. F. Craig, J. Chaplin Carr, Rev. L. L. Harmon, I. F. Waterhouse, Executive Committee.

It was voted to request the Executive Committee to secure a course of lectures.

☞ Rear Admiral Bailey turned over his charge of this naval station to Commodore Lanman on Tuesday, at noon. The outgoing and incoming commandants each received a salute. Admiral Bailey's record is too well known to need recapitulation.—Commodore Lanman was in command of the Minnesota, and at the fall of Fort Fisher his ship did good service. While regretting the departure of the bluff old Admiral, we trust that Commodore Lanman will not the less render his a popular administration here.

☞ The double-ender Lenapee came up to the Navy Yard, Tuesday, from the lower harbor, where she has been lying at quarantine for yellow fever. Her officers have all been detached and men removed.

The court-martial for the trial of 24 Asst. Engineer Sawyer, for treasonable words, convenes to-day at this naval station. The court consists of thirteen officers, and may perhaps throw some light on the question whether a President may insult and condemn Congress and the people, his masters, but they must not touch or speak lightly of his sacred person.—Great is humbug!

☞ The schooner Diadem, from Harwich, Capt. Taylor, while getting underweigh on Tuesday morning to leave our harbor, ran afoul of schooner Henry Clay. The Diadem had a boat stove and lost gear to the amount of $300 damage. The accident was caused by the tide taking the Diadem after her anchor was hove up. The damage is being repaired by Wm. R. Martin, whose mast yard is one of the busy spots in our city.

☞ Remember! — Free Lunch at the Union Billiard Hall, to-night, 9 o'clock. o2

☞ Col. Wm. S. Hadley, having completely finished and wholly new furnished the National Hotel, as advertised, will be at home to his friends and the public to-day, in the new hostelry, which will be found a very convenient, pleasant, and well appointed house, —and that it will be well kept, his name is guaranty.

BASE BALL.—There will be two match games at the Plains this afternoon. The Clonians of Newburyport play a return game with the Granite States of this city at 2 o'clock. The Betton and Minnehaha clubs of this city have a match at one o'clock.

☞ Remember!—Free Lunch at the Piscataqua House, to-night, at 9 o'clock. o2

☞ Considerable excitement prevailed on the streets on Tuesday in relation to a reported prize fight in this vicinity, but the uninitiated were very unsuccessful in obtaining information in relation to the affair. Several noted pugilists were in town, among them Coburn and Barney Aaron, Lew Baker, Walter Brown, and other "sports." The fight we are informed is for $1000 a side, between "Rocky" Moore of New York, and George Rooke of Providence, John C. Heenan being stakeholder. The evening trains from east and west brought considerable numbers of the gentry who can snuff this sort of battle from afar. A steamer was to leave Boston at 11 o'clock on Tuesday night for the ground selected, which is out of the confines of this State, if our geography be not at fault, and where doubtless the rising sun of Wednesday morning beholds the contestants engaged in the pleasing occupation of battering each other's countenances. We were a little surprised to find so large a number of our citizens ready to avow that they "would like to go and see the 'mill,' if their presence would not be made known." As reporters for several papers were among our distinguished visitors, those who gloat over the details of the fistic arena will probably have a glowing description of this encounter.

☞ A communication in our paper last week, stated that horses are prohibited by the city ordinance from travelling in the public streets faster than at the rate of six miles an hour. The law is *five* miles an hour.

POLICE COURT, October 1.—George Brown, a sailor, was fined $3 and $3.86 costs, for being intoxicated.

☞ Remember!—Free Lunch at the Piscataqua House, to-night at 9 o'clock. o2

☞ In a late excursion along the sea coast of New Hampshire, we were politely entertained and pleasantly conveyed to the points of interest in Rye, North Hampton and Hampton, by a family at Little River, who read the Gazette, and who are among the neatest farmers and most hospitable people in that vicinity.

☞ The Headquarters of the P. R. Association are at Room No. 4, Franklin House. Meetings will be held every evening, and all officers, members and other citizens interested in the success of the Fair, are invited to be present. 1w

IMPORTANT ANNOUNCEMENT. LAST CALL! The Gleason Hall Presentation Festival and Drawing will POSITIVELY TAKE PLACE on THURSDAY Evening, October 10, 1867.—This is no *gift* swindle gotten up under the guise of charity to defraud the public, but a purely business enterprise, gotten up on strict business principles, and to dispose of the large and valuable property named in our advertisement. The better to please the public that are inclined to invest, we allow all of our ticket to retain all moneys they receive from the sale of tickets until the drawing takes place, and we advertise to that effect. Parties desirous of investing had better secure their tickets in time, as the drawing will positively take place on the evening above named.

ACROSS THE SIERRA NEVADAS.

THE

CENTRAL PACIFIC RAILROAD,

THE WESTERN HALF OF THE

GREAT NATIONAL TRUNK LINE

ACROSS THE CONTINENT,

being constructed with the AID and SUPERVISION OF UNITED STATES GOVERNMENT, is destined to be one of the most IMPORTANT LINES OF COMMUNICATION IN THE WORLD, as it is the *sole link between the Pacific Coast and the Great Interior States*, over which the immense overland travel must pass, and the

Principal Portion of the Main Steam Line between the Two Oceans.

Its line extends from Sacramento, on the tidal waters of the Pacific, eastwards across the richest and most populous parts of California, Nevada and Utah, contiguous to the great mining regions of the far West, and with next to connect with the roads now building east of the Rocky Mountains. About 100 miles are now built, equipped and in running operation to the summit of the Sierra Nevadas. Within a few days 30 miles, now graded, will be added, and the balance of the road entirely across the mountains to a point in the Great Salt Lake Valley, whence further progress will be easy and rapid. Iron, materials and equipment are ready at hand for 300 miles of road, and 10,000 men are employed in the construction.

The local business upon the completed portion surpasses all previous estimate. The figures for the quarter ending August 31 are as follows in GOLD:

Gross Earnings,	Operating Expenses,	Net Earnings,
$187,579 01	$86,548 17	$401,031 17

or at the rate of two millions per annum, of which more than three fourths are net profit on less than 100 miles worked. This is upon the actual, legitimate traffic of the road, with its terminus 100 miles from the navigation, and the normal ratio of government transportation, and is exclusive of the materials carried for the further extension of the road, now entirely done.

The Company's interest liabilities during the same period were less than $125,000.

The increase in earnings, through traffic and the proportions of the future business become immense.

The Company are authorized to continue their line eastward until it shall meet and connect with the roads now building east of the Rocky Mountain ranges.

Assuming that they will build and control half the entire distance between the San Francisco and the Missouri River, as now seems probable, the United States will be interested in the completion of 865 miles $28,592,000, or at the average rate of $33,000 per mile—not including the subsidy in the bonds of the First Mortgage Public Lands. By becoming a joint investor in the magnificent enterprise, and by waiving its claim to the lien in favor of the First Mortgage Bondholders, the GENERAL GOVERNMENT, IN EFFECT, INVITES THE CO-OPERATION OF PRIVATE CAPITAL, and has carefully guarded their interests against all ordinary contingencies.

The Company offer for sale, through us, their

First Mortgage Thirty Year, Six per Cent. Coupon Bonds.

Principal and Interest in Gold Coin, in New York city. They are in sums of $1000 each, with semi-annual gold coupons at 6 per cent. attached, and are issued at only 95 per cent. and accrued interest from July 1st added in currency, at which rate they yield nearly

Nine per Cent. upon the Investment.

These bonds, authorized by act of Congress, are issued only as the work progresses, and to the same amount only as the Bonds granted by the United States will be invested in the completion of 865 miles upon a completed, equipped and productive railroad, in which have been invested Government bonds, money, his Fulmonic Syrup, donations, surplus earnings, etc., and which is worth more than three times the amount of First Mortgage Bonds built upon the Pacific Road.

The Central Pacific First Mortgage Bonds have all the assurances, sanctions and guaranties of the Pacific Railroad Act of Congress, and have in addition several noticable advantages over all other classes of railroad bonds.

First—They are the superior claim upon altogether the most vital and valuable portion of the through line.

Second—Beside the fullest benefit of the Government subsidy, they have a first lien upon the road receives the benefit of large donations from California.

Third—But half the cost of grading 800 miles eastward of San Francisco is concentrated upon the 150 miles now about completed.

Fourth—A local business already yielding threefold the annual interest liabilities, with advantageous rates payable upon 95 per

Fifth—The principal as well as the interest of its Bonds being payable in coin, upon a legally binding agreement.

Having carefully investigated the resources, progress and prospects of the road, and the management of the Company's affairs, we cordially recommend these Bonds to Trustees, Executors, Institutions and others as an eminently *sound, reliable and remunerative form of permanent investment.*

TO START A BALKY HORSE.—The Ohio Farmer says: "Fill his mouth with gravel from the road, and he'll go. Now the philosophy of the thing is, it gives him something else to think about. We have seen dirt tried a hundred times, and it has never failed." Well, we have seen dirt tried a few times, but never saw it succeed. We don't believe in all these cheap and easy remedies for mean tricks in horses or cows, more than in men. The most intelligent and best broke horse we ever saw, is a determined balter-puller; and when any sort of other critter gets too bad, the only resort is to kick 'em out—whether it be a crazy, drunken president, or the woman of whom the contry fellow said, "if I had such a wife as ——— I—I—I wouldn't have her!"

— A young gentleman, suffering from too strong sensations of the more tender feelings, describes his complaint as *lasitude*.

—Medicus thinks the U. S. must have a weak constitution, if they have got to try Porter again.

—The editor of a paper in Indiana wants to know if Western whiskey was ever seen "coming through the rye."

—The events of to-day have more interest than those of yesterday. So men are fast giving up books for newspapers.

— A "ritualistic" marriage lately took place in a London church. The ceremony occupied three hours.

— One of the aldermen of London is about to remove from the city for fear of being chosen Lord Mayor.

—"Can you tell me," asked miserly old B——, in his deliberate, measured way, "how I can best get a letter to Cambridge?" "Put on a postage stamp, and drop it into a letter box," was the response from his clerical companion.

— On Sunday morning, 22d inst, a severe shock of an earthquake was felt in Ellenburgh, Clinton Co, N. Y. People were awakened from their sleep, and many were alarmed. It lasted about twenty seconds.

— A boy in Auburn, Me., domesticated a turtle in a hogshead of water, feeding him and rendering him well acquainted with civilized life. Thinking after a few weeks that the turtle would relish freedom again, the lad carried him half a mile and put him in the river. The next day the turtle reappeared in his old headquarters in the hogshead.

— It is related that turkey cocks are made to do bens' duty in France. They are made drunk with wine, their breasts plucked, and then they are placed on a sitting of eggs. On "coming out of it" they find their breasts cold unless they remain where they are, and therefore accept the situation—that is to say, the hen's. "So is a hen."

— J. G. Bartholomew says that sceptics have ridiculed the old Bible story of Lot's wife, scoffing the idea of a woman becoming petrified because she would persist in looking back—but it is not a solitary case in the history of mankind; there are men to-day who have stood so long looking back to the past, and sighing because the world has moved on and left old customs and ideas behind, that they are petrified through and through. They are counted in society as so many fossils.

Caution
To Females in Delicate Health.
DR. DOW, Physician and Surgeon, No. 7 ENDICOTT St., Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri or Floor Albus, Suppression and other menstrual derangements, are all treated on new pathological principles, and speedy relief guaranteed in a very few days. So invariably certain is this new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.
Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston.
Boarding accommodations for those who may wish to stay in Boston a few days under his treatment.
Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

THE RICHEST MAN IN THE WORLD.
Extract of a Letter from Baron Solomon Rothschild.
PARIS, 8th April, 1864, 25 Rue Faubg St. Honore.
Will you be kind enough to have forwarded to me here 200 bottles of your Indian Liniment; if you will send at the same time your account, I will forward you the amount through Messrs. BELMONT & Co., New York.
Baron Solomon Rothschild having recommended to many of his friends Major LANE'S LINIMENT, and they being desirous to procure it, he should advise him to establish a depot in Paris.

THE INDIAN LINIMENT,
As a relief, ever ready; as a killer of pain, taken inwardly, or outwardly applied, has no equal.—*For the relief and cure of Rheumatic and Neuralgic Affections, Sprains, Bruises, &c.*, it is unequalled.—It is also most effectious taken inwardly in the cure of *Cholera, Cramps and Pains in the Stomach, Diarrhœa, Dysentery, Cholera Morbus, Colics, Inflation, &c.*, and is without exception the Most Wonderful Panacea the world affords. No FAMILY should be without it. Every TRAVELER by land or sea should have a bottle. MINERS and FARMERS residing at a distance from Physicians should keep it constantly on hand. In case of accidents and sudden attacks of Stomach Complaints, its value cannot be estimated. Inquire for Major LANE'S INDIAN LINIMENT, and take no other. Price 50 Cents per Bottle. Sold by Druggists Wholesale and retail by Demas Barnes & Co., 21 Park Row, N. Y.; Gale & Robinson, 138 Greenwich street, N. Y.; C. W. Helmbold & Co., 162 Fulton street, N. Y.; Chas. N. Crittenden, 36 6th Ave. N. Y., and by respectable Druggists throughout the world. None genuine unless signed by JOHN TAGG LANE, and countersigned by J. T. LANE & CO., Proprietors, 163 Broadway, N. Y. Send for circular.

"Buy Me, and I'll do you Good."

MORE VALUABLE THAN GOLD.
DR. WISTAR'S BALSAM OF WILD CHERRY is a perfect and speedy cure for this loathsome disease in its worst form. No person suffering from Catarrh or a bad cold in the Head, should hesitate a moment, but procure the remedy at once and be cured. There is not any mistake in the above. Price $1 per bottle. Send stamp for pamphlet, all about Catarrh. For sale by the Proprietor, H. B. BURRINGTON, Druggist, Providence, R. I. Also by G. C. Goodwin & Co. Boston, and Druggists general y.

A Man of a Thousand. A Consumptive Cured.
DR. H. JAMES, a retired physician of great eminence discovered, while in the East Indies, a certain cure for *Consumption, Asthma, Bronchitis, Coughs, Colds and General Debility*. The remedy was discovered by him when his only child, a daughter, was given up to die. The child was cured and is now alive and well. Desirous of benefitting his fellow mortals, he will send to those who will write him, post paid, the full directions for making and successfully using this remedy, free, on receipt of their names, with two stamps to pay return mail. There is no more simple symptom of Consumption that it does not at once cause bold of and dissipate. Night sweats, hoarseness, irritation of the nerves, failure of memory, difficult expectoration, sharp pains in the lungs, sore throat, chilly sensations, nausea at the stomach, inaction of the bowels, wasting away of the muscles.
☞ The writer will please state the name of the paper they see this advertisement in.—Address, CRADDOCK & CO., 1031 Race street, Philadelphia, Pa.

Manhood and the Vigor of Youth restored to all who use Dr. Langley's Root and Herb Bitters.
DR. RECORD'S Essence of Life restores manly power, from whatever cause lost; the effects of early indiscretion, the use of Mercury, heredity and climate, give way at once to this wonderful medicine, if taken regularly according to directions. It is a purely simple and requires no restraint from business or pleasure). Failure is impossible. Sold in bottles at $3, or 4 quantities in one for $9. DRINKING CLUBS.—The Bangor Whig gives a report of the trial and decision of a case before the Supreme Court in Auburn, Me., Judge Walton presiding, declaring drinking clubs illegal. The party charged was indicted as a common seller, and it appeared in evidence that the drinking club, of which he was the agent, was organized only a few days before the police fell upon it, and in that time its members had increased to something over twenty. By paying $1 or $5 a person became recipient of a ticket which admitted him by a private key to the club room, and entitled him in the former case to seven and in the latter to thirty-seven drinks, indicated by figures on the ticket. When the ticket was used up, another one was obtained by paying the fee. A clerk or agent was employed to sell the tickets, with the proceeds of which he was to keep the stock of whiskey, ale, cigars and tobacco replenished. Judge Walton charged the jury that if they should find the state of facts admitted by the respondent, it would constitute him, and every one associated with him in the club, a common seller under the Act of 1858.

He said he did not consider this club plan of evading the act of 1858, although confessedly a bald and barefaced attempt to defy a law, as having even the merit of ingenuity. If it was true that our laws against drinking houses and tippling shops could be thus evaded, then all attempts to restrain the opening of liquor shops would be at an end; for if one club of 29 members can legally carry on its operations, then one of 200 members, and five, ten or a hundred of greater or less membership may be maintained, until every other building is a liquor shop, sugar-coated with the name of "Drinking Club." And what is to prevent an inn-keeper or any other man who desires to open a rum shop, from doing business in the same manner, covering his profits—if indeed that may be regarded necessary—by charging his patrons a generous salary for acting as agent. The law so clearly prohibits any transactions where liquor is delivered for a valuable consideration, no matter how covered up, that he who runs may read.

The jury returned a verdict of guilty.—The counsel for the respondent indicated that they should except to the rulings of the judge, and carry the case up to the full bench.

GEN. BUTLER.—The Louisville Journal is uncharitable enough to insinuate that the following applies to Gen. Butler, simply because that distinguished General, who was bottled on the Peninsula, in one of his patriotic declamations, exclaimed, "Bury me, and put on my humble monument the simple inscription, 'here lies one who saved the lives of his soldiers at Fort Fisher:'":

"Don't you know me?" said a soldier to his former commander. "No, my friend, I don't." "Why, sir, you once saved my life." "Ah, how was that?" "Why, my dear sir, I served under you at the battle of——, and, when you ran away in the beginning of the fight, I ran after you—else I might have been killed. God bless you, my preserver, my benefactor!"

[This reads like a story that might have been true,—but wasn't.]

— New axiom—A thorn in the bush is worth two in the hand.

— As evidence of the extraordinary growth of vegetation in Florida, it is mentioned that a single tomato plant, spreading like the banyan tree, has entirely covered a bed eighteen feet square. It had produced about six bushels of fruit up to the latter part of August (and was still producing) a bushel or more on it sometimes at once.

THE STOVE FOR THE MILLION!
THE
KEARSARGE
HAS NOT BEEN BEATEN!
URIAH BLAISDELL,
NO. 43 MARKET STREET,
Takes pleasure, as the cold season approaches, in again inviting public attention to this superior
COOK STOVE!
Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well with WOOD OR COAL, an economizer of fuel, and a heavy, well-made and durable Stove, as it is a neat and symetrical one. It has been in no Fair or Exhibition, and hence has taken no prize; but what is better, it receives the unqualified encomiums of its numerous purchasers—of all who know what a good stove is and how to appreciate it.
Pleasure is taken in showing the KEARSARGE and all in want of a stove of the first merit at a moderate price, are invited to call and examine it whether they purchase or not.
The following names from its large list of purchasers are given for reference:

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of the U. S. Patent Office, Washington under the Act of 1857.
No. 78 State street, (opposite Kilby street,) Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, Bonds, and all papers or drawings for Patents, executed on reasonable terms, with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded in Washington.
No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.
During eight months the subscriber, in the course of his large practice, made on *twice rejected* applications, SIXTEEN APPEALS; every one of which was decided *in his favor* by the Commissioner of Patents.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse, CHAS. MASON,"
Commissioner of Patents.
"I have no hesitation in assuring inventors that they can not employ a man *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,"
Late Commissioner of Patents.
"Mr. R. H. EDDY has made for me THIRTEEN applications, in all but *ONE* of which patents have been granted, and that one *is now pending*. Such unmistakable proof of great talent and ability on his part, leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."

Caution
To Females in Delicate Health.
DR. DOW, Physician and Surgeon, No. 7 EXCHANGE ST., Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri or Fluor Albus, Suppression and other menstrual derangements, are all treated on new pathological principles, and speedy relief guaranteed in a very few days. So invariably certain is this new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.
Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston.
Boarding accommodations for those who may wish to stay in Boston a few days under his treatment.
Dr. Dow, since 1845, having confined his whole attention to his office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

THURSDAY, OCTOBER 3, 1867.

SALEM.—Mr. S. E. Brown, the well-known manager and comedian, has recently been playing in Salem. Robert Jones, his stage manager, has published a card in New York, from which we infer that the dramatic troop was not successful in our sister city. Mr. Jones, in his address to the the theatrical community, says:

Avoid Salem for these reasons: In the first place, they charge for the hall (without scenery) $26 per night; the city charges $20 per night license, with an addition of twenty-one tickets to the Council, who do not use them, but give them away to niggers, children, &c., (or, perhaps, sell them) making a tax to the manager of $55 50 per night—the Mayor expressing a desire that no amusements shall visit the city (?).

Well, perhaps the Salem folks don't want to see Mr. Brown, more than he does them. He don't mention the price of liquor under the State Constables in Salem; but if he owes the Salem editors $20 as he does us, they would doubtless rather see the cash than his phiz.

It is a little singular also, that Pike, who was manager for Sam Sharpley when he advertised, advising showmen to steer clear of Portsmouth, as Brown does Salem—this Pike also owes us another $20, not on Sam Sharpley's account, but an old score. A precious set of fellows to criticise cities, truly.

LONDON ITEMS, Sept. 30.—The Pan-Anglican Synod has adopted and issued an address condemning rationalism, Popery and mariolatry, and seeking to promote unity in the church.

There is a report on the Continent that Napoleon has addressed a note to the sovereigns of the South German States on the subject of their relations with Prussia, and that in this note the French Emperor, after calmly discussing the last circular of the Prussian Cabinet urging German unity, asks the Southern potentates to pledge themselves not to pass the Maine and merge their countries in the new confederation of the North.

Garibaldi refuses to give the Italian Government his parole not to engage in hostilities against the Roman States.

IN MASSACHUSETTS, the State Convention of the Democratic party was held on Tuesday at Worcester. Mr. T. H. Sweetser, their candidate for Governor last year, was laid aside after only one year's trial, and Mr. John Quincy Adams, (a Johnsonian convert,) was nominated. On the formal ballot Adams had 465, Sweetser 276, scattering 4,—total 745. The nomination was then made unanimous. Resolutions were passed, and the committee on credentials reported that 219 cities and towns were represented by 903 delegates. Finally, Mr. Sweetser read the speech he had written to follow his own nomination; and after nominating other officers the Convention adjourned.

☞ A letter from the city of Mexico says it is now reported officially that Juarez was inclined to clemency in Maximilian's case, but that Senor Romero dissuaded him from it. El Dritto, in a late article, holds that Mexico obtained a great victory when it shot Maximilian; that his death was the expiation of 300 years of struggles, sufferings, and miseries imposed upon the people of the country by ambitious Europeans; that daylight, after a long, long night, broke at Queretaro, when Maximilian died, and that Maximilian has gone to the same tomb to which ambitious Europeans consigned Montezuma, Quatimotzin, Hidalgo, Matamoros, and many others; and Juarez, a descendant of 20 generations of the Aztecs, shot Maximilian of Austria, the descendant of Carlos V., first conqueror of Mexico.

☞ An important private circular, issued by the French Marshal Bazaine while in Mexico, has been published in the Paris *Liberte*. It shows that Bazaine instituted the extermination policy, which so fearfully recoiled upon the head of the Emperor. It reads: "All these bandits, (Liberals) including their commanders, have been outlawed by the Imperial decree of the 3d of October, 1865. I beg you to make known to the troops under your orders that I do not allow prisoners to be made. Every individual, whoever he may be, taken with arms in his hands, will be put to death. No exchange of prisoners will be made in future. Our soldiers understand that they cannot deliver themselves up into the hands of such adversaries. It is war to the death—a sanguinary battle between barbarism and civilization. Both sides must kill or be killed."

☞ On Monday, at Brooklyn N. Y., the Democrats of the Common Council offered a resolution approving Gen. Sheridan's military and disapproving his civil course. The resolution was lost by a tie vote, the Democrats for and the Republicans against.

☞ Steamer Tioga, from Havana for Philadelphia, was burnt at sea, Sept. 27, with three of her crew.

NEW HAMPSHIRE ITEMS.

— The will of the late Deacon Aaron Lawrence of Amherst, makes the folowing bequests to objects of public interest:

"To American Board of Commissioners for foreign missions, $1000; American Home Missionary Society, $500; New Hampshire Bible Society, $600; American Tract Society at Boston, $500; Pastor's Library of Congregational Church in Amherst, $100; Congregational Church and Society in Amherst, real estate valued at $1000; do. for repairing church and singing galleries, $500; Sabbath School Library of said church, $100; Amherst Library Association, $300; 'For, or toward a Soldiers' Monument, at discretion of executors,' $500 or $1000; balance of estate (after deducting private legacies) to objects of charity and benevolence at discretion of executors."

RAILROAD.—There has been considerable excitement about town (Wolfeborough) during the past week on the subject of railroads. The occasion appears to be the presence of a party in the employ of the Eastern Railroad Company, examining the feasibility of an extension of the Great Falls and Conway road to this place. Several routes in this immediate neighborhood were examined, and a preliminary survey made. To what conclusion the engineers arrived, we have not learned, but presume it cannot be otherwise than that there exists a remarkably practicable and easy route between this place and Union; and that a continuance of the road from this place to Conway, if desired, is equally practicable, and but a few miles farther than the route through Wakefield. Let the project be encouraged by all means. We do not see how it can well help paying, and wonder it has not been done before.—*News.*

THE EASTERN RAILROAD.—A newspaper correspondent at Nahant writes as follows of this popular road and its management:

"The Portland, Saco and Portsmouth Railway, in connection with the Great Eastern Railway, or what is known as the Sea-shore Railroad, have become immensely popular with the fashionable pleasure travel from Saratoga Springs, Lake George, Niagara Falls, Montreal, Quebec, the river Saguenay, Gorham, New Hampshire, the White Mountains, Portland, Me., and from thence to Rye Beach, Hampton, Swampscot, Lynn and other beaches on this favorite route. This route from Portland to the city of Boston is by far the most charming, the most cool and delightful, and above all else, the most famous and fashionable. The condition of the roads and their general good management, the former under the general superintendence of Francis Chase, and the latter under that of the indefatigable Prescott, calls forth universal commendation both from the public and the press. This route forms a conspicuous part in the great fashionable summer tour of America."

☞ Brown and Hamill have had two boat rows, which have both ended in a row; and Hamill has done Brown this time, though he got Brown'd himself first. We don't know which was most blameable, but when a fellow leaves board-bill and printing-bill unpaid, as Brown did in this city, we never expect him to come to any good.

☞ Gen. Grant having refused to issue artillery to the Maryland militia on Gov. Swann's demand, Governor Swann has purchased batteries of 12-pound Napoleon brass guns for the artillery companies in this city. The guns have been assigned to their companies, the commanders of which were all in the rebel army.

☞ The N. Y. Times' special says a bill will undoubtedly be passed early in the session of Congress, providing for the suspension of all public officers who have been impeached, until after trial, which the President will veto.

SEVERE ACCIDENT AT BRIDGEWATER, MASS.—On Saturday afternoon, during the agricultural fair at Bridgewater, a number of young persons were swinging in a fandango on the grounds, and when two of them, sisters, named Lizzie and Mary Campbell, residing at North Bridgewater, were at the greatest elevation, the arms supporting the box in which they were seated broke, and they were precipitated to the ground. Lizzie had her thigh broken, and her head and face very badly cut, and Mary had her left arm broken and her shoulder and head severely injured. The girls were taken home in a carriage, but it was feared Lizzie would not survive.

— The fast mare Lady Farnham met with an accident at the private track of Harrison Rogers, in North Bridgewater, on Saturday, by which it is asserted she is ruined for life as a racer. She was being shown to a gentleman from California, with a view to sale, when a small bone in a fore leg was broken. The mare was valued at $10,000.

— An exchange very truthfully remarks that whether the people will it or not, a local paper is their representative abroad, their embassador in foreign parts, by which they must be judged. Let them, then, take a patriotic interest in giving it news, co-operation and patronage. Like every other duty performed, it will be their gain in the long run.

— It is evident now that the arrest of Garibaldi by the Italian government was made under the demands and threats of Louis Napoleon. The fact that the Pope has officially thanked the French Emperor for causing the arrest and the fact that it was made while French troops were held in readiness for immediate dispatch to Rome, are proofs.

WASHINGTON ITEMS.—On Tuesday the Cabinet meeting was brief and unimportant. Gen. Grant's and Gen. Thomas' official reports of the results of the Nashville troubles were submitted, together with Gen. Grant's telegram of Friday last requesting Thomas to sustain the State authorities.

Dispatches from Montgomery state the first day's election in Alabama had passed off quietly so far as heard of. In Montgomery the voting was quite heavy, in view of the fact that the election will last two days more. In the old Montgomery Congressional District the colored majority will reach over 3000.

The War Department has been called upon through the Freedmen's Bureau, for a detachment of troops to go to Barbour County, West Virginia, to aid in the preservation of the peace. A company left for that place Monday night.

Col. Jeffries, whose appointment as Register of the Treasury was announced in these dispatches last night, is at present on the staff of Governor Swann, and of course a copperhead.

The Internal Revenue receipts are again increasing, and reached nearly a million of dollars on Monday.

The Collector of the 5th Pennsylvania Internal Revenue District reported to the Treasury Department that he had been prevented from investigating the condition of certain distilleries in his district, by a large body of men who had surrounded the premises. The department has called upon the United States Marshal to furnish a posse to aid the Collector in enforcing the law.

— So far this year 547,700 tons more of anthracite coal have been sent to market from Pennsylvania than during the corresponding period last year.

— The old raving style of the bowie-knife and the slave-whip is rapidly coming again into use among the Unreconstructed.

— Salad eaters will be pleased to learn that celery this year is remarkably large, white and crisp.

— Rev. Drs. Anderson, Park and Beecher, as a committee, have awarded to Rev. Enoch Pond, D. D., of Bangor, the prize of $100, offered some months since, by the Congregational Board of Publication, for the best essay on Congregationalism.

—The great Canada Cheese, manufactured about one year ago at a factory near Ingersoll, is still in a good state of preservation, and is suspended on pivots in the factory, so as to be easily swung over for the gratification of visitors. Thirty five tons of milk were used in manufacturing this cheese, which weighs 7,000 pounds.

— Horatio N. Simmons of Millbury has recovered a verdict of $10,875 against the New Bedford, Vineyard and Nantucket Steamboat Company, for injuries received on board the steamer Monohansett, while on the way to camp meeting in 1865. The injuries were caused by the fall of a small boat from the upper deck.

— An American has invented a novel sort of programme for the French theatres. The paper of the playbill is represented by a light, agreeable crust of pastry, and the ink is chocolate paste. The advantage of the invention is, that when the spectators have mastered the contents of the bill they eat it.

No more puny children, decayed teeth or yellow bread if you will use Herrick Allen's Gold Medal Saleratus. There is nothing equal to it. It is far superior to soda to use with cream tartar. Bread or Biscuit raised by it is more easily digested than by any other. Try one paper and you will not fail to use it after. Have the Gold Medal or none. Grocers and druggists sell it. 11

BLINDNESS, DEAFNESS AND CATARRH.—So great a number of persons are consulting Dr. Carpenter daily at the Franklin House, that he finds it impossible to close his practice in Portsmouth as he intended, without disappointing many in need of his services. He will therefore prolong his visit until farther notice, but those desirous of consulting him should do so at once. See advertisement in this paper. 1lo

"Hair: 'tis the robe which curious nature weaves To hang upon the head."

But nature does not always give to us a beautiful head of hair. Art must supply this neglect often, which she does in "Barrett's Vegetable Hair Restorative," pronounced by all who have used it the only reliable Hair Restorer and Dressing in the market. 5

ARE ALL MEN EQUAL?—All men are equal in natural rights—but not in intellect and inventive genius. Thousands of Saleratus makers have tried in vain to make a first-class article. James Pyle has surpassed them all, and his Saleratus is the perfection of the art. Tell your grocer you want Pyle's Saleratus, and no other. His name is on every package. 22

Where are you going?

I am going into CARTER'S Saloon, to get a dozen Providence River Oysters, on half shell.

Has he got Providence River Oysters?

Yes; and has made arrangements to have a supply of them all the time.

Does he cook them?

Yes, any way you desire; Fried in Crumbs, Batter, Roasted or Stewed. So come along and see if you do not get suited at CARTER'S, Corner Congress and Chestnut streets. 23

☞ In Boston, Tuesday forenoon a young man named David Colton, a teamster, was almost instantly killed at the store of Jordan, Trask & Presby, Summer street. He was loading goods on his team from the elevator, and it was hoisted before he had stepped from it; and he attempted to get from it while it was in motion, and was crushed to death between the elevator and the wall of the building. His age was 23.

☞ At Nashville, Tenn., Oct. 1, the new Mayor and City Council were installed in office. Chancellor Harrison has made no response to the petition of the old city authorities for an injunction.

☞ At Mobile, Oct. 1, the election on the Convention question commenced with the following result. Mobile county, 750 black voters and 6 white; Mobile city, 2329 black, 26 white; total, 3089 black voters and 32 whites.

OCTOBER ELECTIONS.—There are elections in five of the loyal States during this month, viz.: Indiana, Iowa, Ohio, Pennsylvania, all occurring next Tuesday, and the election in West Virginia, which falls on the fourth Thursday. Ohio and Iowa choose Governors; Pennsylvania chooses a Judge, and the other two only minor officers.

NOT GOLD ONLY,

BUT

RICH, FRUITY, LUSCIOUS
WINES!

California is making grand strides in her agricultural products, and is fast withdrawing herself as a purchaser for the manufactures of the various branches of industry she once demanded. She does not wish a warming voice to the tune of the vineyards of Europe, and enters the lists as a fresh, young combatant for the production of wines from her own rich and increasing vineyards. The time has come when it is simply ridiculous for any one house to lay claim to especial advantages or peculiar privileges for the sale of

THE WINES OF CALIFORNIA.

As well might they claim a monopoly of the cotton trade.

C. A. RICHARDS & CO.

do not receive or sell all the wines which Californian producers claim to have at all times a very large quantity on hand of all the best kinds, and their advantages for getting the best, and getting them at the lowest market value, are such as to enable them to offer them at prices which to-day are lower than any other house which sells California Wines of equality. We bottle the following, viz:

"Angelica,"
"Muscatel,"
"Still Champagne,"
"Hock" and
"Port,"
Also "California Brandy."

They are all perfectly pure, and may be relied upon in sickness or ill health. The **Angelica** and **Muscatel** are rich, sweet wines. The **Hock** is fully equal to the medium grades of Rhine wines. The **Port** is actually better than many of the high cost Ports from Oporto. We sell these wines in any required quantity, from a single bottle to a THOUSAND CASES, and are ready at all times to exhibit samples, or to send them to any address.

CHRONIC CATARRH.

There are undoubtedly hundreds in this vicinity who are suffering from Chronic Catarrh and its unhappy consequences, who are not aware of the danger to which they are exposed. The symptoms of this disease are usually so mild at first as to excite little or no attention on the part of the sufferer, and thus it is allowed to pass on from stage to another, involving in its destructive march more and more serious results. Reader, if you would avoid the dangers of a neglected Consumption, do not neglect a "Cold or Catarrh in the head." That this disease is so fatal in its tendency and productive of such an unhappy consequence, no one will be surprised to learn, if he will but reflect that every breath of air that is inhaled into the system, by those suffering from Chronic Catarrh, must pass over an unhealthy and diseased membrane, and the air in passing over these putrid and ulcerated surfaces, must of necessity imbibe the most noxious and deadly properties, and in this manner every breath of air you take into the lungs is converted into a poisonous agent of death. There is no disease in the entire catalogue of human ills, the treatment of which has been so little understood as Chronic Catarrh, and hence from the practice ordinarily adopted by the profession, there is little to hope.

DEAFNESS,

Weak eyes, noises, pains, and disagreeable sensations in the head, usually attributed to Neuralgia, frequently arise from Catarrh.

Dr. C.'s success in treating Catarrh has been almost wonderful. He does not profess to cure every case that may be presented to him, but having had years of experience in treating Diseases of the Eye, Ear and Throat, he feels confident he thinks himself better qualified to perform cures in many cases than physicians who have not enjoyed similar opportunities.

HOME TESTIMONIALS.

From the Lewiston Journal, May 24th, 1867.

Dr. Carpenter, who has been in this city for a few weeks at the De Witt House, treating diseases of the Ear, Eye and Throat, will have few fears in a few days, but we cannot forbear adding a word of special endorsement to the Doctor's skill and ability. There are many good reasons why people should look with distrust upon profession-al generality, who practice from place to place. But these do not apply to Dr. Carpenter, as he confines his practice to the leading cities and towns in Maine, where he has met with great success everywhere he has practiced. He is a reliable and skillful specialist, and a physician of reputation and honor. We are glad that the Doctor has visited our city—a host of our readers who have received the benefit of his treatment unite. We trust the Doctor's engagements will permit him to visit Lewiston frequently.

From the Augusta Gospel Banner, Feb, 16, 1867.

Persons troubled with blindness, deafness or catarrh, will do well to consult Dr. Carpenter—We know him personally. He is a gentleman—is well read in his profession, is no humbug or deceiver, will not, as many do, tell the patient he can effect a cure without reasonable grounds for the declaration. He wrought several cures in this vicinity, and essentially helped others who had suffered for years. This is written by the editor of the Banner without solicitation from any one.

From the Portland Press.

Dr. Carpenter, the Oculist and Aurist, who has been spending several months in practice in this city, has had marked success in the treatment of diseases of the Eye, Ear and Throat, as also of Catarrh in its worst form. He is well versed in the treatment of the diseases he has made his specialties, gentlemanly in the treatment of patients, and prompt in the discharge of all pecuniary obligations.

☞ DR. CARPENTER, during the past few years, has confined his practice to the principal cities and towns in Maine, the State of his residence, but having received many solicitations from persons in Portsmouth and vicinity, he has been induced to visit Portsmouth a few weeks professionally.

AN IMPORTANT LETTER.

SHRUB OAK, Yorktown, N. Y., Jan. 19, 1860.

T. ALLCOCK & CO.—Gentlemen: I have been troubled with a sore back over ten years, so as to be entirely helpless and unable to do any kind of hard work. In June last I procured one of Allcock's Porous Plasters and wore it two days, when I found my back entirely cured, and was able to mow and cradle as well as ever I could in my best days. DR. SCHENCK'S NEW OFFICE.

☞ DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of No. 38 HANOVER STREET, Boston, where he will be professionally every WEDNESDAY, from 9 to 3. Every person complaining with Consumption or any disease leading to it, is invited to call on him. He does not advise this, but for a thorough examination with his Respirometer the charge is five dollars.

Dr. Schenck can explain to patients very correctly the stage of their disease, and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, to cure the worst of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part; also whether the Liver, Stomach or Bowels are diseased or Dyspepsia Consumption, or whether it is merely an ulcerated throat and catarrh, or from Liver Complaint.

His medicines have full directions, so any one can take them without seeing him, but if they live anywhere by and are well enough, it is to their interest to call. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver is kept in perfect order. To get lungs in a healthy condition the stomach must be cleansed, an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy.

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents.

PRIZE FIGHT.—The prize fight between Matthew H. Moore of New York,—better known as "Rocky Moore" among the sporting fraternity,—and George Rooke of Providence, for $1000 a side, took place on Wednesday forenoon, on Smutty Nose Island, one of the Isles of Shoals.

Both the principals came to this city on Tuesday morning. On the morning of the fight Rooke took passage to the spot in a sail boat, and Moore in steamer Pioneer, which also took out about one hundred and fifty passengers to witness the battle.—About 7 A. M. steamer Grace Irving, with about 30 passengers, arrived at the Shoals from Boston, and at 8 o'clock the steamer Charles Houghton, from the same place, arrived with about 500 passengers.

After a considerable time spent in landing the parties from the steamers and in the selection of a spot for the combat, the ring was constructed a few rods from the house of Christopher Johnson, under the superintendence of Barney Aaron, Joe Coburn, Harry Jennings, Kit Burns, John Grindell, Jim Cusick, Walter Brown and other well known sporting men.

In the meantime Moore and Rooke had repaired to the house of Mr. Johnson, one of the two inhabited buildings on the island. Moore's seconds were James Cusick and Mike Costello of New York. Rooke's seconds were Jack Brown of Boston and Peter Daily of New York. The umpires were James Coburn of New York, for Moore, and John Woods of Boston, for Rooke. James Collins of New York was appointed referee, and Barney Aaron acted as ringkeeper.

Each of the men weighed 145 pounds. Moore entered the ring first, and was soon followed by Rooke. On the toss for position Rooke won, and of course took the south east corner. The men stripped, and time was called at 10:12. We are indebted to Mr. L. L. Holden of the Boston Journal, for a minute of the fight:

1st round—Rooke got one in ribs; no return. Blow on Moore's left eye and nose, drawing blood. Pelting on ribs for both. Rooke gave blows on Moore's left eye and nose [even bets on Rooke] and received slight blows from Moore. Both down.—Rooke retreated to corner with face bloody, having kept well to his corner all the time. This was the longest round and lasted 8 minutes.

2d round—Slight sparring. Rooke down.

3d round—Like the last.

4th round—Repetition of 2d and 3d.

5th round—A slight exchange of blows threw Moore on one knee. First knockdown for Rooke.

6th round.—Rooke in his corner, sparring for wind. Gave Moore a blow on cheek, drawing blood and knocking out teeth.—Rooke down in his corner.

7th round — Considerable sparring.—Rooke down and Moore on top.

8th round—Sparring, forced by Moore.

9th round—Two blows on Rook'es cheek and one on forehead. Stunning blow on R.'s cheek. K. knocked down.

10th round—Sparring. Moore put in several blows on Rooke's neck and face, they clinched, and Rooke was thrown.

11th round—Rooke appeared used up. Sparring, Rooke got in several blows on Moore's cheeks and ribs, then went down.

12th round—Rooke put in a good blow on Moore's face, then went down.

13th round—Rooke put in on Moore's cheek. Several feints were made, the parties clinched, Rooke was forced to the rope and went down, severely punished.

14th round—An exchange of blows.—Rooke lost several. Close and hard hitting. Rooke forced to rope, went down to avoid M. [Cries of "foul."]

15th round—R. put in some good blows on M.'s cheek. R. down on knees; up and hard fighting. Rooke down again.

16th round—Rooke received blow on cheek. Closed and hard blows. Rooke down. Both parties looked badly.

17th round—After missing several, R. got in blow on M.,—they closed and after hard fighting Rooke went down.

18th round—After some hard fighting Moore went down.

19th round—Both men seemed playing for wind. They closed and Moore went down.

20th round—They closed quickly and had hard face fighting. Moore seemed to discover Rooke's game, gave him some neck blows and he went down.

21st round—A give and take affair, which ended in Rooke's being down.

22d round—Rooke put in some heavy blows on M's ribs, they closed and fell, Rooke being under.

23d round—Rooke gave Moore blows on cheek, ribs and neck. Moore returned a few blow on Rooke's ribs, sending him on his knees.

24th round—Giving and taking; some hard hitting, ending by Rooke's being down and Moore standing.

25th round—Rooke up to time and several blows exchanged. Rooke was thrown down on his back. The sponge was thrown up and Moore declared victor, the time of the fight being one hour and four minutes.

Moore was not much hurt, and was able to run from the grounds. Neither are Rooke's injuries severe.

There was much excitement during the fight, but no disturbance, although seven or eight hundred persons (most of them from New York) were present.

Thus ends the prize fight which for two days so excited our little city. "Roughs" though they were, who came to witness it, we have heard of no disturbance created by them in our city. Still, we trust this may be the last, as it was the first, occurrence of the kind to take place in our vicinity. From the isolated position in which the fight took place, Maine officers were powerless to interfere, and had they been present in force, Cedar Island, which lies in both Maine and New Hampshire, would have been a refuge for the combatants.

☞ Rev. Mr. DeNormandie, of the South (Unitarian) Parish in this city, having been ordained and installed pastor here Oct. 1st, 1862, completed the 5th year of his ministry this week; and on Tuesday evening services appropriate to the anniversary occasion were held at the Chapel in Court street. The remarks of Mr. DeNormandie were in review of the past and contemplation of the future of the Society, and were of much interest to his people, by whom they were received with the greatest satisfaction. Although Mr. DeNormandie has been with us but five years, still he, if not the oldest pastorate in the city, has continued about as long as any.

☞ The Strafford Fair at Dover is appointed to commence to-day—and we hope they will have Fair weather for the rest of the week; but we think their postponement from Tuesday was a great mistake.

For the Piscataqua Fair in this city next week, things are working well—from Nottingham Square to York Harbor, and from Eliot to Stratham comes the 'report, We come, we come! The order of exercises will probably be issued to-morrow, and will show that all arrangements are making for a good time. Mr. Frank Jones, who is a host in himself, and who never spares any effort for what he deems the interest of Portsmouth, is constantly employed to get the grounds in readiness, and if he leaves his large private interests for this purpose, it would seem almost any other citizens were bound to do something for the cause. He has for assistant Col. Godfrey, who wishes for Hooker's Division, that he might finish the track in a jiffy.

☞ Remember!—Free Lunch at the Piscataqua House, to-night, at 9 o'clock. o2

NAVAL.—The following officers have been ordered to the new steamer Piscataqua, flagship of the Asiatic squadron,: Capt. Roe, Fleet Captain; Lt. Comd'r Yates, Executive Officer; Commander Schoonmaker, Navigator and Ordnance Officer; Lt. Comd'r Robeson, Lieut. Mullee, Lieut. Morris and Master Weaver, Watch Officers. Admiral Rowan goes out to assume command of the squadron, with Capt. Ammen commanding flagship.

☞ It will be seen, in our advertising columns that the Temple is freely offered for a Charity Benefit, of Music or otherwise. This, what is usually an important item of expense in such efforts, is generously offered as a contribution.

☞ Edmund Coles, the pleasing comedian, with a new company, will give an entertainment at the Temple on Saturday evening, while en route for the Provinces. The programme is varied, and particulars may be found in advertisements and bills.

☞ Rev. Giles Leach, recently a pastor in Wells, Me., has engaged as stated supply of the Congregational Society in Rye, for one year, commencing immediately.

ACROSS THE SIERRA NEVADAS.

THE

CENTRAL PACIFIC RAILROAD,

THE WESTERN HALF OF THE

GREAT NATIONAL TRUNK LINE

ACROSS THE CONTINENT,

being constructed with the AID and SUPERVISION OF UNITED STATES GOVERNMENT, is destined to be one of the MOST IMPORTANT LINES OF COMMUNICATION IN THE WORLD, as it is the *sole link between the Pacific Coast and the Great Interior Basin*, over which the immense Overland travel must pass for years.

Principal Portion of the Main Steam Line between the Two Oceans.

Its line extends from Sacramento, on the tidal waters of the Pacific, eastward across the richest of coast mountain regions in California, Nevada and Utah, contiguous to all the great Mining Regions of the Far West, and will meet and connect with the roads now building east of the Rocky Mountains. About 100 miles are now built, equipped and in running operation to the summit of the Sierra Nevadas—within a few days 35 miles, now graded, will be added, and the track carried entirely across the mountains to a point in the Great Salt Lake Valley, whence further progress will be easy and rapid. Iron, materials and equipment are ready at hand for 300 miles of road, and 10,000 men are employed in the construction.

The local business upon the completed portion surpasses all previous estimates. The figures for the quarter ending August 31 are as follows in GOLD:

GROSS EARNINGS.	OPERATING EXPENSES.	NET EARNINGS.
$487,579 61	$86,548 47	$401,031 17

or at the rate of two millions per annum, of which more than three fourths are net profit on less than 100 miles worked. This is upon the actual, legitimate traffic of the road, with its terminus in the mountains, and with only the normal travel of Government transportation, and nearly all of the materials carried for the further extension of the road.

The Company's interest liabilities during the same period were less than $125,000.

Add to this an ever-expanding through traffic and the proportions of the future business become immense.

The Company are authorized to continue their line eastward until it shall meet and connect with the roads now building east of the Rocky Mountain ranges.

Assuming that they will build and control half the entire distance between San Francisco and the Missouri River, as now seems probable, the United States will have invested in the completion of 855 miles in 1869, 1870, or at the average rate of $35,000 per mile—not including an absolute grant of 10,000,000 acres of the Public Lands. By becoming, in part, interested in the magnificent enterprise, and by waiving its first lien in favor of the First Mortgage Bondholders, the GENERAL GOVERNMENT PRIVATE CAPITALISTS, and has carefully guarded their interests against all ordinary contingencies.

The Company offer for sale, through us, their

First Mortgage Thirty Year, Six per Cent. Coupon Bonds.

Principal and Interest payable in Gold Coin, in New York city. They are in sums of $1000 each, with semi-annual gold coupons attached, and are selling for the present at 95 per cent. and accrued interest from July 1st added in currency, which is equal to about 90 in gold.

Nine per Cent. upon the Investment.

These Bonds, authorized by Act of Congress, are issued only as the work progresses, and to the extent of only one half the cash actually paid by the Government; and represent, in all cases, *the first lien* upon a completed, equipped and productive railroad, for which the Government has furnished its subsidies, stock subscriptions, donations, surplus earnings, etc., and which is worth more than three times the First Mortgage Bonds which can be issued upon it.

The Central Pacific First Mortgage Bonds have all the privileges and immunities granted by the Pacific Railroad Act of Congress, and have in addition several noticable advantages over all other classes of railroad bonds.

First—They are the superior claim upon altogether the most vital and valuable portion of the through line.

Second—Upon the fullest benefit of the Government subsidy, (which is a subordinate lien) the road receives the benefit of large donations from California.

Third—Fully half the whole cost of grading 800 miles eastward of San Francisco is concentrated upon the 150 miles now about completed.

Fourth—A local business already yielding three-fold the annual interest on the Bonds, with advantageous rates payable in coin.

Fifth—The principal as well as the interest of the Bonds being payable in coin, upon a legally binding agreement.

Having carefully investigated the resources, progress and prospects of the road, and the management of the Company, we feel safe in confidently recommending these Bonds to Trustees, Executors, Institutions and others as an eminently *sound, reliable and remunerative form of permanent investment.*

THE PRESS ROOM.

Hearts of iron and fingers of steel,
Clamp, and lever, and clog, and wheel,
Click and clatter, and rattle and din,
The long night out and the long day in—
Wo and weal to-morrow.

Feathers to fall with the weight of the dew,
Pangs to sadden the long life through;
Roses and thorns to fly on their way,
The thoughts of years and the waifs of a day,
Hope, and love and sorrow!

Fiends that grin with a demon joy,
Delight with humans to temper and toy;
Every clamp on the molten bed
Is a dream, a hope, or a promise dead—
And a chill to pulse forever!

The days, and months, and years go by,
Till the prophet and angel leaves the sky
For the murky room with the rattling wheel,
Its click, and clog, and touch of steel,
Its band, and seam, and lever.

And side by side in the rolling press,
To curse, to cheer, to crush, to bless,
The angel and demon ever wait,
Shaking the very doors of state,
And thrilling through the nation.

Hark, how the monster throbs and groans,
Creaking his iron nerves and bones!
What to him is to pain or please,
Joy from the land, or death from the seas,
High or low in station!

Out of the misty halls below,
Hither and thither the white wings go—
Tears that pressed shall trickle for aye,
Pains that never and never can die,
In all Time's rolling surges!

Pressmen! see that thy reins are well—
Every turn of the press shall tell—
It may be wo and it may be weal;
Who can say how far the wheel
Into the future urges!

Hearts of iron and fingers of steel,
Clamp and lever, clog and wheel,
Click and clatter, and rattle and din
The long night out and the long day in—
Wo and weal to-morrow!

TRADES UNIONS IN ENGLAND.—The most extraordinary testimony has been taken before a royal commission respecting the intolerable exactions of the trades unions in England. The following are samples of facts recorded on sworn evidence:

"The masons of Manchester will not allow stone worked at the quarries to be brought into their district, under the penalty of a 'strike.' If it come from Yorkshire it may be worked on one side; otherwise it must come in rough. Now, the stone can often be better worked at the quarries; it is cheaper when thus worked, and of course it is easier to convey and the freightage is less; 'but, no matter,' say the Manchester masons, 'we will strike work if you do not bring us the rough stone and let us work it.' One firm was bold enough to buy some delphstone steps, worked at the quarries, because Manchester masons often refused to work this stone; but forthwith the masons struck and the stone had to be reworked by the union men. Another firm had stones polished elsewhere, and these had to be actually defaced so that the Manchester masons might repolish them, or else work would have been stopped. The brick masons are equally tyrannical, and will not permit brick to be sold or used in any district in which they are not made—the said districts being determined by the unions.—The manufacturers are watched, and if this rule be infringed on, the brick-layers 'strike' at once. In several cases employers have been compelled to pay union men for the time they would have worked, because nonunionists or unionists of other districts had been allowed a certain job. How can labor prosper in any country where laborers perpetrate such outrages?"

HANDKERCHIEF FLIRTATIONS.—Drawing across the lips—Desirous of getting acquainted.

Drawing across the eyes, I am sorry.
Taking by the centre, You are too willing.
Dropping, We will be friends.
Twirling in both hands, Indifference.
Drawing across the cheek, I love you.
Drawing through the hand, I hate you.
Letting it rest on the right cheek, Yes.
Letting it rest on the left cheek, No.
Twirling in left hand, I wish to get rid of you. In the right hand, I love another.
Folding it, I wish to speak with you.
Over the shoulder, Follow me.
Opposite corners in both hands, Wait for me,
Drawing it across the forehead, We are watched.
Placing on right ear, You have changed.
On left ear, I have a message for you.
Letting it remain on the eye, You are cruel.
Winding around the fore finger, I am engaged. Around third finger, I am married.

☞ The Natchitoches (La.) Times, speaking of the coolies lately imported from Cuba, says they are a sorry substitute for the negroes. At first their inefficiency was attributed to a change of climate and the want of familiarity with the American agricultural instruments and manner of cultivation. The fact is that they are incapable of cultivating the soil profitably, and are not to be depended on in making a crop.—They are lazy, mutinous, obstinate and thievish. Such is the verdict of the planter who have employed Chinese coolies in Louisiana.

☞ At a Republican meeting in Pennsylvania, Gen. Farnsworth said that if Andrew Johnson and his friends expect to derive comfort from the Generals sent to fill the places of Sheridan and Sickles, they will be mistaken. One of these generals said in his presence: "Because I have been sent to relieve Sheridan some people think I am a Copperhead, but they will find that they are thoroughly mistaken." [Three cheers for Hancock were given, and with a hearty will.]

NATURALIZATION LAW. — This law requires amendment, and the attention of Congress ought to be turned to the subject. In the city of New York it is often violated.—Foreigners have often obtained certificates of naturalization in order to vote, from corrupt judges elected by the people of the city, in a few months after their arrival, instead of waiting the prescribed term of five years. More than one-half, perhaps two-thirds, of the population of that city have come from all parts of the earth,—a large portion to obtain wealth, without intending to make the city a permanent residence. Many come for robbery and plunder. The majority are ignorant of our theory of government, and the most profligate unite with the copperheads in the elections, and thus give the latter a majority of some thirty thousand votes. The population of the city is now estimated at about a million, and the annual influx of foreigners is very large. It is stated that "one hundred and eighty-two thousand immigrants have arrived at New York so far this year." The number will probably be 200,000 at the end of the year. The Southern Recorder, Georgia, states that, "During the twenty years ending this summer, four millions of emigrants have arrived in New York."

New York is said to be by far the most corrupt city in the United States, if not on the earth. The New York Legislature has been unable, thus far, to enact laws sufficiently stringent to govern the city. But Congress can amend the law to naturalize foreigners, making severe penalties for its violation, and declaring all elections null and void, so far as they relate to the national concerns, when the law is violated. X. Y.

ATROCIOUS AFFAIR. — A letter from Greece, a Paris correspondent of the London Times says, relates an incident which occurred on the 12th of August last. On the morning of that day a steamer showing French colors anchored in the Bay of Fodelos, Island of Candia, and made signals. Hundreds of persons, chiefly women and children, who had waited concealed near at hand, ran down to the beach to embark, when the steamer suddenly opened fire upon them with cannon and musketry. They fled at once, and, as the distance was considerable, only ten were killed and wounded, eight of them being women and children. The steamer was the Zouab, a Turkish man-of-war.

WASHINGTON'S MANNERS.—In the new life of Josiah Quincy there is an interesting mention of Gen. Washington's receptions. It appears that the opinions of Mr. Quincy and his wife differed as to Washington's manners and appearance. He maintained that Stuart's portrait was highly idealized. She regarded him as a superior being, far above the common race in majesty and grace of person. "I will tell you," he said, "just how he struck me. He reminded me of the gentlemen who used to come to Boston in those days to attend the General Court from Hampden or Franklin county in the western part of the State. A little stiff in his person, not a little formal in his manners, not particularly at ease in the presence of strangers. He had the air of a country gentleman not much accustomed to mix in society, perfectly polite, but not easy in his address and conversation, and not graceful in his gait and movements." His friend Mr. Sullivan, who worshiped Washington, had the same opinion of his manners.

☞ Horace Greeley and all other modern Franklins, warn young men never to get into debt—always to receive, but never to pay interest. Well, if nobody is to pay it, how shall any receive? It were more sensible, as well as practical, to advise all to hire no money which they are not sure they can pay, and which will not return them greater per cent. than they give for it, like any other goods.

—A perfect locomotive cylinder and valve cast solid in steel is considered a curiosity in the Paris Exposition.

THE STOVE FOR THE MILLION!

THE

KEARSARGE

HAS NOT BEEN BEATEN!

URIAH BLAISDELL,

NO. 43 MARKET STREET,

Takes pleasure, as the cold season approaches, in again inviting public attention to this superior

COOK STOVE!

Something over a year's trial by numerous patrons has proved it what it was designed to be, in every respect a first class stove—a quick baker, doing its work equally as well with WOOD OR COAL, an economizer of fuel, and a heavy, well-made and durable Stove, as it is a neat and symetrical one. It has been in no fair or Exhibition, and hence has taken no prize—but what is better, it receives the unqualified encomiums of its numerous purchasers—of all who know what a good stove is and how to appreciate it.

Pleasure is taken in showing the KEARSARGE and all in want of a stove of the first merit at a moderate price, are invited to call and examine it whether purchasing or not.
